

ANNUAL REPORT

PENSACOLA JUNIOR COLLEGE

2000/2001

President's Message

There is an old Chinese toast that says, "May you live in interesting times." That toast certainly applies to our 2000-2001 school year at PJC.

We are in the midst of a growth phase with the construction on the Anna Lamar Switzer Center for Visual Arts on the Pensacola campus and the Health Sciences Complex on the Warrington campus. Also, this year, WSRE hung its new digital antenna atop a new 2,000-foot tower in Baldwin County, Ala. We are now in the test phase with this and expect to come fully on-line with local programming later this year.

This growth could not be accomplished without the support of the community. In turn, PJC has been a critical partner with the community in regional planning and growth for the area:

- We were the first academic institution to join Florida's Great Northwest, whose goal is to identify economic development opportunities for Northwest Florida.
- In response to local changes in communications, networking and manufacturing industries, PJC has just introduced the Center for Information and Engineering Technology. Students will be able to spend just two years in these career programs and be prepared for employment in high salary careers locally.
- Providing quality professional development and technical skills training for Northwest Florida businesses, government agencies and industry is an important component of PJC's mission. Our workforce training efforts have expanded into PJC Corporate

Services. We have hired a new director of economic development and hope to see continued growth in that area.

In addition to our fine programs, we are truly proud of our students. The newly established Robinson Honors program attracted 42 first-year students this past year, and we are seeing the enrollment double for 2001-2002. We also renewed our Student Ambassador program to increase student retention and enrollment.

We look forward to providing continued growth and opportunities for our students and our community.

Student Life

Student activities at Pensacola Junior College provide many opportunities to enhance the college experience outside of the classroom walls.

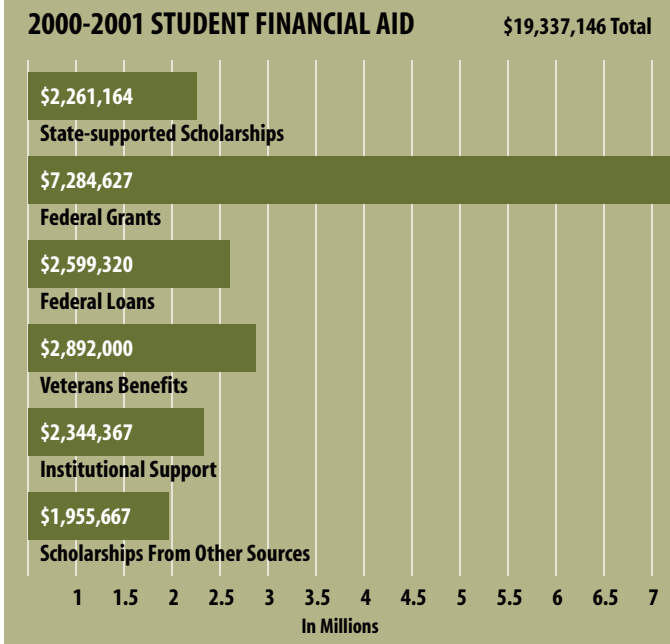

The 29,417 students who attended PJC in both college credit and non-credit courses during the 2000-2001 school year represented a wide range of backgrounds and prior educational experience. Many enhanced their academic life with extracurricular activities choosing from more than 50 clubs and organizations in which students may participate. Students also enjoy many free, college-sponsored events such as a leadership lecture series, Coffee House music series, and the annual end-of-the-year "Sand Jam" party at the beach.

In the 2000-2001 academic year:

- More than 1,900 students completed programs and were graduated.
- 135 students were recognized at the Student Excellence Awards.
- 17,621 different people enrolled in formal courses leading to an associate's degree or a certificate.

- 11,796 students enrolled in non-credit courses.
- 617 students enrolled in the continuing education art program at the Downtown Center.
- 1,155 senior citizens took aqua dynamics classes at the pool.
- More than 1,300 children participated in the gymnastics program.
- 1,588 students, ages 6 to 16, enrolled in a variety of Kids' College programs offered at all three campuses.

