PENSACOLA JUNIOR COLLEGE
You can get there from here.
An Equal Access/Equal Opportunity Institution
The community college is just that—the community’s college, and Pensacola Junior College is here to serve all members of our community. With more than 100 different programs of study, we offer a smart start for both the career minded and the university bound student.

We have an exceptional honors program with travel abroad opportunities. We also have wonderful preparatory programs and helpful student support services. For the young, we offer Kids’ College. For the young at heart, we have incredible lifelong learning courses. For every student, we have a learning centered environment that will ensure that “you can get there from here.”

So please think of PJC as your college, whether you are enrolled in a degree program, a non-credit leisure course, or an employee training program…or even if you are here simply to walk the track, take in a Pirates game, or attend a Lyceum event.

PJC has served this community since 1948, and we are here to serve you today and always. Many of our alumni remain involved and credit PJC as the starting point of their success, and we hope you will, as well.

I wish you all the best this school year!

Sincerely,

G. Thomas Delaino
President
NOTICE REGARDING CHANGES TO POLICIES

The provisions of this publication are not to be construed as a contract between the student and Pensacola Junior College. The College reserves the right to change any provision or requirement when such action becomes necessary. Students are advised to work closely with the counselors/advisors to verify the appropriateness of the courses for which they register.

Students are expected to familiarize themselves with all rules and regulations of the College, including official announcements listed in the Class Schedule Booklet. Students will be held responsible for the observance of all rules and regulations.

EQUAL ACCESS/EQUAL OPPORTUNITY

Without regard to race, color, sex, creed, age, religion, marital status, national origin, or disability, Pensacola Junior College commits to the following:

1. Pensacola Junior College is an equal access/equal opportunity employer and shall recruit, employ, evaluate, assign, promote, or dismiss employees in compliance with all federal and state legislation pertaining to non-discrimination.

2. The College shall provide equal educational opportunities to prospective and enrolled students to include recruitment, admission, programs and activities, facilities, counseling and testing, financial assistance, evaluation, dismissal, graduation, and placement.

3. The equal opportunity principle applies to students, applicants for admission, applicants for employment, employees, and otherwise qualified disabled persons with regard to employment, the delivery of educational programs and services, and all other appropriate areas in which the College is involved.

4. The College prohibits racial, ethnic, religious, physical, and sexual harassment of its employees and students. Furthermore, the College prohibits any form of discrimination based on sexual orientation or discrimination based upon religion and assures reasonable accommodation of religious observances, practices, and beliefs of individual students and employees in regards to admission, class attendance, scheduling of examinations, and work assignments.

Inquiries or complaints may be addressed to the Associate Vice President, Institutional Diversity, Room 705, Administration Building, 484-1759.

FALL 2004

TERM I
20041
Faculty Return: Aug. 18
Classes Begin: Aug. 23
Schedule Adjustment (Drop/Add) Period Ends: Aug. 27
Last Date to Provide Documentation for Residency Change: Aug. 27
Mid-Term: Oct. 15
Final Exams (Day)*: Dec. 10–16
Final Exams (Evening)*: Dec. 9–15
Last Day of Term: Dec. 16
Adult High Graduation: Dec. 15
College Graduation: Dec. 16

TERM II
20052
Labor Day: Sept. 6
Veterans Day: Nov. 11
Thanksgiving: Nov. 24–26

SESSION A
20053
Spring Break: Nov. 25–26

SESSION C
20054
Memorial Day: May 29

SESSION B
20053
Mothers' Day: May 9

SUMMER 2005

Mid-Term: Mar. 2
Last Date to Withdraw: Mar. 31
Mid-Term: May 26
Last Date to Withdraw: June 7
Mid-Term: July 13

* Friday, Saturday and Sunday classes’ final exams will be given during the last regularly scheduled class meeting of the term.

VALUE STATEMENT

Pensacola Junior College embraces the diversity of our community by maintaining open access, by continuing to focus on quality education and by creating an opportunity for success in an atmosphere of concern, respect, integrity and responsibility.

PHILOSOPHY

Pensacola Junior College is a student-centered, comprehensive community college dedicated to providing educational opportunities that develop the academic, career, personal, and aesthetic capabilities of individuals so that they may achieve self-fulfillment and participate fully and positively in a democratic society.

Furthermore, as an open-door institution, the college promotes lifelong learning to meet the challenges of a changing world, and strives for equity in access and in the learning process for each individual regardless of race, sex, religion, age, or disability. Being accountable to Florida’s citizens, the college exercises fiscal responsibility by offering services and programs at the lowest possible cost consistent with its commitment to high standards.

As a comprehensive community college, Pensacola Junior College must be many things to many people and must serve the diverse and increasingly complex needs of the community now and into the future.

MISSION

The mission of Pensacola Junior College is to provide quality educational opportunities and support services to meet the requirements of all students pursuing intellectual fulfillment, career training, and lifetime education. In order to meet these goals, the college offers the following diverse programs:

• College credit courses and associate of arts degree programs at the freshman and sophomore levels to prepare students for entry at the university junior level.
• Associate of science degree programs, associate of applied science degree programs, and vocational certificate programs to train students for employment.
• Precollegiate studies, including adult basic and secondary education, for students not prepared to enter college level programs.
• Training and retraining activities to support economic development of the service area to attract new industries and expand existing industries.
• Cultural, recreational, leisure, health and athletic activities to enrich the students and citizens of Escambia and Santa Rosa counties.

THE COLLEGE

STRATEGIC GOALS

1. To assure excellence in the teaching and learning process through employment and retention of quality faculty and through use of state-of-the-art instructional methodologies and delivery systems.
2. To provide lower division liberal arts education for transfer to and success in baccalaureate degree programs.
3. To align occupational programs with current needs and trends of the workplace.
4. To evaluate and renew curricula to serve the unique needs of each student from initial point of contact through goal completion.
5. To provide academic support services appropriate for program offerings.
6. To develop and use measures of effectiveness and accountability for continuous improvement of academic programs and services.
7. To develop and enhance student support services to meet the increasing and changing academic, career, social and financial needs of students.
8. To provide for student input into the operation and governance of the college.
9. To increase student retention efforts college-wide.
10. To enhance the support system for faculty and staff of the college for the development of their full potential, individually and collectively.
11. To provide appropriate salaries, fringe benefits, working conditions, professional development and career opportunities for college personnel.
12. To provide for employee input into the operation and governance of the college through improved opportunities for internal communication.
13. To assure that the existing and developing technologies are fully and effectively applied to the advancement of the academic, student support and administrative functions of the college.
14. To ensure that financial resources are efficiently and effectively utilized to accomplish the mission of the college.
15. To acquire and maintain a physical plant which is appropriate for program offerings and is attractive, safe and conducive to teaching and learning.
16. To aggressively seek alternative funding sources to supplement and strengthen college operations.
17. To ensure equity in access to the learning process.
18. To provide comprehensive educational programs and services to meet the needs of all students.
19. To ensure equity in employment opportunities.
20. To promote economic growth and workforce development in Escambia and Santa Rosa counties by providing workforce training and retraining programs focused on employment opportunities.
21. To deliver customized training programs to business and industry.
22. To develop and strengthen linkages with the community, responding to increasing and changing needs in an appropriate and timely manner.
23. To provide cultural, recreational, leisure, health and athletic activities for citizens of the service district.
24. To integrate the existing and developing communications technologies into the programs and services of the college.
25. To establish active and productive alliances with other organizations, including school districts, colleges and universities, to better serve academic and workforce needs of our service district.
PENSACOLA JUNIOR COLLEGE

With pioneer spirit, leaders from Pensacola High School initiated preparations for the establishment of a new junior college. Principal James L. McCord, Dean Jesse Barfield, and Margaret Andrus, a teacher at PHS, prepared the necessary documents and wrote PJC's first college catalog for presentation to the state department.

James H. Allen, then president of Florida Pulp and Paper Company, contributed funds to pay rent for two years on a boarding house at the southeast corner of Palafox and Cervantes streets. PJC held its first day of class there on Sept. 13, 1948 with an enrollment of 128 students. James L. McCord was the school's first director.

Increasing enrollment produced the demand for student activities. Louis A. Ross, a social science instructor, introduced PJC's first basketball team in 1949 and coached the college's first baseball team established in 1951. During the 1949-50 school year, the first student newspaper, *The Beachcomber*, and the first PJC yearbook, *The Tide*, were introduced.

Increasing enrollment also demanded a larger facility. In June 1953, the college moved one block south on Palafox Street to the former Pensacola High School facility.

Henry L. Ashmore, at the age of 33, became the first president of PJC in 1954. A well-known consultant in the field of teacher training, Ashmore came highly qualified. He held a doctorate degree from the University of Florida and served as the regional director for the National Association of Student Teaching.

PJC students sought to continue their ties with the college after graduation and the PJC Alumni Association was chartered in January 1955. Joe Frosio, a 1950 graduate, was the first president.

On May 13, 1955, Florida Governor LeRoy Collins signed a bill appropriating $1,243,000 to the college for building improvement. The Pensacola Kiwanis Club had supported the bill and established a committee, chaired by A.J. McCleary, to solicit recommendations and contributions for a new campus location. The official recommendation of the committee was to acquire the 80-acre Camp Franklin property on 9th Avenue, owned by the City of Pensacola and the Baars Estate.

Enrollment for the 1955-56 school year totaled 1,147 students. The college faculty had expanded accordingly and the weekly employee newsletter, *Green & White*, was initiated in 1955 to facilitate internal communication. The name of the student newspaper changed from *The Beachcomber* to *The Corsair*.

Accreditation was granted by the Southern Association of Colleges and Secondary Schools in December 1956.

Students attended classes on the new 9th Avenue campus for the first time in September 1957.

1958–1967

PJC began its second decade by introducing a two-year nursing program—the first of its kind in the Southeast. Originating in 1958, the nursing program began as a joint venture with Baptist Hospital. The Student Union for Good Government and Greek organizations emerged during the early 1960s. Delta Chi Omega was established in 1960 as the first sorority on campus. The Delta Kappa Alpha fraternity was established in 1961.

Instructional television came to PJC in 1961. Closed-circuit broadcasting to PJC classrooms and selected public schools began in 1962.

PJC became one of three colleges in the state to establish a dental hygiene program in 1962.

In 1963, Ashmore accepted the presidency at Armstrong College in Savannah, Ga. The Escambia County School Board established a search committee to recommend Ashmore's replacement.

On July 1, 1964 T. Felton Harrison assumed the presidency. Harrison joined the administration of PJC in 1957. He had served as dean of instruction.

In 1964, the new Center for Adult Studies became home to Adult High School and PJC's vocational and technical education programs. An addition to the Mary Ellison Baars Science Building in 1965 included a planetarium, an indoor swimming pool and a dental health clinic.

Expansion continued in 1965 with the opening of a new Educational Television Building. Located as the finest facility of its kind in the South, the new ETV Building housed two large television studios for closed-circuit television and a television station. In September 1967, WSRE-3TV Channel 23 went on the air open-circuit, beaming enrichment and credit course programs to the community.

Enrollment was growing, as well. Nearly 7,200 students enrolled during the fall term of 1965.
As the college grew, recognition and support from the community also grew and the Pensacola Junior College Foundation was incorporated in 1965. The Foundation would be a non-profit corporation to accept tax-deductible contributions from community supporters. Crawford Rainwater served as the Foundation’s first president.

Upon the recommendation of state and federal officials, President Harrison spearheaded the merger of PJC and Booker T. Washington Junior College in 1966. WJC was the first black junior college built in Florida and had served the black community since 1949. WJC President G.T. Wiggins remained a long-time member of the PJC administration as director of research. The merger brought approximately 200 black students to the PJC campus.

The Triple G Club was founded in 1968. It was later renamed the Black Student Union.

1968–1977

A statewide change in governing boards for community colleges marked the beginning of PJC’s third decade.

In 1968, the Florida legislature passed a bill changing authority over community colleges from local boards of trustees to county school boards to local boards of trustees who reported to the State Board of Education. PJC’s former advisory committee was redesignated the District Board of Trustees and became the governing body of the college. The district was defined as including Escambia and Santa Rosa counties.

PJC’s first District Board of Trustees included James Lay, chairman, and members Leonard Wolf, O.M. Carter, H.T. Woodruff, Mrs. E.J. Moore, Shelby Walter, Warren Briggs, Dr. S.W. Boyd and Earle Bowden.

WSRE-TV enhanced its public television programming with new equipment and in 1971 began broadcasting programs in color.

In 1973, PJC celebrated its silver anniversary and dedicated a new $1 million Career Development Center. Touted as the most complete and comprehensive life-planning center in the nation, the center provided free guidance and planning services to more than 22,000 people each year.

A $1 million Learning Resources Center with state-of-the-art technology opened on the Pensacola campus in 1975. While the Pensacola campus continued to grow, two new campuses were introduced in the 1970s.

In 1971, the PJC Milton Center was authorized for the purpose of better serving Santa Rosa County. Classes were first held in the former Canal Street School in Downtown Milton with William H. Massey as the Milton Center’s first director.

A new campus in Warrington opened for classes on Aug. 22, 1977. The $8 million facility was built on 164.7 acres donated by the U.S. Government. Gaspare Tamburello, PJC’s Veteran Affairs director and a retired U.S. Navy captain, was instrumental in the acquisition of this land.

John T. Venetozzi, PJC’s assistant to the president, spearheaded the planning, construction and equipping of the Warrington campus and became its first provost. Originally called the west campus, the Warrington campus offers specialized programs in health-related education as well as programs in technical occupation, secondary education, and liberal arts.

In 1974, women were welcomed to varsity sports and Joy DeSensi was hired to coach the Lady Pirates basketball team. In 1977, the men’s basketball team traveled to Hutchinson, Kan. for the National Junior College Athletic Association’s Basketball Championship Tournament. PJC returned ranked fifth in the nation.

1978–1987

During its fourth decade, PJC met the challenges of continued growth and a change in leadership. In February 1980, President Harrison announced plans for retirement. The Board of Trustees appointed a presidential search committee, and the position was advertised nationally.

Horace E. Hartsell accepted the presidency in May 1980. “Ed” Hartsell had been provost of Broward Community College’s north campus in Pompano, and then founding president of East Arkansas Community College in Forrest City, Ark.

Doug Worley, PJC’s dean of Personnel Affairs, was selected as director of the Milton Center in 1980. Worley was a PJC graduate and player on one of the early basketball teams. He was named as provost of the Milton Center later that same year.

During 1981-82, PJC began an academic honors program. Students qualified for honors classes according to test scores and/or grades. Honors classes were limited to 15 students each and focused on challenging material. The Honors Council of Students was formed allowing students to share their work through publications, videos and presentations at regional conferences.

In December 1981, PJC opened a center at Naval Air Station Pensacola. Today, the NAS Center continues to offer daytime and evening classes to both military and civilian personnel.

1982 saw the purchase of a pristine 80-acre site along Highway 90 for the new Milton campus. The spacious site allowed the Milton Center to become a full-fledged campus offering new programs in agriculture, horticulture and wildlife ecology.

Designed to preserve the natural, undisturbed environment of the land, Phase I of construction was completed in November 1984 and the Milton campus opened for classes in January 1985. Phase II was completed in 1986.

In 1984, J.C. Thedford was named as the first provost of the Pensacola campus. The following year, Thedford became provost of community programs and Richard Bedics, dean of the School of Health Related Education, became provost of the Pensacola campus.

PJC’s Lady Pirates won the state basketball championship and coach Vicki Carson was selected Coach of the Year in 1985.

The Academy of Teaching Excellence was established in 1986 by Charles Atwell, executive vice president. Each year the Academy recognizes outstanding faculty who have exhibited sustained excellence in teaching for a number of years.

During 1987, plans began for the construction of a new Center for Science and Advanced Technology building. The community supported this project with more than $1 million in contributions. The state legislature also appropriated money for remodeling several of PJC’s older buildings on the Pensacola campus.

1988–1997

PJC’s fifth decade continued the industrial “pioneer spirit” begun in its first decade with campus-wide renovations, property acquisitions and new programs designed to bridge the gap to the 21st century. Under the leadership of Coach Mary Bailey, a PJC alumna, the Lady Pirates slow-pitch softball team won the NJCAA Division I National Championship in 1988.

In 1989, PJC opened a Downtown Center in the heart of Pensacola’s business district, offering a variety of administrative and self-improvement courses primarily geared for working adults and the local business community. Continued growth prompted the move from a leased space in the Blount Building at Garden and Palafox streets to a larger, permanent facility on West Garden Street in 1996.

In October 1990, the Baroco Center for Science and Advanced Technology was dedicated. The Center is the home of the $125,000,000-square-foot center housed a high-tech planetarium.

1993 was a banner year for PJC sports. With Coach Bob Marlin at the helm, the Pirates basketball team traveled to Hutchinson, Kan. once again. This time they became the first Florida team to win the NJCAA Division I National Championship.

The revitalized Pirates golf team, under the leadership of Coach Jim Donovan, traveled to St. Simon’s Island, Ga. to capture the NJCAA Division II National Championship that same year.

The Kugelman Center for Telecommunications opened in 1994 to house WSRE-TV, the Distance Learning Department and the PJC Foundation. The $7 million, 43,000-square-foot facility is home to the area’s first digital television station.

The $5 million Bo Johnson LIFE Center sports complex was dedicated on the Milton campus in 1995.

Looking toward future needs of the college, President Hartsell and the District Board of Trustees began a program in 1995 to acquire land adjacent to the Pensacola campus for college expansion and growth into the next decade. During this year, Richard Bedics became provost of the Milton campus, and Martin Gonzalez, Business Department head, was named provost of the Pensacola campus.

PJC’s Milton campus became the site for the University of Florida West Florida Research and Education Center in 1996. Students can receive bachelor of science degrees in Natural Resource Conservation or Environmental Horticulture, taking all upper level courses locally.
In 1997, President Hartsell and the District Board of Trustees announced plans to construct a bell tower on the Pensacola campus in conjunction with the college’s 50th anniversary celebration. Named for M.J. Menge, a 1956 graduate and long-time college attorney, the bell tower rises more than 80 feet above the campus with clock faces and carillon bells that chime hourly.

1997 also marked the beginning of PJC’s fourth presidential search as President Hartsell began plans for retirement in 1998.

1998–2003

Following a nationwide search, Charles A. Atwell, executive vice president from 1986 to 1998, was selected as the president to lead PJC into the 21st century.

Completing his first season at PJC, Coach Paul Swanson led the men’s basketball team to the 1998 Panhandle Conference championship and was named Coach of the Year. PJC athletics expanded to include women’s volleyball in the fall of 1998 with Kim Hollon coaching.

In December 1998, the PJC Foundation launched its first comprehensive fund drive with a goal of raising $4.5 million. The lead gift of $1 million from the Switzer and Reilly families established the Anna Lamar Switzer Center for Visual Arts.

The first Margaret Moore Nickelsen Endowed Teaching Chair for Health Sciences was awarded to Lou Fazio, dental health professor, in 1999.

During the 1999-2000 school year, PJC served 30,742 students in both college credit and non-credit courses including those offered through dual enrollment at area high schools.

The PJC Foundation’s Building on Tradition—Investing in the Future capital campaign skyrocketed past its $4.5 million goal, wrapping up with more than $5 million in gifts and pledges. Nearly 750 different individuals, organizations and businesses participated in the fund drive, including more than 300 PJC faculty and staff.

Due in large part to the success of the capital campaign, the college expanded programs and facilities. The Music and Theatre Department introduced a new strings program and the Runge Strings performing ensemble. The honors program was revived as the Sandra and Grover Robinson III Honors Program with an entering 2000-01 class of 42.

The new student gazebo, a popular enhancement to the Student Affairs complex on the Pensacola campus, was completed during 1999-2000.

Construction for the Warrington campus Health Sciences Complex and the Anna Lamar Switzer Center for Visual Arts also began in January 2001. The first Anna Lamar Switzer Endowed Teaching Chair was awarded to photography professor Warren Thompson, and two PJC art students were awarded the first Switzer Scholarships.

The Marlene S. Atwell Chair of Family Values was dedicated on May 6, 2001, in memory of PJC’s first lady.

During the 2000-01 school year, the Student Activities Department introduced a student ambassador program to help increase student recruitment and retention.

In celebration of Community College Month 2001, PJC honored employees who had served 25 years or more with a “Legends” dinner. The 97 employees had collectively served the college a total of 2,760 years. The dinner launched the “Legends” program, which continues to recognize employees as they mark 25 years with PJC.

The Visual Arts Department began the associate of science degree in Photographic Technology with an articulation agreement with Florida A&M University for transfer into FAMU’s bachelor of science program.

In response to advancements in communications, networking and manufacturing industries, PJC introduced the Center for Information and Engineering Technology to house information technology, computer science and engineering technology programs of study with two new programs: Networking Services Technology and Telecommunications Engineering Technology.

The Warrington campus introduced new health care programs — Diagnostic Medical Sonography and Surgical Technology — while the Milton campus added complete programs in business and education.

On July 3, 2001, WSRE-TV launched a new era of quality television and became the 52nd public broadcaster in the country, and the second in Florida, to air a digital signal. The station initiated a capital campaign in 2002 with a goal of raising $2 million to complete the digital conversion.

The PJC Foundation launched the Universal Scholarship and Adult Literacy Fund with a visit from former first lady, Barbara Bush, in February 2002. The fund’s goal is that no resident of Escambia County or Santa Rosa County be turned away from higher education because of financial barriers.

Also during 2001-02, PJC’s non-credit workforce training efforts expanded into PJC Corporate Services.

Under the umbrella of Continuing Education, the PJC Planetarium held a grand reopening with new shows, and the Pensacola Pirate Swimmers finished 10th of 135 teams in the U.S. Masters Short Course National Championships. The swimmers range in age from 55 to 79 years old.

The 2002 Pirates baseball team hosted ball games at renovated facilities that also became home to the Pensacola Pelicans (of the Southeastern Association of Professional Baseball) and host to thousands of local fans during their inaugural season.

For the first time since 1991, the PJC Pirates went to the State Baseball Tournament. The Pirates placed third and set a team record with 39 wins.

In men’s basketball, Elijah Warren was named Panhandle Conference Basketball Player of the Year.

2001-02 was a good year for Lady Pirates, as well. The PJC volleyball team won the conference championship, the softball team was voted Academic Team of the Year in the Panhandle Conference, and Coach Vicki Carson earned her 400th win in women’s basketball.

During the 2001-02 school year, 28,834 students attended PJC. During the spring semester, the Anna Lamar Switzer Center for Visual Arts held a grand opening, and the Charles A. Atwell Health Sciences Complex was dedicated. The new hospital-like facility opened for summer classes.

Charles Atwell retired in 2002, and Thomas Delaino became PJC’s fifth president. Delaino previously was senior vice president and vice president for planning and administration.

The Milton campus welcomed Martin Gonzalez as its third provost in 2002, following the retirement of Richard Bedics. Gonzalez had served as the Pensacola campus provost since 1994 and joined the college as Business Department head in 1988.

In September 2002, WSRE launched a new cooking show, “Flavors of the Coast,” featuring Executive Chef Irv Miller and Gulf Coast cuisine.

The “Career Connection” counseling center opened in 2002 with new facilities on the Pensacola campus and services district-wide, and Student Job Services introduced “PJC Works Online,” an online job placement service for students and employers.

To meet the demand of high-tech communications careers, PJC introduced a new Internet Services Technology A.A.S. degree, and a Digital Video/Broadcast track was added to the Multimedia Technology A.A.S. degree in 2003.

In April 2003, “Celebrating the Journey” set the theme for a presidential inauguration and the college’s 55th anniversary.

WSRE’s capital campaign for digital conversion received a $500,000 gift honoring Jean and Paul Amos. Ground-breaking for the Jean and Paul Amos Performance Studio was held in May 2003.

The PJC Foundation welcomed sculptor Albert Paley and Pulitzer Prize winning author Rick Bragg for speaking engagements and student workshops, and presented the first Foundation Governor Emeritus awards to Wayne Peacock and Jim Stolhanske.

Under new administration, Isaac Brigham became executive vice president, Jean Ann Emond became vice president for Business Affairs, and Gael Frazier was named associate vice president for Institutional Diversity. The Institutional Diversity Office was established to expand the college’s diversity initiatives.

In the fall of 2003, PJC welcomed James Martin as vice president for Student Affairs and David Sam as the vice president for Academic Affairs.

Since 1948, PJC has grown to be a premier educational institution of Northwest Florida and the state’s community college system.

**PJC District**

Pensacola Junior College serves Escambia and Santa Rosa counties in Florida and surrounding Alabama communities. Population of the two-county area exceeds 412,000. The area is best known for its sugar white beaches, historical significance, and military installations which host the world famous Blue Angels flight demonstration team and the National Museum of Naval Aviation.

ACADEMIC ADVISING AND COUNSELING

Pensacola Junior College offers academic advising, career and personal counseling, and educational planning for students. Counselors are available during regular office hours in the Counseling Office located in the Registration Building on the Pensacola campus, the Office of Student Services on the Warrington and Milton campuses, and the LRC on the Pensacola campus. Individual and group counseling are available to full-time and part-time students in all areas of study. Counselors will help students with program planning, course selection, and graduation or transfer requirements.

Specialized academic advising also is available in the various academic departments at PJC. Students who have declared a major, or are pursuing an A.S. or A.A.S. degree may receive advising through the appropriate department head or faculty advisor. All new students are required to make an appointment to attend a new student orientation session presented by counselors, or the students must complete the online orientation session at www.pjc.edu.

Degree audits can be obtained online at www.pjc.edu as well as on the statewide computerized advising system at www.FACTS.org. The statewide system is available to aid department heads, faculty, counselors, and students in understanding program requirements at PJC as well as other Florida colleges and universities, course options, and other important advising information.

CAREER CONNECTION

Career planning services are designed to enhance a person’s ability to make an informed career decision. Information is available in the Career Connection center at the following locations:

1. Pensacola Campus, Building 5, 484-1768;
2. Milton Campus, Building 4200, Room 4204, 484-4410;
3. Warrington Campus, Building 3600, Room 3624, 484-2342.

These services include career interest inventories, career reference information, financial aid resources, and career employment counseling.

INTERNATIONAL STUDENTS (INCLUDING LEGAL PERMANENT RESIDENTS AND OTHER NON-CITIZENS)

A member of the District Office of Admissions and Registration is assigned the responsibility of assisting international students with the admissions process. This person provides information so that international students are able to maintain their student visa status and to comply with federal requirements established by the Bureau of Citizenship and Immigration Services (BCIS).

A member of the Counseling Office serves as the foreign student counselor with the responsibility of advising international students regarding their academic goals and assisting with special needs.

Students enrolling in courses designated as “Gordon Rule” courses must be proficient in written and oral English. Gordon Rule courses require a significant amount of written assignments. Students whose native language is not English, both international students and others, have the benefit of enrolling in several special English courses designed to build speaking and composing skills. These courses are available through college-credit instruction as well as non-credit instruction. The foreign student counselor will assist these students in appropriate course placement.

PJC offers a mentoring program for all incoming freshman students including the international students. This mentoring program pairs the student with a PJC employee who is dedicated to assisting the student during their enrollment.

The International Education Committee and the International Council are two organizations supporting and encouraging on-campus cultural and social activities. Additionally, information regarding community-oriented programs for the international student will be disseminated. All international students and others interested in these activities are encouraged to participate in these organizations.

STUDENT JOB SERVICES

JOB PLACEMENT—Employment assistance is provided to all students and graduates. Full-time and part-time jobs are listed on the Internet at pjc.edu/sjs. PJC Works Online allows students and graduates to search for jobs, and employers to contact applicants. Listings of jobs are posted on all campuses: Building 6, Pensacola; Career Connection centers on the Warrington and Milton campuses.

- Students should update their online student profile each term.
- Graduates should do so shortly before completing their programs.

Assistance is available for students to develop employability and work effectiveness skills. Resume writing assistance and job interview counseling also are available. Student Job Services, Building 6, Room 610, Pensacola campus, 484-1654.

COOPERATIVE EDUCATION—The Cooperative Education program is a planned, paid work experience in which students are employed in jobs directly related to their fields of study. The program offers both alternating and parallel work schedules. In the alternating schedule, the student works full-time one term and is enrolled in classes full-time the following term. In the parallel schedule, the student is enrolled in classes and works part-time each term.

The co-op program offers academic or vocational credits for each term worked. Students must maintain a 2.5 GPA throughout their co-op experience. Each student must complete certain requirements before being sent on job interviews and must also complete specific objectives related to his/her program each working term. These requirements will ensure that students participate in real life occupational experiences which will enhance their education through individualized, on-the-job situations.

The co-op program unites the college, student and employer to provide each student with a well-rounded education and offers experience for the job market.

Students should contact the Cooperative Education Office, Student Services Building, Building 6, Room 610, for more information. For additional information on job placement and cooperative education services, visit www.pjc.edu/sjs.

LIBRARY/LEARNING RESOURCES CENTER

“...The mission of the District Learning Resources Center is to promote the goals and initiatives of the College and Distributed Learning by creating and maintaining access to traditional and digital information resources, reference assistance, instruction, library services and state-of-the-art technology in both the traditional and digital (electronic) environments for students, faculty, staff, and community.”

The Learning Resources Center on each campus provides a comprehensive program of web-based learning resource materials and services including the online book catalog and full-text magazine articles at the LRC website lrc.pjc.edu. The PJC photo ID number is required to access some of the web-based resources.

Each LRC provides services such as reference assistance, interlibrary loan, photocopy machines, microcomputer facilities and workshops, and offers Library courses, such as LIS 1001. Use of Library Materials, a one-credit-hour, self-study course; CGS1050 Electronic Access to Information; CGS1052H Research in the Electronic Age, a one-credit-hour honors course; and LIS1004 Introduction to Internet Research, a Distance Learning course. All three LRCs house material for Distributed Learning courses taken for credit. The Pensacola LRC maintains a collection of descriptive videos for the hearing impaired. Special equipment for visually impaired students is available at all three LRCs. The LRC website is ADA compliant.
TESTING

The Testing and Assessment Center administers a broad range of campus, state and national examinations utilized in student counseling, course placement, research, certification, licensing, and awarding of college credits. The Testing and Assessment Center is located in Student Services, Building 6, on the Pensacola campus. Testing services are also available in the Student Services offices on the Milton and Warrington campuses, and at the Naval Air Station Center and the Downtown Center.

The College Testing and Assessment Center administers the American College Test (ACT) and the Scholastic Aptitude Test (SAT) on nationally scheduled test dates. Information may be obtained from the Testing and Assessment Center, Building 6, Pensacola campus, or from Student Services offices on district campus sites. Prospective students may obtain application packets from area school guidance offices.

Prospective students are encouraged to take the ACT or SAT examination and have the scores forwarded to PJC. ACT and SAT scores may be substituted for the Florida College Entry-Level Placement Test.

PLACEMENT TESTING

AND COLLEGE PREP INSTRUCTION

All degree seeking students applying to college for the first time must complete placement testing prior to registration. A college admissions application must be on file with the Admissions Office prior to taking the Florida College Entry-Level Placement Test (CPT).

All students wishing to enroll in college credit English or mathematics courses must satisfy placement requirements. Transfer students may satisfy placement testing requirements through prior coursework. Special students and non-degree seeking students are subject to placement testing requirements if enrolling in credit English or mathematics courses.

The College Testing and Assessment Center administers the American College Test (ACT) and the Scholastic Aptitude Test (SAT) on nationally scheduled test dates. Information may be obtained from the Testing and Assessment Center, Building 6, Pensacola campus, or from Student Services offices on district campus sites. Prospective students may obtain application packets from area school guidance offices.

Prospective students are encouraged to take the ACT or SAT examination and have the scores forwarded to PJC. ACT and SAT scores may be substituted for the Florida College Entry-Level Placement Test.

PLACEMENT TESTING

AND COLLEGE PREP INSTRUCTION

All degree seeking students applying to college for the first time must complete placement testing prior to registration. A college admissions application must be on file with the Admissions Office prior to taking the Florida College Entry-Level Placement Test (CPT).

All students wishing to enroll in college credit English or mathematics courses must satisfy placement requirements. Transfer students may satisfy placement testing requirements through prior coursework. Special students and non-degree seeking students are subject to placement testing requirements if enrolling in credit English or mathematics courses.

The Florida College Entry-Level Placement Test, (CPT), is given throughout the year on each campus. An examination schedule and brochure may be picked up in Student Services or Testing and Assessment offices. Additional testing may be required after the CPT.

Placement test scores are required before students are permitted to attend orientation/educational advising sessions, obtain course schedule approval or register for desired courses. Questions regarding testing procedures may be directed to the Testing and Assessment Center, Counseling, or Student Services offices. A valid picture identification is required for obtaining test score information and for taking any examination.

Students whose placement scores indicate a need for skills review are required to enroll in college preparatory courses. All students must begin college preparatory courses in the first term of enrollment. Students required to take two or more college preparatory disciplines must complete the SLS 1101 College Success course.

Students who test into college preparatory instruction and enroll in college preparatory instruction must successfully complete the required college preparatory studies by the time they have accumulated 12 hours of college credit coursework, or they must maintain continuous enrollment in college preparatory coursework each semester until the requirements are completed while performing satisfactorily in the degree earning coursework. For assistance, for college credit course selection or for additional information about this state requirement, contact a counselor.

TEST OF ADULT BASIC EDUCATION (TABE)

Students enrolling in certificate programs may be required to undergo a skill assessment process utilizing the Test of Adult Basic Education (TABE). The TABE assessment is conducted before enrollment or in the first six weeks of enrollment at district campus sites. Students must meet required skill levels in mathematics and/or communications before completion of the vocational program in which they are enrolled. Contact your program advisor.

GENERAL EDUCATIONAL DEVELOPMENT (GED) TEST

PJC administers the General Educational Development examination. The GED examination is scheduled throughout the year. Applicants must meet specific eligibility requirements. A completed GED application, photo identification and fee payment are required before an appointment will be scheduled. Application materials are available at the Pensacola Campus Testing and Assessment Center. All students must attend an orientation session. Upon successful completion of the GED examination, a high school diploma is issued by the State Department of Education.