- Almost 4,000 students enrolled in the court-mandated programs coordinated by PJC including Transparenting, Tobacco and Consequences, and Basic Driver Improvement.

STUDENT RECOGNITION

- Shannon Maguire received an honorable mention in the Florida College Student of the Year Awards. Only 20 students are picked out of Florida's community colleges and universities to receive this award presented by Florida Leader magazine.
- Caroline Norman, PJC theatre student, was accepted by audition to the Boston Conservatory. Only 40 students were picked out of 3,000 applicants.
- Gail Sasnett, PJC graduate, attorney and associate dean of students at the University of Florida Fredric G. Levin College of Law, has been named president of the National Association of Women Lawyers.
- The Pensacola campus Student Government Association was chosen the Best SGA in the Florida Junior Community College Student Government Association (FJCCSGA) District IV among nine colleges.
- PJC art students, Mary Leigh Benoit, Lawson Lim, Demetric Lynch, Jaelyn Paul, Kathryn Quarles, Sean Story and Cindy Turner, won first place Gold Addy's at the 2001 West Florida Advertising Federation's annual Addy Awards.
- Phi Theta Kappa students, Sandra Prather, Lauree Ridaught, Larry Simmons Sr. and June Wills, were honored by the Florida Community College System for being nominated to the All-Florida Academic Team and the All-USA Academic Team.
- PJC's Brain Bowl Team placed as first runner-up in the State Brain Bowl playoffs. PJC student Jonathan Carp was the highest individual scorer in the state.
- The PJC production of "Look Homeward, Angel" received the highest rating of superior as judged by the Florida Community College Theatre Association, a division of the Florida Community College Activities Association.

Shannon Maguire receives the Florida College Student of the Year Award from Butch Oxendine, publisher of Florida Leader magazine.

Day students	23,228
Evening students	12,896

Full-time	24.6 %
Half-time	26.9 %
Part-time	48.5 %

Athletics

PJC's athletic programs have produced many conference, state and national championship teams.

STUDENT AMBASSADOR PROGRAM

The Student Ambassador program was renewed this year to expand recruitment efforts and help increase student success, retention and graduation rates. The students chosen for the inaugural class accompanied PJC personnel to recruiting events and assisted in registration, orientation and special events.

"Students feel more comfortable talking to other students. We thought it would be more effective to have students helping students at the college," said Dennis Reynolds, Student Activities coordinator.

ROBINSON HONORS PROGRAM

The newly established Robinson Honors program enrolled 42 students this year. The program offers academically gifted students, "Robinson Scholars," a challenging interdisciplinary core curriculum taught by some of the college's finest faculty.

"The core courses draw on history, philosophy, English and science," says Charles Schuler, coordinator of the Robinson Honors program. "The program integrates as much as possible the theme of technology, humans and nature."

Jill and Grover Robinson IV

MEMORIAL ENDOWMENT

Jill and Grover Robinson IV established the PJC Robinson Honors program in memory of Sandra and Grover Robinson III. The Robinson endowment assists the college in off-setting the high cost of small classes, independent studies, seminars and other special programs associated with the Robinson Honors program. The endowment also provides for five honors scholarships and five grants for students to attend summer sessions at the University of Cambridge in England.

Student athletes come to PJC on scholarships from throughout the United States and abroad to participate in intercollegiate sports including women's and men's basketball, baseball, softball and women's volleyball.

PJC's athletic programs have produced many conference, state and national championship teams. Although winning in the competitive Panhandle Conference is always a team goal, maintaining academic excellence is a priority of the college's athletic programs.

Ericka Bradley, center, with women's basketball coach, Vicki Carson, and PJC president, Charles Atwell

PJC athletic director and head baseball coach, Bill Hamilton

- Ericka Bradley, PJC basketball player, received the 2001 Florida Community College Athletic Association (FCCAA) Sandy Miller Scholar-Athlete Award.
- Bill Hamilton, PJC athletic director, coached an all-star baseball team in Australia for the Roberto Clemente Foundation. The athletes, ages 16 to 18, won the Goodwill Tour games.
- Pervis Pasco and Raymond Abellard, PJC basketball players, were selected to the All-Panhandle Conference Team.

- Carlos Sosa, PJC baseball player, signed a baseball scholarship with the University of Alabama. Sosa is a shortstop from Vera Cruz, Mexico.
- PJC and NovaCare joined in partnership to begin the "NovaCare Athlete of the Month Award." NovaCare pledged \$5,000 to the PJC Booster Club on behalf of all winners. The winners of the "NovaCare Athlete of the Month Award"

- were Becki Pounders, volleyball; Ericka Bradley, women's basketball; Elijah Warren, men's basketball; Frank Mendoza, baseball; Nicole Bozeman, softball; and Jason Gaines, baseball.
- Renovations continued on the baseball field with the addition of new dugouts, concessions, public restrooms, locker rooms, coaches' office, storage and a laundry room.

PJC Legends

In celebration of Community College Month, PJC honored college employees who have served 25 years or more with a "Legends" dinner.

PJC honored 97 employees who had collectively served the college a total of 2,760 years on April 28. The "Legends" dinner included a retrospective of the changes the college and the employees have experienced in the last quarter century.

Don Huber	30 years
Glenna Lampley	20 years
Warren Lewis	37 years
Paul Mosley	29 years
Ann C. Palma	32 years
Michael Palmer	30 years

Program and Department News

With three campuses, two centers and distance learning capabilities, PJC offers more than 100 areas of concentration leading to associate's degrees and certificates.

The associate of arts degree, with 40 areas of concentration during 2000-2001, is designed for transfer to upper level institutions. PJC offered 40 associate of science and associate of applied science programs last year for students whose career interests require specialized study, and 26 certificate programs for students preparing for expeditious entry into the job market.

- The Music Department presented its first annual Musical Showcase, featuring more than 100 PJC students. The showcase featured the Guitar Ensemble, Brass Quintet, PJC Entertainers, Concert Chorale, String Ensemble, Jazz Ensemble, Percussion Ensemble and Wind Ensemble. The percussion and string ensembles are new to PJC this year.
- Members of the Physical Sciences Department developed a chemistry laboratory web page to help ensure the safety of students. It includes the full chemistry lab safety presentations in PowerPoint format, the PJC chemistry laboratory safety rules, and safety equipment floor plans for the four chemistry labs.

- The Visual Arts Department began the associate of science degree in Photographic Technology. This program will cover black and white photography, color photography and digital application. PJC has an articulation agreement with Florida A&M University for transfer to FAMU's bachelor of science program.

- Culinary Management, Hospitality Management, and the Dietetic Technician programs have merged into the Behavioral Sciences/ Human Services Department. By unifying the three programs, students benefit from shared classroom facilities, teaching resources and faculty.

- The English Department debuted a new, fully equipped computer classroom. The classroom is designed for students in writing courses and has 25 computers around the room, all connected to the teacher's computer. There is interactive software so teachers and students can read each other's writing and do peer editing and reviewing. Internet capability also allows students to use the computers for research projects. In addition, there is an overhead projector on which writing from any computer terminal can be projected on the screen. Finally, there are conference

tables in the center of the room for discussion and group work. The room is scheduled mornings and evenings with composition classes and is used in the afternoons as an open lab for students.

- PJC partnered with Cox Communications, a local cable-service provider, for the Success by Degrees program. Cox employees were given time from their job duties one morning each week for four semesters in order to complete the four courses comprising the program (Introduction to Business, Marketing, and Economics I and II). As a result of this program, Cox Communications was recognized by the cable industry for excellence in providing education for its employees. Success by Degrees is being used as a model by other communications companies.

Training Today's High-tech Workforce

PJC is training Northwest Florida's workforce through degree, certificate and non-credit programs.