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)

The College Level Examination Program (CLEP) is a nationally developed program for credit-by-examination. Credit may be granted for scores meeting the established criterion score on approved tests. Examination fees are established by the College Entrance Examination Board. CLEP application information is available in the College Testing and Assessment Center on the Pensacola campus. Students should consult with a counselor regarding their education plan prior to taking a CLEP examination.

FLORIDA COMPREHENSIVE ASSESSMENT TEST (FCAT)

The Florida Comprehensive Assessment Test (FCAT) or the High School Competency Test (HSCT) is a required examination for students to earn a high school diploma from the state of Florida. The FCAT is administered four times a year on dates established by the state. Students must register for the examination in the Counseling Office at the Adult High School.

COLLEGE LEVEL ACADEMIC SKILLS TEST (CLAST)

The College Level Academic Skills Test, or demonstration of mastery of equivalent skills, is required for all students prior to receiving an associate of arts (A.A.) degree or becoming a junior at a state university in Florida. According to Florida statute, an A.A. degree cannot be awarded unless mastery of basic skills has been demonstrated. You must pass the CLAST, or demonstrate mastery of the skills by an alternative method, if you are:

a. completing the requirements for the A.A. degree in a community college or university;

b. completing the requirements for admission to upper division status in a state university in Florida;

c. pursuing an A.A. degree and have earned 60 college credits including transfer work. You must attempt the CLAST, or satisfy an alternative during or prior to the term in which you expect to earn your 60th college credit (failure to adhere to this requirement will result in loss of eligibility for Florida financial aid; students should contact the Financial Aid/Veterans Affairs Office for details);

d. transferring an A.S. degree to an upper level institution in Florida (CLAST requirements must be met to continue eligibility for Florida financial aid).

CLAST Alternative

The State Department of Education has approved alternative methods of satisfying the CLAST requirement. Those alternative methods are listed below:

1. Students who have earned a grade point average of 2.50 or better in certain postsecondary level courses shall be exempt from one or more sections of the CLAST as follows:
   - To exempt the English Language Skills, Reading, and Essay sections of the CLAST, the student must have earned a combined grade point average of 2.50 or better in the two general education composition courses, ENC1101 and ENC1102.

Regular LRC hours:
7:30 a.m.–8:30 p.m. M-Th (Pensacola, Milton, Warrington)
7:30 a.m.–4:00 p.m. F (Pensacola, Milton, Warrington)
Closed Saturday (Pensacola, Milton, Warrington)
1:00 p.m.–5:00 p.m. Sunday (Pensacola, Milton, Warrington)

Summer LRC hours:
7:00 a.m.–7:30 a.m. M-Th (Pensacola, Milton, Warrington)
Closed F (Pensacola, Milton, Warrington)
Closed Saturday (Pensacola, Milton, Warrington)
1:00 p.m.–5:15 p.m. Sunday (Pensacola, Milton, Warrington)

Call 484-2002 for holiday schedules and between terms hours.

2004–2005
To exempt the Computation section of the CLAST, the student must have earned a combined grade point average of 2.50 or better in two general education mathematics courses for the associate of arts degree. See General Education Course Requirements for the A.A. Degree.

2. Students who have earned the following score(s) on either the Scholastic Achievement Test (SAT-I) or the American College Test (ACT) shall be exempt from one or more sections of the CLAST as follows:

- To exempt the English Language Skills and Essay sections of the CLAST, the student must have an English score of 500 on the SAT-I or a 20 on the ACT.
- To exempt the Reading section of the CLAST, the student must have a Reading score of 500 on the SAT-I or a 22 on the ACT.
- To exempt the Computation section of the CLAST, the student must have a Mathematics score of 500 on the SAT-I or a 21 on the ACT.

CLAST Information for Education Majors

Acceptance into an education program at any of the state universities requires the CLAST. Satisfying the CLAST requirements through the Alternative method (see CLAST Alternative above) will not satisfy admission requirements for education programs in the state university system of Florida.

Preparing for the CLAST

Although CLAST is designed to measure skills mastered by the end of your second year of college, you may take the exam as soon as you have completed 18 college credits and are prepared in the areas that CLAST tests. You should not attempt the CLAST until you have completed college course work which covers CLAST skills. For communication skills, you should successfully complete ENC1101 and ENC1102 prior to attempting the CLAST. For computation skills, you should successfully complete the two general education course requirements in mathematics. In all cases, research indicates that you should attempt the CLAST as soon after completing these courses as possible so that the skills are fresh in your mind.

PJC provides a variety of CLAST examination preparation strategies including special review courses (MGF1118, REA1125, ENC1090), practice examinations and individual tutoring. Students who are not successful in their initial attempts at the CLAST are required to meet with a CLAST advisor to develop an individualized study plan before retaking the exam. Additional coursework may be required.

CLAST Information

To register or prepare for the CLAST, contact the Pensacola campus Testing and Assessment Center, the Student Services offices on Milton and Warrington campuses, the NAS Center or Downtown Center. CLAST advising is coordinated through the Office of Curriculum on the Pensacola campus.

CLAST (Computer Adaptive Version)

PJC students may take the English, reading, or mathematics subtests of the CLAST on the computer (CAT-CLAST). This examination is available by appointment only at the Pensacola campus Testing and Assessment Center. For additional information, please contact the Testing and Assessment Center at 484-1659.

TUTORING SERVICES

Students enrolled in the various programs and courses at PJC bring a wide range of academic backgrounds and skills to their classroom experiences. Some are able to provide effective tutoring assistance. Some need the assistance of tutors. Several arrangements exist on campus to ensure that tutoring needs are met. Tutoring services are conducted through the Developmental Studies Department for all PJC students. There are eligibility requirements for tutoring services in Student Support Services, Disabled Student Services, and the Office of Veterans Affairs. Students requesting services should contact those offices directly.

LEARNING ENRICHMENT CENTER/MATH LAB

The Learning Enrichment Center is located in Building 1, Room 131, on the Pensacola campus. The lab provides free tutoring assistance to any PJC student on a walk-in basis. Tutoring services are offered on Sundays from 1 p.m. until 5 p.m. The lab provides individualized tutoring for all math courses taught at PJC and tutoring for other subjects as the need arises. Videotapes for most math courses are available for viewing. Instructin in using both graphing and scientific calculators is available. Students may borrow graphing and scientific calculators for use while in the lab. Computers with tutorial math software also are located in this lab.

SAIL LAB

System for Applied Individualized Learning

The SAIL Lab, located in Building 1, Room 101, is designed to assist all vocational students (certificate, A.S. degree and A.A.S. degree seeking) with academic support. SAIL provides an individualized, diagnostic prescriptive approach toward mastery of basic skills—reading, math, language—for those students mandated by the state of Florida to acquire competency levels on the TABE in order to complete their certificates. SAIL is technologically equipped with 16 individualized computer stations offering software programs in association with college preparatory courses, word processing, and computer graphics. SAIL is also available on the Warrington campus, located in Building 3400, Room 3421.

COMPUTER CLASSROOM/LEARNING LAB

The Computer Classroom/Learning Lab is located in Building 1, Rooms 120/12. These labs have 55 networked computers (25 in the Computer Learning Lab and 30 in the Computer Classroom), and provide instructional support for LIN 1670C, ENC 0001C, and ENC 0002C, as well as offering other computer resources for all PJC students. These labs provide computer-assisted instruction for prep math, pre-intermediate algebra, math CLAST preparation, statistics, reading, grammar and writing skills, vocabulary, and typing. Microsoft Word is available for word processing with a conversion program for most other word processing programs. The lab manager /or student assistant is available to provide individual assistance to students. There is also a computer lab on the Milton campus located in Building 4400, Room 4416.

STUDENT SUPPORT SERVICES

Student Support Services, a federally funded program located in Building 6, Room 620, provides a tutoring lab for students who are members of the program. Students must apply to the program and meet eligibility requirements. Students who are first generation in college meet certain income guidelines, or who have a documented disability are eligible for the program. In addition to individualized and group tutoring, the program provides assistance in the areas of academic advising, personal support, financial aid counseling, career counseling, and transfer assistance. The program is funded to serve 225 students each year, and services are free to those students accepted into the program.

READING/WRITING LAB

The Reading Lab is located in Building 1, Room 107. This lab provides instructional support for assigned classes for REA0001C and REA0002C. Walk-ins are welcome during posted hours, and instructors are encouraged to refer students. Tutorial assistance is available by way of computer software and individualized help in all reading courses, and in evaluation and improvement of basic reading skills, vocabulary development, reading comprehension and rate improvement, CLAST preparation, grammar fundamentals, and word processing. The reading lab on the Warrington campus is located in Building 3400, Room 3425, and in Building 4400, Room 4403 on the Milton campus.

The Writing Lab, located in Building 1, Room 106, provides free tutoring to all students who are enrolled at PJC. In the lab, students can receive one-on-one help with papers for any PJC course and individualized tutoring with specific concepts in English grammar for any developmental or college credit English course. This lab’s learning environment is structured so that students are taught to proof and edit their own papers. Computers for tutorial assistance and word processing are available.
More information about these programs can be obtained from the Developmental Studies Office. Building 1, Room 3, or by calling 484-1185.

**DISABILITY SUPPORT SERVICES**

The Disability Support Services Department is housed in Building 6, Pensacola campus. Students with documented disabilities at PJC attend mainstream classes and laboratories, and share educational expectations common to all students. To help students succeed in instructional programs, a variety of services are provided. These include but are not limited to orientation to campus facilities, personal and vocational counseling, special classroom arrangements, information and assistance to faculty, coordination with local community services, referral to community agencies, braille and taped materials, computer and Kurzweil software program for reading materials and other adaptive equipment. Other services include: special testing accommodations, note taking assistance, and interpreters for the deaf. With advanced notice the department can secure textbooks on tape. Assistance can be provided for students who are blind or learning disabled in meeting their course assignments. When necessary, course substitutions can be made pursuant to 240.153 Florida statutes and State Board of Education Rule 6A-10.041. Accommodations for GED, CLAST, and other standardized tests are also available. For more information, please contact the director of Disability Support Services, 484-1637.

**DIVISION OF VOCATIONAL REHABILITATION**

To serve disabled students attending the college under the auspices of the Division of Vocational Rehabilitation, the Department of Education has located a branch office on the Pensacola campus, Building 6, Room 659, 484-1660, and on the Milton campus, Building 4100, 983-5341.

**VETERANS AFFAIRS**

Veterans attending PJC must apply for their veterans benefits through the Financial Aid / Veterans Affairs (FA/VA Office). This office is organizationally a part of PJC and is not an affiliate of the US Department of Veterans Affairs (VA). VA/VA assists all students with their education claims and is charged by this school with the responsibility of meeting all institutional reporting requirements mandated by VA regulations. Likewise, it is the students’ responsibility to inform VA/VA of all changes in their school attendance, i.e., changes in degree objective, number of credit hours pursued, courses taken, etc. Important information concerning VA students can be found in this catalog and other materials available in FA/VA.

**APPLICATION:** The student can obtain all necessary VA application forms from FA/VA.

**All students who have previously received post-secondary training or education (including military education/training) are required by the VA to have their training evaluated by the Admissions Office for credit that may be applied toward their educational objective at PJC. This is required regardless of whether or not VA assistance was received for the prior training or education.** A copy of all DD214s must be submitted to the Admissions/Registrars Office for military/educational training evaluation. This must be completed and reported to VA within two terms of enrollment or as VA mandates.

**EDUCATIONAL OBJECTIVE:** One of the criteria to receive VA Educational Assistance is the student must be pursuing an approved associate of arts, associate of science, associate of applied science, or certificate at PJC. The student must follow the catalog in effect for the academic year the student began the program unless the time between those dates exceeds five years; then the student must follow the catalog effective during the completion year. See Effective Catalog Policy. Transient students must contact a VA peer advisor for additional requirements.

VA will not pay educational assistance to pursue any A.A. degree if the student has already received an A.A. or bachelor’s degree recognized by the state of Florida.

**ADVANCE PAYMENT:** Newly enrolling VA students or those students who did not attend school the previous term may apply for an advanced payment of the education allowance payable to them from the first day of class through the end of the following month. For the VA to consider awarding advanced pay, the properly completed application and certified documentation must be received by the VA Regional Office, Department of Veterans Affairs no earlier than 120 days prior to the first day of class and no later than 30 days before the first day of class. There is no guarantee the VA will be able to process the advance pay request although they receive it in a timely manner. If advance pay is not requested or processed, students should allow an average of eight to ten weeks from the first day of the term for receipt of their first VA check.

**DEFERMENT:** Florida law presently provides for one deferment of tuition and fees per academic year for students training under Chapters 30, 31, 32, or 35 of Title 38, U.S.C. or under Chapter 1606 of Title 10, U.S.C. The deferment is an agreement between PJC and the student; therefore, the student is responsible for making full payment by the due date. **The student’s obligation to pay is not contingent on the student first receiving his or her VA check.** The deferment must be notarized. Consult with staff for proper ID documents.

**ATTENDANCE REQUIREMENTS:** VA students may be withdrawn by their instructors when their absences are excessive as defined under the Attendance Policy found elsewhere in this catalog. Students under Chapter 30 and all others pursuing a certificate will receive a Verification of Attendance Form from the VA which must be completed and returned to VA to initiate the release of the monthly check.

**REPORTING REQUIREMENTS.** It is the responsibility of VA students to keep FA/VA informed of all changes in their enrollment status by accomplishing the following:

1. After registering for classes, leave a copy of the registration schedule with FA/VA.
2. After dropping or adding a class, leave a copy of the class change with FA/VA.
3. Inform FA/VA of any other changes in school enrollment or attendance.

**RECERTIFICATION:** FA/VA can certify a student to the VA for a maximum of an academic year at a time as long as the student is enrolled at least half-time and is not on active duty or not on academic probation or suspension. All enrolled VA students should contact FA/VA every June to confirm their desire to be recertified for the next academic year.

**COURSES FOR WHICH THE VA WILL NOT PAY:** Any course not partially fulfilling graduation requirements in the student’s approved VA educational objective cannot be certified to the Department of Veterans Affairs (VA) for computation of benefit payments. The following list reflects other types of “non-pay” courses, but is not all-inclusive:

1. Repeated courses which have been successfully completed with a grade of “D” or better unless the course is being repeated in accordance with Gordon Rule or PJC graduation requirements. This includes courses transferred in—whether VA benefits were received or not.
2. Attempting a remedial course for the fourth time.
3. Courses not listed under the student’s approved program unless the course is a prerequisite/corequisite listed under the course descriptions of the current PJC Catalog or a course substitution is processed and approved before the term begins. The student should follow the PJC program outline listed in the college catalog under which the student plans to graduate.
4. Courses offered as open entry/open exit.
5. Courses considered excessive electives. This includes credit received for prior training that will count toward an elective requirement whether VA benefits were received or not.
When a VA student fails to meet Students enrolled in courses beginning When the VA approves or adjusts a student A VA student under Chapters 30, 32, 35 Notify FA/VA and the (tax free) by the Department of Veterans Affairs and may work a
endorsement period as approved on the Veteran Student Work-Study Program. The qualified and selected student is paid the minimum wage under Chapters 30, 31, 32, 35, or 1606 may apply for the VA Work-Study Award letter specifies the student must be certified to the VA. Contact a VA peer advisor to ensure the course is certifiable and to obtain the necessary paperwork.

REPEATING COURSES: A VA student may repeat a course in which he or she has previously received an “F” or a non-passing grade. However, if a student repeats a course in which he or she has previously received a passing grade, that repeated course will not count toward earning VA education benefits unless the student is repeating a “D” grade in accordance with Gordon Rule or PJC graduation requirements.

UNSATISFACTORY PROGRESS: When a VA student fails to meet the school’s standards of academic progress, FA/VA is required to advise the VA. See Standards of Academic Progress in the PJC Catalog. The VA student must obtain a PJC Veterans Affairs Unsatisfactory Academic Progress Form and make an appointment with a PJC counselor to have the form completed. If the completed form will state the reason for the unsatisfactory academic progress and steps to take to have the unsatisfactory academic progress removed. The form must be returned to FA/VA in order to be certified. A student who is on academic probation or suspension will be certified for one term only until the student has been removed from academic probation or suspension.

AWARD LETTERS: When the VA approves or adjusts a student’s education benefits, the VA sends an award letter to the student. This award letter specifies the student’s monthly rate of payment and the ending date of that award period. Students should carefully read these award letters and contact FA/VA if they have questions.

WORK-STUDY: Students training a minimum of three-quarter time under Chapters 30, 31, 32, 35, or 1606 may apply for the VA Work-Study Program. The qualified and selected student is paid the minimum wage (tax free) by the Department of Veterans Affairs and may work a maximum of 25 hours times the number of weeks in the applicable enrollment period as approved on the Veteran Student Work-Study Agreement issued by the VA. For additional information contact FA/VA.

TUTORIAL ASSISTANCE: A veteran under Chapters 30, 32, a dependent under Chapter 35, or a reservist under Chapter 1606, who is enrolled at least half-time in a post-secondary program, may be eligible for tutorial assistance. The tutorial assistance must be essential to correct a deficiency in a specified subject required as a part of satisfactory progress of an approved program of education. Contact FA/VA for additional information and proper forms. Veterans under Chapter 31 should contact their VA vocational rehabilitation counselor for more information.

OFF-TERM COURSES: Students enrolled in courses beginning or ending after the dates of the regular semester should be aware the VA does not simply total the number of credits pursued to determine the student’s training rate for pay purposes.

Examples of common non-standard term courses are all classes offered during PJC summer sessions as well as any courses which are offered during the fall and spring terms which do not begin and/or end on the regular semester dates (Example—Nursing). Contact a VA peer advisor for more information.

FA/VA PROCESSING TIME: New applicants, program changes, and re-certifications may take two to four weeks to review and submit to the VA. This timeframe will be lengthened by periods of registration.

NAME/ADDRESS/PROGRAM CHANGES. Notify FA/VA and the Admissions/Registrar Office if you change your name, address, or program.

VA VOCATIONAL REHABILITATION: Students approved for VA Vocational Rehabilitation (Chapter 31) are eligible to charge tuition, fees, books and supplies as approved by their VA case manager and as allowed by VA regulations. FA/VA must receive VA Form 28-1905 Authorization and Certification of Entrance or Reentrance into Rehabilitation and Certification of Status from the VA case manager before charges can be made. For additional information, contact a VA peer advisor.

GRADUATING TERM: A VA student under Chapters 30, 32, 35 or 1606 may complete his/her schedule to pursue up to full-time enrollment during their graduation term only. This procedure can be done only once per program—for exceptions, see a VA peer advisor. A VA student may use any credit hour unit subject, except he/she may not repeat a course in which a passing grade was received.

LYCEUM
Music performances, drama, dance, art exhibitions and distinguished speakers are often available free to students, faculty and staff through the PJC Lyceum series. The general public is invited for a nominal fee. For information regarding Lyceum events, call the Music and Theatre Department, 484-1800.

ART GALLERY
The Visual Arts Gallery, Pensacola campus, is open to students and the public with a series of changing exhibitions of contemporary art throughout the academic year. Gallery tours for groups are available by appointment for each exhibition free of charge. Exhibitions can also be viewed for credit through the Lyceum program. For more information, call the Visual Arts Department, 484-2563.

ATHLETICS
Pensacola Junior College is a member of the National Junior College Athletic Association, Region VIII, and a member of the Florida Community College Activities Association made up of community colleges in the state. Varsity participation on a team representing the college is open to evening and day students from any campus, but is limited to two years of participation. Students are eligible provided they carry a class load of at least 12 hours of college work or are full-time students in a vocational program and meet the eligibility requirements of both the NJCAA and the FCCA.

ATHLETIC SCHOLARSHIPS: Athletic scholarships covering tuition and general fees are available to students maintaining a satisfactory grade point average under present regulations. Interested students should contact the team coach.

GYMNASTICS CLUB: The college has an organized club in gymnastics which competes with other clubs. The club is open to all area youth. Participants in the club register through the Continuing Education registration process.

INTERCOLLEGIATE SPORTS: On the intercollegiate level, the college participates in basketball for both men and women, as well as men’s baseball, women’s softball and women’s volleyball.

INTRAMURAL SPORTS: The intramural program is under the direction of the Athletic Department and includes tournaments, leagues and clubs in approximately 40 sports activities. The program is open to all students attending PJC.

WSRE-TV
WSRE-TV, PBS for the Gulf Coast, began operations in 1967 under a license granted to Pensacola Junior College by the Federal Communications Commission. Since that time, WSRE-TV has transitioned from airing black and white, to color, to stereo and now digital.

WSRE-TV launched a new era of quality television with the transmission of a digital signal on July 3, 2001. WSRE-TV is making revolutionary advances in the field of digital broadcasting with the introduction of high-definition television (HDTV), multi-casting and enhanced television.

The mission of WSRE-TV is unique: to provide high quality programming and learning opportunities for people of all ages. WSRE-TV has been helping the community “Be more connected” for over 35 years by encouraging our viewers to engage more deeply in the world around them. Through quality programming and educational outreach services, WSRE-TV can help you “Be more!” For more information, visit wsre.org or call 484-1200.
COLLEGE PUBLICATIONS

The college sponsors several publications devoted to distributing college information or publishing writings authored by students, faculty and staff. With each student publication, there is a faculty advisor who works with students to produce the finished publication.

The Corsair is the student newspaper. Editorial authority is vested in its student editor or co-editors, who are selected twice a year by the Student Publications Committee. Thom Botsford, head of the Department of English and Communications, is the college’s liaison to the paper, and journalist Chris Drain is the professional advisor. Scholarships are sometimes available to talented students. For more information, call 484-1458 or 484-1447.

Green and White is a weekly employee newsletter published by the Institutional Advancement Department. Job listings and minutes of faculty and staff organizations are included.

The Hurricane Review is a nationally recognized literary journal published annually by the Department of English and Communications, usually in late summer or fall. Professor Marian Wernicke is the senior editor. She is assisted by a panel of student editors.

The Jolly Roger is a monthly newsletter published by the Student Leadership and Activities Office highlighting events on all campuses.

Warrington Campus Comments is a weekly single page publication from the Office of the Provost.

PJC WEBSITE — PJC.EDU

The PJC website supports the mission of the college by providing its internal and external communities with academic resources and institutional information. The PJC web site serves as a gateway to student services, student activities, courses and workshops, degree and certificate programs, college news, and special events. Designed for interactivity and communication with users, the PJC web site supports and enhances traditional instruction, instructional research and distance learning delivery. In addition, the PJC web site gives remote students access to academic programs and support services.

ACADEMIC HONORS

The college recognizes student achievement in several ways:

SEMESTER HONORS LISTS: Two academic honors lists are published at the end of the fall and spring terms of each academic year. These lists recognize students who have achieved outstanding grade point averages for the term. To be eligible for the lists, students must be in good academic standing at PJC according to the standards of academic progress outlined in this catalog.

THE PRESIDENT’S LIST: Full time students (12 credit hours or more per term) who earn an overall GPA of 4.0 for the term will qualify for the President’s List.

DEAN’S LIST: Full time students accruing 12 or more semester hours of college or vocational credit, in residence, with a GPA of 3.5–4.0 and part-time students accruing between 6 and 11 semester hours of college or vocational credits with a GPA of 3.5–4.0 will be eligible for the Dean’s List. High school students earning 4 or more Carnegie units per semester with a GPA of 3.5–4.0 will also be eligible for the Dean’s List. This honor will only be awarded at the conclusion of fall and spring semesters. All students who qualify for recognition will receive an academic honors certificate.

GRADUATION: Students graduating with honors based on the cumulative grade point average will be designated as follows:

• Summa Cum Laude — cumulative GPA of 4.00
• Magna Cum Laude — cumulative GPA between 3.75–4.99
• Cum Laude — cumulative GPA between 3.50–3.74

The determination of the three honors categories (Summa Cum Laude, Magna Cum Laude, and Cum Laude) is based on the cumulative grade point average at the end of the student’s last term of enrollment prior to the term of graduation. Students who have met the criteria for honors prior to their term of graduation will be eligible for the honors cords at the graduation ceremony.

The transcript is the final and official record of a student’s standing at the time of graduation. Students meeting the honors criteria at the time of graduation and after the official analysis of graduation eligibility is determined by the College Registrar will have the appropriate notation affixed to the official transcript and on the diploma, degree, or certificate awarded.

HONORS CEREMONY: At the annual Honors Ceremonies students are recognized for the following categories: Department/Program Scholarships, Scholastic Achievement, Leadership, and Service.

The Scholastic Achievement award recipients are selected by individual academic departments in recognition of outstanding performance in the classroom and high test scores on competitive departmental examinations.

The Scholastic Achievement award recipients are selected by grade point averages. Recipients of this award must have maintained a 3.9 GPA or better while completing at least 80% of the requirements for the degree they are seeking.

The Leadership award is based upon participation in service clubs. The Service award recipients are selected by the faculty and department heads. This award is based on the outstanding services rendered in their respective departments, schools, and campuses.

PJC POLICE DEPARTMENT

The Pensacola Junior College Police Department is tasked with the safety and security of the college community on all PJC campuses. PJC police officers are commissioned Florida law enforcement officers who have completed a state certified law enforcement academy. The fact that PJC has police officers to help keep campuses safe is a point of pride. Out of the 28 community colleges in the state of Florida, PJC is one of only three colleges to have established its own police department.

PJC is committed to help keep students safe while they strive to learn on any of our campuses, striving to identify problems and address issues before a crisis occurs. In all cases of criminal activity, loss of property, assault, threat, injury, or attempted crime, contact PJC police as soon as possible. This will facilitate proper reporting, documentation for further and preventive action, and will allow the PJC Police Department to assist the campus community in referral for needed assistance.

To assure 24 hour a day assistance for the campus community, the PJC Police Department operates 16 hours a day, 7 a.m. to 11 p.m., Monday through Friday, for the protection of students, staff, faculty, and visitors. Uniformed police officers patrol the campus by marked vehicle, by foot patrol, by buggy, and by bicycle. Police officers carry firearms and have arrest powers. Additionally, uniformed service officers assist in situations that do not call for specific police action. Student assistants, identified by safety vests, also assist with non-enforcement duties. Contract security guards patrol the campus from 11 p.m. until 7 a.m. on weekends and on holidays.

PJC Police telephone numbers and locations are as follows:

During non-duty times call:

Pensacola Campus: 484-1549, 484-2500, 484-2000

Warrington Campus: 484-2283

Milton Campus: 484-4481

Vice Office Number: 433-4008

In the case of an extreme emergency, if the campus police number cannot be remembered, on campus telephones, dial 9-911. This will connect to the law enforcement operator of the jurisdiction where the caller is located. Stay on the telephone and tell where you are. That agency will dispatch emergency help as well as notify the PJC police.

2004–2005  11 Academic and Student Services
CRIME STATISTICS

In an attempt to inform PJC’s campus community of the frequency of crime on all of our campuses, the following crime statistics reflect the crimes that were reported to the PJC Police Department.

None of the crimes of aggravated assault manifested evidence of prejudice based on race, religion, sexual orientation, or ethnicity, as described by the Hate Crimes Statistics Act.

OTHER SUPPORT SERVICES

SNACK BAR/VENDING

The college contracts for various food and vending services for the convenience of students, faculty, and college staff. Self-service vending is widely available, with beverage and snack vending machines available on each campus. Snack bar operations are available on the Pensacola campus during the hours posted in appropriate areas. Student scholarship funds are routinely enhanced through vending commissions, made possible through use of the college vending operations.

COLLEGE BOOKSTORES

The college has bookstores on all three campuses to provide textbooks and supplies for sale to students, faculty, and the community. Commissions from the bookstore operations fund scholarships for many PJC students. Books and supplies required for each course are kept in the college bookstores. Textbooks may also be purchased via the web site at efolett.com. In addition to new and used textbooks, the stores also carry PJC imprinted notebooks, imprinted clothes, a large selection of college outline, preparation and reference books, and other assorted supplies.

Refunds on textbooks are allowed within 10 days from the date of purchase. A sales receipt is required. A full refund is given if books are returned in the same condition as when purchased.

The college bookstores provide students the opportunity to sell their textbooks throughout the year. Highest used market value is paid for editions which will be used in the upcoming term, and national wholesale value is offered for all other titles. Student ID and a picture ID are required.

Books and supplies may be purchased by cash, check, Visa, MasterCard, Discover, American Express, or by authorization from the Financial Aid office or other certified office. Students may write checks for the amount of purchase or up to $5 over the purchase amount. Checks must include address, phone number, and Social Security number. A valid student ID and a driver's license are required.

HEALTH CLINIC

A health clinic, located on the Pensacola campus and under the supervision of a registered nurse, is available to assist students, faculty, and staff in the event of an accident or illness. If the Health Clinic nurse is needed at the scene of an accident or emergency illness, PJC Police should first be contacted at ext. 2000. The Health Clinic is located in the Lou Ross Health/Sports Center. Services are provided free of charge. Hours of operation are 7:30 a.m. to 4:00 p.m. daily.

HOUSING

The college does not provide housing facilities. A local apartment and condominium guide is available free of charge from the Student Leadership and Activities Office on each campus.

ALCOHOL/DRUG EDUCATION AND PREVENTION INFORMATION

Recognizing that the use and abuse of mind altering substances represents a serious threat to the college’s mission, the college has devoted significant effort to the prevention of these problems. These efforts include: educational programming, media presentations, curriculum resources, and referral services. For more information, contact the office of the director of Student Life, 484-1689. Information is available on the PJC website at www.pjc.edu by clicking Admissions and then Health Services.

AIDS POLICY

The Pensacola Junior College AIDS policy is on file in each college department and is available to all students. For additional information on AIDS, contact the Director of Student Life, 484-1689, a trained AIDS educator. Information is available on the PJC website at www.pjc.edu by clicking Admissions and then Health Services.

RAPE RISK REDUCTION EDUCATION

The Rape Risk Reduction Education and Training Program, located in Room 43L/Building 1, exists to increase awareness of sexual violence and reduce the number of forcible sexual offenses for students, faculty, and staff. Fifty-minute educational sessions are provided for students, faculty/staff, and community members. Referral services are also available. For additional information, call the coordinator at 484-1792.
STUDENT LEADERSHIP
AND ACTIVITIES OFFICE

The District Student Leadership and Activities Office provides a common point of contact and coordination between students and student organizations. A variety of services exists on each campus. For a complete listing, contact the Student Leadership and Activities office, Room 510 in the Pensacola campus Student Center.

The Jolly Roger

The Jolly Roger is published monthly and highlights events for all campuses. Information for inclusion in the Jolly Roger should be submitted to the Student Leadership and Activities office.

AIDS Information

AIDS information is available in the district Student Leadership and Activities office and the Health Clinic on the Pensacola campus. The director of Student Life is a trained AIDS educator and is available to conduct workshops for any class or college group; call 484-1689 for more information.

Posting Student Notices

All notices placed on the various bulletin boards in college buildings must be approved through the appropriate campus Student Leadership and Activities office prior to posting. No notices are to be posted in locations other than these bulletin boards. A housing bulletin board is available on the Pensacola campus in the Student Center to post for roommates and rooms available.

STUDENT ORGANIZATIONS

HOW TO JOIN A STUDENT ORGANIZATION. All organizations, except honor societies, are open to all students with a GPA of 2.0 or above, regardless of race, creed, color, sex, age, marital status, national origin, or handicap. Membership in an honor society is by invitation only. Students interested in joining a PJC club or organization should inquire at the Student Leadership and Activities office for information on procedures and people to contact. Student Organization Guidelines are listed later in this section.

Academic and Departmental Organizations:

- Band & Jazz Ensembles
- Barber Club
- Biology Club
- Cheerleaders
- Chorale
- Cosmetology Club
- Corsair (newspaper)
- Criminal Justice Association
- Debate/Forensics
- Dental Health Club
- Earth Science Club
- Education Club
- Engineering Club
- Forestry Club
- Hospitality Management Association
- Humanities Club
- Instrument Society of America
- Literary Round Table
- Medical Assisting Club
- Phi Beta Lambda—Business
- Physics Club
- PJC Entertainers
- PJC Volunteers
- Pre-Physical Therapy Assisting
- Radiography Club
- Respiratory Club
- S.A.D.H.A.—Dental Hygiene
- Senior Classical League
- Student Nurses Association

Student Practical Nurses Association
Students for a Multicultural Society
Swim Club
Zoo Technology Club

Honor Organizations:

- Alpha Beta Gamma—Business
- Alpha Mu Gamma—Foreign Language
- Beta Phi Gamma—Journalism
- Mu Alpha Theta—Mathematics
- Phi Rho Pi—Debate/Forensics
- Phi Theta Kappa—General Academic
- PJC Honors Council—General Academic
- Psi Beta—Psychology
- Sigma Delta Mu—Spanish
- Sigma Phi Alpha—Dental Hygiene

Religious Organizations:

- Baptist Collegiate Ministry
- Wesley Foundation

Social and Service Organizations:

- Chess Club
- Deafness Awareness Club
- Florida African American Student Association (Black Student Union)
- International Club
- Jared Sparks Historical Society
- Muse League
- Music Society
- Outdoor Recreation
- Senior Citizens Club
- Student Government Association

STUDENT HONOR ORGANIZATIONS

Phi Theta Kappa

Phi Theta Kappa is recognized by the American Association of Community and Junior Colleges as the official honor society of two-year colleges. The hallmarks of Phi Theta Kappa are Leadership, Scholarship, Fellowship and Service. Eligible students must be enrolled in an A.A., A.S or A.A.S. program at Pensacola Junior College, have completed 12 semester hours of college credit at PJC, and attained a cumulative GPA of 3.5. All students who meet the minimum requirements are eligible for membership and are encouraged to attend their chapter’s new members’ orientation meeting in the beginning of the fall and spring terms. Payment of dues and other important information will be introduced at this time.