Thousands of alumni claim that their college experience at PJC laid the foundation for their success in business and in life. There is no doubt that community colleges provide a great place to start for aspiring professionals and future executives.

PJC works closely with area employers to ensure that the college offers degree and certificate programs that will fulfill the workforce demands of local business and industry. As a result, job placement rates for PJC's program completers are exceptional.

PJC is recognized, both locally and nationally, as a leader in technical training. PJC's new Center for Engineering and Information Technology was recently established to produce skilled labor for the increasing number of high-tech jobs in Northwest Florida.

For years, PJC has provided the labor pool for health care providers. In turn, the health care community has taken a lead role in securing funding for enhancements to our health care career programs, including the new, \$6 million Health Sciences Complex now under construction on the Warrington campus. The Health Sciences Complex will provide a mock hospital setting for education and training.

In addition to college credit programs, providing quality professional development and technical skills training for Northwest Florida businesses, government agencies and industry is an important component of PJC's mission. Our workforce training efforts have expanded into PJC Corporate Services. PJC Corporate Services offers customized classes and professional development training, and is the area's exclusive certified Achieve Global (Zenger Miller) partner.

PJC JOINS FLORIDA'S GREAT NORTHWEST

Recognizing that collective advantages and regional strengths are best harnessed when working together, a group of business, education and economic development leaders from the 16 Northwest Florida counties recently joined hands to form Florida's Great Northwest. PJC was the first academic institution to join Florida's Great Northwest, whose goal is to identify economic development opportunities for Northwest Florida.

"PJC has been involved in every major economic development project in recent history. Representatives from PJC are always around the table when we are meeting with companies considering expansion or relocation to our region."

— Mike Frey,
Vice President of
Economic Development,
Pensacola Area
Chamber of Commerce

Center for Information and Engineering Technology

PJC is recognized as a leader in technical training.

In response to changes in communications, networking and manufacturing industries, PJC is pleased to introduce the Center for Information and Engineering Technology, encompassing computer science programs, information technology programs, and engineering technology programs.

A student spending just two years in one of these career programs will be prepared for employment that often includes a beginning salary of \$25,000 to \$35,000.

In addition to lucrative job opportunities, each program provides hands-on training, cutting-edge technology, state-of-the-art labs, and experienced faculty.

The Center offers 12 associate degree programs that include several professional certification programs. Graduates of these programs can expect high employment rates.

Following are the programs and their employment placement rates.

- Computer Information Systems, A.A. Transfer degree
- Computer Science, A.A. Transfer degree
- Computer Programming and Analysis, A.A.S. 100% placement rate
- Networking Services Technology, A.A.S.*
- Telecommunications Engineering Technology, A.A.S.*
- Electronics Engineering Technology, A.A.S. 94% placement rate
- Civil Engineering Technology, A.A.S. 100% placement rate
- Drafting and Design Technology, A.A.S. 91% placement rate
- Building Construction Technology, A.A.S. 100% placement rate

- Manufacturing Technology, A.A.S. 100% placement rate
- Industrial Management Technology, A.A.S. 75% placement rate
- Automotive Service Management Technology, A.A.S. 80% placement rate

*These are new programs and PJC placement data are not yet available.

NEW TEACHING CHAIR BENEFITS TELE-COMMUNICATIONS ENGINEERING TECHNOLOGY PROGRAM

Through a generous gift from Ray Russenberger, an endowment for the new Telecommunications Engineering Technology program was established. The endowment will provide speakers for the program, faculty and student training opportunities, and instructional software.

Health Care Career Programs

PJC provides health care professionals for Pensacola and the surrounding area.

A student spending just two years or less in one of PJC's health career programs will be prepared for employment that often includes flexible hours and a salary range from \$14,000 to \$50,000 per year.

The degree and certificate programs prepare students for state and national board examinations and employment in the health care industry anywhere in the United States.

Each of the 21 health programs offers state-of-the-art labs and clinics, cutting-edge technology, individualized instruction, hands-on training in local hospitals and clinics, experienced faculty and immediate employment.