PJC has three chapters of Phi Theta Kappa:

- Theta Chi, Pensacola campus
- Beta Alpha Psi, Warrington campus
- Beta Beta Gamma, Milton campus

Phi Theta Kappa allows for many different levels of involvement. The personal rewards and satisfaction derived from membership far outweigh the time contributed to the chapter’s success. PJC honors Phi Theta Kappa members in the graduation program at graduation ceremonies where members proudly wear the distinctive gold Phi Theta Kappa stoles and tassels. Phi Theta Kappa membership is displayed prominently on each member’s official transcript. Opportunities are available as well for members to apply for Phi Theta Kappa scholarships at various colleges and universities.

Provisional membership is available for PJC students with a 3.5 documented high school GPA but less than 12 credits at PJC. These students are eligible for membership when meeting the above requirements.

Specific Discipline Honor Organizations

Outstanding academic performance by students in various academic disciplines is recognized by honor organizations for students in the respective disciplines. These other honor organizations are open to PJC students with high academic performance, and they also afford a variety of activities and opportunities for recognition and service.
STUDENT ORGANIZATION GUIDELINES

Pensacola Junior College recognizes student organizations that exist to promote the social, moral and educational well-being of their members. Recognition of an on-campus organization by the college is granted and maintained provided the organization demonstrates continued acceptable social behavior and sound fiscal management. The college delegates to the Student Leadership and Activities office the authority to approve, censure or deny privileges to campus organizations. Such authority, however, is subject to review by the college president. Organizations seeking affiliation with other organizations not under the jurisdiction of PJC must first have the approval of the college president.

The coordinator of Student Leadership and Activities is available to organizations for counsel and assistance district-wide.

Final responsibility for the good name and standing of an organization rests solely on its members. All student organizations’ regulations, and the provisions of student organizations’ constitutions, must be consistent with the national, state and county laws, and the policies of the District Board of Trustees.

OBTAINING CAMPUS CHARTERS

To obtain a campus charter, representatives of a student organization must first consult with the appropriate SGA advisor. They must also provide the advisor with the following:

1. Statement of purpose.
2. At least five (5) copies of proposed constitution.
3. List of bylaws incorporating the college’s anti-hazing policy (see ‘PJC Anti-hazing Policy’ in this handbook).
4. The name of the faculty advisor(s) approved by the campus provost.
5. A list of prospective members who must be PJC students.

The advisor will then present the charter request to the Student Government Association (SGA). The SGA’s recommendation for charter and one copy of the organization’s proposed constitution will then be forwarded to the college president for review and signature.

Common Responsibilities

1. To secure one or more approved advisors who either attend meetings or approve in advance the agenda for meetings. An advisor should be present at all meetings held after 5 p.m. An advisor may be any individual employed at PJC as an instructor, administrator or career service employee. Student Leadership and Activities Manuals are available for all advisors in the Student Leadership and Activities office.
2. To accept all responsibility for organizational financial matters of the individual organization. No action on the part of any organization, collectively or by individual members, shall incur any indebtedness to PJC.
3. To furnish to the Student Leadership and Activities office a complete list of officers and members. Also, to furnish to this office, within two weeks of the beginning of the spring and fall terms, times and places of meetings and the name of the advisor(s). Any changes in the organization’s constitution or purpose must be placed on file in the Student Leadership and Activities office.
4. To limit membership to current PJC students maintaining minimum 2.0 grade point averages. Pledges may be inducted on the basis of at least a 2.0 GPA as reported on advisory grades.
5. To drop from membership immediately any member who fails to maintain the required 2.0 GPA.
6. To furnish to the Student Leadership and Activities office, three weeks prior to the end of the spring term, a report consisting of the names, addresses and phone numbers of officers for the coming year, and a list of major activities engaged in during the past year.
7. To refrain from any type of hazing (see the anti-hazing laws).
8. Any SGA chartered club/organization that sponsors an activity/event on or off the campus must submit a detailed outline of said activity to the appropriate campus Student Leadership and Activities coordinator a minimum of two weeks in advance of the activity. Each activity is to be approved by the Student Leadership and Activities coordinator in addition to the club sponsor and the department head of the facility being used (if held on campus). The Student Leadership and Activities coordinator will meet with the sponsoring organization to discuss their proposed plans and assist with ideas/suggestions to help insure the success of the activity. Again, all of the above must be completed a minimum of two weeks prior to the planned activity. Activity forms are available in the Student Leadership and Activities office.
9. To complete and return a re-chartering request to the Student Leadership Activities Office each term.
10. All funded clubs must present one campus-wide event per term I and II as well as other obligations set forth by the Student Leadership and Activities office.

Penalties

Organizations failing to fulfill the above responsibilities are subject to the following penalties:
1. Forfeiture of social privileges.
2. Forfeiture of representation in student publications.
3. Forfeiture of representation in intramural or other competitive campus activities.
4. Forfeiture of campus charter.
5. Suspension of campus charter.
6. Suspension of individual members’ right to participate in other campus activities or organizations.
7. Trial of officers or members suspected of violating the PJC Honor Code.
8. Any penalty as set forth in the college statement on student rights and responsibilities. Penalties may be prescribed for organizations by the SGA for infractions of a minor nature in accordance with procedures outlined in the college statement on student rights and responsibilities.

ORGANIZATION ACTIVITIES

Time

Evening activities may be held on campus on Fridays, Saturdays, Sundays or evenings preceding holidays. Registered social functions may be held on the campus or at a place approved in advance by the Student Leadership and Activities office. Requests for approval of location should be submitted one week prior to the planned date of the activity.

Registered Activities

Approved social activities of student organizations must be registered in the Student Leadership and Activities office. Registration of the activity is completed by filling out an activity form available in this office. If a club or organization enters into a contractual agreement with any group that will be using PJC facilities, a copy of said contract must be filed in the Student Leadership and Activities office and reviewed before approval will be given to the activity.

Speakers

Guest speakers on campus must also be approved by the college. Completed applications for approval must be submitted to the Student Leadership Activities Office at least 10 calendar days prior to the date of the proposed speaking engagement.

Chaperons

All registered social functions, either on or off campus, are required to have chaperons in attendance. The chaperons may be any advisor and spouse or any couple, one of whom is employed by the college as a teacher, an administrator, or a member of the professional staff. Only employees of the college may receive student activity per diem expenses.

Chaperons shall exact appropriate conduct from attending students and shall affect proper regard for college regulations at social functions. Instructions for chaperons, outlining their responsibilities, are available in the Student Leadership and Activities office.
The college provides an opportunity for experience in self government on each campus. A student may hold any office in the Student Government Association (SGA) or other college organization or represent the college in any manner if he or she satisfies the requirements stated by the organization’s constitution.

Students are the constituents of the academic community of Pensacola Junior College. As such, they are entitled to express their opinions on subjects involving their intellectual, social, physical and moral development and to participate in the formulation of institutional policy which affects their general interest and welfare. The SGA is the primary vehicle for student expression and participation in the democratic process.

The SGA should serve to promote a climate encouraging responsible participation and leadership in the college community; to further understanding and a positive relationship between the student body and the faculty and administration; and to lead actions beneficial to the college community as a whole.

Current copies of the SGA’s Constitution are on file in the Student Leadership and Activities Office.

Scope of Authority

The PJC SGA is recognized as the official student body government and shall serve to express the will of the general college body. The college shall work with the SGA in seeking the opinions and assistance of the general student body on matters of their proper concern.

The SGA is responsible for establishing and enforcing its own rules of procedure. Such rules must not be in conflict with the policies of the college or laws of the state and national government.

To the Student Government Association is delegated the responsibility for:

1. Budgeting student leadership and activities funds.
2. Chartering prospective student organizations.
3. Informing the organizations of the necessity of compliance with all organizational regulations.
4. Recommending changes necessary for the successful and proper functioning of organizations.
5. Taking action against organizations when violations of regulations occur.
6. Encouraging various student publications to publish such notices as it deems necessary for the information of the student body.
7. Informing students of its role, of the students’ role, and of the necessity of student participation in maintaining effective student government and the democratic process.
8. Promoting, endorsing and continually striving to improve the honor system described in Article IV of the Constitution.
9. Expressing choices and making recommendations for speakers and entertainers for the PJC lyceum series.
10. Participating in the formulation of policies regulating student conduct through representation on committees charged with drawing up codes of conduct.
11. Requesting appropriate changes in college policy not directly under the control of the SGA (e.g., changes in curriculum) to the proper faculty committee or administrative official.
12. Receiving petitions from students who wish to express their opinions or suggest changes to college policy.
13. Establishing special committees to study particular problems.

Actions of the SGA shall be subject to review by only such officials as may be authorized to do so by the Constitution or by the president of the college. The president or his or her designated representative has the responsibility of improving communications between faculty and students.

STUDENT RESPONSIBILITIES

OFFICE OF STUDENT LIFE

The Office of Student Life, located on the Pensacola campus, assists students by conducting success/motivation training and AIDS Education workshops, acting as a mediator in classroom grievances that have not been resolved by the department, making available current information on students' rights, listening to complaints or criticisms with an open mind and following up quickly, providing a fair and impartial hearing for any student accused of violating the PJC Code of Conduct, and providing drug education information and referral.

BASIC STUDENT RESPONSIBILITIES

The statement which follows was prepared by a student-faculty committee after an extensive and intensive review and study of the college’s rules and regulations governing students and student organizations. The purpose of this statement is to clarify for students and to assist students in understanding the position of the college on matters of student rights and responsibilities. This statement endorses a concept of community responsibility wherein students will be provided the opportunity to develop an independent capacity to search for truth and formulate educational goals.

INTRODUCTION

A student is first a citizen of his or her country, and as such is entitled to its freedoms and benefits as well as being responsible for compliance with its laws and regulations — local, state and national. Similarly, when a person enrolls at Pensacola Junior College, he or she becomes a member of the academic community of which membership brings to the student certain responsibilities. In this sense, the relationship between the student and the college is a voluntary agreement, or contract, which involves rights and responsibilities designed to accomplish with maximum order and effectiveness the goals of the college.

Enrollment at this institution is not compulsory. The Federal Constitution protects the equality of opportunity for all qualified persons to enroll at PJC. Enrollment is voluntary. Since enrollment is voluntary, the student voluntarily assumes the obligations of performance and behavior reasonably imposed by the institution relevant to its lawful mission, processes and functions. The institution assumes the obligation of establishing guidelines and taking necessary steps to assure compliance with this obligation. The rights of the students to learn and of the faculty to teach are obligations the institution is charged to uphold. The institution will, therefore, take the necessary steps to protect those rights.

No member of the academic community may, without liability to lawful discipline, intentionally act to impair or prevent the accomplishment of any lawful mission, process, or function of the institution.

STUDENT RESPONSIBILITIES

1. The student is responsible for compliance with regulations contained in the college Catalog/Student Handbook, and in any bulletins, letters or memoranda issued by the president or his or her designated representatives.
2. The student should strive to become an active learner and engage in free discussion, inquiry, and expression where appropriate.
3. The student should make every effort to be present for class sessions throughout the term so that sufficient basis is established for grading.
4. The student is responsible for learning the content of any course as required by the instructor.
5. The student should be punctual and prepared for class.
6. The student is responsible for his or her own and his or her classmate’s honesty in the classroom, according to the Student Honor Code.
7. The student is responsible for his or her actions on campus and in the classroom.

COLLEGE AUTHORITY REGARDING STUDENTS

1. Under the authority of the State Board of Education (Regulation No. 6A-14.56), the District Board of Trustees of Pensacola Junior College is required to establish policies and procedures governing the behavior and discipline of students.
2. The delegated authority of the college to impose penalties will be asserted when the Code of Conduct as described on page 19 is violated.
3. When the activities of students result in violation of federal, state or local laws, those students who violate such laws will be penalized as prescribed by civil and institutional authorities.
4. Student organizations are also responsible for compliance with the policies set forth in this section.
5. Activities sponsored by the college, including student groups participating off campus in college-sponsored or related activities, shall be subject to supervision by the college.

POLICY INFORMATION

A student who wishes to suggest changes in the academic policy of the college (policy concerning curriculum, attendance, grading, etc.) should submit a written recommendation to the Student Government Association for evaluation. The SGA may approve or disapprove the suggestion. If approved, the proposal will be submitted by the SGA through administrative channels to the president of the college for action.

CLASSROOM ACTIVITY

1. The professor, in the classroom and in conference, should encourage free discussion, inquiry and expression. Student performance should be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.
2. Students should be free to take reasoned exception to the data or views offered in any course of study, and to reserve judgment about matters of opinion. They are responsible, however, for learning the content of any course of study for which they are enrolled.
3. Students should be evaluated through orderly procedures. At the same time, they are responsible for maintaining standards of academic performance established for each course in which they are enrolled.

CLASS ATTENDANCE

Regulations governing punctual and regular class attendance are outlined under the Academic Regulations and Policies section.

DRESS AND APPEARANCE

Students are expected to dress and maintain their personal appearance in a manner which will not endanger their health, welfare or safety. This will be in accordance with state and local laws and the college’s Code of Conduct.

STUDENT HONOR PLEDGE

All students enrolled at PJC are expected to fulfill the Honor Pledge, which is as follows:

“I pledge myself to uphold the highest standards of truth, honor and integrity. I refuse to tolerate violations of these standards on the part of any other student.”

The following shall be considered infractions of the Honor Pledge:

1. Lying is a deliberate falsification of facts. It includes a deliberate act of deception or the telling of an untruth during direct questioning before members of authority, either fellow students or faculty members.
2. Cheating is giving or receiving aid, whether written, oral or otherwise, in order that a student may receive undeserved credit.
STUDENT CODE OF CONDUCT

When students enroll at Pensacola Junior College, they are responsible for compliance with regulations in the college Catalog/Student Handbook, and any bulletin, letters or memoranda issued by the president or his/her delegated representatives. No member of the academic community may, without liability to lawful discipline, intentionally act to impair or prevent the accomplishment of any lawful mission, process, or function of the institution.

Recognizing that the college has the responsibility of providing an atmosphere within which its students can pursue their respective academic goals and realize the opportunities afforded them by the college, a Code of Conduct was established to govern students enrolled at PJC.

Expulsion, suspension, or any lesser penalty may be imposed upon any student enrolled at PJC who participates in any of the following offenses:

1. Academic cheating or plagiarism;
2. Furnishing false information (written or oral) to the college with intent to deceive;
3. Forgery, alteration or misuse of college documents, records, or identification cards;
4. Assault and battery;
5. Malicious destruction, damage, or misuse of public property, including library materials, or private property on campus;
6. Attempted or actual theft, larceny, embezzlement, the temporary taking of the property of another;
7. Issuing bad checks;
8. Gambling;
9. Vandalism;
10. Disorderly conduct or unlawful assembly;
11. Participation in hazing (see anti-hazing policy);
12. Obscene conduct or public profanity;
13. Illegal manufacture, sale, possession, or use of narcotics, marijuana, hypnotics, sedatives, tranquilizers, stimulants, hallucinogens, and other similar known harmful or habit-forming drugs and/or chemicals;
14. Possession or use of alcoholic beverages on campus, on field trips or at other instructional sessions off campus;
15. Drunkenness or intoxication;
16. Possession, display or discharge of a firearm, pellet gun, air rifle, or other such weapon. Law enforcement officers attending class on campus may carry a weapon if required to do so by the policies of the law enforcement agency by which such officers are employed;
17. Possession, display or use of any dangerous instrument, including, but not limited to, knives, fireworks, explosive chemicals, box cutters and razor blades;
18. Exhibitionism in the form of nudity or indecent exposure of the person;
19. Interference with the freedom of movement of any member or guest of the college;
20. Deliberately impeding or interfering with the rights of others to enter, use or leave any college facility, service, or scheduled activity, or to carry out their normal functions or duties;
21. Deliberate interference with academic freedom and freedom of speech of any member or guest of the college;
22. Deliberate disruption of any class, meeting, or college function;
23. Occupation of any college facility, when unauthorized, through participation in "sit-in," "lie-in," or similar activities;
24. Failure to comply with directions of college officials or campus Police in performance of their duties and/or failure to identify oneself to one of these persons when requested to do so;
25. The active threat of violence against any member or guest of the college;
26. Participation in any activity which disrupts or interferes with the orderly process of operation of the college;
27. Failure to respond to an administrative summons;
28. Extortion;
29. Sexual harassment, sexual assault;
30. Use of college computers to send, receive or view obscene or sexually explicit messages/pictures;
31. Violations of federal and state law, respective county and city ordinances and all college and District Board of Trustees rules and regulations.

ANTI-HAZING POLICY

No student or other person associated with Pensacola Junior College shall engage in any "hazing" activities as that term is described herein below.

As used herein, “hazing” means any action or situation which recklessly or intentionally endangers the mental or physical health or safety of a student for the purpose of initiation or admission into or affiliation with any organization operating under the sanction of PJC. Such term shall include: beating, branding, forced calisthenics, or exposure to the elements; forced consumption of any food, liquor, drug or other substance; or any other forced physical activity which could adversely affect the physical health or safety of the individual; and any other forced activity which could adversely affect the mental health or dignity of the individual. Any activity as described above upon which the initiation or admission into or affiliation with a PJC organization is directly or indirectly conditioned shall be presumed to be a forced activity, the willingness of an individual to participate in such activity notwithstanding.

Any student or other person associated with a PJC organization who engages in any hazing activity, on or off campus, may be subject to the following penalties:

1. Fine up to $100;
2. Withholding of diploma or transcript pending payment of any fine imposed;
3. Probation.

If the hazing activities are willful and flagrant violations of this policy and/or if the hazing consists of brutality of a physical nature, the student or other person associated with a PJC organization who engages in such hazing activities may be suspended or dismissed.

Any PJC organization which authorizes hazing in blatant disregard of this policy may be subject to the following penalties:

1. Suspension or forfeiture of social privileges;
2. Suspension or forfeiture of representation in student publications;
3. Suspension or forfeiture of representation in intramural or other competitive campus activities;
4. Suspension of individual members’ rights to participate in other campus activities or organizations.

The penalty to be imposed on a PJC organization which authorizes hazing in blatant disregard of this policy will depend upon the facts of each incident. Repeated violation of this policy may result in the suspension or forfeiture of the organization’s campus charter.

Any penalties for violation of the college’s Anti-Hazing Policy shall be in addition to those penalties imposed for violation of any of the criminal laws of the state of Florida or for violation of any other rule promulgated by this college to which the violator may be subject.

The student or other person associated with a PJC organization charged with the violation of the college’s Anti-Hazing Policy shall be entitled to a hearing and to the same procedural rights as any student accused of violating the college’s Code of Conduct.

To communicate and implement the college’s Anti-Hazing Policy, the following actions shall be taken.

1. Each college organization advisor shall be given a copy of the college’s Anti-Hazing Policy and shall be charged with the responsibility of informing the organization of the adoption of this policy.
2. Each college organization shall be required to incorporate the college’s Anti-Hazing Policy in its bylaws and to submit a copy of its revised bylaws to the Student Leadership and Activities office.
3. A copy of the Anti-Hazing Policy, rules and penalties is available to each student.
4. The college’s Anti-Hazing Policy shall be printed in the college Catalog.
5. A representative of the college will meet with each student organization at the beginning of each school year to review, discuss and answer all questions relating to the college’s Anti-Hazing Policy.

Any amendment to the college’s Anti-Hazing Policy, rules or penalties shall be submitted to the State Board of Education for its approval within ten (10) days after the adoption of such amendment.
TRESPASSING

Pensacola Junior College adheres to Florida law addressing the crime of trespassing. Although, as a community college, we are open to the general public, specific situations may constitute the crime of trespassing. In those cases, any law enforcement officer may arrest, either on or off the premises, and without warrant, any person whom the law enforcement officer has probable cause to believe has committed any of the specific offenses addressed in the following Florida laws:

- F.S.S. 810.08 Trespass in Structure or Conveyance
- F.S.S. 810.09 Trespass on Property Other than Structure or Conveyance
- F.S.S. 810.095 Trespass on School Property with a Firearm or Other Weapon Prohibited
- F.S.S. 810.097 Trespass Upon the Grounds of a School Facility: Penalties; Arrest

Florida State Statutes are accessible through the following website: www.flsenate.gov\Statutes\index.cfm. Additionally, an individual may be removed from campus for any applicable Board Policy and Procedure.

STUDENT MOTOR VEHICLE REGULATIONS

REGISTRATION

1. All students and employees operating motor vehicles on any Pensacola Junior College campus must register their vehicles at the time of class registration, or upon employment. Register in the PJC Police Department on any PJC campus.
2. Registered vehicles will be issued a PJC parking decal. To obtain a decal, the student must present a current student identification card (or receipt for fees paid) and a current vehicle registration. Employees must present a PJC ID or a copy of their contract, as well as their vehicle registration. There is no charge for parking decals. Vehicle registration procedures apply to part-time as well as full-time students and employees.
3. The decal shall be permanently affixed to the rear window (right side) or rear bumper (right side) so that permit is clearly visible from behind. Motorcycles and similar vehicles shall display the permit on the rear of the vehicle in a manner so that it is clearly visible from behind.
4. If a decal is lost, becomes illegible, or invalid due to expiration, it is the student’s and employee’s responsibility to immediately register the vehicle.
5. Decals are non-transferable.
6. The person who registered a vehicle, and was issued a decal for it, is at all times responsible for that vehicle, regardless of who is driving the vehicle. If the vehicle is sold, the decal should be removed.
7. Parking decals are subject to revocation by the Administration in the event of repeated violations of campus parking and traffic regulations.
8. Handicapped parking will be by decal issued by the state of Florida only. Contact the PJC Police Department for additional information.

PARKING REGULATIONS

1. Backing into or pulling through campus parking spaces is prohibited. The vehicle decal displayed on the rear of the vehicle must be visible from parking lot throughways at all times.
2. Student parking decals allow parking in all unmarked parking spaces and in areas with a white curb. Other curb colors are reserved as follows: Green curb — employee parking; Red curb — visitor parking; Blue curb — handicapped parking.
3. Reserved spaces are restricted Monday through Friday, 7 a.m. to 5 p.m. Handicapped parking spaces are reserved at all times.
4. If it is necessary to drive an unregistered vehicle on campus, contact the office where you received the decal. They will issue a temporary parking decal.
5. Visitor spaces are reserved for non-student, non-employee visitors.
6. If overnight parking is necessary, please notify the PJC Police Department.

TRAFFIC REGULATIONS

1. No person shall willfully fail or refuse to comply with any lawful order or direction of any Police Department employee with authority to direct, control, or regulate traffic.
2. Police Department employees shall place traffic control devices (signs, signals, markings), in compliance with state laws and city ordinances, as is deemed necessary for the safe regulations of traffic. No one will willfully fail or refuse to comply with such a traffic control device. No one will alter, deface, injure, knock down, or remove traffic control devices.
3. All drivers shall operate their vehicles in accordance with the traffic laws of the state of Florida while on Pensacola Junior College campuses.
4. No person shall drive a vehicle at a speed greater than is reasonable and prudent under the actual and potential hazards then existing, regardless of the posted speed limit. The speed limit on College Boulevard, Underwood Drive, and Airport and 12th Avenues is as posted. Congested areas and bad weather may require slower speeds. The speed limit in all campus parking lots and on all service or access roads is 10 MPH or as otherwise posted.
5. The driver of any vehicle involved in an accident resulting in injury or death of any person, or damage to the property of another, shall immediately stop the vehicle at the scene of the accident and remain there until the requirements below have been fulfilled:
- The driver shall render any aid possible to any person injured, including arranging for transportation of injured person to a hospital.
- The driver shall give his or her name and address, and the identification number of his or her vehicle, and shall, upon request, exhibit his or her driver's license to an officer of the PJC Police Department and/or to the person struck.
- The driver shall immediately notify the PJC Police Department and shall remain at the scene of the accident until an investigation is complete.
- If the accident involves a collision with an unattended vehicle, the driver shall immediately stop and notify the PJC Police Department.

**OTHER REGULATIONS AND PROVISIONS**

1. The parking and traffic regulations apply to motorcycles, motor scooters, and mopeds just as they apply to other vehicles.
2. Motorized vehicles operated by PJC employees are permitted to operate on campus sidewalks, as are vehicles for disabled persons. The pedestrians will always have the right of way.
3. Every operator and passenger of a motorcycle or motor scooter shall wear an approved safety helmet, as required by law, while the vehicle is in motion.
4. College vehicles on emergency business are exempt from the rules in this section.
5. Skateboarding, skating, rollerblading and riding scooters is prohibited in any PJC campus area.
6. The college assumes no responsibility for any damage to motor vehicles, or for any other loss, while the car is driven or parked on campus.
7. During special events, certain parking and/or driving areas may be restricted.
8. Bicycles will not be brought inside PJC buildings at any time.

**FUNDRAISING ACTIVITIES**

Only college-recognized organizations may conduct fundraising projects. Such organizations may sell on campus consumable goods, if prepared in accordance with health department regulations, as well as nonconsumable goods or services in order to raise funds for the support of activities, provided that this provision shall not be construed to allow the raising of funds for the support of activities or causes unrelated to the local college community, unless expressly authorized by the president or his/her designated representative. In the event that any controversy arises over whether a particular project is designed to raise funds for activities or causes unrelated to the local college community, or whether any item is improper for sale, the president or his/her designated representative shall resolve the controversy.

Any organization desiring to conduct a fundraising project on campus shall submit a written request describing the project to the appropriate Student Leadership and Activities office on the form available from that office at least two (2) weeks prior to the time that the organization desires to conduct the project. The completed form shall contain the signature of the organization's president and advisor, if applicable, when submitted to the appropriate Student Leadership and Activities office for consideration. The activity may commence only after approval by the provost or the provost's designated representative.

Solicitation of donations, directly or indirectly, for support of any cause shall not be permitted on campus unless written permission from the president or his/her designated representative is first obtained.

This provision shall not be construed to allow the sale of printed matter as a fund raising project. The sale of printed matter on campus is not permitted except within the operation of the college bookstores.

Fundraising projects must not conflict with other scheduled projects or programs and must be in accordance with local, state, and federal laws.

**SPEECH AND PUBLICATION GUIDELINES**

**Guest Speakers**

The freedom of speech and assembly guaranteed by the First and Fourteenth amendments of the United States Constitution shall be enjoyed by the students of PJC including the opportunity to hear off-campus or outside speakers on the college campus. Free discussions of subjects of controversial nature shall not be curtailed.

Students at PJC are expected to accept fully the responsibilities that accompany the freedoms of speech and assembly which they enjoy. When inviting an outside speaker, a student organization is charged with the responsibility of making a choice that reflects the students' genuine concern for the best interest and welfare not only of their own organization but of the college and the community as well.

Policies concerning the issuance of invitations to outside speakers shall be limited to the following:

1. A request to invite an outside speaker will be considered only when made by an organized student group recognized by the college.
2. Invitations by an organized group shall not be issued to an outside speaker without prior written concurrence by the president of the college, or such person or committee as may be designated by the president (such person or committee hereafter referred to as his/her authorized designee), for scheduling of speaker dates and assignments of campus facilities.
3. Any speaker request shall be made in writing by an officer of the student organization desiring to sponsor the proposed speaker no later than 10 calendar days prior to the date of the proposed speaking engagement. This request shall contain the name of the sponsoring organization, the proposed date, time and location of the meeting; the expected size of the audience; and topic of the speech. Any request not acted upon by the president, or his/her authorized designee, within five days after submission shall be deemed granted. A request made by a recognized organization may be denied only if the president or his/her authorized designee determines, after proper inquiry, that the proposed speech will constitute a clear and present danger to the institution's orderly operation by the speaker's advocacy of such actions as:
   a. The violent overthrow of the government of the United States, the state of Florida, or any political subdivision thereof;
   b. The willful damage or destruction, or seizure and subversion of the institution's buildings or other property; or
   c. The forcible disruption or impairment of, or interference with, the institution's buildings or other property; or
   d. The physical harm, coercion, intimidation or other invasion of lawful rights of the institution's officials, faculty members or students; or
   e. Other campus disorders of a violent nature.

In determining the existence of a clear and present danger, the president or his/her authorized designee may consider all relevant factors including whether such speaker has, within the past five years, incited violence resulting in the destruction of property at any state educational institution or willfully caused the forcible disruption of regularly scheduled classes or other educational functions at any such institution.

4. Where the request for an outside speaker is denied, any sponsoring organization thereby aggrieved shall, upon application to the president or his/her authorized designee, obtain a hearing within two (2) days following the filing of its appeal before the Student/Faculty Relations Panel for a de novo consideration of the request. The matter may be referred to the District Board of Trustees of PJC if the Student/Faculty Relations Panel believes that the request was improperly denied by the president. Any sponsoring organization aggrieved by the action of the Student/Faculty Judiciary or the District Board of Trustees in denying the request may obtain judicial review upon application at any court of competent jurisdiction, state or federal, by presenting its verified petition setting forth the grounds of complaint and giving adequate notice of such filing to the president. Upon a hearing to be conducted as soon as practicable, and at such time and place as the court may prescribe, the court shall either reverse or affirm the decision of the president as may be proper under the law and facts.
5. When the request for an outside speaker is granted and the speaker accepts the invitation, the sponsoring organization shall inform the president or his/her authorized designee in writing immediately. The president or his/her authorized designee may, at his or her discretion, require that the meeting be chaired by a member of the administration or faculty and may further require a statement to be made at the meeting that the views presented are not necessarily those of the institution or of the sponsoring group. In accepting the invitation to speak, the speaker assumes full responsibility for any violation of law committed by him while he is on campus.

Public Address Area

1. Students, faculty, administration, staff or non-students may use the address area for free speech, advocacy and recruiting any time the college is officially in session. The area used for this purpose on the Pensacola campus is defined as the triangle directly in front of the Student Center and bounded by the sidewalks. This area is identified on the campus map and does not include the sidewalks, which are used as boundaries. The address area on the Warrington campus is on the grass at the south side of the west entrance to Building 3600.

2. Although no prior request for use of the area need be made for extemporaneous expression, individuals reserving the use of the area have priority.

3. When reservations are made for use of the area, they will be made on a first-come, first-served basis by the appropriate Student Leadership and Activities Office.

4. Individuals using the speaker’s area during extemporaneous discussion must, as a matter of courtesy, yield the platform after a reasonable amount of time when others desire to speak.

5. Speech within the address area is subject to the regulations of the college and all local, state and federal laws. Individuals who use speech which defames another, which is obscene, or which constitutes a clear and present danger to the institution’s orderly operation may be enjoined by the college and such speech may provide grounds for action under the Code of Conduct. The provisions of the Code of Conduct apply to the address area as well as other areas of the campus.

Posting, Distributing, Exhibiting Printed or Filmed Material

Students may distribute free non-commercial literature within the public address areas set aside by the college. Tables and easels may be set in designated areas. In these areas, signs may be used in conjunction with the tables. Tables should be supervised at all times. In the event of congestion or unreasonable interference with the flow of students passing through the area, the provost or his/her designee may reasonably regulate such activity.

Non-commercial notices may be posted by students and registered student groups on all bulletin boards. All postings must be cleared through the appropriate office to avoid congestion and to obtain optimum use of facilities available.

Students are expected to use mature judgment and a sense of discretion in the publication, posting and distribution of any material on campus and to realize that they and their group or organization must accept responsibility for the consequences of their behavior. The president or his/her authorized designee may prohibit the distribution on campus of any material or publication or the showing on campus of any films containing obscene or defamatory matter, or containing matter which the president or his/her authorized designee reasonably believes would incite others to take action which would substantially disrupt or materially interfere with school activities.

Should the president prohibit the distribution of any film on campus, the student or recognized student group thereby aggrieved shall, upon written application to the president or his/her authorized designee, obtain a hearing within two days following the filing of the appeal before the Student Relations Panel. The appeal procedure shall be the same as provided in the case where the president denies a student organization’s request to invite an outside speaker to appear on campus.

Responsibility for editorial or other content of publications distributed on campus shall lie with the sponsoring agency, group, or organization. All publications distributed on campus should appropriately indicate that the opinions expressed therein are not necessarily those of the college or of the student body. The use of the college name, seal, or other official insignia in printed matter shall not imply that the college approves, supports, or endorses the contents.

1. All posting must be approved by the Student Leadership and Activities Office (Pensacola)/Student Services Office (Milton and Warrington).

2. Posting includes: posters, small banners, sheet banners hung between trees, stake signs, changeable signs, table tents, flyers, rolling signs, easel signs, and commercial advertisements.

3. Posting may be done two (2) weeks prior to any club/organization or PJC sponsored event including athletics, intramurals, homecoming, mid-term, organization week, and various elections.

4. Posting outlined in (2.) above may be done on all campus bulletin boards, in the gymnasium, and on the carpeted wall in the Warrington Student Services area.

5. No posting will be allowed on doors or glass or on building walls other than the gymnasium interior walls.

6. Any posting should be removed within one (1) school day after the event has taken place. It is the responsibility of those putting up the posting to take it down.

STUDENT RIGHTS

Basic Student Procedural Due Process Rights

In the administration of college policies and procedures, the fundamentals of basic due process shall be observed in the hearing and resolving of serious student complaints and in the adjudication of alleged student violations of those policies and procedures. Procedural rules shall be informal in nature and structured along basic fundamentals of fair play. Any decision by a college judicial body having original jurisdiction (Traffic Appeals Court, director of Student Life, or Office of the Provost) may be appealed to an appropriate higher judicial body as specified in the rules of that judicial body and in the “Appeals” and “Petition for Review of an Appeal” sections which follow.

Procedural Rights for Violations of the Student Code of Conduct

A student accused of violating the Code of Conduct shall be entitled to the following procedural rights in any formal hearing. Procedural rules established for the college judicial body reviewing the alleged infraction shall also apply.

1. Written notification of the alleged violation, specifying the rule, regulation or section of the Code of Conduct involved.