- Registered Nursing (RN), A.S. 96% placement rate
- Licensed Practical Nursing (LPN), Certificate 98% placement rate
- Career Mobility (LPN to RN), A.S.

- Certified Nursing Assistant, Certificate 100% placement rate
- Phlebotomy, Certificate 87% placement rate
- Physical Therapist Assistant, A.S. 90% placement rate
- Respiratory Care, A.A.S. 100% placement rate
- Emergency Medical Technician (EMT), Certificate 88% placement rate
- Paramedic, Certificate 100% placement rate
- Paramedic/Emergency Medical Services (EMS), A.A.S. 100% placement rate
- Radiography, A.A.S. 100% placement rate
- Diagnostic Medical Sonography, A.A.S. or Advanced Certificate*
- Surgical Technology, Certificate*
- Health Information Management, A.A.S. 100% placement rate
- Health Services Management, A.A.S. 93% placement rate
- Health Unit Coordinator, Certificate 73% placement rate

- Medical Secretary, A.A.S.*
- Medical Assisting, Certificate 88% placement rate
- Dental Hygiene, A.A.S. 100% placement rate
- Dental Assisting, Certificate 94% placement rate

*These are new programs and PJC placement data are not yet available.

PJC Corporate Services

Providing quality professional development and technical skills training for Northwest Florida businesses, government agencies and industry is an important component of PJC's mission.

The PJC Corporate Services initiative is to provide the client with quality customer service and top-notch instruction. Our goal is to become a strategic partner, to upgrade employee skills and to help businesses become more productive.

PJC Corporate Services provides credit and non-credit courses in customized and workforce readiness training programs for small businesses, large companies and individuals wanting to enhance work skills.

PJC Corporate Services offers:

- Customized classes
- Professional Development Training
- Portable Laptop Lab
- Certification and Licensure
- Individual Training
- Training Incentive Assistance

EXCLUSIVE ACHIEVE GLOBAL (ZENGER MILLER) TRAINING AVAILABLE

PJC's Corporate Services acts as the area's exclusive certified Achieve Global (Zenger Miller) partner. Achieve Global, an internationally known consulting, educating, and training company, specializes in measurably improving individual and organizational performance.

Our certified trainers deliver skills-based training in facilitation, problem solving, team building and participation, communication, work relationships, performance and development, and quality improvement.

Training is designed for individuals at all levels and reinforces basic principles that emphasize respecting the individual, maintaining long-term relationships, leading by example, and taking initiative. These video-supported sessions include workbooks for participants and hands-on skills practice.

WORKFORCE AND ECONOMIC DEVELOPMENT

Cliff Krut is the new director of Workforce and Economic Development. In this position, he identifies employee training needs in the community, provides quality workforce certification and re-certification, and encourages regional business decision makers to utilize PJC for professional development. Krut joined PJC after serving as the vice president of economic development for the Pensacola Area Chamber of Commerce.

During the 2000-2001 school year, plans were set in place for the PJC Office of Volunteerism located in the Student Activities Office. The Office of Volunteerism will serve as a clearinghouse for students, faculty and staff wishing to volunteer their time to the community beginning fall 2001.

Contributing time and talent to community causes has been a standing tradition at PJC. Once again, PJC students and staff contributed more than \$30,000 to United Way during the 2000-2001 school year and participated in the United Way Day of Caring.

Additionally, PJC has frequently provided facilities for many community events. Pensacola and Milton campuses are sites for the annual American Cancer Society Relay for Life; the Pensacola campus is the site for the annual March of Dimes WalkAmerica; and the Warrington campus is host to the annual American Heart Association CPR Day.

Community Service

Contributing time and talent to community causes has been a standing tradition at PJC.

- Martin Gonzalez, Pensacola campus provost, was recognized by Junior Achievement of Northwest Florida for raising more than \$1,000 in its annual fund drive for the economic education program.
- Tiffany Lindsey and Gretchen Wheatley, PJC students, were individually recognized for their volunteer efforts at the 2001 Spring Special Olympics.
- The Pensacola campus Student Government Association raised \$1,100 for the March of Dimes during the inaugural PJC car show.
- The PJC Radiography Club donated 1,350 pounds of food to Manna Food Bank. The club members also made beautifully decorated bags containing personal care items for Favor House.
- The Health, Human Performance and Recreation Department introduced Wellness World, a free comprehensive health fair on the Pensacola campus. Co-sponsored with West Florida Regional Medical Center, Wellness World was open to PJC employees, students and the community. More than 400 people participated and took advantage of the numerous medical screenings and information booths.
- The PJC International Education Committee received a Silver Award and Certificate of Appreciation from the USO during the USO Volunteer Recognition Awards.
- The Florida Association of Community Colleges (FACC) Pensacola chapter donated \$500 to the PJC Adult High School Project Graduation and \$1,000 to the Ed Hartsell Scholarship Endowment.

Recognition

PJC places strong emphasis on outstanding academic and extracurricular programs as well as quality instruction.

FACULTY, STAFF AND ADMINISTRATION

During 53 years of continuous operation, PJC has become known for its high academic standards, small classes, reasonable fees, beautiful campuses, friendly hometown atmosphere and a commitment to excellence by faculty and staff.

Xiaolun Chen, winner of the Murial Shugart Music Award, directs the Pensacola Choral Society at PJC's Sid Kennedy Rehearsal Hall.

- Sadiqa Ali, Business, was elected president of the Pensacola chapter of the National Coalition of 100 Black Women, Inc.
- Debi Bick, Educational Opportunity Center, was elected secretary of the National Educational Opportunity Center Association.
- Thom Botsford, English/Communications, was inducted into the Florida Community College Activities Association (FCCAA) 2000 Hall of Fame for his work as the academic advisor to the PJC student newspaper, The Corsair.
- Isaac Brigham, Student Affairs, and Betsy Smith, Institutional Advancement, attended the 2001 Inaugural Leadership Seminar for the Florida Community College System. Both were recognized as Florida's distinguished leaders in the educational community.
- Randall Broxton, History, Languages and Philosophy, received the West Florida Literary Federation's Heritage Award for his significant contributions to the literary arts and heritage of the region.
- Xiaolun Chen, Music and Theatre, received the Murial Shugart Music Award for his contributions as director of the Pensacola Choral Society.
- Michael Coleman, Music and Theatre, performed his Four Bagatelles for piano at a Birmingham Art Music Alliance Concert at the University of Alabama-Birmingham.
- Stan Dean, Music and Theatre, was recognized for outstanding achievement in arts education by Cox Cable and Bravo Network.
- Logan Fink, Natural Resource Studies, was elected to the Escambia County Utilities Authority.
- Gael Frazer, Human Resources/EA-EO, was a featured guest speaker at the 21st Annual Conference of the National Council on Black American Affairs.
- Elsbeth Hofmann Griffin, History, Languages, and Philosophy, attended the University of Mannheim and Humboldt University in Berlin as part of the University of Florida's Graduate Summer Program on a stipend from the Goethe Institute.
- Allan Peterson, Visual Arts, served as moderator for a panel discussion on art and environmental activism entitled "The Local Apocalypse" at Loyola University (La.).
- Dennis Reynolds, Student Activities, received certification training through the Phi Theta Kappa International Honor Society.
- Carla Rich, Business, was elected the Florida Association of Community Colleges (FACC) Region I director for the Global Initiatives Commission.
- Jean Roberts, English/Communications, was awarded the Meritorious Service Medal from the U.S. Naval Reserve.
- Don Snowden, Music and Theatre, was nominated to serve a three-year term on the board of directors of the Association of Concert Bands.
- David Sutton, NAS Center, was elected to an unprecedented second, two-year term as president of the Florida Advisory Council on Military Education (ACME).
- Dotty Whitcomb, Aquatics, was appointed by the Pensacola City Council to a five-year term on the city's recreation board.
- Warren Thompson, Visual Arts, won the grand prize in the faculty/staff category of the Photo Imaging Education Association's annual photo competition.
- The Institutional Advancement Department won a Gold Addy from the West Florida Advertising Association for the 1999-2000 President's Annual Report. Robin Mertins was the creative director, and Angel Hill and Linda Bauer were the copywriters.