2. Written notification of the time and place of the hearing, mailed to the student at the last known address (by certified mail with return receipt requested), at least five (5) days in advance of the hearing; or delivered to the student at least 72 hours in advance of the hearing.

3. The student shall be entitled to appear in person and to present his or her defense to the judicial body and may call witnesses in his or her behalf. If the student does not appear and has not provided satisfactory justification to the judicial body for non-appearance, the hearing shall be held in the student’s absence.

4. The student shall be entitled to be accompanied by counsel of his or her choice. Student must notify the director of Student Life a minimum of five (5) days in advance of the hearing if counsel will be present.
The Traffic Appeals Court shall adopt rules of procedure for the hearing of cases over which it has jurisdiction.

4. **Penalties.** If a student is found guilty of violating a Student Motor Vehicle Regulation, the Traffic Appeals Court shall impose the penalty for such violation as set forth by the Department of Campus Police in the student traffic and parking regulations (see “Student Motor Vehicle Regulations”).

5. **Appeals.** If a student is found guilty by the Traffic Appeals Court, he or she may petition the director of Student Life for review of the decision.

6. In the absence of Traffic Court, the director of Student Life will resolve traffic ticket appeals.

### Director of Student Life

1. **Jurisdiction.** The director of Student Life shall have original jurisdiction over all cases involving an alleged violation of the Code of Conduct and any rules and regulations established by the District Board of Trustees.

2. **Referral.** Cases involving alleged violations of a college rule or regulation may be referred to the director of Student Life by any student, faculty member, member of the administration or Campus Police.

3. **Penalties.** The director of Student Life or his or her designated representative, after conducting an informal or summary hearing in which the student is given an opportunity to be heard, may:
   - Suspend a student for up to ten (10) school days;
   - Give a formal reprimand and/or place the student under conduct probation with conditions;
   - Assign campus service hours;
   - Refer the student to the provost or designee for a formal hearing of the charges.

4. **Appeals.** If a student is found guilty by the director of Student Life, he or she may appeal the decision to the appropriate Office of the Provost or designee.

### The Office of the Provost

1. **Jurisdiction.** The appropriate Office of the Provost or designee shall have appellate jurisdiction over all cases involving an alleged violation of rules and regulations established by the District Board of Trustees and original jurisdiction in all cases referred to it without hearing by the director of Student Life.

2. **Hearing Procedures.** In the case of a formal hearing, the provost or designee will chair a one-time panel comprised of three students and three faculty members, none of which shall have any direct connection with the parties involved. A formal hearing panel will then convene within 10 working days to hear testimony from all parties. The panel members will then meet in closed session and decide (via secret ballots by simple majority) the guilt or innocence of the student and penalties if found guilty.

3. **Penalties.** After hearing a case in which the student is found guilty of violating a college rule or regulation, the hearing panel may impose the following penalties:
   - Formal reprimand;
   - Conduct probation with conditions;
   - Campus service hours;
   - Suspension from the college;
   - Expulsion from the college.

4. **Appeals.** If the student is found guilty by the formal hearing panel of violating a college rule or regulation, he or she may appeal the decision to the president.
STUDENT GRIEVANCE PROCEDURE

The purpose of the grievance procedure is to provide, at the lowest possible level, a means to mediate a fair and equitable solution to any complaint other than grade disputes (including Title IX and Section 504) that a student may have with a faculty member. If the grievance involves any alleged discrimination or harassment, the student may consult with the associate vice president for Institutional Diversity. This procedure will not involve itself in any dispute in which the student is accused of a violation of the honor pledge or infraction of any rule or regulation governing the conduct of students, as set down by the institution.

The time limit indicated throughout this procedure should be considered as maximum, and every effort should be made to expedite the process. However, the time limits may be extended by mutual consent of the parties concerned.

Any student who has a grievance with a member of the faculty that has not been resolved to his or her satisfaction may take the following steps to resolve the issue:

Informal Procedure
I. Within 60 days or less of the incident, the student should discuss the grievance with the department head to attempt to resolve the problem.

II. After the initial discussion with the appropriate department head, if the grievance is still not resolved, the student may discuss the grievance with (1) the appropriate dean, (2) then, the campus provost or designee, (3) and finally, the director of Student Life.

Formal Procedure
I. If, as a result of informal discussion, the grievance is still unresolved, the student may file a Formal Grievance Petition by outlining the grievance in writing on a prescribed form available from the Student Life Office on the Pensacola campus, Room 510.

II. Within one calendar week of filing of the formal grievance, the director of Student Life shall transmit the completed Formal Grievance Petition form and documentation to the Student-Faculty Relations Panel.

III. The Student-Faculty Relations Panel will schedule a hearing within two calendar weeks of the petition filing. The student will receive notification at least five days in advance of the grievance hearing, and should appear at the hearing to present information and to call witnesses. Information and testimony in the hearing are limited to the scope of the complaint and the information provided during the informal process in steps I-II above.

IV. It is agreed that each party of a grievance shall furnish the other with any information in his or her possession which may be legally released and is necessary for the processing of grievances or complaints.

V. The Student-Faculty Relations Panel will recommend a solution to the complaint to the president, in writing, within one calendar week after the hearing.

VI. The president or his or her designee will provide a written decision to the student within two calendar weeks of the receipt of the panel’s recommendation.

VII. No reprimands of any kind shall be taken against any student for participation in any grievance.

VIII. Nothing in this procedure shall be construed to deny to any student any rights or benefits guaranteed by law.

IX. A grievance may be withdrawn at any level by the student filing the grievance.

X. All documents, forms, communications, and records dealing with a grievance shall be filed separately from the permanent record files of the participants. A copy of the formal grievance and its final disposition will be filed in the office of the director of Student Life.

XI. The student shall be entitled to be accompanied and advised by counsel or other representative, but they may not participate in the hearing.

XII. All hearings are closed.

Grade Disputes

The director of Student Life is to be contacted for proper procedures to be followed for resolving grade disputes at 484-1689, or at Room 510 on the Pensacola campus Student Center, Building 5. The student has 10 working days from when the student’s grades are posted on the PJC website to initiate a grade grievance. After the 10 day period, the student loses the right to file a grievance and no other administrative remedy or campus option is available.

Academic Appeals

See Academic Regulations and Policies for appropriate procedures in petitioning for reinstatement in a class, appealing an academic suspension or dismissal, and appealing any college policy (graduation, late withdrawal, etc.)

OFFICIAL STUDENT GRADE GRIEVANCE PROCEDURE

In order to institute this grade grievance procedure, the student will be prepared to show that course or grade requirements were not clearly explained in the course syllabus, requirements were not uniformly applied, requirements were changed without sufficient notice or for capricious reasons, the instructor’s data was not accurate, the final course grade could not be reasonably derived from data given, and/or prejudice affected assignment of the grade.

The outcome of the process may be that the assigned grade will stand, assignment of the grade will be postponed until some agreed upon work has been completed, another grade will be substituted for the one originally assigned, or a compromise fitting the specific situation is reached.

In the event that the faculty member who assigned the grade is no longer employed by the college (due to resignation, retirement, or death), a faculty member from the same program/discipline will serve in the stead of the original faculty member. This substitute faculty member will be selected by a vote of the faculty members and the department head in the affected department/discipline.

In the event that the faculty member who assigned the grade will be returning to his or her position at the college but is temporarily away for longer than 10 days, the faculty member will be notified by his or her department head of the impending action. Unless the faculty member agrees to be available to meet earlier, or has an alternate solution, the time lines below shall be amended so that the initial 10 days provided in Step One will not begin until the faculty member returns from the temporary absence. If however, the Step Two deadline would be delayed longer than 30 calendar days, another full-time faculty member or administrator shall be designated to substitute. If the faculty member is unable to identify a substitute who is willing and able to fill this role, the department head shall serve as the substitute.

Informal Student Grievance Process

Step One
Within ten (10) working days of when the student’s grades are posted on the PJC website, the student shall meet with the faculty member and present data to support his or her assertion.

Step Two
Within ten (10) working days, the faculty member must give fair hearing to the student’s claim and consider the data in an attempt to resolve the issue. In the event that the resolution is not satisfactory to the student, the student may proceed to Step Three.

Step Three
The student may meet with the department head and present data to support his or her assertion in the dispute. The department head must then meet and discuss the dispute with the faculty member. The department head must then attempt to resolve the dispute within ten (10) working days. In the event that the resolution is not satisfactory to the student, the student may proceed to Step Four.
Step Four  The student may meet with the dean and present data to support his or her assertion in the dispute. The dean must then meet and discuss the dispute with the faculty member. The dean must then attempt to resolve the dispute within ten (10) working days. In the event that the resolution is not satisfactory to the student, the student may proceed to Step Five.

Formal Student Grievance Process

Step Five  Within ten (10) working days of when the student is notified of the dean’s response, the student may begin the formal grievance process by outlining the grievance in writing and presenting the petition to the campus provost. The campus provost will chair a one-time panel also including three students and three faculty members, none of whom shall have any direct connection with the parties involved. At least one of the student members and at least one of the faculty members must be from a related discipline in which the grade is being disputed. In the event that there is no related discipline, at least one student member and at least one faculty member shall possess demonstrated knowledge of or experience with the discipline area involved in the grade dispute. In the event that the campus provost was the administrator involved in Step Four, a chair for the panel will be selected by the vice president for Academic Affairs.

The panel chair will call a formal meeting within ten (10) working days during which the panel will hear from all parties. Information and testimony in the hearing are limited to the scope of the complaint and the information provided during the informal process outlined in Steps One through Four above. The panel will then meet in closed session and reach a decision via secret ballot.

The panel chair will recommend the solution decided upon by the panel to the vice president for Academic Affairs, in writing, within ten (10) working days.

Step Six  The vice president for Academic Affairs will review the process followed and the recommendation made. Within ten (10) working days of receipt of the recommendation, the vice president for Academic Affairs will notify the faculty member in writing of the resolution of the grievance, with a following communication to the student. In cases where the panel chair was not the campus provost, the chair will communicate the decision to the provost. The vice president for Academic Affairs will direct that a grade substitution, if any, be made along with any other panel recommendations that are concurred with.

GENERAL CONDITIONS OF ADMITTANCE

Any high school graduate or adult who can profit from additional educational experiences may be admitted to Pensacola Junior College provided he/she meets the requirements for enrollment in the particular program and for continued attendance as set forth in this catalog.

Any applicant may be denied admission or be admitted with restrictions if evidence indicates that he/she has participated in activities that violate standards provided in the Code of Conduct. (See Conduct.)

Falsification or failure to furnish correct information on admissions documents may result in denial of admission or dismissal.

GENERAL ADMISSION PROCEDURE

The procedure for freshman or transfer students seeking admission to Pensacola Junior College is as follows:

1. Obtain an Application for Admission from any admissions office on the three campuses or two centers as well as online at www.pjc.edu or online at wwwFACTS.org.
2. Submit the Application for Admission to any admissions office or submit the FACTS application online.
3. Pay the non-refundable application fee. A check or money order in the amount of $30 must accompany the Application for Admission. Students may pay by credit card (MasterCard or Visa), and the credit card information should be indicated as requested on the application form.
4. Consult the College Academic Calendar in this catalog or online at www.pjc.edu for important admission and registration dates.
5. Complete the College Placement Test (CPT). See Entry-Level Testing for additional information regarding placement testing.

International students must contact the District Office of Admissions and Registration for information particular to the admission of individuals on a student visa. See International Students.

ENTRY-LEVEL TESTING

All associate degree students are required to satisfy college placement requirements. Transfer students with grades of “C” or better in college-level courses in mathematics and English will not be required to submit placement test scores.

Placement tests are not used for admission purposes but are utilized to determine the appropriate placement in college-level English and mathematics courses. Students may provide scores from either the Scholastic Aptitude Test (SAT) or the American College Test (ACT) if the test was completed no more than two years prior to enrollment. No student will be permitted to enroll in any college credit English, mathematics, or any course having an English, mathematics, or reading prerequisite, without meeting the state of Florida mandated minimum scores on the placement test.

Students who have not completed either the SAT or the ACT with an appropriate score are required to take the College Placement Test (CPT) prior to registration. The CPT is administered by college personnel at convenient times for students and without additional fees. Skill assessment via the Test of Adult Basic Education (TABE) is required of students enrolling in certain certificate programs. The test must be taken within the first few weeks of the student’s first term in the program, and testing will be coordinated by the program director.

ASSOCIATE DEGREE ADMISSION
First-Time in College

An applicant for admission to an associate of arts, associate of science, or associate of applied science program must be a high school graduate and may be admitted with one of the following:

1. Florida High School Diploma
   Florida high school graduates must have earned the standard high school diploma. The International Baccalaureate (IB) diploma is considered a standard high school diploma for the purposes of admission. The Florida Certificate of Completion and the Florida Special Diploma are not considered standard high school diplomas unless the Certificate of Completion was awarded as a CPT-eligible Certificate. The CPT-eligible designation will be indicated on the student’s transcript.

2. Other High School Diploma
   Non-Florida high school graduates, individuals who have earned a high school diploma from a non-accredited high school, or those who have been issued a diploma at the completion of a high school correspondence program, are eligible for admission. An official high school transcript with high school graduation date indicated is required.

3. High School Equivalency Diploma (GED)
   Students are eligible for admission who have the General Education Development (GED) diploma. An official GED Score Report is required.

4. Home Education Graduate
   Students who have completed a home education program (home school) are eligible for admission as high school graduates. A home-schooled student must provide an affidavit signed by a parent or legal guardian attesting that the student has completed a home education program pursuant to the requirements in Florida Statute 252.02(4). The affidavit for this purpose is available in any admissions office.

NON-GRADUATE APPLICANTS

Applicants who graduate from a Florida public school with the Certificate of Completion or the Special Diploma will not be considered graduates for admission purposes and will not be eligible for classification as an associate’s degree student. See Non-degree Student. (Exception: the CPT-eligible Certificate of Completion.)

Individuals who have not graduated from high school (or who have graduated with the Special Diploma or the Certificate of Completion without the appropriate code designating college admission eligibility) must contact the District Office of Admissions and Registration for enrollment information. Special Student admission may be permitted. The Special Student will be permitted to accumulate 15 credit hours while classified as a Special Student. Enrollment beyond the 15th credit is dependent upon earning the GED high school equivalency diploma. See Non-degree Student Admission.

Applicants who have not graduated from high school (or who graduated with the Special Diploma or the Certificate of Completion) but who have earned 12 college credits at a regionally accredited postsecondary institution other than Pensacola Junior College are eligible for freshman admission.

Non-graduate applicants may be eligible for vocational credit admission. See Vocational Credit Admission.
ASSOCIATE DEGREE ADMISSION

Transfer Students

Students are admitted as transfer students if they have previously attended a college or university accredited by one of the six regional accrediting associations. The transfer student must request an official high school transcript, an official GED score report, or submit the Home Education Completion Affidavit, whichever is appropriate, in addition to transcripts from previously attended colleges and universities. The transcripts are to be sent directly to the District Office of Admissions and Registration. Transcripts marked “issued to student” will not be accepted. All credits attempted at the freshman- and sophomore-level at regionally accredited institutions will be recorded as transfer credits. An accepted transfer course satisfies general education requirements for the associate’s degrees only if the course is essentially the same as a corresponding Pensacola Junior College course satisfying those requirements. Final determination of transfer credits and course equivalency is made by the college registrar. The evaluation process is normally completed within six weeks of transcript receipt, and the student will be mailed the results of the evaluation.

Transfer students who have not earned college-level credit with grades of “C” or better in English, mathematics, and algebra will be required to satisfy the placement testing requirements. If the transcript is not available at the time of registration, the student will be permitted to register without placement testing. However, all transcripts must be received during the first term of enrollment.

Remedial coursework from non-Florida colleges or universities will not be accepted in lieu of placement test scores.

Students who have completed college-level courses in other countries will not be required to submit transcripts. However, if the student wishes to have this credit considered for transfer purposes, the student will be responsible for securing the evaluation services of a recognized credentials evaluation agency. Information regarding this process may be obtained in any admissions office.

The recommendations made by the credentials evaluation agency will be considered, and coursework may be accepted provided the courses are at the freshman and sophomore levels and equivalent to courses offered at PJC.

College credits for English composition courses earned abroad will be considered provided the courses were not offered in the English as a Second Language format and provided the student is classified as a non-degree seeker.

Limited college-placement test scores indicate readiness for ENC1101 English Composition I. College credits for mathematics courses will be considered provided the student’s placement test scores indicate readiness for MAC1105 College Algebra.

Grades of “D” and “F” will be accepted for transfer under the terms of the State Articulation Agreement and State Board of Education Rules.

Credits earned more than 20 years prior to enrollment at PJC may be subject to review as equivalent courses for transfer purposes.

Financial aid recipients and students receiving veterans benefits must have official transcripts from previously attended institutions evaluated for transfer credit prior to the certification for aid.

Coursework from non-accredited colleges and universities will not be accepted. A student earning credits at non-accredited colleges and universities will be offered the opportunity to challenge course content through the Departmental Exemption Examination process.

Students in good standing at other colleges or universities may be admitted as transient students to take courses for transfer back to their home institutions. A transient form and the parent institution’s willingness to accept the credits earned. The transient form or other written authorization is required prior to registration for classes. Testing requirements may be in place for the transient student. See Non-degree Student Admission.

READMISSION OF FORMER STUDENTS

Former PJC students who have not attended credit courses within the preceding 12 months must complete a readmission form. Any additional information that may be required to meet current enrollment requirements will be identified at that time.

VOCATIONAL CREDIT ADMISSION

1. Individuals who have graduated from high school are eligible for certificate programs.
2. Individuals who have not graduated from high school but are at least 16 years of age and legally withdrawn from a regular school system may be admitted into certificate programs provided the specific program does not require high school graduation.
3. Unless required by the particular program, transcripts are not required.

LIMITED-ACCESS PROGRAM ADMISSION

In order to meet certification and professional accreditation standards, certain PJC programs carry additional admissions requirements. Student should contact the appropriate departments for details. These programs include the following: Registered Nursing, Zoo Animal Technology, Dental Hygiene, Diagnostic Medical Sonography, Emergency Medical Services, Health Information Management, Physical Therapy Assistant, Radiography, Respiratory Therapy, Dental Assisting, Health Unit Coordinator, Massage Therapy, Medical Assisting, Practical Nursing, Surgical Technology, General Sonography Specialist, Medical Information Coder/Biller, Paramedic, Emergency Medical Technology, Medical Coder/Biller.

NON-DEGREE STUDENT ADMISSIONS

Non-degree seeking students take courses for job improvement or personal enrichment but do not seek associate’s degrees or certificates. Enrollment in courses is allowed provided the student meets the testing and prerequisite requirements for the course. Other limitations or exceptions with respect to financial aid, veterans benefits, counseling, and advisement may pertain to this classification. Enrollment in courses that are part of a selective program usually is not approved.

COLLEGE GRADUATES

Students who have earned a bachelor’s or higher degree are eligible for enrollment in any course unless that course has restricted admission. Transcripts and placement testing are not required provided the student is classified as a non-degree seeker.

TRANSIENT STUDENTS

Students pursuing degrees at other colleges or universities may be admitted as transient students to take courses back to their home institutions. A transient form from the home institution or some other written authorization is required indicating the specific course(s) to be taken and the parent institution’s willingness to accept the credits earned. The transient form or other written authorization is required prior to registration for classes. Testing requirements may be in place for the transient student.

SPECIAL STUDENT ADMISSION

The Special Student admissions classification is designed for those students enrolling in credit courses without the high school diploma or its equivalent. The Special Student must be at least 18 years of age and not currently enrolled in a high school program. The Special Student is permitted to accumulate 15 credit hours in this status. The non-graduate Special Student will be encouraged to earn the GED diploma during the first term of enrollment in credit courses and will be required to have the GED diploma to continue enrollment beyond 15 credit hours. After earning the GED diploma, the Special Student may request to change from non-degree seeking to degree-seeking status or continue as a non-degree seeking student.

AUDIT STUDENTS

Students who plan to take a course as audit must meet PJC admission and course placement requirements. Audit students must declare the audit status prior to the end of the schedule adjustment period by completing an “audit request” form at any registration office. Audit students are assessed fees.
INTERNATIONAL STUDENTS

Individuals who plan to attend Pensacola Junior College while in the United States on any visa other than the F-1 Student Visa should contact the District Office of Admissions and Registration to determine eligibility. If eligibility is approved, the student will follow the same admission requirements as a United States citizen or permanent resident alien.

Individuals who will require the F-1 Student Visa, including those who are transferring the F-1 Visa from another institution to Pensacola Junior College, must present the documentation listed below. Please keep in mind that official copies of all documentation are required. No exceptions will be made to this requirement.

International mail delays, transcript verifications, Bureau of Citizenship and Immigration Services (BCIS) regulations governing the issuance of the Immigration Form I-20, consular appointments, etc., must be anticipated.

The credentials of an applicant from a foreign country are evaluated in accordance with the general regulations governing admission of freshmen and transfer students as well as guidelines established by the American Association of Collegiate Registrars (AACRAO) and the National Association of Foreign Student Advisors (NAFSA). Required application papers and credentials include the following:

A. INTERNATIONAL STUDENT APPLICATION FOR ADMISSION

The International Student Application Packet is available from any admissions office.

B. SECONDARY SCHOOL RECORDS

Official copies (transcripts) of secondary school records and, when applicable, certified translations in English are required.

C. COLLEGE TRANSCRIPTS

International students who have completed college-level work at an institution in another country and wish to receive transfer credit for that work will be required to purchase the services of a recognized credentials analyst. The student will pay fees associated with this service directly to the evaluation agency, and PJC will not be involved in the financial transaction. Applications for this service are available in any admissions office.

D. FINANCIAL SUPPORT DOCUMENTATION

An official statement from the applicant’s (or sponsor’s) bank or other financial institution or a statement from a sponsoring government agency, if applicable, verifying the availability of sufficient funds for tuition, matriculation, books, and living expenses, etc., must be submitted. All monetary amounts must be indicated in United States dollars.

E. LANGUAGE PROFICIENCY

For those international applicants whose native language is NOT English, the Test of English as a Foreign Language (TOEFL) will be required. The minimum score acceptable for admission is 500 (on the paper-based exam) and 173 (on the computer-based exam). An official TOEFL score report must be sent directly to the District Office of Admissions and Registration from the testing agency. PJC’s school code for this purpose is 5535.

Students who have not taken the TOEFL but have completed an English Language School (ELS) through Level 109 will be considered. An official ELS transcript must be sent directly to the District Office of Admissions and Registration from the testing agency or the institution offering the ELS program.

No exceptions will be made to these requirements for language proficiency.

F. MEDICAL INSURANCE

Health insurance with hospitalization coverage is required. Evidence of a health insurance policy valid in the United States and covering the period of enrollment must be documented prior to registration.

When all admissions documents, academic credentials, financial documentation, and test results are on file, the Immigration Form I-20 will be submitted through SEVIS (Student and Exchange Visitor Information System of U.S. Immigration and Customs Enforcement). Once processed, the Form I-20 will be sent to the accepted international student.

International students are required to contact the foreign student counselor for advising and selection of classes.

APPLICATION FORMS AND ACADEMIC CREDENTIALS

All application forms and academic credentials should be on file well in advance of registration. Students with incomplete admissions files will be granted provisional admission for the initial term of enrollment. Registration beyond the first term is dependent upon receipt of all required documents. PJC transcripts or other data will not be released for those students with incomplete admissions files.

A. APPLICATION

New students must submit the completed application form. Former students who have not attended in the previous 12 months must submit the completed application to update their permanent record. New students will be assessed the $50 non-refundable application fee.
B. RESIDENCE STATEMENT

An applicant claiming Florida residence for tuition purposes must file a written statement that he/she is entitled to classification as a Florida resident for tuition purposes. Applicants who do not meet the criteria for residence established by Florida law and those who are legal residents of another state must complete the Residence Statement indicating their status. See Florida Residency Classification.

C. EDUCATIONAL RECORDS (TRANSCRIPTS)

1. Freshman Students
   a. Official documentation showing high school graduation,
   b. Receipt of the GED high school equivalency diploma, or
   c. Completion of a home education program is required.
2. Transfer Students
   In addition to the documentation showing high school graduation (see above), the transfer student is required to have official transcripts sent from each college and/or university attended.
3. Limited Access Program Applicants
   All educational records must be on file well in advance of any application deadline for the program.
4. Special Students and other Non-degree Seekers
   Transcripts may not be required for the individual who has requested classification as a special student or a non-degree seeker.
5. College Graduates
   Transcripts will not be required for the individual who has earned a bachelor’s or higher degree unless a degree from PJC is sought.
6. Transient Students
   Transcripts will not be required for the transient student returning to another institution after enrollment in a PJC course. A Transient Student Authorization Form or some other written statement of enrollment approval is required each term of enrollment.

FLORIDA RESIDENCY CLASSIFICATION

PJC students will be classified as Florida residents or non-Florida residents for tuition assessment purposes. The criteria for determining residency status are detailed in the Florida Statutes and the administrative rules of the State Board of Education. Detailed information for residence classification is available in the District Office of Admissions and Registration. The Residence Statement, included on the Application for Admission, is required of all students and returning students with an absence of 12 months or more.

A student’s residency classification is determined at the time of admission. A non-resident may request reclassification after establishing residency in Florida as determined by law.

The law allows a United States citizen or permanent resident alien to be classified as a Florida resident if the student, or dependent student’s parent or legal guardian, has been a legal resident of the state of Florida for at least 12 consecutive months immediately preceding the first day of classes for the term in which classification as a Florida resident for tuition purposes is desired. Living in Florida, attending school in Florida, or property ownership in Florida does not, in and of itself, establish residency for tuition purposes.

A dependent student is any student who is eligible to be claimed as a dependent for Internal Revenue purposes. Therefore, any student who is under the age of 24 will be considered a dependent student, and the dependent student’s status will be based on the residence status of a parent or legal guardian. A parent or legal guardian must complete the Residence Statement. The Residence Statement for the independent student must be completed by the student and submitted with the appropriate documentation. Any student who is under the age of 24 and can document independent status by presenting evidence that he/she is not claimed as a dependent by another person and is filing his/her own income taxes with an annual income that indicates the ability to be self-supporting may be considered as an independent student.

Florida Statutes allow some applicants who have not met the 12-month residence requirement to be classified as Florida residents for tuition purposes. These exceptions are listed below:

1. A student who intends to make Florida his/her permanent home and is married to an individual who meets the requirements for classification as a resident for tuition purposes
2. Active duty servicemembers of the United States stationed in Florida (spouse and dependent children included)
3. Active duty servicemembers of the United States not stationed in Florida but whose legal state of residence certificate (DD2058) is Florida (spouse and dependent children included)
4. Full-time instructional and administrative personnel employed by the state public school system, community college system, or university system (spouse and dependent children included)
5. A dependent child who has lived with an adult relative (who is not a parent or legal guardian) for at least five years
6. Persons who were enrolled as Florida residents at a state institution of higher learning, but who abandon Florida residency for less than one year
7. Latin American/Caribbean Scholars
8. United States citizens living on the Isthmus of Panama who have completed 12 consecutive months of college-level coursework at the FSU Panama Canal Branch (spouse and dependent children included)
9. Full-time employees of state agencies or political subdivisions of the state when the student fees are paid by the agency or subdivision for the purpose of job-related law enforcement or corrections training
10. Qualified beneficiaries under the Florida Pre-Paid Postsecondary Expense Program as provided in Florida Statute 240.551(7)(a)

When claiming Florida residency by virtue of one of these exceptional categories, documentation must be submitted to substantiate eligibility.

ALABAMA TUITION DIFFERENTIAL

The Florida Legislature allows the state community colleges the option of providing Alabama residents a different tuition assessment for postsecondary classes. The Alabama Tuition Differential will be assessed in addition to the current in-state tuition; that is, the eligible Alabama student will pay the current in-state tuition and an additional $1.15 per credit hour.

To be eligible for the Alabama Tuition Differential, the Alabama resident must have maintained legal residence in the State of Alabama for the 12 months immediately preceding the first day of classes in the term for which the differential tuition assessment is requested. The residence status of a dependent student is considered to be that of the parent or legal guardian of the student. A dependent student is any person who is eligible to be claimed by another person for Internal Revenue purposes. If the student requesting the Alabama Tuition Differential is under the age of 24, PJC will assume that the student is a dependent, and the parent/legal guardian must request the Alabama Tuition Differential for the dependent.

An Alabama resident who has not met the 12-month residence requirement but is married to an individual who has otherwise met the requirement may base his/her status on the eligible spouse.

Prospective students interested in the assessment of the Alabama Tuition Differential may request that classification in a registration office at any campus or center.
ADULT HIGH SCHOOL PROGRAM

An individual may be admitted to the PJC Adult High School program if he/she is an adult, 16 years of age or older, according to Florida School Law. No exception shall be made to this age requirement.

Students enrolling from the Escambia County (Florida) and Santa Rosa County school districts must present a ‘Letter of Good Standing’ stating that the student is in good standing and eligible to continue enrollment in that school district. Students who have been suspended or expelled from an Escambia County (Florida) or Santa Rosa County school may be denied admission to the Adult High School program. Additionally, students placed in alternative programs or charter schools may be denied admission to the Pensacola Junior College Adult High School program.

The Adult High School applicant must be capable of profiting from the instruction as determined by standardized tests and/or other appropriate criteria. The Test of Adult Basic Education (TABE) may be required, and a PJC Test Center representative will administer that test. The student will pay fees associated with this testing.

The applicant should bring an official transcript from his/her previous high school (in a sealed envelope) for appropriate placement in courses. If the official transcript is submitted at the time of application, the document will be accepted for admission purposes. If not, the student must request an official transcript to be sent to the District Office of Admissions and Registration before the student's second term of enrollment.

The Adult High School program is designed to provide a means for adults residing in Florida to earn the high school diploma. Alabama residents, or residents of any other state, will be required to pay the full cost of instruction for courses in the Adult High School.

APPLICATION FORMS AND ACADEMIC CREDENTIALS FOR THE ADULT HIGH SCHOOL PROGRAM

APPLICATION FORM

The application form is available at the Adult High School (Building 11, Pensacola campus) or the District Office of Admissions and Registration (Building 2, Pensacola campus).

STATEMENT OF RESIDENCE

Verification that the applicant to Adult High School is a resident of the state of Florida will be required. Non-residents will be required to pay the full cost of instruction for courses in the Adult High School.

PARENT AGREEMENT FORM

Applicants under the age of 18 must have the agreement of a parent or legal guardian for enrollment in the PJC Adult High School program. This statement of agreement is included on the Application Form.

TRANSCRIPT

Official copies of transcripts from previously attended high schools must be on file before registration in a second term will be permitted.

HOME EDUCATION PORTFOLIO

Students who have been enrolled in a home-school education program will be required to submit portfolios for evaluation and the awarding of previously earned high school credits. A $30 portfolio evaluation fee will be required for each course review.

The application process must be completed prior to any registration. Contact the Adult High School for dates, times, and other registration information.

SERVICEMEMBERS OPPORTUNITY COLLEGE (SOC)

Pensacola Junior College supports the education of the country’s servicemembers and their family members. A SOC agreement allows a student to complete his/her degree from PJC after leaving Pensacola. Students must fulfill the College’s academic residency requirement of 15 credits of PJC courses. PJC’s Distance Learning courses may be used to meet academic residency. A SOC agreement allows the servicemember or family member 10 years to complete their PJC degree requirements. Credits not completed at PJC or through PJC’s Distance Learning courses can be completed at any regionally accredited institution. Completing the remaining credits is easy; go to any regionally accredited institution, complete the classes, and transfer the credits back to PJC. Information is available in the District Office of Admissions and Registration or at http://www.soc.aascu.org/. Each campus or center has a SOC point of contact.

RESERVE OFFICER TRAINING CORPS (ROT C)

PJC, in cooperation with the University of West Florida, offers the Army ROTC program. Army ROTC is a challenging series of college electives that teach leadership and management skills. The program prepares both men and women for responsibilities as Second Lieutenants in the active Army, Army Reserve, or Army National Guard upon graduation. Students may pursue any course of study that leads to a BA or higher degree. Qualified students may compete for two, three and four-year ROTC scholarships. A student does not have to be on scholarship to be in ROTC. Anyone attending college as a full-time student can take freshmen or sophomore ROTC classes with no commitment required. For further information please contact rotc@pjc.edu or Major Steve Duckworth at (850) 474-2323. Please note: ROTC contains adventure activities such as paintball, helicopter rides, water survival and rappelling. Physical fitness activities are required and are incorporated into the grade structure.

CHANGE OF POLICY AND DENIAL OF ADMISSION

The College reserves the right to deny admission to any applicant and to change any of the rules, courses, regulations, and charges without notice.

The admission of any student may be postponed or denied if the student has been convicted of or is under investigation for violation of local, state, or federal statute. Falsification of information on any admission paper may result in denial of admission or immediate dismissal from the college.

Pensacola Junior College
REGISTRATION AND CREDITS

GENERAL PROCEDURES

Registration is required before a student can attend classes. Registration is held several times during the year and is available in several formats to meet the needs of our students. The Class Schedule Booklet is distributed to all addresses in Escambia County and Santa Rosa County several weeks in advance of a term. The website, www.pjc.edu, will display the college’s course offerings.

WEB REGISTRATION

Online registration at www.pjc.edu is available to returning students. Information will be posted on the College’s website and published in the Class Schedule Booklet for registration dates and times.

CAMPUS REGISTRATION

Students may register in person at any student service office or with a departmental academic advisor. Registration dates and times will be posted on the College’s website and posted in the Class Schedule Booklet for registration dates and times.

LATE REGISTRATION

Late registration begins on the first day of classes, and students will be assessed a $25 late registration fee.

All new degree-seeking students must complete placement testing requirements and attend an orientation session prior to registration. See Entry-level Testing. Orientation will be scheduled after testing or can be scheduled through a counseling office on any campus or center. Orientation is also available online, and information regarding the online orientation process may be obtained from a counseling office on any campus or center.

Students must be officially registered, including payment of fees, before attending any class.

WITHDRAWAL OR CHANGE TO NON-CREDIT

A student may choose to withdraw from a course or request a change to non-credit through the 70th percent point of the course. The last date to withdraw from a class will be published in the academic calendar in this catalog and on the PJC website. For off-term classes, the last date to withdraw will be the 70th percent point of the course, and information regarding the last date to withdraw may be obtained from the instructor of the off-term class. Financial aid and veterans benefits eligibility may be affected by withdrawing from a course. Students must process an official withdrawal with a member of the Office of Financial Aid/Veterans Affairs/Scholarships.

Students must process an official withdrawal from any class and should not expect the instructor to process a withdrawal for them. Students are encouraged to discuss any withdrawal with the instructor prior to withdrawing. Ceasing attendance does not guarantee a withdrawal. Students can be assured of receiving a grade of “W” only when the student processes an official withdrawal.

After the 70th percent point of the course, a student may not withdraw from a class and an instructor cannot withdraw a student from a class. A grade of “F” or “N” (for college preparatory courses) will be assigned.

The college may withdraw students for excessive absences, failure to pay fees, failure to meet conditions of admission, or for violations of the PJC Code of Conduct. Students who have been withdrawn for excessive absences or non-payment of fees may petition the Admissions Committee for reinstatement. Information regarding the Admissions Committee’s procedures for reinstatement appeals may be obtained in any admissions office.

A student is permitted two attempts of any course. A student will not be permitted to withdraw from the third attempt of a course and will receive a grade for the course. If a student in a third attempt stops attending, the instructor must assign an “F.”

Early “F”

Students who stop attending a class after the 70th percent point, stop attending a class in which the instructor does not process withdrawals, or who stop attending a third attempt of any course may be assigned an “Early F.”

PASS/FAIL OPTION

A student may choose to enroll in a course using the Pass/Fail Option. Students passing the course will receive a grade of “P” and will earn credit for the course with no affect on the grade point average. Students not passing the course will receive a grade of “F” and the “F” grade will be calculated for GPA purposes. In both cases, the credits and grades for courses taken by the Pass/Fail Option will be used in determining academic standing. See Standards of Progress.

The Pass/Fail option is not available for courses classified as general education courses or for some program core courses even if the course is not being taken to meet general education or core course requirements. Transient students should consult an advisor at their primary institution before electing the Pass/Fail Option in a course to be transferred to that institution.

Students wishing to take a course using the Pass/Fail Option must declare their intent before the end of the schedule adjustment period by completing the appropriate form at any registration office. Students may not change from the Pass/Fail Option to a grade-seeking status after the end of the schedule adjustment period. The normal rules for repeating courses will apply to courses completed by the Pass/Fail Option. For repeat purposes, a grade of “P” will be treated as if it was a “C” or better; that is, the course cannot be repeated for credit.

Students enrolled in associate’s degree or certificate programs may choose to take up to three elective credits by the Pass/Fail Option. These credits will be exclusive of any transfer credits or external credits. Students may choose to take additional courses using the Pass/Fail Option, but any credits beyond the three credit maximum may not be used to meet graduation requirements.

DEPARTMENTAL EXEMPTION EXAMS

A student may challenge the content of certain courses and earn credit upon the successful completion of a departmental proficiency examination. Procedures follow:

1. The student must obtain approval from the appropriate department head, the college registrar, and pay the predetermed exemption examination fee at any bursar’s office. Registration in the course is not required. The examination must be taken no later than the end of the third week of class for a fall or spring term and no later than the second week of class for a summer term. The exam fee is non-refundable.

If the student registers for the course, the student must obtain department head permission and pay the exam fee by the close of the schedule adjustment period. The examination may be taken no later than the end of the third week of class for a fall or spring term and no later than the second week of class for a summer term. If the student passes the examination, registration in the course will be cancelled, and the student will receive a refund of fees paid for the course. The exam fee is non-refundable.
2. The student must be currently enrolled in a credit course at the College other than the one being challenged or must have completed prior credit coursework at PJC.
3. The student must not have taken the exemption examination for the course at any previous time.
4. The student must not have earned a grade in the course through work at PJC or through transfer credit. A student may not use the exemption examination option to raise a grade of “D” or “F.” A student who passes the departmental exemption examination will not be assigned a letter grade but will be awarded external credit for the course.

**AUDIT AND NON-CREDIT STATUS**

The fees paid to audit a course or to take a course for no credit are the same as to take the course for a grade.

**AUDIT**

A student may register in a course on an audit basis by completing the appropriate audit form when registering for the course. A student may change to the audit status no later than the last day of the schedule adjustment period. Class tests or examinations are not required; however, regular class attendance is expected. College preparatory classes cannot be audited. A change from audit to credit is not permitted after the end of the schedule adjustment period.

Students auditing a class will not receive a letter grade (“A” through “F”). A mark of ‘X’ will appear on the student’s transcript indicating that the course was taken for audit. Audit courses will not affect the grade point average or academic standing.

Courses taken on an audit basis may not be counted when determining eligibility for veterans benefits, financial assistance, or certification of enrollment to outside agencies.

**NON-CREDIT**

Students may change to a non-credit status after the registration period but prior to the last date to withdraw (the 70th percent point of the course). A change from non-credit to credit is not permitted. Tests or examinations are not required for the non-credit student; however, regular attendance is expected. Courses taken for non-credit are not included in the calculation of the grade point average but are included in determination of academic progress. In determining academic standing, a course taken for non-credit is considered to be an attempted course that has not been completed.

**NON-TRADITIONAL CREDIT (EXTERNAL CREDIT)**

Students may use credits earned through non-traditional learning experiences toward most degree programs offered by the College. The maximum number of non-traditional credits that may be counted toward graduation depends upon the particular program of study and the type of non-traditional credit. In all cases, no more than 15 credit hours earned through non-traditional means may be counted toward the general education requirements of the associate of arts degree. In all cases, no more than nine credit hours earned through non-traditional means may be counted toward the general education requirements of the associate of science or associate of applied science degree. The college registrar makes the final determination of credit.

Non-traditional credit earned will not appear on an official PJC transcript until a minimum of 15 credit hours of traditional classroom coursework at PJC has been earned.

A student receiving financial aid or veterans benefits should consult with a financial aid/veterans affairs representative regarding non-traditional credit as it pertains to eligibility.

**ADVANCED PLACEMENT (AP)**

Credit is awarded to those students who have earned a score of 3 or higher on a high school AP exam after completion of an AP course. The State Department of Education determines credit awarded.

**COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)**

CLEP exams are administered to anyone who wishes to document knowledge in a specific subject area. Those who wish to register for CLEP exams should contact the Pensacola campus Test Center for dates and costs. The State Department of Education determines credit awarded.

**DEFENSE ACTIVITY FOR NON-TRADITIONAL EDUCATION SUPPORT (DANTES)**

DANTES exams are administered to military personnel to document educational achievement. Test results must be sent directly to the college from DANTES. The State Department of Education determines credit awarded.

**EXCELSIOR COLLEGE**

Credits will be awarded for courses appearing on Excelsior College transcripts in accordance with State Board of Education Regulations for external credit.

**INTERNATIONAL BACCALAUREATE (IB)**

Credit is awarded to students who have completed courses in an International Baccalaureate (IB) program in high school. The State Department of Education determines credit. The exam level, the exam score, and the status of the student’s graduation (IB Diploma or IB Certificate) are all factors in determining the credit to be awarded.

**MILITARY CREDIT**

Active duty military personnel should submit an official copy of their military service school training to the Registrar’s Office for evaluation. Navy and Marine Corps should use the SMART (https://www.navycollege.navy.mil/transcript.html), Army the AARTS (http://aarts.army.mil/), and the Air Force the Community College of the Air Force (http://www.au.af.mil/au/ccaf/). Active-duty service members, Reserve and National Guard members can request a copy of their Department of Defense Form DD295 from their military education officer. The form must be certified by an authorized commissioned officer or his/her designee and then sent directly to Pensacola Junior College Registrar’s Office.

Retired military personnel should submit the Department of Defense Form 214 (DD214). Credits for military experiences will be granted according to the recommendations of the American Council on Education (ACE) as published in the latest edition of The Guide to the Evaluation of the Educational Experience in the Armed Services. The college registrar makes the final determination of credit.

**PRIOR LEARNING ASSESSMENT (PLA)**

Students may earn credit for knowledge and skills gained outside the traditional classroom. On-the-job training, travel experiences, self-study, apprenticeship, and other similar life experiences may be translated into equivalent college or vocational credit. Only training and experiences in areas corresponding directly to PJC coursework will qualify for PLA credit; credit will not be awarded for skills and experiences in areas not taught currently at the college. PLA credits awarded will be based on a portfolio review and will appear on the official PJC transcript in the same manner as other external credits. In all cases, no more than 25 percent of the student’s degree may be earned through PLA credits. Additional restrictions may apply to certain programs and courses.

Questions and concerns regarding the Prior Learning Assessment process should be directed to the dean of Counseling/Career Planning Center, Pensacola campus.

**CERTIFIED PROFESSIONAL SECRETARY (CPS)**

The CPS examination is sponsored by the International Association of Administrative Professionals (IAAP), formerly Professional Secretaries International, and is administered twice a year. Application to take this examination must be made in advance through the IAAP organization. College credit will be awarded for passing the examination. Specific courses for which credit will be granted depend on the student’s program of study and examination score.

FINANCIAL AID INFORMATION AND FEES

BURSAR’S OFFICE

The Bursar’s Office is responsible for all student accounting and collections. The Bursar’s Office is located at each of the three campuses and provides the following services:

1. Collection of student registration fees.
2. Collection of special fees.
5. Cashing of student checks, up to $10. Students must present valid student ID and include social security number on check.
6. Distribution of student payroll checks. Student must present valid student ID.
7. Distribution of student financial aid checks must be approved for release by the Financial Aid office. The majority of student financial aid checks are mailed by the student's office. All students that pick up their check from the Bursar’s Office must present a picture ID and an ID that includes the student’s social security number.

PAYMENT OF FEES

Financial obligations for delinquent loans, veteran's deferments, GSL deferments, returned checks, and student financial aid overawards must be satisfied before students can register. The president or his designee has the authority to set aside the ruling. Permission, if granted, must be in writing.

All fees on a class schedule must be paid in full by the fee payment date or enrollment in every course on the schedule will be canceled. Payment may be made by cash, check, VISA, MasterCard, or approved financial aid. If a change in the student’s enrollment status results in loss of anticipated financial aid, the obligation for payment of fees remains upon the student.

SPECIAL FEES

Returned check charge .................................................. $20.00
This will be assessed for each check returned to the college by the depository bank as being uncollectible.

Application fee ............................................................. $30.00
Service charge on PJC short-term student loans .................. $5.00
Testing .......................................................................... as applicable
Photo ID cards (Guest Card) ........................................... $10.00
Duplicate photo ID cards ................................................ $5.00
Departmental exemption exam ........................................... $40.00
Late registration fee ......................................................... $25.00

This fee will be assessed to those students initiating registration for college preparatory, vocational preparatory, college credit, or vocational credit courses following the close of the regular registration period.

Parking decal ................................................................. No student cost
Prior learning assessment ................................................. $40.00
Servicemembers Opportunity Colleges .............................. No student cost
Lab fees ........................................................................ as applicable

REFUNDS

1. Refunds result from classes dropped by the student by the end of the published schedule adjustment period (drop and add period) and for classes which are canceled by the college. A FULL REFUND OF FEES PAID WILL BE GIVEN IF PROPER PROCEDURES FOR DROPPING A CLASS ARE FOLLOWED. Please refer to the current class schedule booklet for additional information on refund procedures.

2. A drop is different from a withdrawal. A drop will result in the elimination of the dropped class(es) from the student’s permanent record (transcript). A dropped class does not affect the student’s academic standing. A withdrawal will result in a letter grade of “W” in each class from which the student withdraws or is withdrawn. Withdrawals are included in the calculation of a student’s academic standing.

3. The current PJC Course Schedule Booklet contains information regarding policies and procedures related to refunds for non-credit classes offered through the Division of Community Programs.

4. Refund checks are mailed within two weeks after the end of the published schedule adjustment period each term. Refunds of $5 or less will not be processed unless specifically requested by the student.

5. Exceptions to this refund policy may be authorized by the president or his designee when extenuating circumstances support an exception to the refund policy.

DELINQUENT FINANCIAL OBLIGATIONS/RETURNED CHECKS

1. Grades, transcripts, and other student records will not be released to those students who owe parking fines or library fines. Payments on library fines are collected at the LRC. Payments on parking fines are collected at the Bursar’s office.

2. Students with delinquent financial obligations, including loans, veteran’s deferments, GSL deferments, returned checks, and student financial aid overawards will not be allowed to register nor receive grades, transcripts, or other student records until all obligations have been satisfied.

3. It is a violation of Florida law to give a worthless check or to stop payment on a check given to satisfy a valid obligation. It is not acceptable for students to stop payment on a check in order to “drop” classes. Students must follow proper procedures to drop classes for a refund. Students who do not pay for checks returned as uncollectible will be administratively withdrawn from all classes; withdrawal does not relieve the student of responsibility for payment of the obligation. Students may apply for reinstatement after the obligation has been satisfied. Students who give uncollectible checks are subject to prosecution by the college to the fullest extent provided by law.

COST OF BOOKS AND SUPPLIES

Textbooks, workbooks, and necessary school supplies may be purchased at the college bookstores. Cost of these items varies with the program of the student. Some programs require the student to purchase additional materials. A large supply of used books is also available at a discount at the college bookstores located on all three campuses.

FINANCIAL AID PROGRAMS

Students who need assistance in paying the costs associated with their attendance at Pensacola Junior College should complete the Free Application for Federal Student Aid (FAFSA). Filing a FAFSA will determine if a student qualifies for any of the following aid programs. All students must be officially admitted to the college, working to complete only approved degree and certificate programs of study as outlined in the PJC catalog.
Federal PELL Grant:
PELL Grants are available to undergraduate students only. Students with a bachelor's degree are not eligible. The maximum PELL Grant for 2004-05 award year beginning 7/1/2004 is $4050 based on full-time enrollment, and the following chart shows how PELL Grant awards are adjusted based on enrollment:

<table>
<thead>
<tr>
<th>NUMBER OF CREDIT HOURS</th>
<th>ENROLLMENT LEVEL</th>
<th>PERCENTAGE OF AWARD</th>
</tr>
</thead>
<tbody>
<tr>
<td>6 to 8</td>
<td>Half-time</td>
<td>50%</td>
</tr>
<tr>
<td>9 to 11</td>
<td>Three-quarter-time</td>
<td>75%</td>
</tr>
<tr>
<td>12 or more</td>
<td>Full-time</td>
<td>100%</td>
</tr>
</tbody>
</table>

Some students may be eligible to receive a PELL grant for enrollments less than 6 credit hours.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (FSEOG):
FSEOG is a federal grant for undergraduates with exceptional financial need. Since these funds are limited, only PJC Pell Grant recipients with “O” EFC will be awarded SEOG funds. The award amount will vary from $400 to $800 per academic year. Awards are available during the Fall and Spring semesters only. A minimum enrollment of half-time each semester is required for a student to receive a partial award.

FEDERAL COLLEGE WORK STUDY (FCWS):
FCWS awards are made to eligible students who indicate on the FAFSA that they desire employment from this program. Eligible students are paid $5.15 per hour. Students may work 15 to 20 hours per week based on the average award. Funds are limited and awards are made based on the date the financial aid file is completed. Priority is given to returning FCWS students if they remain eligible. Enrollment of half-time each semester is required.

FLORIDA STUDENT ASSISTANCE GRANT (FSAG):
FSAG is a Florida State Financial Aid Grant program awarded to full-time students who are working on their first undergraduate degree, have remaining need, are enrolled in an AA, AS or AAS degree program and maintain satisfactory progress according to the guidelines established by the Office of Student Financial Assistance. Renewal requirements of students who received FSAG during the 2003-04 academic year are to have completed at least 24 credit hours with a cumulative GPA of 2.00. There are other specific eligibility requirements and students should view this information at http://www.firn.edu/doe/osfa/fsagfactsheet.htm. A limited number of FSAG grants will be awarded to part-time students.

FEDERAL FAMILY EDUCATION LOAN PROGRAM (FFEL):
Stafford loans are available through the FFEL program. Stafford loans may be subsidized or unsubsidized. Enrollment of half-time each semester is required.

Subsidized loans are need based. Borrowers must show financial need to be eligible. The federal government will pay the interest on these loans while the borrower remains enrolled in school at least half-time. Unsubsidized loans are not based on need and the borrower must pay the interest as it accrues or may choose to capitalize the interest. Capitalization increases the amount to be repaid.

There are limits set by the Department of Education and the college on the amount a student may be eligible to borrow for an award year. A student may apply in two ways.

- A student may apply for aid each year. A student may apply in two ways.
- PLUS LOANS:

This is a loan program which enables parents to borrow money for their dependent children. The dependent must be enrolled at least half-time. PLUS loans are credit worthy loans and are limited in amount to the cost of attendance minus any other financial aid received by the student. PJC requires the student to complete the FAFSA before the school will certify a PLUS loan.

SHORT TERM LOANS:
In addition to the above Federal and State aid programs, PJC offers limited assistance from its Short-Term Loan Program to assist with registration fees. You must be 18 years of age, have at least a 2.0 cumulative GPA, maintain satisfactory progress, have no financial obligations to the college, not owe a refund on a federal grant or have a defaulted FFEL. The maximum amount of loan available is $415. This program does not require a FAFSA to be filed.

FINANCIAL NEED
Financial need is the basis for awarding federal and state aid. Financial need is the difference between the Cost of Attendance (COA) and the Expected Family Contribution (EFC). The EFC is determined by the results of the processed Free Application for Federal Student Aid (FAFSA).

COST OF ATTENDANCE
The student's nine month Cost of Attendance (COA) is calculated by FA/VA and considers the following direct and indirect expenses as permitted by federal regulations:

<table>
<thead>
<tr>
<th>Description</th>
<th>COA</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Average tuition and fee charges for a full-time student are based on the educational objective (AA/AS/AAS or Certificate).</td>
<td></td>
</tr>
<tr>
<td>B. Average books and supply expenses.</td>
<td></td>
</tr>
<tr>
<td>C. Average room and board allowance based on whether or not the student lives with parent(s).</td>
<td></td>
</tr>
<tr>
<td>D. Average transportation expense.</td>
<td></td>
</tr>
<tr>
<td>E. Reasonable miscellaneous personal expenses.</td>
<td></td>
</tr>
</tbody>
</table>

FINANCIAL AID APPLICATION PROCESS
Students begin the financial aid process by applying for admission to Pensacola Junior College, declaring a major program of study and making an appointment for placement testing, if necessary. Students must have all official high school and prior college transcripts sent to PJC.

Students must complete the Free Application for Federal Student Aid (FAFSA). The 2004-2005 FAFSA is available effective January 1, 2004. We recommend that a student complete the FAFSA only after completing your 2003 Federal Income Tax Form. Remember, students must apply for aid each year. A student may apply in two ways.

1. A paper FAFSA is available from each campus Financial Aid Office, the Educational Opportunity Center office, and the Counseling Offices or Career Centers. This form must be completed and mailed to the processor using the attached envelope. For PJC to receive the results of the FAFSA a student must enter our federal code 001513 in question 86 and a housing code in question 87. The priority date for selecting students at PJC is March 15 preceding the award year.
2. Apply online at www.fafsa.ed.gov. This is the preferred method. It is faster, easier and has built in edits to help students with answers. Remember to list PJC's school code as the college to receive the information. Remember also to enter a housing code based on planned living arrangements. Sign your application electronically with a PIN number. A pin number should be applied for two weeks before completing the FAFSA online. Go to www.pin.ed.gov to register. The PIN will be assigned and will be used for all future applications as well as other useful online tools.

All paper FAFSA results take 4 to 6 weeks for processing by CPS. Online, it only takes 2 to 5 days to process applications.

Either method of application will result in a paper Student Aid Report (SAR) mailed to the student's address. An electronic equivalent of the SAR, called an ISIR, will be sent to the schools indicated on the FAFSA. Students should carefully check the SAR when received and if corrections are needed, contact the Financial Aid Office.

The Financial Aid Office may request the student to furnish additional information when the ISIR is received. Examples of additional information requested include signed copies of the U.S. Income Tax Return of the student, spouse and/or parents, social security cards, benefit documentation and INS information, when required.

**FEDERAL STUDENT AID SATISFACTORY ACADEMIC PROGRESS POLICY**

**INTRODUCTION**

In order to receive Federal (Title IV) or State of Florida financial assistance a student must be maintaining Financial Aid Satisfactory Progress (FASAP) as defined below. All coursework, regardless of when attempted, at Pensacola Junior College will be counted in determining Financial Aid Satisfactory Progress as determined by federal regulations.

**MONITORING FINANCIAL AID SATISFACTORY ACADEMIC PROGRESS**

**DEFINITION OF FASAP FINANCIAL AID SATISFACTORY PROGRESS**

Completion of 67% of all courses attempted at Pensacola Junior College and attainment of a minimum required cumulative grade point average dependent upon the hours attempted. (See Required Standards.)

**FINANCIAL AID SATISFACTORY ACADEMIC PROGRESS (FASAP)**

A student will be considered maintaining Satisfactory Academic Progress if the student has completed at least 67% of all courses attempted and earned a cumulative GPA at or above the minimum as indicated in the Required Standards.

**FINANCIAL AID WARNING**

If student fails to meet FASAP that student will be placed on Financial Aid Warning for the following semester. During the Financial Aid Warning semester the student will be eligible to receive financial aid.

**FINANCIAL AID SUSPENSION**

A student who is on Financial Aid Warning and fails to meet FASAP at the end of the warning term will be placed on Financial Aid Suspension and all federal and state aid will be terminated until the student meets the minimum FASAP requirements indicated above.

Exception: If the student in the Financial Aid Warning status completes the warning term with grades of "C" or better in each course attempted, the student will be granted another semester in the warning status. The Financial Aid Warning status will be continued until (1) the student meets the minimum FASAP requirements indicated above or (2) the student does not complete each course attempted with a grade of "C" or better at which time the student will be placed on Financial Aid Suspension.

Students placed on Financial Aid Suspension may use the Financial Aid Appeal Process described below.

**MONITORING FINANCIAL AID PROGRESS**

Each financial aid recipient will have progress monitored effective with the term in which the 12th credit hour has been attempted. If, at the end of that term, the student has not met the required standards, the student will be placed on Financial Aid Warning for one semester. (See Required Standards.) If the student does not achieve FASAP at the end of the warning semester or does not earn grades of "C" or better in each course attempted during the warning semester, eligibility for federal and state financial assistance will be suspended until the student returns to FASAP. (See FASAP definition.)

**REQUIRED STANDARDS**

At the end of the semester in which the 12th hour is attempted, or at the end of a warning semester, and each semester thereafter, the student must have completed a minimum of 67% of all credits attempted. Completed grades for this policy are as follows: A, B+, B, C+, C, D+, D, and P. Incomplete grades for this policy are as follows: F, I, W, N, X, NC, SP, S, and U.

In addition to completion of 67% of all attempted credits, each financial aid recipient must have earned a minimum cumulative grade point average dependent upon the total number of hours attempted as indicated below:

<table>
<thead>
<tr>
<th>HOURS ATTEMPTED</th>
<th>CUMULATIVE GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>12 to 24</td>
<td>1.50</td>
</tr>
<tr>
<td>25 to 48</td>
<td>1.75</td>
</tr>
<tr>
<td>49 or more</td>
<td>2.00</td>
</tr>
</tbody>
</table>

(See Grading Policy for information regarding cumulative grade point average calculation.)

**MAXIMUM TIME FRAME**

Associate’s Degree Students

Students otherwise eligible for federal or state financial aid and enrolled in an associate’s degree program who have attempted more than 150% of the number of credit hours required in that program are considered to be making unsatisfactory academic progress. Changes in program of study do not extend eligibility beyond the 150% credit hour maximum time frame.

Certificate Program Students

Students otherwise eligible for federal or state financial aid and enrolled in an approved certificate program who have attempted more than 150% of the number of credit hours required in that program are considered to be making unsatisfactory academic progress. Changes in program of study do not extend a student’s eligibility beyond the 150% credit hour maximum time frame.

**COLLEGE PREPARATORY (DEVELOPMENTAL/REMEDIAL) CLASSES**

Required remedial coursework can be counted in determining a student’s enrollment for financial aid purposes. However, financial aid recipients will be limited to a maximum of 30 semester hours of developmental (remedial) coursework.

**FINANCIAL AID APPEAL**

Any student who fails to maintain Financial Aid Satisfactory Academic Progress (FASAP) will lose eligibility for further participation in any Title IV or state financial aid program. A student may request reinstatement of financial aid eligibility according to the established appeal procedure. (See Appeal Procedure, next section.)
**APPEAL PROCEDURE**

The student must complete the Financial Aid Appeal Request Form available in any financial aid office. The student must indicate, clearly and in detail, the circumstances of his/her failure to meet FASAP standards. Specific dates and events must be indicated and documentation to support the appeal must be attached to the appeal. Appeals submitted without specific dates, events, or documentation will be denied.

Only unanticipated and unavoidable circumstances will be considered in the appeal review process. Such circumstances must be beyond the student’s control and be directly responsible for the student’s failure to meet the required standards. The following are examples of circumstances that may be considered:

1. Serious illness or injury to the student
2. Serious illness or injury in the student’s immediate family
3. Change of student’s employment or work schedule
4. Divorce or marital separation of student or student’s parent
5. Any special circumstance of a unique and substantial nature that can be documented

The completed appeal form along with documentation must be submitted to a financial aid office located on the Pensacola, Warrington, or Milton campus. The appropriate Financial Aid coordinator will consider the appeal. If the appeal is granted, additional conditions may be established that the student will be required to meet in order to continue financial aid eligibility. If the Financial Aid coordinator denies the appeal, the appeal will be routed to the director of Financial Aid/Veterans Affairs for further consideration. The student will be notified of the director’s decision.

If the director agrees with the denial, the student may appeal the denial by submitting a written notice of disagreement, via the director, to the vice president for Student Affairs. The decision of the vice president for Student Affairs is final.

The student should allow four (4) weeks for the appeal process to be completed. If an appeal is submitted during a registration period, the process may take longer than four (4) weeks.
SCHOLARSHIPS

The PJC Scholarship Program recognizes both academic performance and financial need when awarding scholarships. Many criteria are used to select scholarship recipients. Among these criteria are grade point average, leadership qualities, contributions to school or community, visual and performing arts achievement, athletic ability, and other academic activities. Additionally, the 2001 Florida Legislature requires all students receiving a PJC academic scholarship to have their financial need assessed by a national recognized system of need analysis. This is accomplished by requiring students to complete the Free Application for Federal Student Aid (FASFA) process.

To apply for a scholarship based on financial need, an applicant must complete and process a Free Application for Federal Student Aid (FASFA). The FASFA is available from the PJC Financial Aid Office. (See the Financial Aid section of the catalog.)

ACADEMIC MERIT AND NON-ACADEMIC MERIT SCHOLARSHIPS

Eligibility consideration in awarding scholarships begins with three key steps:

1. Apply early.
2. Submit a properly completed PJC Application for Admission to the college’s Admissions Office.
3. Submit a properly completed PJC Scholarship Application to the District Financial Aid Office (for all scholarships awarded by the PJC Scholarship Selection Committee) by the published deadlines.

Eligibility Requirements (Academic Merit and Non-Academic Merit Scholarships)

1. An applicant must be a U.S. Citizen or Resident Alien. All scholarship applicants must have a completed Application for Admission to PJC on file with the Admissions office. Students who have been attending PJC under the dual enrollment program must file a new Admission Application upon graduation from high school.

2. Scholarship applicants who have completed an associate’s or higher degree or have attempted a total of 65 college credits or more are not eligible.

3. Current high school seniors must submit an official copy of their high school transcript showing all work completed through the first semester of grade 12 to the PJC Financial Aid office.

Upon graduation from high school, applicants must submit a final official copy of their high school transcript to the Financial Aid Office. Failure to provide this final copy of the high school transcript may result in the application not being considered for available scholarships.

Some scholarships require the grade point average to be based on academic courses only. Although not required, ACT or SAT scores should be provided, as test scores may be used to determine eligibility for some scholarships.

4. A scholarship applicant who has completed fewer than 12 college or vocational semester credits at PJC, and has graduated from high school within the last 10 years must submit an official copy of his/her final high school transcript. For PJC scholarship purposes, selection consideration will be based on high school grade point average. Dual enrollment courses are considered in calculating the high school GPA until the student has completed at least 12 college credits beyond high school graduation.

5. A scholarship applicant who has completed fewer than 12 college or vocational semester credits at PJC, and graduated from high school more than 10 years ago, will not be considered until the applicant has completed a minimum of 12 college, college prep, or vocational credits at PJC.

6. A scholarship applicant who has completed 12 or more college, college prep, or vocational semester credits at PJC and/or has attended other colleges or universities may be considered for PJC scholarships provided he/she has furnished the PJC Admissions office with official transcript(s) from the previously attended institution(s).

7. A scholarship applicant who has scored 3,000 or higher on the General Education Development (GED) Exam may be eligible for a PJC scholarship. Applicants must have tested or re-tested for the GED exam with the PJC Test Center.

8. Students who do not meet the PJC Standards of Academic Progress (on academic warning, probation, suspension, suspension waiver or have other restrictions) are not eligible for a PJC Scholarship.

9. An appeal for an exception to the scholarship policies may be submitted to the PJC District Financial Aid Office. The appeal must be in writing with a full explanation and documentation. The director of Financial Aid or Scholarship coordinator will either approve or deny the appeal. If the appeal is denied, it will be forwarded to the PJC Scholarship Policy Committee for consideration at their next scheduled committee meeting.

NOTE: It is the scholarship applicant’s responsibility to ensure all required documents are requested and received by the PJC Financial Aid Office by the published deadlines.

Scholarship Application Forms

To be eligible for consideration for the PJC Academic Merit and Non-Academic Merit scholarships, applicants need to complete only one PJC Scholarship Application form for the entire academic year. A scholarship application may be updated any time during that year by providing the appropriate information/documentation to the district Financial Aid office.

The PJC Scholarship Application forms are available on all PJC campuses, sites, and the Financial Aid/Veterans Affairs website.

1. Student Services Office, Milton Campus, Building 4200
2. District Financial Aid Office, Pensacola Campus, Building 2
3. Financial Aid Office, Warrington Campus, Student Affairs, Building 1400
4. NAS Center, Naval Air Station, Pensacola, Building 679
5. Professional Development Center (Downtown Center), 418 W. Garden St.

Completed scholarship applications must be returned to any of the PJC Financial Aid office locations by the published deadline.

Scholarship Deadline Dates

One general rule always applies. Complete the scholarship application process as soon as possible. Scholarship deadline dates are strictly enforced. Deadlines for consideration are as follows:

- Fall Term: May 1
- Spring Term: November 1
- Summer Term: March 1

PJC Foundation Scholarships

The PJC Foundation, Inc. is a private non-profit corporation established to encourage, solicit, receive and administer funds for the benefit of the college and college activities including the college’s scholarship program. The PJC Foundation scholarships are divided into two categories:

1. Foundation Scholarships awarded by the PJC Scholarship Selection Committee using Foundation approved selection criteria.
2. Foundation Scholarships awarded by Foundation/College-appointed awarding administrators using selection criteria established by the donor.

For detailed information regarding eligibility, selection criteria and application procedures, refer to the Financial Aid/Scholarship application.

Additional Information

For additional information about scholarship availability, specific eligibility requirements, or transfer scholarships, contact the district Financial Aid office listed in the Registration Center (Building 2) on the Pensacola campus. The telephone number for scholarship information is (850) 484-1634 or review the information on the Financial Aid/Veterans Affairs website at www.pjc.edu/FAVA.
### General Fees per Credit Hour or Equivalent

These fees are subject to change by the Florida Legislature and the District Board of Trustees. Current fees are available from the Bursar's Office. Fees listed below are for the 2003-2004 academic year. Fee payment may be made by cash, check, VISA, MasterCard, or approved financial aid.

Continuing Workforce Education (5) ........................................... Variable
Recreation and Leisure Courses (5) ............................................ Variable
Lifelong Learning Courses (5) ................................................ Variable
Courses Audited By Student .................................................... As Above

### Other Student Fees

- Application Fee (One time; Non-refundable) ........................................... $30.00
- Late Registration (Non-transferable; Non-refundable) ............................. $25.00
- Returned Check Charge .......................................................................... $20.00
- Service Fee on Student Loans ............................................................... $5.00
- Photo Identification Cards (Guest Card) ............................................. $10.00
- Duplicate Diploma ................................................................................ $10.00
- Duplicate Photo Identification Cards .................................................. $5.00
- Duplicate Non-photo Identification Cards .......................................... As Applicable
- Testing .................................................................................................. As Applicable
- Laboratory Fees .................................................................................. As Approved

Lab fees may be assessed in addition to general fees and other student fees. Information on the specific lab fees for courses appears in the Class Schedule Booklet.

1. Authorized by legislature to provide funds to award aid based upon financial need, academic merit, and other criteria.
2. Authorized by legislature to provide funds for student activities and services.
3. Includes both advanced and professional (university parallel/associate of arts) and postsecondary vocational (associate of science) courses.
4. Students without high school diplomas or who possess high school diplomas and demonstrate skills at or below the eighth grade level are not assessed fees for Vocational Preparatory, Adult Basic, or Adult Secondary instruction if Florida resident.
5. Fees for these non-credit courses shall be individually established.
6. Authorized by legislature to provide funds for capital improvements to facilities.
7. The full cost of instruction will be assessed for students enrolling in the same undergraduate College Credit or College Preparatory course more than two times. The number of attempts begins with the Fall Term 1997 for counting purposes.
8. Students without high school diplomas or who possess high school diplomas and demonstrate skills at or below the eighth grade level are not assessed fees for Adult Basic or Adult Secondary instruction. Students who possess high school diplomas and demonstrate skills above the eighth grade level are assessed fees per contact hour.
9. The Alabama Fee Differential applies to College Credit courses and College Preparatory courses. The legislation does not provide the tuition differential for other courses—Vocational Credit, Vocational Preparatory Credit, Adult High School or Adult Basic Education.