BOARD OF TRUSTEES

- Carol Carlan, PJC Board of Trustees member, was named "Best Under the Sun," for her efforts with the PACE Center for Girls, in the July 7 issue of The Florida Sun.
- Elba Robertson, PJC Board of Trustees chair, received the Outstanding FACC Board Member Award from the Florida Association of Community Colleges.
- Mike Saxon, PJC Board of Trustees member, received the LeRoy Collins Distinguished Alumni Award for Region I from FACC. He is a 1976 graduate of PJC.
- Tommy Tait, PJC Board of Trustees member, was nominated for the Trustee of the Year Commission Award from FACC.

The Corsair's academic advisor, Thom Botsford, was inducted into the FCCAA 2000 Hall of Fame.

PJC Foundation

Gifts to the PJC Foundation preserve PJC's rich tradition of excellence that tuition and tax support alone cannot provide.

The Marlene S. Atwell Endowed Chair of Family Values was dedicated in May 2001. The chair was established in memory of the beloved wife of PJC President Charles Atwell. Mrs. Atwell was known as a loving and supportive wife, an adoring mother, a proud grandmother, and a devoted sister and aunt. She truly believed that the answers to most of life's problems lay in faith and family. She loved PJC and what the college means to the community. She would be both humbled and proud to be remembered by the community in this way.

Among other gifts the college received:

- A \$52,500 scholarship grant from the Downtown Rotary Club of Pensacola will provide four \$1,500 Rotary scholarships each year.

President Charles Atwell and family at the Marlene S. Atwell Chair of Family Values dedication

Deborah and Miller Caldwell Jr.

- PJC's first Distinguished Visiting Scholar Endowment, established by Deborah and Miller Caldwell Jr., will bring a renowned scholar from any discipline to PJC each year.

Baroco Center for Science and Technology

- The Baroco Foundation has given a generous gift earmarked for the Music and Theatre Department and for a new "smart" classroom in the Baroco Center for Science and Technology.

Portrait of Marlene Atwell that now hangs in the PJC Hall of Honor

WSRE-TV

For nearly 35 years, WSRE-TV public television has served the Gulf Coast, providing high quality television programming and learning opportunities.

WSRE-TV experienced many changes this year with the addition of new staff and the conversion from analog to digital television.

- Sandy Cesaretti Ray has filled the general manager position at WSRE. Ray formerly was the director of development and marketing for WSRE.
- Roland Phillips has moved into the role of assistant general manager and director of engineering. Phillips previously served as the chief engineer for WSRE.
- Former director of economic development and the Downtown Center, Jean Norman, has filled the position of director of development and marketing for WSRE.

Sandy Cesaretti Ray

Jean Norman

Roland Phillips

Jim Bailie

- Jim Bailie, director of educational television and production, was formerly a professor at the University of West Florida and the facility manager/marketing and sales director for Spartan Communications. Bailie brings with him 18 years of experience in broadcast and non-broadcast television.
- A new era of television was launched with the sign-on of the new digital broadcast transmitter. WSRE-TV is the 32nd PBS affiliate in the country and the second PBS station in the state of Florida to launch a digital signal. It will be fully operational by year's end.

- WSRE-TV was awarded top honors for the Wine & Food Classic event at the National PBS Development Conference. WSRE-TV was the sole winner of the "Special Fundraising Events" award for stations with under one million households in their viewing area. At the National Educational

Telecommunications Association (NETA) Conference, WSRE-TV was awarded "Best of the Best for Development."

- WSRE-TV was one of 40 stations nationwide awarded the status as a pilot station for ZOOM National/Local. This is an opportunity for local children and features to be incorporated into the nationally syndicated program.