### Standards of Academic Progress

**A. College Credit and Vocational Credit**

The regulations regarding academic progress apply to all credit students regardless of the beginning date of attendance. In determining academic progress, all credits are combined: college, vocational, and preparatory. Transfer courses and courses taken for audit will not be included in the determination of academic progress. “Attempted” is defined as any course in which a student has processed an official registration and in which a student remains enrolled after the schedule adjustment period excluding any course for which a student receives a refund.

A student’s academic standing is determined at the end of the term in which the 13th hour is attempted. At the end of that semester and every semester thereafter, a student must have earned credit in one-half of all hours attempted and have a cumulative grade point average dependent upon those attempted hours as follows:
See Grading Policy for an explanation of cumulative grade point average calculation. The academic standing classifications and the criteria for determining that classification are as follows:

**GOOD STANDING**
A student is in good standing when the above requirements (completion and minimum GPA) are met.

**ACADEMIC WARNING**
A student will be placed on academic warning at the end of a term if any one of the conditions in the above table is not met. A student is considered to be in good standing while in the warning status.

**ACADEMIC PROBATION**
A student will be placed on academic probation, after being on warning, at the end of a semester if any one of the conditions in the above table is not met.

**ACADEMIC SUSPENSION**
A student will be suspended, after being on academic probation, at the end of a semester if any one of the conditions in the above table is not met.

**SUSPENSION WAIVER**
A student may request approval to re-enroll after suspension by filing a formal appeal to the Admissions Committee. Appeal procedures may be obtained in the District Office of Admissions and Registration. If approved, the student will be permitted to enroll in a status of Suspension Waiver and is expected to complete all classes attempted with grades of “C” or better. In some instances, the Committee will establish additional enrollment conditions. If disapproved, the student may be dismissed. See Academic Dismissal.

**ACADEMIC DISMISSAL**
If the conditions of the Suspension Waiver are not met, the student may be dismissed for one major semester. A student may appeal a dismissal to the Admissions Committee. If approved, the student will re-enroll in the status of Suspension Waiver. (See above.) If disapproved, the student will be required to sit out for one major semester. The disapproval may be appealed to the vice president for Student Affairs.

**ACADEMIC GRADE AMNESTY**
Credit students with previous coursework that is 10 years of age or older may seek Academic Grade Amnesty (AGA), which will remove the effect of those credits on the cumulative grade point average.

AGA may be granted only once in a student’s academic career. If granted, AGA applies to all credits and grades earned at PJC that are 10 or more years of age. Transfer courses will not be considered for the purposes of AGA. Students may not select specific terms, specific courses, or specific grades. AGA will apply to all coursework that is ten years of age and older from the date AGA is granted.

The student granted AGA would not be permitted to count any of the courses for graduation purposes, program completion, or to meet pre-requisite requirements. All other restrictions relating to repeating courses and maximum attempts will remain in force despite the granting of AGA, and compliance with other applicable college policies will be expected.

All courses and grades affected by AGA will remain on the official PJC transcript. A notation of the Academic Grade Amnesty will be posted to the student’s record and will appear on the official transcript.

AGA granted at PJC may not be honored in the transfer process. Other institutions may consider the older credits and grades when evaluating a student’s PJC transcript. Students seeking AGA are encouraged to discuss the matter with representatives of the institution to which transfer is planned.

AGA has no effect on federal and state student financial aid standards of academic progress. Students requesting AGA are required to meet with a member of the counseling staff before submitting the request for AGA.

**COURSE ATTEMPTS LIMITS**

**College Credit and College Preparatory Credit**

Students may attempt any college credit course or college preparatory credit course twice with regular fee assessment. A third attempt of the course will result in the assessment of the full cost of instruction. The full cost of instruction is three times the cost of the in-state tuition rate. Students enrolling in a third attempt of any course will not be permitted to withdraw from the class or change to non-credit. A final grade of “W,” “I,” “N,” or “NC” will not be permitted, and a letter grade will be assigned.

A request for enrollment in a course for a fourth attempt requires the approval of the College Registrar or designee. Florida Law mandates the maximum number of times a student can attempt any course.
**REPEATING COURSES**

Courses in which a grade of “D” or “F” was earned may be repeated for credit and only the most recent grade earned will be used to calculate the cumulative grade point average.

Courses that are not indicated in the course description, as repeatable courses should not be taken if the initial grade was a “C” or better. If repeated, credit will not be given for the repeat and the grade earned in the repeat will not count for GPA calculation.

Students receiving financial aid should consult with a financial aid representative before repeating any course.

Other institutions to which the student transfers may use all course attempts in computing the transfer grade point average.

---

**ATTENDANCE POLICY**

**ATTENDANCE**

Regular and punctual attendance is required. Students are responsible for knowing and adhering to the instructor’s attendance policy for each course taken. Specific attendance requirements for each course will be included in the course syllabus provided by the instructor.

**TARDY**

A student not in the class at its beginning will be counted tardy. When so specified in departmental policies, program policies, or the instructor’s syllabus, habitual or excessive tardiness may be converted to absences.

**EXCESSIVE ABSENCES**

Absences during a fall term and a spring term will be considered excessive if the student is absent one class meeting beyond the number of times the class meets per week; i.e., if a class meets three times per week, the student is allowed four absences. This is the policy followed for those courses extending through the full 12-week summer term. These allowable absences should provide for student illness as well as permit the student to take care of emergencies and personal business.

Absences during a six-week summer term or an express term will be considered excessive if the student misses more than three day classes or more than two evening classes.

A student registering late in any course will be counted absent for those class meetings missed before the registration.

**INSTRUCTOR WITHDRAWAL**

Instructors may withdraw a student who is excessively absent up to the 70th percent point of the semester. Instructors will be permitted to assign an “Early F” under the following conditions:

- To a student who has stopped attending a class in which the instructor does not process withdrawals.
- To a student who stops attending class after the 70th percent point of the class.
- To a student who stops attending a course being attempted for the third time.

Students who have been assigned the “Early F” will be provided an opportunity to adjust the “Early F” to a “W” (student withdrawal). The “Early F” must remain in third-attempt courses or in cases where the student does not request the adjustment prior to the established withdrawal deadline. If the adjustment is processed, the last date of attendance as reported by the instructor of record will remain.

Under extenuating circumstances, a student will have an opportunity to appeal for a “W” after the 70th percent point of the class. The Student Academic Appeals Committee will review these appeals. Information regarding the appeal process may be obtained in any admissions office.

**RESTATEMENT**

Students who have been withdrawn for excessive absences or assigned an “Early F” may petition the Admissions Committee for reinstatement in that class. Information regarding the appeal process may be obtained in any admissions office.

**VETERANS IN CERTIFICATE PROGRAMS**

Certification to the Veterans Administration will be terminated for a veteran student enrolled in a certificate program when the unexcused absences exceed the following:

- Courses meeting 1 time a week ......................2 absences
- Courses meeting 2 times a week ..................4 absences
- Courses meeting 3 times a week ..................6 absences
- Courses meeting 4 times a week ..............8 absences
- Courses meeting 5 times a week .............10 absences

An excused absence is one that is approved by the instructor; i.e., family illness, emergency. Approval is at the instructor’s discretion. If the veteran student exceeds the number of absences permitted and does not have the instructor’s approval, certification will be terminated. The veteran student will be re-certified after 30 calendar days if no further absences have occurred.

**SPECIAL ATTENDANCE RULES**

A shift worker must discuss his/her special set of circumstances with the instructor to ensure that the student’s work schedule will not conflict with the instructor’s specific policies regarding attendance. If the student’s work schedule cannot accommodate the attendance policies in place by the instructor, the student should contact a member of the counseling staff for resolution and/or schedule adjustment.

**COLLEGE TRIPS**

A student who is representing the college on official business, including field trips, will not be counted absent provided a prior notice is given to the instructor and any missed work is completed.

**SPECIAL PROGRAMS**

In certain specialized programs, such as practical nursing, etc., licensure and certification requirements mandate fewer absences than the college normally permits. Students in these programs are advised of these externally imposed attendance requirements. If these requirements are exceeded, the student will not be withdrawn from academic courses but may be withdrawn from the specific program.

---

**ENROLLMENT STATUS**

Pensacola Junior College considers full-time enrollment to be enrollment in 12 college, vocational, and/or college preparatory credit hours in a fall or spring semester. Full-time enrollment in any of the health programs is also considered to be 12 credit hours. Adult High School students are considered full-time when enrolled in 20 contact hours per week in any fall or spring semester. Continuous enrollment is defined as being enrolled in credit courses in the fall and spring semesters. In certain circumstances, continuous enrollment may be defined differently.

**Certification of Attendance**

The District Office of Admissions and Registration will provide official statements certifying attendance status to outside agencies. Certification of veterans is processed through the Office of Financial Aid/Veterans Affairs. See Veterans Affairs.

**EXAMS**

**FINAL EXAMINATIONS**

Final examinations are held at the end of each term. Exceptions are not permitted. Early examinations are not given. A second examination is not permitted. Exit examinations in college preparatory courses are administered in accordance with State Board of Education regulations governing minimum requirements for college-level courses in English, mathematics, algebra, and reading.

**LATE EXAMINATIONS**

In the event of a student’s absence for a final examination in any class because of illness or other approved reason, a deferred examination may be given.

---

**CHANGE OF POLICY DISCLAIMER**

The provisions of this publication are not considered a contract between the student and Pensacola Junior College. The College reserves the right to change any provision or requirement when the College deems such action necessary. Students are encouraged to consult with a counselor or academic advisor to verify the appropriateness of the courses selected before enrollment in those courses.

Students are expected to familiarize themselves with all rules and regulations of the College including official announcements that may be posted in student services areas, published in the Class Schedule Booklet, placed on the College website, or disseminated by mail.
**GRADES**

**GRADE REPORTS**

Grade reports are not mailed. Students may obtain mid-term progress from the instructor. Final grades may be accessed on the PJC website at www.pjc.edu by clicking My Grades.

**GRADE INFORMATION**

Grades are awarded in all college, vocational, college preparatory and vocational preparatory courses as well as in certain non-credit courses. Pensacola Junior College maintains permanent records for all students registering for courses. Students may obtain final grades for a course by accessing records online at www.pjc.edu. A cumulative record of the student's grades appears on the transcript. Letter grades are assigned, and a complete explanation of the letter grades appears in the Grades Table.

**GRADE POINT AVERAGE**

The student’s permanent record also contains grade point average (GPA) calculations. The student’s GPA is used in determining academic standing, graduation readiness, eligibility for the honors lists and graduation with honors, and in other academically-related decisions. In general, a GPA is computed as follows:

Total Grade Quality Points Earned ÷ Total Hours Pursued

**GRADES TABLE**

</table>

- **1** Final grades are based upon daily work, special reports, research papers, laboratory and field work, tests, and final examinations.
- **2** Upon written request, transcripts will be furnished without charge.
- **3** Courses with final marks of “P” or “C” or higher cannot be repeated for credit or to improve one’s GPA.
- **4** “I” (Incomplete) grades received at the end of any Term become “F” if not completed by the date assigned by the instructor or the maximum completion date of one academic year.
- **5** A grade of “N” is used only in remedial courses. A grade of “N” may be assigned to students earning a “D” or “F” in such courses. VA-assisted students education benefits will not be affected by an “N” grade, but VA students should not expect to retain benefits for any courses assigned a “W,” “NC,” or “X.”
- **6** Credits earned by examinations such as advanced placement tests, College Examination Program (CLEP), and departmental examinations do not affect GPA. They count as credits toward graduation and are counted as meeting certain course requirements.
- **7** Not to be assigned by instructor. Except in CEU courses, a student may elect to audit a course at registration or before drop/add ends, and the status cannot be changed later.
- **8** For use in courses offered through the Adult Basic Education Department indicating that although coursework has not been satisfactorily completed, positive progress is being made.
- **9** Credit earned through the Pass/Fail option will carry a grade of “P” or “F.” A grade of “P” will not be included in the calculations of grade point average; a grade of “F” will be included in the calculations of grade point average.
- **10** Assigned only in non-credit classes.

**Grade quality points are awarded as follows:**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
</tr>
</tbody>
</table>

To determine the total quality points for a grade in a particular course, the following formula is used:

Credit Hours X Grade Quality Points = Total Quality Points for Course

For example, the total quality points for a grade of “C” in ENC1101 (a 3-credit hour course) are calculated by multiplying the credit hours by the grade quality points for a “C”: 3 credit hours X 2 grade quality points = 6 total quality points for the course.

Credit hours is defined as those credits in which a grade of A-F has been awarded. Grades of S, P, U, I, N, NC, W, and X do not carry grade quality points. In general, credits for these grades do not count in hours pursued. However, in certain other circumstances, such as determination of repeat enrollments and in computation of certain specialized GPAs, credits that carry these grades may be included in the GPA computation. Questions regarding grade calculations may be directed to any student services office.
INCOMPLETE GRADES

An “I” grade is assigned when the student and the instructor reach a mutual agreement that the student has a reasonable chance of successful completion of the coursework. If the student has ceased attending class, is not passing the class, or has missed too much material, a grade arrangement other than an incomplete will be made.

The student and the instructor will enter into a written contract for the completion of the courses. A copy of the contract will be provided to the student and copies will be maintained by the instructor, the department head, and the District Office of Admissions and Registration. The contract will identify the following information:

• The student’s last date of attendance in the course
• The student’s expected date of completion
• The student’s remaining requirements for course completion

The last date to complete the course is left to the discretion of the instructor but cannot exceed one year from the last day of class.

An “I” grade in college, vocational, and high school courses will become a grade of “F” if not completed by the date indicated by the instructor. An “I” grade in a college preparatory course will become a grade of “N” if not completed by the date indicated by the instructor.

With extenuating and mitigating circumstances, a student may request an “F” grade be changed to “W” by filing a formal appeal to the Student Academic Appeals Committee.

MINIMUM GRADES

Grades of “D” and “D+” are earned credits and may be used to meet program requirements unless otherwise specified and will be used in calculating academic progress.

Students seeking an associate of arts degree must earn a minimum grade of “C” in each Gordon Rule course. See Gordon Rule.

Students seeking an associate of science or an associate of applied science degree must earn an average grade point average of 2.00 in all courses used to meet general education requirements for that degree.

Other specialized courses and programs identified in course descriptions, program requirements, as well as departmental and counseling publications may carry minimum grade requirements.

STUDENT RECORDS AND TRANSCRIPTS

CONFIDENTIALITY OF STUDENT RECORDS

Records

The District Office of Admissions and Registration is a single office at Pensacola Junior College and is located on the Pensacola campus. All permanent, official, and final records of students are housed in and released by this office. Student records are maintained in a fire protected vault and in electronic computer files. Information is released only upon the written request of the student in accordance with federal laws. Transcripts and other student information will not be released if a student has an outstanding obligation to the college (incomplete admissions file or financial obligation). Under most circumstances, a student may obtain a copy of his/her transcript on the next business day after submitting the request. All transcripts issued to students will be stamped “issued to student.”

Additional details on student records, the procedures for accessing records, appealing record contents, and receiving restricted records, and other rights of the Family Educational Rights and Privacy Act of 1974 are available from the college registrar.

Transcripts

A transcript of a student’s academic record is kept in electronic files, filed in a permanent record folder or housed on an archival record medium in the District Office of Admissions. Transcripts that are being sent directly to another educational institution may be requested on the web at www.pjc.edu or by submitting a written request to the District Office of Admissions and Registration. A student/former student may request a personal copy of the PJC transcript or a copy for a third party other than an educational institution by completing the Transcript Request Form or submitting a written and signed request to the District Office of Admissions and Registration. All transcripts issued to students will be stamped “issued to student.”

Release of Student Information

The disclosure of student information is governed by the policies of the Pensacola Junior College Board of Trustees and the Florida Department of Education within the parameters established by state and federal laws, including the Family Educational Rights and Privacy Act of 1974 (FERPA).

The written consent of the student is required for the disclosure or publication of any information that is personally identifiable of the student and part of the educational record. Certain exceptions, both in types of information that can be disclosed and in access to that information, are allowed by FERPA.

Subject to statutory conditions and limitations, prior consent of the student is not required for disclosure of information in the educational record to or for the following:

1. Officials of the College with a legitimate educational interest;
2. Certain government agencies;
3. Accrediting organizations;
4. Certain financial aid matters;
5. Certain research circumstances;
6. Health and safety emergencies;
7. Pursuant to order or subpoena provided the student is notified in advance of the college’s compliance with the order or subpoena; and
8. As otherwise provided by law.

Directory Information

Prior consent of the student is not required for disclosure of portions of the educational record defined by the college as Directory Information. Pensacola Junior College includes the following as Directory Information:

1. Whether or not the student is currently enrolled;
2. Dates of registered attendance;
3. Degree(s) earned, date, major or field of concentration, and honors received;
4. Participation in officially recognized activities and sports;
5. Weight and height of members of athletic teams.

The College has approved two exceptions to the release of Directory Information:

1. When requested by appropriate law enforcement agencies, the college shall release student names, addresses, and telephone numbers.
2. When requested by college-approved student health insurance companies, the college shall release student names, addresses, and telephone numbers.

IMPORTANT: Directory Information may be released by or published by the college without prior written consent of the student unless the student submits a formal request to withhold the release of Directory Information.

Request to Prevent Publication of Directory Information

A student may request that no information, including Directory Information, be released except as required by law. The student must complete the Request for Confidential Status of Directory Information form available in any admissions office. A student’s request to prevent the release of any information will result in preventing the publication of all items including graduation, honors, and awards. Further, queries to the college by prospective employers regarding dates of enrollment and graduation information will not be answered. Students are encouraged to contact the District Office of Admissions and Registration with any concerns about confidentiality of records and release of information.
RESPONSIBILITY

Students are responsible for selecting courses that meet program requirements and for earning the required minimum grades in those courses. See Minimum Grades.

All students seeking the associate of arts degree are required to meet the statewide College Level Academic Skills Test (CLAST) requirements specified by the State Board of Education. See CLAST.

Students may review their graduation progress with a counselor or academic advisor and online at www.pjc.edu or www.FACTS.org.

EFFECTIVE CATALOG POLICY

A student may follow the requirements in effect at the time of initial enrollment in a program provided the student completes the program requirements and earns the degree or certificate within five academic years. If a student is attempting to complete a program begun more than five academic years ago, the student must meet the requirements specified in the catalog effective during the completion year. Questions regarding the Effective Catalog Policy or requests for an exception to the policy should be directed to a counselor or academic advisor.

APPLICATIONS AND PROCEDURES

Application for Graduation

Students are encouraged to apply for graduation one term in advance of anticipated program completion. Each student must submit an Application for Graduation by the published deadline. The Application for Graduation is available in any student services area and any admissions office. Students who do not apply by the published deadline will be reviewed for graduation and, if eligible, may still march in the graduation ceremony; however, their names may not appear in the commencement program.

Graduation Procedures

Upon receipt of the Application for Graduation, the student’s permanent record at the College will be reviewed. If the District Office of Admissions and Registration determines that a student will not meet graduation requirements, the student will be notified and advised to meet with a counselor or academic advisor to find a resolution to the graduation discrepancy.

All admissions conditions and financial obligations to the college must be resolved prior to graduation.

The director of Student Life will mail information regarding graduation regalia (cap and gown rentals) and other information regarding the graduation ceremony. Diplomas will be mailed to graduated students within three weeks after graduation. Diplomas will not be mailed to students with outstanding financial obligations to the college.

Diplomas will be released upon request after satisfaction of the financial obligation.

TRANSFER OF CREDIT

Articulation and Transfer of Credit

Pensacola Junior College offers a broad range of educational opportunities for the student whose goal is to transfer to a four-year institution. The resources listed below, can assist students in making informed decisions when selecting courses, choosing a transfer institution, and developing their transfer plan.

Advising and Counseling Centers

Students planning to transfer PJC coursework to another college or university should contact a PJC Counseling Center, Student Service Office, or Career Connection to take advantage of the resources designed specifically for transfer students. Some of the resources available include college and university catalogs, reference books and materials, transfer manuals, transfer admissions information, and information about the PJC General Education requirements and electives. Students are encouraged to take advantage of these resources the first semester they enroll at PJC, particularly if they are undecided on a major or have not selected a senior institution.

Online Resources

Articulation and transfer information is available at pjc.edu and FACTS.org (Florida Academic Counseling, and Tracking for Students).

PJC.edu presents your educational record and permits a degree audit of your current program. FACTS.org presents a variety of tools to assist students who seek to transfer to other colleges or universities within the state of Florida. Students will find information on the following:

- Career planning
- Online applications
- Transfer services
- College advising tools
- Advising manuals
- Financial aid information

Transfer Courses

Transfer courses are those that are designed to transfer to other colleges and universities. Because a course will transfer does not mean it will apply towards a specific major or degree at a four-year college or university. Therefore, it is important for students to consult with an advisor or counselor about the transferability and the applicability of a specific course for the student’s intended major and transfer institution.

The Florida Board of Education is recommending that the maximum number of lower division credit hours accepted in transfer to Florida public universities and colleges is 50 semester credit hours. Some exceptions may be made based on the student’s courses and individual university and program. Hours in excess of 60 may not apply toward a bachelor’s degree. Remedial courses and non-transfer courses would be excluded from this limit.

To assist students in transferring from one college to another, most institutions of higher education in Florida are members of the Florida Common Course Numbering System. This system provides a shared, uniform set of course designations or equivalences to facilitate the transfer of credit on a statewide basis. Common Course Numbers information is found at FACTS.org, Advising Manuals.

Articulation Agreements

Articulation is the formal process of developing and maintaining transfer options for students. Pensacola Junior College and several four-year institutions establish signed articulation agreements to provide students with access to, and linkages with, baccalaureate degree-granting institutions. Agreements often include the following minimum GPA requirements for admission, minimum number of credit hours that will transfer, and transferable courses for specific degrees or majors. In addition, students should consider the following tips when making their transfer plans:

- Begin early and plan ahead
- Obtain a catalog from the intended college or university the same academic year they enroll at PJC
- Develop their transfer plan with the assistance of a PJC advisor/counselor
- Make contact with an academic advisor and admissions representative from the institution to which they intend to transfer
- Follow the transfer agreement established for each college or university program listed.
Resolution of Transfer Disputes

PJC works closely with other colleges and universities to provide a smooth transfer experience for PJC students. FACTS.org, Transfer Services, provides procedures for the resolution of admissions and transfer difficulties.

Students should contact the dean of Curriculum Implementation at PJC should they encounter credit or transfer difficulties.

GRADUATION RATES

Information regarding graduation rates and placement information are available as required by the Student Right To Know Act (Public Law 101-542) in the Office of Placement and Follow-Up on the Pensacola campus.

GRADUATION REQUIREMENTS

All Programs
1. Complete all course requirements as specified in the program of study published in the catalog in effect at the time the student began the program. See Effective Catalog Policy.
2. Submit an Application for Graduation at least one term before anticipated program completion to any student services office or to the District Office of Admissions and Registration. See Graduation Policy Exceptions.
3. Resolve all admissions requirements.
4. Discharge all financial obligation to the college.

Associate’s Degree Programs
1. Earn a minimum cumulative grade point average of 2.00 (“C”) in all work completed at the college. If any work has been attempted at any other college or university, the grades earned at the other institution(s) combined with the grades earned at PJC must also result in a minimum cumulative grade point average of 2.00.
2. Complete a minimum of 15 semester hours in residence at the college. Complete the last 15 semester hours in residence at the college.

Additional Requirements for the Associate of Arts Degree

CLAST: Earn passing scores on each portion of the College Level Academic Skills Test (CLAST) or satisfy the CLAST requirement by the state-approved alternative method. See CLAST.

Alternative Method: Earn a cumulative grade point average of 2.50 or better in the two communications courses (ENC1101 and ENC1102) to exempt the reading, writing, and essay portions of the CLAST. Earn a cumulative grade point average of 2.50 or better in the two general education mathematics courses to exempt the computation portion of the CLAST. See CLAST.

Additional Requirements for Certificate Programs

1. Have a cumulative grade point average of 2.00 or better in all courses applicable to the specific program of study.
2. Achieve appropriate minimum skill levels on the Test of Adult Basic Education (TABE) if required for the particular program of study. Students pursuing a certificate may be exempt from the TABE requirement based on a previously earned associate or higher degree.
3. Complete the last 25 percent of the program with classes taken at the college.

Adult High School Graduation Requirements

1. Earn a cumulative grade point average of 2.00 in all courses required for graduation.
2. Earn at least three high school credits at the PJC Adult High School. One of these credits may be an approved dual enrollment course taken during enrollment in the Adult High School.
3. Earn a minimum of 24 high school credits as specified by Florida Statute 228.0422 as follows:
   - English ............................................................4 credits
   - Science ..........................................................3 credits
   - Mathematics ..................................................3 credits
   - American History ........................................1 credit
   - World History ..............................................1 credit
   - American Government .................................1/2 credit
   - Economics ....................................................1/2 credit
   - Life Management Skills ...............................1/2 credit
   - Practical Arts ................................................1/2 credit
   - Performing Arts ..........................................1/2 credit
   - Electives ......................................................9 1/2 credits
4. Pass the Florida Comprehensive Assessment Test (FCAT) or the High School Competency Test (HSCT), whichever is appropriate. The State Department of Education establishes minimum scores. The tests are given at no charge to the student and may be retaken if necessary. A student who does not pass the FCAT will not be awarded the high school diploma. However, the student’s permanent record will contain the notation of earning the Certificate of Completion.

GRADUATION EXCEPTIONS AND APPEALS

Graduation Policy Exceptions

Students who wish to request an exception to a particular aspect of PJC graduation policies may petition the Student Academic Appeals Committee. The form for this petition is available in any student services office and in the District Office of Admissions and Registration.

Course Substitutions or Waivers

Course substitutions or requests to waive the requirement for a specific course are submitted on a Course Substitution Request form to the dean of Curriculum Implementation. In no case will a non-general education course be substituted for or accepted in lieu of a general education requirement. The course substitution request process is to begin with a counselor or academic advisor.

Effective Catalog Policy Changes

Requests to change the effective catalog are to be submitted on an Effective Catalog Policy Change form to the college registrar. The change request process is to begin with a counselor or academic advisor.

Waiver of Last-Hours-In-Residence Rule

Students requesting a waiver of the graduation requirement to complete the last 15 credit hours in residence at the College must petition the Student Academic Appeals Committee. The form for this purpose is available in any student services office and in the District Office of Admissions and Registration.

Grade Grievance

No PJC administrator or standing committee is authorized to change the grade assigned by any instructor. See Grade Grievance Procedure or contact the director of Student Life for the official grade grievance procedure.

Exception: “F” grades assigned for non-attendance after the 70th percent point of the class may be appealed to the Student Academic Appeals Committee. Documentation of extenuating and mitigating circumstances must be submitted.
ADDITIONAL DEGREES

A student should pursue only one degree at a time. A student who earns an associate's degree may be granted a second or additional degree under the following conditions:

1. A student may request a graduation exception to pursue two degrees simultaneously. An Effective Catalog Policy Change form is to be completed indicating the two degrees and the effective catalog requirements to be used for both degrees. A detailed program plan should be included with the request, and the usual rules for determining the requirements for the additional degree will apply. The college registrar will make the final decision regarding requests to pursue two degrees simultaneously.
2. No more than one associate of arts degree may be earned.
3. An associate of science degree and an associate of applied science degree may not be earned in the same program.
4. The written degree plan for an additional associate of science or associate of applied science degree shall specify the prerequisite and core courses for the additional degree. In meeting those requirements, the student may use courses completed for a previous degree. However, the student must complete at least 15 additional credits after being awarded the preceding degree. The additional 15 credits may be core credits and/or general education credits but are usually technical courses that support the specific program of study. The degree plan including the additional courses must be approved in advance by the appropriate department head and the college registrar.
5. The degree plan for earning an associate of science or associate of applied science degree after earning the associate of arts degree shall specify the general education requirements to be met. In meeting those requirements, the student may use courses completed for the associate of arts degree. However, the student must complete at least 15 additional credits after being awarded the associate of arts degree. The additional credits may be elective credits and/or general education credits.
6. In no case will a non-general education course be substituted for or accepted in lieu of a general education requirement.
7. All other requirements for graduation remain in effect for students pursuing additional degrees; i.e., grade point average requirements, residency requirements, etc.

REQUIREMENTS FOR GRADUATING WITH HONORS AND INFORMATION REGARDING THE COMMENCEMENT CEREMONY

All students are eligible for academic achievement recognition at graduation. Grade point averages are based on all credits attempted at Pensacola Junior College combined with credits from all other colleges and universities attended. Associate's degree students will graduate with honors according to the three honors categories:

1. "Cum Laude" is awarded to those students who achieve a cumulative grade point average of 3.50 to 3.74.
2. "Magna Cum Laude" is awarded to those students who achieve a cumulative grade point average of 3.75 to 3.99.
3. "Summa Cum Laude" is awarded to those students who achieve a cumulative grade point average of 4.00.

NOTE: The commencement program is printed prior to the recording of final grades for the graduating student. As a result, it is necessary to identify honors graduates in the commencement program and at the ceremony based on the cumulative grade point average at the end of the preceding term. The transcript is the final record and will be based upon cumulative totals at the end of the final term. An appropriate notation will be placed on the student's academic record. All courses attempted, including transfer work, will be considered in calculating the cumulative grade point average for all purposes including the honors designation.
A basic purpose of Pensacola Junior College is to provide a learning environment in which the student can develop:

- The skills for effective oral and written communication, computation, and computer technology;
- Evaluation and problem-solving skills through application of inductive reasoning;
- An analytical, critical, creative, and integrative approach to ideas and experiences;
- A historical perspective of the social, political, economic, scientific, and aesthetic aspects of the world;
- An informed, open-minded, and tolerant approach toward diverse people, ideas, and cultures;
- Informed involvement in one’s community and society;
- An understanding of and respect for the physical environment and one’s place in it;
- A recognition of the forces of social and technological change that impact the individual and institutions;
- Fundamental knowledge from which one may evolve professional or occupational competence;
- A personal philosophy of life and a better understanding of oneself and one’s responsibility within the family;
- A lifelong intellectual curiosity;
- Involvement in, and appreciation for, aesthetic and creative activities; and
- Knowledge necessary to achieve and maintain physical and mental health.

### GENERAL EDUCATION GOALS

### INSTRUCTIONAL PROGRAMS

#### ASSOCIATE OF ARTS DEGREE (A.A.)

The A.A. degree is designed to prepare students for entry into the junior year at four-year or upper-division colleges and universities. The A.A. degree is a university parallel, college transfer degree comprised of 36 general education credits and 24 college elective credits. Although upper-division schools vary the number and nature of courses which are required for their bachelor’s degree programs, Florida community colleges and universities have an articulation agreement which addresses the transfer of college courses and guarantees certain transfer rights for A.A. graduates of Florida community colleges.

In addition to the graduation requirements on page 46, students are also required to:

1. Earn at least a cumulative grade point average of 2.0 (C) or better in all work completed at Pensacola Junior College. If any work has been attempted at any other institution of higher education, the grades earned at the other institution(s) combined with those grades earned at PJC must also result in a minimum cumulative grade point average of 2.0; and,
2. Complete a minimum of 15 semester hours in residence at Pensacola Junior College. These fifteen hours shall be completed immediately prior to graduation.

Students who know the associate of arts area of study they plan to pursue at the upper-division may elect to customize their studies at PJC in accordance with the requirements of a particular college or university. Counselors and academic advisors are available to help the student who wishes to pursue this option. With the help of a counselor or an advisor, students may take the choice of electives which will be the most advantageous to the pursuit of a particular bachelor’s degree.

(See Option to Follow University General Education Requirements under GENERAL EDUCATION REQUIREMENTS FOR THE A.A. DEGREE.)

#### ASSOCIATE OF APPLIED SCIENCE DEGREE (A.A.S.)

Associate of applied science degree programs are designed to prepare students for immediate entry or advancement into employment requiring specialized skills. The degree consists of at least sixty (60) college credits; fifteen (15) credits must be general education. An A.A.S. degree program does not necessarily prepare an individual for transfer to a state university. The goal of an A.A.S. is to earn a degree, which should lead to a productive career in a field requiring specialized technical training. Some A.A.S. degrees may articulate into upper-level programs. If a decision was made at a later date to attend a university, additional course work may be required at the freshman or sophomore level. You are encouraged to discuss career plans and seek advising assistance from the program coordinator or department head identified for each program.

The graduation requirements for associate of applied science are as follows:

1. Earn at least a cumulative grade point average of 2.0 (C) or better in all work completed at Pensacola Junior College. If any work has been attempted at any other institution of higher education, the grades earned at the other institution(s) combined with those grades earned at PJC must also result in a minimum cumulative grade point average of 2.0.
2. Complete a minimum of 15 semester hours in residence at Pensacola Junior College. These fifteen hours shall be completed immediately prior to graduation.

ASSOCIATE OF SCIENCE DEGREE (A.S.)

Associate of science degree programs are designed to prepare students for entry into employment requiring specialized skills. The degree requires at least sixty (60) college credits, fifteen to eighteen (15–18) credit hours must be general education that are acceptable transfer general education courses to the State University System. Three of the A.S. programs, Business Administration, Hospitality and Tourism Management, and Nursing (Associate Degree) R.N., presently have statewide articulation agreements which provide for the articulation of the A.S. degrees to baccalaureate degrees. To transfer other A.S. programs to a state university may require additional hours of general education. Many universities do accept A.S. graduates. You are encouraged to discuss career plans and seek advising assistance from the program coordinator or department head identified for each program.