13th Annual Wine & Food Classic

Building on Tradition...

With local gifts from the community and matching state dollars, the college is able to build much needed classroom space.

HEALTH SCIENCES COMPLEX

Construction is underway for PJC's Health Sciences Complex on the Warrington campus. The new facility will help maintain the hard-earned standards of excellence and relieve the overcrowded classrooms of the Warrington campus health-related programs.

PJC began construction with financial support from private donations and state funding. The building is scheduled to be completed by May 2002 and is estimated to cost \$6 million. The two-story, 53,000 square foot, medical training facility will house an ambulance bay, emergency room facilities, and a surgical suite.

OUR THANKS TO THE LOCAL HEALTH CARE COMMUNITY

This state-of-the-art health complex could not have become a reality without generous gifts from the D.W. McMillan Trust, Bay Design Associates, and the Marks Foundation. Also contributing to the project were Baptist Health Care, Sacred Heart Health System, West Florida Regional Medical Center, Santa Rosa Medical Center, and West Florida Medical Center Clinic, P.A.

In total, these organizations have contributed just over \$1 million, which has generated an additional \$600,000 from state matching funds. Their contributions will provide for state-of-the-art medical training equipment and professional training for faculty.

SWITZER VISUAL ARTS CENTER

Construction began on the new Anna Lamar Switzer Center for Visual Arts in December 2000. This expansion and renovation, the result of a \$1 million gift by the Switzer and Reilly families, will feature a new lecture hall, expanded photography areas, an expanded art gallery and completely renovated interior of the current building. The plans, created by Sam Marshall Architects, call for specialty landscaping, a new grand entrance and additional lighting. The project is scheduled to be completed in January 2002.

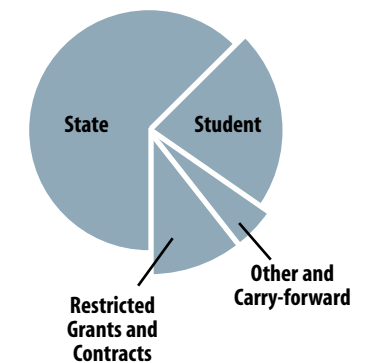

ANNA LAMAR SWITZER GIFT TOUCHES STUDENTS, FACULTY AND COMMUNITY

In addition to the facility renovation and enhancement, the unprecedented \$1 million Switzer and Reilly gift to the college will provide for endowments that will serve PJC students, faculty and the community in perpetuity. This gift, with state matching dollars, funds the Anna Lamar Switzer Endowed Visiting Artist and Lecture Series, Anna Lamar Switzer Endowed Teaching Chair, and Anna Lamar Switzer Endowed Scholarship Fund.

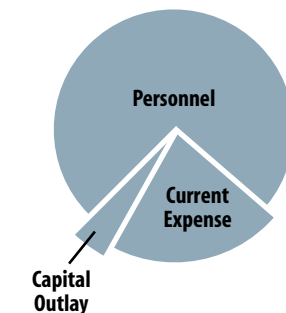

Financial Report

VALUE STATEMENT

Pensacola Junior College embraces the diversity of our community by maintaining open access, by continuing to focus on quality education, and by creating an opportunity for success in an atmosphere of concern, respect, integrity and responsibility.

PHILOSOPHY

Pensacola Junior College is a student-centered, comprehensive community college dedicated to providing educational opportunities that develop the academic, career, personal, and aesthetic capabilities of individuals so that they may achieve self-fulfillment and participate fully and positively in a democratic society.

Furthermore, as an open-door institution, the college promotes lifelong learning to meet the challenges of a changing world, and strives for equity in access and in the learning process for each individual regardless of race, sex, religion, age, or disability. Being accountable to Florida's citizens, the college exercises fiscal responsibility by offering services and programs at the lowest possible cost consistent with its commitment to high standards.

As a comprehensive community college, Pensacola Junior College must be many things to many people and must serve the diverse and increasingly complex needs of the community now and into the future.