The graduation requirements for associate of science are as follows:

1. Earn at least a cumulative grade point average of 2.0 (C) or better in all work completed at Pensacola Junior College. If any work has been attempted at any other institution of higher education, the grades earned at the other institution(s) combined with those grades earned at PJC must also result in a minimum cumulative grade point average of 2.0.

2. Complete a minimum of 15 semester hours in residence at Pensacola Junior College. These fifteen hours shall be completed immediately prior to graduation.

3. Meet academic residence requirement of completing the last one-fourth of the program with classes at PJC.

UNIVERSITY OF FLORIDA AT PENSACOLA JUNIOR COLLEGE

In cooperation with Pensacola Junior College and the University of West Florida, the University of Florida Institute of Food and Agricultural Sciences and the College of Agriculture and Life Sciences offers three Bachelor of Science degree programs at the West Florida Research and Education Center located on the PJC-Milton Campus. In addition to the Bachelor of Science degree offerings, the University of Florida and the West Florida Research and Education Center hosts one statewide Master of Science degree program which is delivered through the Institute of Food and Agricultural Sciences and College of Agriculture and Life Sciences distance education program.

B.S. degree programs available:
- Landscape/Nursery Management and Environmental Horticulture Operations,
- Turfgrass Science; and Natural Resource Conservation

M.S. degree program available:
- Environmental Science

The University of Florida and West Florida Research and Education Center faculty and staff reside in the local area and join with UWF and PJC faculty to deliver this seamless four-year transfer degree program. Students enroll in PJC and complete either an Associate of Arts (A.A.) degree in Natural Resource program of Conservation/Pre-Forestry or Environmental Horticulture depending on which degree program the student chooses to pursue and then apply for admission to The University of Florida. Students are encouraged to seek counseling and instructions from the University of Florida and West Florida Research and Education Center Academic Coordinator prior to enrolling in these A.A. programs, in order to facilitate a smooth transition from PJC to UF.

The Natural Resource Conservation major is designed to provide graduates with expertise in the management and conservation of our natural heritage, from forest and wildlife to waters and minerals. Major geological, ecological, management and economic aspects of natural resources are covered in this program. The Natural Resource Conservation major is co-administered by the University of Florida’s School of Forest Resources and Conservation and the College of Agriculture and Life Sciences Department of Wildlife Ecology and Conservation. Students develop a personalized program in Natural Resource Conservation in consultation with an advisor and approved by the school’s undergraduate coordinator. Programs of study range from the very focused and specific, to the broad and multi-disciplinary. Natural Resource Conservation students develop programs of studies according to their area of interest, or alternately they can pursue more defined programs by utilizing elective choices in environmental education, ecotourism, wetlands ecosystems, landscape ecology, pre-environmental law and computer information systems. Students may also choose to minor in Forest Resources and Conservation or Wildlife Ecology and Conservation.
The Landscape and Nursery Horticulture Interdisciplinary Studies major offers two concentrations: Environmental Horticulture Operations and Landscape and Nursery Management. These concentrations provide skill and training for employment in Florida’s diverse environmental horticulture industry, including our theme parks, nursery industry, and landscape management firms. Environmental Horticulture deals with the improvement of the human environment by the proper selection, propagation, growth and placement of plants in exterior and interior landscapes. It applies many principals of biology, botany, business, chemistry, mathematics, engineering and education to growing and using plants in all areas of our lives.

Turfgrass Sciences: This interdisciplinary major combines the study of grasses, soils, water and pests affecting turf with the study of business and management. Students elect classes from the department of Environmental Horticulture, Soil and Water Science, Entomology and Plant Pathology. Career opportunities include work with golf courses, athletic fields, lawn care companies, parks agri-chemical industries, cemeteries, environmental consulting firms, sod farms and governmental agencies as well as preparation for graduate school.

Admission to these programs requires an A.A. degree, foreign language requirement and specific science and mathematics courses.

ADULT BASIC EDUCATION
ABE/GED/ESOL

The Adult Basic Education Department is part of the Precollegiate Studies Division. The program is characterized by:

- Classes for adults who are at least 18 years of age.
- Individuals who are 16 or 17 years old may be admitted with a letter of permission or an age waiver from the school district in which they reside.
- Free classes to those who qualify as a Florida resident.
- Convenient class locations throughout the community and on all PJC campuses.
- Open entry classes: enroll at any time!
- Morning, afternoon, and evening classes.
- On-site Workplace Employee Development Classes.

The ABE Department provides several options for students who need adult education programs:

1. Adult Basic Education (ABE) classes are provided for adults whose academic skills are below ninth grade level. The program covers basic reading, math, and language skills. Pre-GED review, family literacy, workforce readiness and life-coping skills may also be addressed.

2. General Education Development (GED) classes are offered for students who do not have a high school diploma and whose academic skills are at or above ninth grade level. Classes prepare students for all areas of the GED Examinations.

3. English for Speakers of Other Languages (ESOL) classes are available primarily for foreign born U.S. citizens or adults with resident alien status who wish to improve their English language skills. Everyday survival skills and a basic knowledge of the English language are covered.

4. Adult Basic Education for Adults with Disabilities classes are provided for clients at Pollak Training Center and at United Cerebral Palsy of Northwest Florida. For information about Pollak Training Center, please call (850) 438-5577. For information about United Cerebral Palsy of Northwest Florida, please call (850) 452-1987.

5. Workplace Employee Development classes can be provided on-site or on campus. For information about starting a class at your business or industry, call the GED HOTLINE, (850) 484-2120.

The GED Examinations are offered monthly at the Test Center on the Pensacola Campus. Individuals wishing to take the tests must be 18 years of age or older. Sixteen and 17 year old students who are enrolled in PJC GED Preparation classes must meet attendance and academic requirements before they will be allowed to take the test. Advanced registration, a valid Florida driver’s license or Florida state I.D. card and payment of a fee are required. For information about test dates and fees, call the Test Center at (850) 484-1656.

Individuals wishing more information about any ABE Department class or program should call the GED HOTLINE: (850) 484-2120.

HIGH SCHOOL PROGRAM

High school courses are made available to Florida resident adults who wish to continue their interrupted education. The courses offered in the program of study at the Pensacola Junior College High School are similar to those offered in a regular high school program, but the emphasis is placed on the special needs of the adult student. No fees are charged to Florida residents.

Each student selects courses to suit his or her own pace. A part-time student can take as few as one course per term. A full-time student can earn as much as two years of high school credit in less than nine months.

Upon satisfactory completion of the high school program, Pensacola Junior College awards the student a high school diploma.

Graduation Requirements for Adult High School are as following:

**High School Diploma Requirements:**

1. Maintain a cumulative grade point average of 2.0 ("C") in all courses required for graduation.

2. Earn at least three high school credits in residence at Pensacola Junior College Adult High School. One of the three required credits may be earned through dual enrollment.

3. Earn a minimum of 24 high school credits as specified by Florida Statute 228.0422 including the following (see program requirements).

   - English.................................................................4 credits
   - Science ............................................................... 3 credits
   - Mathematics ....................................................... 3 credits
   - American History................................................1 credit
   - World History ......................................................1 credit
   - American Government ...........................................1/2 credit
   - Economics ...........................................................1/2 credit
   - Life Management ................................................1/2 credit
   - Practical Arts .....................................................1/2 credit
   - Performing Arts ................................................1/2 credit
   - Electives ..................................................................9-1/2 credits

4. Pass the High School Competency Test (HSCF) or the Florida Comprehensive Assessment Test (FCAT). The State Department of Education establishes minimum scores for passing. The tests are given at no charge to the student and may be retaken if necessary. Students who do not pass the test will not be issued a high school diploma; they will receive a Certificate of Completion.
CONTINUING EDUCATION

The mission of the Continuing Education Unit is to be a strong link between the college and the community by offering courses and programs for lifelong learning, recreation and leisure, and cultural events at a reasonable price and convenient to students of all ages.

Individuals participate in continuing education courses/programs for a variety of reasons which may include, but not inclusive, to learn new skills; to broaden knowledge base for special topics of interest; to cultivate hobbies; and to enhance life-styles through leisure time activities. Classes are offered at times that meet the scheduling demands of the students.

Classes are delivered in a variety of formats such as non-credit short courses, workshops, seminars, and conferences, and are located at numerous sites within the community, as well as provided via internet. Qualified instructors with interest and expertise in the subject matter are selected from the community at large to teach continuing education courses/programs.

A vast array of lifelong learning and recreation and leisure courses/programs are offered for the benefit of the community through continuing education. Subject matter may include such topics of interest as painting and drawing, dance, vocal and instrumental instruction, computer science, foreign languages, aerobic exercise, tennis, yoga, swimming, handicrafts, hobbies, home improvements, language arts, and dog obedience.

A unique program provided by the college is PJC Kids’ College, which is a non-credit educational opportunity for young people ages 6-16, conducted during the summer months. A number of state-regulated/mandated courses/programs are coordinated through continuing education which includes LEAP, Drivers Education, Driver Improvement School, and Tobacco and Consequences for Teens. For additional information concerning these courses/programs and others, please contact Continuing Education at 484-1797 or 484-1956.

WORKFORCE AND ECONOMIC DEVELOPMENT/CORPORATE SERVICES DEPARTMENT

Workforce and Economic Development serves several important functions within the college and the Pensacola Bay Area business community. Our PJC Corporate Services effort provides continuing workforce education (CWE) opportunities for individuals and companies desiring training for skill enhancement, certification and/or licensure. Courses are offered in such areas as: Leadership Development, Customer Service, Computer Skills, and continuing professional education for those in the insurance, real estate, health, child care and construction fields.

The department is also responsible for participation in regional economic development activities targeting the creation of quality jobs for our students and for all citizens of the Pensacola Bay Area. For more information contact the Department of Workforce and Economic Development at 484-1561.

DUAL ENROLLMENT

Dual Enrollment provides the opportunity for qualified high school students to enroll in Pensacola Junior College courses while concurrently enrolled in high school. Students can receive both high school and college credit for these courses. This program is open to students from public high schools, accredited private schools, or approved home-education programs, who are at a minimum in the eleventh grade and have an unweighted grade point average of 3.0 or above to enroll in college credit courses, or a 2.5 unweighted grade point average to enroll in vocational certificate courses. Dual Enrollment students are allowed to complete a maximum of 60 credit hours that meet high school graduation requirements. After the completion of 60 hours, students wishing to remain at PJC must apply, register, and pay fees as a regular student.

In an effort to meet the individual needs of dual enrollment students, PJC currently offers three categories of Dual Enrollment.

Concurrent Enrollment: This is a special category designed for public, private, and home-educated students in Escambia and Santa Rosa counties who meet the eligibility requirements. Presently, two models of Concurrent Enrollment exists: 1) In-School Classes where classes are offered during the traditional high school day following the high school schedule; and, 2) Before-Or After-School Classes where the courses meet either before- or after-high school hours, on a high school campus, following the PJC college schedule. Fees for registration and books are not charged for Escambia or Santa Rosa public school students who are enrolled in this program. However, students enrolled in private schools and home-educated students who are approved to enroll in courses taken for high school credit will not be charged for registration, but will be held responsible for purchasing their books.

On-Campus Dual Enrollment: This category allows for high school students to enroll in college courses, on a part-time basis, at any PJC location. Students wishing to participate in the On-campus Dual Enrollment category should check with their high school guidance counselor to determine whether coursework completed will meet high school graduation requirements or elective requirements. Fees for registration and labs are not charged for Escambia or Santa Rosa public school students, private schools and home-educated students.

Early Admission: This category is limited to highly qualified applicants who are juniors or seniors from accredited high school programs. To be considered for this program, students must earn a passing score(s) on appropriate subtests of a state-designated college placement test (CPT, ACT, SAT). Students must also have a cumulative unweighted grade point average of 3.0 or higher on academic coursework beginning with grade nine through the current high school grading period. Registration and lab fees are not charged for qualifying high school students.

Additional information about the Dual Enrollment Program may be obtained from Mary Esslinger at 850-484-1406.

DISTANCE LEARNING

Pensacola Junior College recognizes that the population served by the college is changing. As a result of these changes, students are finding it increasingly difficult to conform to the traditional time and place-bound model of higher education. For this reason the college is committed to developing and operating a comprehensive student-centered distance learning program designed to provide students with access to quality education in the most convenient form available. Although different in means of delivery, courses taught via the Distance Learning Department are inherently the same as courses taught on a college campus. All PJC distance learning courses are fully accredited college courses and offer the same credits as on-campus classes. Distance learning courses are transferable and can be applied toward graduation requirements.

Mission Statement

The mission of the Pensacola Junior College Distance Learning Department is to provide educational opportunities that accommodate student needs in terms of time and place. The Distance Learning Department also seeks to realize specific strategic goals of the college by extending its educational offerings through the use of developing communications technologies and by enhancing the educational process through the use of state-of-the-art instructional methodologies and delivery systems.

General Information

The Pensacola Junior College Distance Learning Program brings the college to you. Distance learning courses may be suitable for you if:

- your schedule does not allow you to take classes on a PJC campus
- you have good time management skills
- you are self-motivated
- you have a working knowledge of computer technology and the internet
Methods of Course Delivery

Internet: Courses offered via the internet offer students the opportunity to take courses completely online.

Telecourses: PJC telecourses are broadcast by WSRE at regularly scheduled times. Students may either record each broadcast or check out pre-recorded videotapes from the Learning Resources Center. For students outside the WSRE viewing area, videotapes may be rented from a commercial vendor.

Important Notes:
- Visit the website for the Distance Learning Department often (http://distance.pjc.edu/ecost). This site provides comprehensive information regarding distance learning at PJC.
- Prospective distance learners should take the “Is Distance Learning for Me” quiz located on the Distance Learning website. Students should enroll only if the results indicate a high probability of success.
- Check the technical requirements (i.e., hardware and software) for each distance learning course before registering. Students with questions should contact the Distance Learning Department.
- Read carefully all course and instructor information available on the Distance Learning Department’s website. Note that, in some cases, students may be required to come to campus for orientation, reviews and testing.
- To learn more about taking a course through Distance Learning, please contact the Distance Learning Department at (850) 484-1238 or e-mail at DistanceLearning@pjc.edu.

HONORS PROGRAM

The Pensacola Junior College Honors Program offers academically gifted students some flexibility in designing their honors program to meet individual needs. Through a generous gift from the Grover Robinson IV family, these students will be known as the Robinson Honors Scholars.

A major emphasis of the Honors Program is to teach students to think critically; thus, awakening them to a whole new world of opportunities for personal and intellectual growth. Honors classes are not just regular classes with additional work, but rather they provide unique intellectual experiences, with emphasis on individuality, originality and participative learning. The classes are designed to help students develop and sharpen their analytical and creative skills.

In addition to a challenging classroom environment, the Honors Program offers a wide variety of opportunities for experiential learning. Taking instruction beyond the classroom helps students better understand the world they are studying. Students participate in seminars, field trips, scholarships, and study abroad programs, such as a summer session at Cambridge University in England.

To earn an honors degree, students need to take 12 credit hours of their degree requirement in honors courses and maintain an overall GPA of 3.0 or higher and a 3.2 GPA in their honors courses. For additional information on the Honors Program, contact: Dr. Charlie Schuler at 850-484-2543 or cschuler@pjc.edu.

Interdisciplinary honors courses:
- IDH 1110 Nature, Technology and Values Honors
- IDH 2109 Summer Study at Cambridge University
- IDH 2402 The American Dream: History Honors
- IDH 2450 Modern European Cultural History Honors
- IDH 2614 Literature in the Modern World Honors

The Interdisciplinary Honors courses provide an integrated program of study that examines the relationships between the arts and sciences. Interdisciplinary courses encourage the full expression of ideas. Instead of studying one topic during the entire class period, students explore a range of topics related to a particular subject.

Discipline-based honors courses:
- BSC 2040 Integrated Principles of Biology Honors
- BSC 2040L Integrated Principles of Biology Laboratory Honors
- CGS 1052H Research in the Electronic Age Honors
- CHM 1050L General Chemistry I Laboratory Honors
- CHM 1051L General Chemistry II Laboratory Honors
- ENC 1101H English Composition I Honors
- ENC 1102H English Composition II Honors
- MAC 2311H Analytic Geometry and Calculus I Honors
- MGF 1106H Mathematics for Liberal Arts I Honors

Additional discipline-based honors courses will be developed during this academic year.

The discipline-based honors courses offer a variety of courses ranging from three to five credit hours in length in the various academic departments.

COLLEGE PREPARATORY INSTRUCTION

College preparatory courses are provided for high school graduates who are identified as needing additional academic background or refresher work in computation and/or communications skills before pursuit of college credit courses. These courses provide instruction in the areas of reading, English/writing, and mathematics. College preparatory courses do not apply toward A.A., A.S., A.A.S., or certificate program requirements, but may meet prerequisites for continued pursuit of college credit courses.

Required Enrollment in College Preparatory Courses

Students whose entry-level placement scores fall below the minimum levels specified for English/writing, math, and reading are required to enroll in the appropriate college preparatory courses before attempting college credit work in those areas.

Once the college preparatory requirement is satisfied, the student may progress to college credit courses in the subject area. Successful completion of the college preparatory requirement is defined as: a) a grade of ‘C’ or higher in each required college preparatory course and b) attainment of a passing score on each required college preparatory exit examination. A student may also progress to college credit work if he/she demonstrates a satisfactory placement exam score in the appropriate subject area.

Students who test into college preparatory instruction and subsequently enroll in college preparatory instruction must successfully complete the required college preparatory studies by the time they have accumulated 12 hours of college credit coursework or they must maintain continuous enrollment in college preparatory coursework each semester until the requirements are completed while performing satisfactorily in the degree earning coursework. Students who are required to take two or more college preparatory courses must also complete the SLS 1101 College Success course.

College Preparatory Exit Examination

Florida Statues require that a student successfully complete a college preparatory exit examination at the close of each college preparatory course sequence in which he/she is required to enroll. Accordingly, an exit examination will be administered in each preparatory subject area in coordination with the final course in the college preparatory English, mathematics, and reading sequences (i.e., ENC0002C, MAT0024C, REA0002C). Since Florida Statutes require that a student pass both the course and the exit examination, a student who is not passing the course at the end of the semester will not be allowed to sit for the exit examination.
Alternatives for Traditional College Preparatory Instruction

Florida law requires that all students whose placement test scores indicate the need for remediation be given the opportunity to satisfy the remediation requirement through traditional college preparatory instruction or through alternate instructional options. Examples of alternate options include independent study, non-credit courses, and instruction through other colleges and/or private providers.

Students who elect to pursue one of the alternate options must meet first with a PJC counselor/advisor to discuss the impact of the choice on his/her degree progress. In addition, students should be aware of the following:

- PJC can certify and recommend only those instructional options offered through PJC and does not endorse, recommend, evaluate, or rank any other providers or alternative.
- Students who pursue options other than college preparatory classes must retake and score appropriately on the college placement test before advancing to college courses.
- Students who are receiving financial aid, military tuition assistance, or VA benefits should consult with the financial aid office regarding the impact of alternate options on their benefit.

Repeat Enrollments/Attempts in College Preparatory Courses

According to Florida Statue, a student is eligible for no more than three attempts to successfully complete a given college preparatory course. Florida Statues also mandate that for the third attempt in a given college preparatory course, a student will be required to pay the full cost of instruction (approximately four times the usual matriculation in fees). In documented cases of financial hardship, an exception to the full cost may be granted. A withdrawal from a college preparatory course is considered an attempt, unless the student withdraws prior to the close of drop/add period. If a student receives a grade of N, W, or I in a college preparatory course, he/she may repeat the course to improve the grade and meet preparatory requirements. On the third attempt, the student will be awarded the letter grade earned (A, B, C, and F) and will not be allowed to withdraw or to re-enroll.

For more information about college preparatory class offerings call the Department of Developmental Studies at (850) 484-1185/1186.
GENERAL EDUCATION REQUIREMENTS FOR THE A.A. DEGREE

THE GORDON RULE

State Board of Education Rule 6A-10.030, hereafter referred to as the Gordon Rule, applies to students who entered college for the first time after Term II of the 1982-83 academic year. This rule states that prior to receipt of an A.A. degree from a public college or university, or prior to entry into the upper division of a public university, a student shall successfully complete the following:

- Writing Requirement: minimum of 24,000 words in college composition courses.
- Mathematics: 6 semester hours
  - College Algebra or Higher

For the purpose of this rule, a grade of “C” or better shall be considered successful completion for all courses which meet Gordon Rule requirements. Compliance with the Gordon Rule is a separate process from compliance with the CLAST requirements.

The college is committed to writing across the curriculum. All courses leading to the A.A. Degree, except those specifically exempt, will require student writing. In addition to designated courses within Category IV and Category V distribution requirements, the following courses may be used to satisfy the Gordon Rule writing requirement for graduation:

- CRW 2100 Creative Writing: Fiction
- CRW 2300 Creative Writing: Poetry
- CRW 2600 Introduction to Screenwriting
- ENG 2111 Literature and Film
- JOU 1101 Reporting I
- JOU 1303 Feature Article Writing
- JOU 1400 College Publications
- LIT 2933 Special Topics in Literature
- PSY 2001 Introduction to Experimental Psychology
- WST 2010 Introduction to Women’s Studies

READING AND WRITING COMPETENCE REQUIREMENT

Enrollment in any course designated as a writing emphasis course will require appropriate scores on the Florida Entry-Level Placement Exam or completion of the appropriate college preparatory course work.

LABORATORY SCIENCE

Students seeking the A.A. degree must complete at least one Natural Sciences lecture course which has an accompanying laboratory. Lecture/laboratory sequences are available in Categories VI and VII (presented on page 59). Laboratory courses are indicated by an “L” immediately following the course number.

MINIMUM GRADES

A.A. students must maintain an overall GPA of 2.00 or higher. However, all A.A. students must also complete with a “C” or higher the courses which satisfy the Gordon Rule requirements (6A-10.30 Florida Administrative Code). These courses include the 6 college credits in communications, mathematics, and all courses designated as writing courses.

NON-TRADITIONAL CREDITS

A.A. students may not earn more than 15 credits hours of their general education course work through non-traditional credits. Non-traditional credits include the following: credits earned through CLEP, departmental exemption examination, or PLA, and all other credits described under “Non-Traditional Credits” in the Registration and Credits section of this catalog.

FOREIGN LANGUAGE REQUIREMENT

Based on Florida Statute 240.233, all undergraduate students who are admitted to a state university shall have earned two credits of sequential foreign language or American sign language at the secondary level or the equivalent of such instruction (eight to ten semester hours) at the postsecondary level.

An alternate method for students to demonstrate equivalent foreign language competence is by means of credit awarded on the basis of scores on the foreign language subject matter examinations in the College Level Examination Program (CLEP) as indicated in FAC Rule 6A-10.024(5)(b), which shall count toward the eight to ten semester hours. The examination, minimum scores for awarding credit, and maximum credit to be awarded are:

<table>
<thead>
<tr>
<th>Language</th>
<th>Minimum Score</th>
<th>Maximum Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>French</td>
<td>50</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>46</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>42</td>
<td>6</td>
</tr>
<tr>
<td>German</td>
<td>55</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>52</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>43</td>
<td>6</td>
</tr>
<tr>
<td>Spanish</td>
<td>55</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>48</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>45</td>
<td>6</td>
</tr>
</tbody>
</table>

Likewise, students may demonstrate equivalent foreign language competence in Latin by means of a minimum score of 443 on the Latin examination, published under the title MAPS by The College Board, which represents the 1985 national mean of college-bound seniors minus one standard deviation.

Students who received an associate of arts degree prior to September 1, 1989, or who enrolled in a program of studies leading to an associate of arts degree from a Florida community college prior to August 1, 1989, and have maintained continuous enrollment shall be exempt from this admissions requirement. Any lower division student admitted without meeting the foreign language requirement must earn such credits prior to admission to the upper division of a state university. Any A.A. degree graduate from a public community college admitted without meeting the foreign language requirement must earn such credits prior to graduation from a state university.
COURSES WITH INTERNATIONAL OR DIVERSITY FOCUS

All students majoring in education at one of Florida’s public universities must earn nine credit hours with an international or diversity focus. One of these courses must be EDG 2701, Teaching Diverse Populations, three credit hours. The remaining six credit hours may be taken from the following list of courses.

- AMH 2091 African-American History and Culture 3 cc
- ANT 2000 Introduction to Anthropology 3 cc
- ANT 2410 Cultural Anthropology 3 cc
- ARH 1051 Art History II 3 cc
- EEX 2010 Introduction to Exceptional Children 3 cc
- EUH 1000 European History to 1700 3 cc
- FRE 1121 Beginning French II 4 cc
- GEA 2000 World Regional Geography 3 cc
- GER 1121 Beginning German II 4 cc
- ITA 1121 Beginning Italian II 4 cc
- LIT 2100 World Literature 3 cc
- LIT 2120 World Literature from 1650 3 cc
- SPN 1121 Beginning Spanish II 4 cc
- SYG 2000 Introduction to Sociology 3 cc
- SYG 2010 Social Problems 3 cc
- WST 2010 Introduction to Women’s Studies 3 cc

OPTION TO FOLLOW UNIVERSITY GENERAL EDUCATION REQUIREMENTS

A student who wishes to take a planned transfer program of studies not outlined in the PJC catalog may use such a program for graduation if he/she meets the following guidelines: (A) meets with a PJC counselor to review the proposed plan. The counselor will check Gordon Rule requirements and course prerequisites and approve the plan in writing; (B) within the student’s first 30 hours of credits his/her alternate plan must be approved by a counselor, the Provost of the campus and the Dean, Curriculum Implementation; (C) the student must then complete at least 30 credits at PJC. Alternate plans will be for a specific institution and must include documentation. The student will, upon completion of the model institution’s first two years’ academic work (at least 60 credits), be graduated with an associate of arts degree. The student’s transcript will not be stamped “General Education Requirements met” unless the student has, in fact, completed the general education requirements at PJC.
A.A. degree-seeking students must complete thirty-six (36) general education credit hours. The credit hours must be distributed among the course categories listed below.

### I. ENGLISH COMPOSITION ..................................................6 credits
- ENC 1101 English Composition I 3 cc
- ENC 1102 English Composition II 3 cc

### II. LITERATURE .................................................................3 credits
ENC 1101 and ENC 1102 are prerequisites for all Literature courses.
- AML 2011 American Literature to 1870 3 cc
- AML 2021 American Literature from 1870 3 cc
- ENL 2012 English Literature to 1800 3 cc
- ENL 2022 English Literature from 1800 3 cc
- ENC 2090 Contemporary Literature 3 cc
- ENC 2100 World Literature 3 cc
- ENC 2110 World Literature to 1850 3 cc
- ENC 2120 World Literature from 1650 3 cc

### III. MATHEMATICS ...............................................................6 credits
- MAC 1005 College Algebra 3 cc
- MAC 1114 Plane Trigonometry 3 cc
- MAC 1140 Precalculus Algebra 3 cc
- MAC 1147 Precalculus Algebra/Trigonometry 4 cc
- MGF 1106 Mathematics for Liberal Arts I 3 cc
- MGF 1107 Mathematics for Liberal Arts II 3 cc
- MGF 1118 Essential Math Skills 1 cc
- Any 2000 Level Math Course 3 cc

### IV. HISTORY, BEHAVIORAL/SOCIAL, AND HUMAN SCIENCES .......................................................6 credits
One 3 credit course must have a AMH, ANT, DEP, PSY or SYG prefix. Check Gordon Rule writing requirements.

* AMH 2010 American History to 1877 3 cc
* AMH 2020 American History from 1877 3 cc
* AMH 2091 African-American History and Culture 3 cc
* ANT 2000 Introduction to Anthropology 3 cc
* ANT 2410 Cultural Anthropology 3 cc
* DEP 2003 Human Growth and Development 3 cc
* ECO 2013 Economics I 3 cc
* EUH 1000 European History to 1700 3 cc
* EUH 1001 European History from 1700 3 cc
* EUH 2422 A History of Greece and Rome 3 cc
* GEO 2000 World Regional Geography 3 cc
* HLP 1081 Concepts of Life Fitness 3 cc
* HUN 1201 Elements of Nutrition 3 cc
* INR 2002 Introduction to International Relations 3 cc
* POS 2041 American National Government 3 cc
* PSY 2012 General Psychology 3 cc
* SYG 2000 Introduction to Sociology 3 cc
* SYG 2010 Social Problems 3 cc

### V. HUMANITIES .................................................................6 credits
These 6 credits must include courses from at least 2 different course prefix areas. Check Gordon Rule writing requirements.

* ARH 1050 Art History I 3 cc
* ARH 1051 Art History II 3 cc
* ARH 1831 Art for Non-Majors 3 cc
* ARH 2000 Humanities Art 3 cc
* CLT 1500 Classical Mythology 3 cc
* FRE 1121 Beginning French I 4 cc
* GER 1121 Beginning German I 4 cc
* GRE 1010 Beginning Greek II 3 cc
* HUM 15100 Arts Experience 3 cc
* HUM 2211 Humanities in the Ancient World 3 cc
* HUM 2230 Humanities in the Modern World 3 cc
* HUM 2454 African-American Humanities 3 cc
* HUM 2740 Humanities Travel 3 cc
* ITA 1121 Beginning Italian II 4 cc
* LAT 1121 Beginning Latin II 4 cc
* MUS 2011 Music Appreciation 3 cc
* MUS 2110 Introduction to Music History 3 cc
* PHI 2010 Introduction to Philosophy 3 cc
* PHI 2701 Introduction to the Philosophy of World Religions 3 cc
* SPN 1121 Beginning Spanish II 4 cc
* THE 2000 Introduction to Theatre 3 cc

### NATURAL SCIENCES .........................................................7 credits
Students must complete a minimum of seven natural sciences credits, one course from category VI and one from category VII. In addition, students must complete one laboratory course.

### VI. BIOLOGICAL SCIENCES .............................................3 or 4 credits
- BOT 1101 General Botany and BOT 1010L 3 cc
- BSC 1005 Biological Principles for Non-Majors 3 cc
- BSC 1005 Biological Principles 4 cc
- BSC 2010 Integrated Principles for Non-Majors and BSC 1005L 4 cc
- OCB 2013 Marine Biology and OCB 2013L 4 cc
- PCB 2030 Introduction to Environmental Science 3 cc
- ZOO 1010 General Zoology and ZOO 1010L 4 cc

### VII. PHYSICAL SCIENCES ................................................3 or 4 credits
- AST 1005 Descriptive Astronomy 3 cc
- AST 1005 Descriptive Astronomy and AST 1005L 4 cc

- PSC 1511 Physical Science Survey 3 cc

### COMPUTER COMPETENCE REQUIREMENT ..........................1 credit
Students must demonstrate competence in the use of computer technology. Competence is defined as the ability to use computer technology to access data, transform that data into information, and communicate that information to others. Students must meet the requirement by departmental proficiency examination.

### ORAL COMMUNICATIONS REQUIREMENT ..........................1 credit
Students will demonstrate competence in the skill of oral communications. The requirement can be met by successful completion of one of the following courses.

### Acadeamic Programs

<table>
<thead>
<tr>
<th>ORI 2000</th>
<th>Introduction to Oral Interpretation</th>
<th>3 cc</th>
</tr>
</thead>
<tbody>
<tr>
<td>LIS 1004</td>
<td>Introduction to Internet Research</td>
<td>1 cc</td>
</tr>
<tr>
<td>MUS 1360</td>
<td>Music and Computers</td>
<td>3 cc</td>
</tr>
</tbody>
</table>

### Note
- Course meets 6,000 words toward Gordon Rule writing requirement.
- Course meets 2,000 words toward Gordon Rule writing requirement.
- Students must complete three courses identified as meeting 2,000 words.
THE ASSOCIATE OF ARTS DEGREE

Students who know the area of study they plan to pursue at the upper-division may elect to customize their studies at PJC in accordance with the requirements of a particular college or university. Counselors and academic advisors are available to help the student who wishes to pursue this option. With the help of a counselor or an advisor, students may take the choice of electives which will be the most advantageous to the pursuit of a particular bachelor’s degree. (See Option to Follow University General Education Requirements under GENERAL EDUCATION REQUIREMENTS FOR THE A.A. DEGREE.)

In addition to the basic transfer programs outlined below, PJC offers several pre-planned sets of electives called areas of concentration for the A.A. degree. Current areas of concentration include the following:

- Agricultural Science
- Art
- Biology
- Business
- Chemistry/Biochemistry
- Classics
- Computer Information Systems
- Computer Science
- Criminal Justice
- Education
- English
- Environmental Horticulture
- Environmental Science
- General Studies
- Geology
- History — Public Service
- Human Performance and Recreation
- Journalism
- Mathematics
- Music
- Music Teacher Education
- Natural Resource Conservation/Pre-Forestry
- Philosophy
- Physics
- Pre-Engineering
- Pre-Law/Pre-Legal Administration
- Pre-Medical/Dental/Veterinary Studies
- Pre-Medical Technology
- Pre-Nursing
- Pre-Pharmacy
- Pre-Physical Therapy
- Psychology/Social Sciences
- Religion
- Theatre
**AGRICULTURAL SCIENCE (AGSCI-AA) A.A.**

The Agricultural Science program provides the first two years of a four-year baccalaureate degree. Students finishing the program will be prepared to enter one of several university agricultural programs. PJC has articulation agreements with the University of Florida in Gainesville and Florida A&M in Tallahassee. The student will also find the transfer to Auburn University easy. The student can choose from a group of electives offered in the department. The electives taken will be determined by the goals of the student.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Biological Sciences Department for assistance in planning your program of study.

| Department Head: | Mr. James Brady | 484-1168 |
| Program Contact: | Mr. Logan Fink  | 484-4464 |

* Electives based on general education distribution requirements. Category IV and Category V selections must include at least two writing emphasis courses.

** Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution.
**BIOLOGY**  (BIO-AA) A.A.

The A.A. Biology curriculum provides the first two years of college education leading to a baccalaureate degree in one of the biological sciences and will insure articulation into the major at Florida SUS institutions. Students interested in majoring in Environmental Studies should contact the specific institution they wish to attend and the head of the Biological Sciences Department (484-1168) as early in their program as possible, but not later than prior to the second semester.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Biological Sciences Department for assistance in planning your program of study.

**BUSINESS**  (BUS-AA) A.A.

This program is designed to provide the first two years of a four-year university program leading to a baccalaureate degree in accounting, business administration, economics, finance, management, or marketing. However, the student who desires to postpone pursuit of a bachelor's degree will have acquired sufficient knowledge and skill upon completion of this two-year program to be ready for employment.

Students wishing to transfer to UWF, FSU, or UF should consult with a counselor to select appropriate electives.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Business Department for assistance in planning your program of study.

*Electives based on general education distribution requirements. Category IV and Category V selections must include at least three writing emphasis courses.

** Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution.

***ACG 2021 may be substituted for the combination ACG 2001 and ACG 2011 at some Florida universities. Transfer students should consult a PJC counselor or contact the appropriate department at the university to which they intend to transfer.

### CHEMISTRY/BIOCHEMISTRY (CHEM-AA) A.A.

This program provides the first two years of a four-year university program leading to a baccalaureate degree in chemistry or biochemistry. The PJC curriculum has the necessary SUS prerequisite courses for a completer to begin upper-division work as a university junior in the major.

**Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Physical Sciences Department for assistance in planning your program of study.**

**Department Head:** Dr. Ed Stout  
**Program Contact:** Dr. Tom Grow  
**Primary Faculty:** Dr. Lois Dixon, Mr. Tom Gee, Dr. Dan Philips

### Chemistry Emphasis Courses:
- Biological Sciences (Category VI) 3
- Physics/Mathematics Elective (must be chosen from PHY 2048, PHY 2048L, PHY 2049, PHY 2049L, MAC 1105 or higher math) 10

### Biochemistry Emphasis Courses:
- Integrated Principles of Biology (Category VI) 3
- General Zoology 1
- General Zoology Laboratory 1
- Physics/Mathematics Elective (must be chosen from PHY 2048, PHY 2048L, PHY 2049, PHY 2049L, MAC 1105 or higher math) 5
CLASSICS [(CLASS-AA) A.A.]

The classics associate of arts degree is designed to provide an academic foundation for students who are interested in pursuing a classics degree at the university level. The degree is also very useful for students who have an interest in law or the humanities. The study of classics involves an exciting option of language, history, classics, and philosophy courses.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC History, Languages and Philosophy Department for assistance in planning your program of study.

** Students may take MAC 1140 Precalculus Algebra and MAC 1114 Plane Trigonometry in place of MAC 1147.

CRIMINAL JUSTICE (LAW-AA) A.A.

The purpose of this program is to prepare students for transfer to a four-year institution after completing two years at Pensacola Junior College. Because of the interdisciplinary nature of Criminal Justice, this program may be attractive for those planning to enter law, behavioral and social sciences. Students planning to enter this program should contact the department for assistance in planning for their careers.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC History/Languages and Philosophy department for assistance in planning your program of study.

Department Head: Dr. Charlie Schuler 484-2543
Program Contact: Mr. Mike Ardis 484-2575
Primary Faculty: Mr. Jim Chancy

EDUCATION (TEACH-AA) A.A.

This program serves students seeking a baccalaureate degree in education who plan to teach in preprimary, early childhood, elementary, middle grades, special education or related settings. Students who want to teach/work in a high school setting (grades 9 through 12) should major in the appropriate content area. This program is the first two years of a four-year university program in teacher education.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you contact the PJC Behavioral Sciences Department for assistance in planning your program of study.

Department Head: Dr. June Linke 484-2530

* Electives based on general education distribution requirements.
** One course taken in any of these categories must meet Humanities General Education (Category V).
+ Course includes field experience. See course description.
++ In addition to EDG 2701, students majoring in education at a public university in Florida must take 6 credits with an international/diversity focus (see page 54).

Note: EDF 1005, EDG 2701, EME 2040 meet education core prerequisites required for admission into a SUS college of education. Other courses cannot be substituted for these three courses.
ENGLISH (ENGL-AA) A.A.

This program is designed for students who wish to pursue a degree in English at a university. Students who complete this program will be ready to enter their junior year with a rich background in American and English Literature complemented by related elective courses.

Students should consult an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC English/Communications Department for assistance in planning your program of study.

### GENERAL STUDIES (LIBERAL ARTS) (GEN-AA) A.A.

Students who do not yet know in what area they plan to major, or which upper-division school to which they plan to transfer, may pursue the A.A. degree through a program of general studies. This route to the A.A. degree provides an avenue for students to take any college credit electives except those courses designated A.A.S. only, in addition to the general education program requirements without following any one of the preplanned areas of concentration listed in this catalog.

Students need to be aware that few universities or colleges offer a general degree. Upon application to a university, the student must commit to a degree. Students are advised to work closely with a counselor or departmental advisor to insure the courses taken at PJC will meet the student’s major requirements.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Counseling Office on any campus; Milton, 484-4410; Pensacola, 484-1630; Warrington, 484-2270 for assistance in planning your program of study.

### GEOLOGY (GEO-AA) A.A.

This program provides the first two years of a four-year university program leading to a baccalaureate degree in geology. The PJC curriculum has the necessary prerequisite courses for a completer to begin upper-division work as a university junior in the major.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Physical Sciences Department for assistance in planning your program of study.

* Electives based on general education distribution requirements. Category IV and Category V selections must include at least three writing emphasis courses.

** One course must be a Mathematics course to meet General Education Category III.
**HISTORY — PUBLIC SERVICE (HIST-AA) A.A.**

The History—Public Service A.A. is designed to meet the academic needs of students who have a strong interest in history. This program provides students an opportunity to begin studies for upper division work in history, political science, law, and education. These courses of study can lead the students to careers in federal, state and local government, museum work, teaching, law and other related fields.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC History, Languages and Philosophy Department for assistance in planning your program of study.

+ A maximum of 3 credit hours in Human Performance Cooperative Education can be applied toward fulfillment of HPRAA Program requirements. Program majors must be advised by the Program Department or the department head of Behavioral Sciences before enrolling in any HPR cooperative education course.

JOURNALISM (JOURN-AA) A.A.

Designed to meet most of the requirements of nearby colleges, the PJC print program stresses the basics of news and feature writing in a “real life” setting. Students gain practical experience as they produce the student newspaper, The Corsair. Internships with area publications may be available to students who excel. Required courses provide the liberal arts background that most universities and editors recommend.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC English/Communications Department for assistance in planning your program of study.

Department Head: Mr. Thom Botsford 484-1447
tbotsford@pjc.edu

### MUSIC (MUSIC-AA) A.A.

This program is designed to provide students with basic skills and concepts in the field of music and to prepare the student completely for transfer to an upper-level institution. Students may choose as their principal instrument — piano, voice, organ, all woodwind instruments, all brass instruments, percussion, guitar, and strings.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Music and Theatre Department for assistance in planning your program of study.

**Department Head:** Mr. Don Snowden  484-1802  
dsnowden@pjc.edu

*Electives based on general education distribution requirements. Category IV and Category V selections must include at least three writing emphasis courses.*

**Note:** Students will be required to pass a piano proficiency examination during their final term, and are strongly urged to enroll in MVK 1111, MVK 1112, MVK 2121, and MVK 2122 to pass this proficiency examination.
MUSIC TEACHER EDUCATION (MUSED-AA) A.A.

This program is designed for persons who wish to enter the music teaching profession at the elementary or high school level.

Students who know the college or university which they plan to transfer, should enroll in the specific courses recommended by the institution. Acceptance into education programs at a public university in Florida is dependent upon passing the CLAST. See page 7 for details.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Music and Theatre Department for assistance in planning your program of study.

* Electives based on general education distribution requirements.

+ In addition to EDG 2701, students majoring in Education at a public university in Florida must take six credits with an international or diversity focus. Select from courses listed on page 58.

Note: Students are strongly urged to enroll in MVK 1111, MVK 1112, MVK 2121 and MVK 2122 to pass any piano proficiency at the college or university to which they wish to transfer.

NATURAL RESOURCE CONSERVATION/ PRE-FORESTRY (TREE-AA) A.A.

This program of study offers the first two years of a baccalaureate degree program in forestry, wildlife ecology or resource conservation. It is designed specifically to assist the student in transferring immediately into a professional school. Working in close cooperation with an academic advisor, Natural Resource Conservation students prepare programs of study according to their educational career goals, or they follow one of several specialized options. Natural Resource Conservation graduates find employment in government agencies, consulting firms and environmental education programs. This program was developed with agreement from several leading universities in forest studies including the University of Florida, Auburn University, University of Georgia and Mississippi State. Two plus two scholarships between PJC and the University of Florida are also available each year to graduating high school seniors.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Biological Sciences Department for assistance in planning your program of study.

Department Head: Mr. James Brady 484-1168 jbrady@pjc.edu

### PHILOSOPHY (PHIL-AA) A.A.

This program is suggested for students who wish to pursue an A.A. degree with a concentration in philosophy. It will provide an excellent basis for anyone who plans to continue toward a higher degree in the liberal arts or the humanities. The student is encouraged to review the philosophy and religion courses in the course description section of this catalog.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC History, Languages and Philosophy Department for assistance in planning your program of study.

</table>

**Total Program Credits** | **60**

* Electives based on general education distribution requirements. Category IV and Category V selections must include at least three writing emphasis courses.

** Engineering/Science/Math electives — Select from the following (a total of four credit hours is required):
- CHM 1046 | General Chemistry II | 3
- CHM 1046L | General Chemistry II Laboratory | 1
- EGS 2311 | Engineering Statics | 3
- EGS 2321 | Engineering Dynamics | 3
- MAC 1114 | Plane Trigonometry (or higher math) | 4

The associate of arts degree may be awarded upon satisfactory completion of 60 credit hours. Students are advised to complete the above planned track in order to transfer into a similar program at senior institutions. Students should contact the department head or program coordinator regarding “the 48 hours” of common prerequisites for possible early transfer to the State University System.
**PRE-LAW/PRE-LEGAL ADMINISTRATION (LEGAL-AA) A.A.**

This program is designed to provide the first two years in a pre-law curriculum for students who expect to enter law school upon completion of a four-year baccalaureate degree program. It is aimed at a broad general education in the liberal arts and sciences. There is no standard, prescribed pre-law curriculum. However, students who intend to enter a phase of law in which the major emphasis will be business should follow the business transfer program.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Business Department for assistance in planning your program of study.

**Department Head:** Dr. Linda Bloom  
**Program Contact:** Dr. Jimmy Hightower  
**Primary Faculty:** Dr. Jack O'Donnell

### PRE-NURSING (NURSE-AA) A.A.

The program as outlined below is intended to give the student the first two years of a four-year program leading to a bachelor's degree in nursing and will satisfy the requirements of most baccalaureate nursing programs. In some instances, however, it is necessary for the student to take the entire program at the institution granting the nursing degree. Since requirements of colleges vary, students should obtain a catalog of the college to which they plan to transfer and consult with the dean of the intended nursing program in order to make the best choice of courses in junior college. In some cases, it may be desirable for the student to transfer at the end of the freshman year.

**Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage you to contact the PJC Biological Sciences Department for assistance in planning your program of study.**

Total Program Credits: 60

* Electives based on general education distribution requirements. Category IV and Category V selections must include at least three writing emphasis courses.

** Students may take BSC 2033 Ethical Issues in Biology, in place of BSC 1931.

Note: Pharmacy schools generally require General Physics before admission to the school. A student who plans to apply to pharmacy school after the sophomore year should consider adding eight credit hours of Physics to the suggested curriculum.

Transfer students will be fully accepted into the UF Pharm D Program without completing the Pre-Anatomy and Physiology and communication courses (assuming they meet all the other admissions requirements), but they will be advised to complete the Anatomy and Physiology courses at UF (if not already completed at the community college) in Summer A and B prior to starting the Pharm D Program in the fall.

PRE-PHYSICAL THERAPY (PT-AA) A.A.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Biological Sciences Department for assistance in planning your program of study.

* Elective based on general education distribution requirements. Category V selections must include at least one writing emphasis course.

(As of the competitive nature of the Physical Therapy programs, students are strongly advised to contact James Brady, Biological Sciences Department on the Pensacola Campus, 484-1168, during the first semester of enrollment at the college.)

---

**PSYCHOLOGY/SOCIAL SCIENCES (PSYCH-AA) A.A.**

This program is designed to provide the first two years of a baccalaureate degree in Psychology or Social Work. Students pursuing an upper-level degree in the social sciences can also obtain an excellent foundation in anthropology and sociology through the PSYCH-AA program.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC Behavioral Sciences Department for assistance in planning your program of study.

**RELIGION**  
*(RELIG-AA) A.A.*

The religion associate of arts degree is designed to give students an academic foundation for religious or philosophical studies at the university level. The religion A.A. is also a suitable major for a student desiring to seek an upper division degree in the humanities.

Students should consult with an advisor at the college or university they plan to attend for the specific courses recommended by that institution. We strongly encourage that you contact the PJC History, Languages and Philosophy Department for assistance in planning your program of study.

ASSOCIATE OF SCIENCE

ASSOCIATE OF SCIENCE

Associate of science degree programs are designed to prepare students for entry into employment requiring specialized skills. They require completion of fifteen to eighteen (15-18) credit hours of general education in specific categories that are acceptable transfer general education courses to the State University System. Three A.S. programs, Business Administration, Hospitality and Tourism Management, and Nursing (Associate Degree) R.N. presently have statewide articulation agreements which provide for the articulation of associate of science degrees to baccalaureate degrees. To transfer other associate of science programs to a state university may require additional hours of general education.

- Business Administration
- Dietetic Technician
- Early Childhood Education (Associate Degree)
- Hospitality and Tourism Management
- Legal Assisting
- Nursing (Associate Degree) R.N.
- Recreation Technology
- Special Education (Instructional Services Technology)
- Zoo Animal Technology

GENERAL EDUCATION REQUIREMENTS FOR THE A.S. DEGREE

MINIMUM GRADES

A.S. students must maintain an overall average GPA of 2.00 or higher in all general education courses required by that A.S. degree program. Some individual programs require a minimum “C” grade in specific general education courses as well. Grades in other courses cannot be used to offset a general education GPA of less than 2.00.

NON-TRADITIONAL CREDITS

A.S. students may not earn more than 15 of their general education course credits through non-traditional means. Non-traditional credits include: credits earned through CLEP, departmental exemption exams, or PLA, and all other credits described under “Non-Traditional Credits” in the Academic Policies section of this catalog.

GENERAL EDUCATION COURSE REQUIREMENTS FOR THE A.S. DEGREE

A.S. students must complete a minimum of FIFTEEN (15) GENERAL EDUCATION CREDITS AND MEET ORAL COMMUNICATION AND COMPUTER COMPETENCY REQUIREMENTS. Each A.S. degree program identifies how oral communications and computer competencies are met in existing courses through the district syllabus or designated courses that are approved to meet these competencies. The general education credits for the A.S. degree must be distributed as listed below. Some programs require more than 15 general education credits.

Graduation Requirements of Oral Communications and Computer Skills

Each A.S. degree program shall identify how oral communications and computer competencies are met in existing courses; the district syllabus for each course will so indicate. As an alternative, a program may designate courses that are approved to meet these requirements for the A.S. program. The courses that will satisfy this requirement are listed below:

Computer Competence Requirement

Any course with the prefix of CGS, COP, CTS, or CTS

GRA 2151C Computer Graphics I 3 cc
EME 2040 Introduction to Educational Technology 3 cc
LIS 1004 Introduction to Internet Research 1 cc
MUS 1360 Music and Computers 3 cc

Oral Communication Requirement

ORI 2000 Introduction to Oral Interpretation 3 cc
SLS 1345 Generations at Work 3 cc
SFC 1006C Basic Speaking and Listening Skills 1 cc
SFC 2500 Interpersonal Communication 3 cc
SFC 1596 Introduction to Forensics 3 cc
SFC 1600 Public Speaking 3 cc
SFC 2594C Intercollegiate Forensics 1 cc
ASSOCIATE OF SCIENCE DEGREE PROGRAMS

BUSINESS ADMINISTRATION (BUS-AS) A.S.

This program is designed to provide a foundation in business and to prepare students to seek employment in various business fields. The program has a statewide articulation from the associate of science to a baccalaureate degree in Business Administration and Management or Business: General. At the upper level the student will be required to complete 12 credit hours of general education and 48 credit hours as determined by the University. The articulation may be found in the Statewide Articulation Manual.

We strongly encourage that you contact the Business Department for assistance in planning your program of study.

Department Head: Dr. Linda Bloom 484-2504
Program Contact: Mr. Scott Key 484-2514
skey@pjc.edu

JOB PLACEMENT INFORMATION

The percent of Business Administration graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

DIETETIC TECHNICIAN (DIETT-AS) A.S.

This program prepares students to function at the management level of dietetic care. Typical duties include: employee training and supervision; menu planning; patient interviewing; diet instruction and modifications; food purchasing, storage and cost control. The dietetic technician is a career that offers both personal and financial rewards. Upon completion of the program, the student is eligible for membership in the American Dietetic Association (ADA) and the Dietary Managers Association (DMA). Graduates of this ADA approved program meet licensure requirements for health care facilities under Public Law 59a-4.110. Upon completion of the program, the graduate will be eligible to take the Registration Examination for Dietetic Technicians which is administered through the Commission on Dietetic Registration (CDR), The American Dietetic Association, 216 West Jackson Boulevard, Chicago, IL 60606.

We strongly encourage that you contact the Biological Sciences Department for assistance in planning your program of study.

Department Head: Mr. James Brady 484-1168
Program Contact: Ms. Gloria Gonzalez 484-1119
Primary Faculty: Dr. Janet Levins

SPECIAL REQUIREMENTS

To meet ADA standards, a student must complete a minimum of 450 clock hours of field work paralleling the content of specific courses. Students should take courses listed in the sequence below.

Not all core courses in this area are offered each term and most have prerequisites. Students should not self-advice in this area.

Students must earn a “C” or better in all core courses.

JOB PLACEMENT INFORMATION

The percent of Dietetic Technician graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

**EARLY CHILDHOOD EDUCATION (CHILD-AS) A.S.**

Completion of the program prepares an individual to direct and operate a child care center, a preschool center or a family day care program. Throughout the program, students prepare manuals, portfolios, and materials that will be vital to them in a child care workplace. Course components also focus on facility ownership aspects involved in child care programs. In addition, Early Childhood Education is designed for students preparing to teach in the Federal Head Start program, to work as a teacher assistant in the Escambia County school system, or to teach in a child care center (infants, preschool or school-age setting).

Program completion creates the option for students to transfer to a higher degree program at a later date. The Early Childhood Education Program meets State of Florida education requirements related to owning, directing, operating, or working in a child care center.

We strongly encourage that you contact the Behavioral Sciences Department for assistance in planning your program of study.

Florida CDA Equivalency Certificate

**HOSPITALITY AND TOURISM MANAGEMENT (HOTEL-AS) A.S.**

The Hospitality and Tourism Management Program prepares graduates for careers in the many varied areas of the hospitality/tourism industry. The program is designed for individuals wanting to enter or advance in a professional career in lodging, restaurants, tourism, travel, food service, catering, and beverage as well as many other management positions in the industry. Courses in the program prepare all students to work in any area of the hospitality industry. In addition, students select one or five emphasis areas, which allows them to gain additional management skills in a particular segment of the hospitality industry. The students completing the program will have gained knowledge and competencies in three areas: first in the management of people and other business resources; second in how to apply their administrative and management skills in any position in the industry; and third in skills related to one of the areas of emphasis. Students may receive dual credits toward diplomas and/or professional certificates with appropriate courses in the program. For information and assistance in selecting courses, please contact the Hospitality and Tourism Management Program coordinator.

This program as displayed below has a guaranteed statewide articulation of associate in science degree to baccalaureate degree in Hospitality Administration/Management Programs not accredited by AACSB. At the upper level, the student will be required to take 18 credit hours of General Education and 42 credit hours as identified by institutional requirements. The articulation may be found in the Statewide Articulation Manual. Students are encouraged to seek advising assistance from the department identified for additional information.

We strongly encourage that you contact the Professional Service Careers Department for assistance in planning your program of study.

**Department Head:** Mr. Larry Gardner 484-1013

**Program Contact:** Mr. L. B. “Sandy” Southerland 484-1159

Legal Assisting (LEGAL-AS) A.S.

The legal assistant—also referred to as a “paralegal”—has become, in less than two decades, an integral part of the legal profession. This program equips its graduates to function both as an attorney’s general assistant and as a highly competent specialist in a particular area of law. In addition to 16 hours of general education courses, and 3 hours of electives, all students must complete 36 hours of core courses and one of the 9-hour speciality clusters of either Litigation, Real Estate/Probate, Commercial Law, or Criminal Law. (Specialty clusters are taught only in the evening and are scheduled over two terms when a sufficient number of students have indicated that they are ready for and want a particular cluster.) Nearly half of the program’s graduates return for additional specialization and may work towards an advanced technical certificate of recognition for each specialty cluster completed (see page 108 for further information).

Courses are structured and scheduled so that a student should be able to enter the program on either a full or part-time basis in any day or night term.

We strongly encourage that you contact the Business Department for assistance in planning your program of study.

Department Head: Dr. Linda Bloom lboom@pjc.edu
Program Contact: Dr. James Hightower jhightower@pjc.edu
Primary Faculty: Dr. Natasha Simpson

JOB PLACEMENT INFORMATION

The percent of Legal Assisting graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 82%, 91%, and 90% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

### Nursing (Associate Degree) R.N. (RN-AS)

The Pensacola Junior College Nursing faculty believes that associate degree nursing graduates contribute necessary, unique, and skilled competencies to the health care system. The Department of Nursing’s mission is to prepare nursing graduates who reflect academic and clinical competence in performing the activities within the scope of associate degree nursing practice. Graduates are eligible for the National Council Licensure Examination for registered nurses.

This program as displayed below has a guaranteed statewide articulation of associate of science degree to baccalaureate degree in a university nursing B.S. program. At the upper level the student will be required to take 12 credit hours of upper division General Education and Common Prerequisites and 29-34 credit hours of BSN courses.

We strongly encourage that you contact the Nursing Department for assistance in planning your program of study.

**SPECIAL ADMISSIONS REQUIREMENTS**

Admission to this program is limited by special accreditation requirements and/or the availability of clinical resources; therefore, students seeking admission to the program must complete application to both the college and the program.

All application requirements must be completed before a student will be considered eligible for admission to this program.

Applicants are considered eligible for admission when they have at least a minimum 2.0 GPA, and 40th percentile or above on the NLN RN Preadmission Exam. Applicants are admitted to the program on a first qualified, first accepted basis. The program begins in August and May. Therefore, all eligible applicants from an application period will be assured of entrance to the program at some point in the future. See the application packet for more specific details. Progression to the clinical component of the program is contingent upon submission of satisfactory physical examination/immunization forms.

There are no prerequisite courses to the program; however, HUN 1201, BSC 1093, BSC 1093L, ENC 1101, BSC 1094, BSC 1094L, and MAC 1105, are prerequisites to NUR 1021C. These courses comprise the first term (May and August) of the R.N. curriculum. Accepted applicants who have completed these courses would join the nursing program in the second term of their assigned curriculum plan. For students entering the summer term (May), a curriculum plan may be obtained from the Health Programs Admissions Office.

**SPECIAL REQUIREMENTS**

Nursing students must earn a minimum of a “C” in all nursing (NUR) courses, in both Anatomy and Physiology courses, and in English Composition I.

**JOB PLACEMENT INFORMATION**

The percent of Nursing (Associate’s Degree) R.N. graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%, 99%, and 100% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.
**Recreation Technology (REC-AS) A.S.**

This degree prepares students for employment as recreation leaders, activity directors, group recreation workers, or recreation facility staff. The degree program would also be beneficial to persons who might desire to obtain a bachelor's degree in a human performance or a recreational major at a later date.

We strongly encourage you that contact the Professional Service Career Department for assistance in planning your program of study.

The courses with identified categories meet general education requirements.

* Electives based on general education distribution requirements.

** Meets oral communication requirement.

***Meets computer competence requirement.

**Career Mobility Option**

The Career Mobility Option is designed to give the licensed practical nurse the opportunity to become a graduate nurse and meet the education criteria for the registered nursing license examination. Students entering this program through the career mobility path must hold Florida License as a practical nurse and meet all the admission criteria for the two-year R.N. program, and have completed Anatomy and Physiology I and II and Labs, English Composition I, Human Growth and Development, College Algebra and Elements of Nutrition.

The Career Mobility Curriculum is currently being revised to reflect the changes in the RN-AS program. General education requirements will remain the same as those for the RN-AS program; nursing courses will focus on content and skills essential for the licensed practical nurse and include two semesters of study.

Approval of the curriculum revision was incomplete at the time of publication. Please contact the Nursing Department for current information.

**Job Placement Information**

The percent of Recreation Technology graduates who have been reported as satisfying state and federal definitions of in-field job placement for 2001 is 100%. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

+A maximum of 3 credit hours Human Performance and Recreation Co-op or Internship can be applied toward fulfillment of the Recreation Technology Program requirements. Program majors must be advised by the Program Coordinator or the Department Head of Behavioral Sciences before enrolling in any cooperative education course.

+A maximum of two 1-hour sports activity courses may be utilized in fulfillment of Recreation Technology program requirements.
SPECIAL EDUCATION (INSTRUCTIONAL SERVICES TECHNOLOGY) (CASE-AS) A.S.

This two-year program is designed for students who plan to find employment immediately after completing the associate of science degree. Graduates may work in group settings or on a one-to-one basis to improve the quality of life skills of those who are physically, mentally, emotionally handicapped or health impaired. Graduates of the Instructional Services Technology program may seek employment as paraprofessionals in public school settings, community agencies, or residential settings for children and adults.

We strongly encourage you to contact the Behavioral Sciences Department for assistance in planning your program of study.

Department Head: Dr. June Linke 484-2530
Program Contact: Ms. Betsy Werre bwerre@pjc.edu

JOB PLACEMENT INFORMATION

The percent of Instructional Services Technology graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%, 75%, and 67% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

ZOO ANIMAL TECHNOLOGY (ZOO-AS) A.S.

The Zoo Animal Technology program is designed to prepare students for employment in a zoological park or in settings requiring animal care, husbandry, breeding or health. The program is presented in cooperation with the Zoo in Gulf Breeze, Florida. Admission to this program is by availability to clinical/ experiential assignments at the Zoo. Students in this program must comply with a dress and appearance code required by the Zoo. After completing the Zoo Animal Technology A.S. degree, students may seek an advanced technical certificate in Zoo Research (see page 108 for further information).

We strongly encourage you to contact the Biological Sciences Department for assistance in planning your program of study.

Department Head: Mr. James Brady 484-1168

ASSOCIATE OF APPLIED SCIENCE

Associate of applied science degree programs are designed to prepare students for entry into employment requiring specialized skills. When you decide to follow an associate of applied science (A.A.S.) degree program, you are not necessarily preparing yourself for transfer to a state university. You should understand that your decision would result in your earning a degree which should lead to a productive career. If you later decide to attend a university, you may be required to do additional work at the freshman or sophomore level.

Pensacola Junior College is a participating postsecondary member of the Escarosa Tech Prep Consortium, which includes Escambia and Santa Rosa County Schools. Secondary tech prep programs of study may articulate to associate of applied science degrees at PJC. If you are a tech prep program completer, please advise your PJC counselor and the registrar when you enroll. Upon satisfactory completion of 15 college credit hours, the specified number of credit hours will be posted to your A.A.S. degree program transcript. The number of articulated hours varies with different associate of applied science programs of study. Contact the Tech Prep Coordinator for additional information or concerns, 484-1492.

GENERAL EDUCATION REQUIREMENTS FOR THE A.A.S. DEGREE

MINIMUM GRADES

A.A.S. students must maintain an overall GPA of 2.00 or higher in all general education courses required by that A.A.S. degree program. Some individual programs require a minimum “C” grade in specific general education courses as well. Grades in other courses cannot be used to offset a general education GPA of less than 2.00.

NON-TRADITIONAL CREDITS

A.A.S. students may not earn more than 15 of their general education course credits through non-traditional means. Non-traditional credits include: credits earned through CLEP, departmental exemption exams, or PLA, and all other credits described under “Non-Traditional Credits” in the Academic Policies section of this catalog.

GENERAL EDUCATION COURSE REQUIREMENTS FOR THE A.A.S. DEGREE

A.A.S. students must complete a minimum of FIFTEEN (15) GENERAL EDUCATION CREDITS AND MEET ORAL COMMUNICATION AND COMPUTER COMPETENCY REQUIREMENTS. Each A.A.S. degree program identifies how oral communications and computer competencies are met in existing courses through the district syllabus or designated courses that are approved to meet these competencies. The general education credits for the A.A.S. degree must be distributed as listed below. Some programs require more than 15 general education credits. A program may specify the general education courses in each category or may allow the students to select from the categories listed below.

Graduation Requirements of Oral Communications and
Computer Skills

Each A.A.S. degree program shall identify how oral
communication and computer competencies are met in
existing courses; the district syllabus for each course will so
indicate. As an alternative, a program may designate courses
that are approved to meet these requirements for the A.A.S.
program. The courses that will satisfy this requirement are
listed below:

Computer Competence Requirement credit

Any course with the prefix of CGS, CIS, CTS

COP, CEN, CET, or CDA

GRA 2151C Computer Graphics I ................................3 cc
EME 2040 Introduction to Educational Technology ........3 cc
LIS 1004 Introduction to Internet Research ..................1 cc
MUS 1360 Music and Computers .................................3 cc

Oral Communications Requirement

ORI 2000 Introduction to Oral Interpretation .................3 cc
SLS 1345 Generations at Work ...................................3 cc
SPC 1006C Basic Speaking and Listening Skills ..........1 cc
SPC 2300 Interpersonal Communication .......................3 cc
SPC 1596 Introduction to Forensics ..........................3 cc
SPC 1600 Public Speaking .........................................3 cc
SPC 2594C Intercollegiate Forensics .........................1 cc
ASSOCIATE OF APPLIED SCIENCE DEGREE PROGRAMS

ACCOUNTING TECHNOLOGY (ACCT-AAS) A.A.S.

This program is designed to provide the education and skill development to prepare the students for entry-level employment in accounting or bookkeeping or to provide supplemental training for persons previously or currently employed in these areas. The knowledge and training acquired in this program can also be applied to many other managerial or supervisory positions in business and government. Students should consult a business advisor when choosing electives.

We strongly encourage that you contact the Business Department for assistance in planning your program of study.

Program Contact: Mr. Richard Irvine 484-2508
rirvine@pjc.edu

Primary Faculty:
Dr. Vance Land
Ms. Audrey Morrison
Ms. Carla Rich
Ms. Dorinda Lynn
(Milton)
Ms. Michelle Haggard
(Warrington)

JOB PLACEMENT INFORMATION

The percent of Accounting Technology graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

AUTOMOTIVE SERVICE MANAGEMENT TECHNOLOGY (AUTO-AAS) A.A.S.

The automotive service technology curriculum is designed to provide students with training and practical experience in the repair and maintenance of modern vehicles. Students acquire practical hands-on experience in the PJC laboratory setting. Students become familiar with management skills and human relations techniques.

We strongly encourage that you contact the Center for Information and Engineering Technology Department for assistance in planning your program of study.

The courses with identified categories meet general education requirements.

** Meets oral communication requirement.

*** Meets computer competence requirement.

COMPUTER PROGRAMMING AND ANALYSIS (COMP-AAS) A.A.S.

The Computer Programming and Analysis program prepares students for entry-level positions in data processing such as programmer, software specialist, and computer operator. By special agreement with the University of West Florida, students with an A.A.S. Degree can continue their studies in a Bachelor of Arts Degree program. If a student plans to do so, electives should be chosen carefully with the help of the department head. UWF will also require certain additional general education course work for transferees holding the A.A.S. Degree.

We strongly encourage that you contact the Computer Science Department for assistance in planning your program of study.

Program Director, Computer Science Department:
Program Contact: Mr. Randy Rose 484-1173
Primary Faculty: Pensacola

JOB PLACEMENT INFORMATION

The percent of Computer Programming and Analysis graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.
CRIMINAL JUSTICE TECHNOLOGY  (LAW-AAS) A.S.

The Criminal Justice Technology program is open to all students. The program provides an opportunity to prepare for a law enforcement or corrections career. Also currently employed practitioners can increase their knowledge and help develop their professional competence.

We strongly encourage that you contact the History, Languages/Philosophy Department for assistance in planning your program of study.

Department Head: Dr. Charles Schuler 484-2543
cschuler@pjc.edu

Program Contact: Mr. Mike Ardis 484-2575
mardis@pjc.edu

Primary Faculty: Mr. James Chancy

Students who have had prior Criminal Justice training may be eligible for articulation if they meet the following criteria:

Credit for Approved Prior Training

Credit opportunities are available for individuals who have prior training approved by the Florida Criminal Justice Standards or Training Commission and offered by a Florida Certified Center located at a Community College or a Vocational Center. The maximum credit awarded is thirty credits. Courses from other training centers will be limited to those nationally recognized including the Southern Police Institute, FBI National Academy, and the Drug Enforcement Administration Drug School.

JOB PLACEMENT INFORMATION

The percent of Criminal Justice Technology graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 78%, 75% and 100% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

CULINARY MANAGEMENT (CHEF-AAS) A.A.S.

This program in Culinary Management is designed to prepare individuals for careers in the many widely varied areas of the culinary industry. The Culinary Management program provides the student with a unique combination of comprehensive theoretical knowledge and hands-on training. The program is carefully structured to meet the American Culinary Federation Educational Institute standards. Students will master the fundamentals of culinary production in an environment that builds teamwork while gaining practical individualized experience.

Students may receive dual credits toward diplomas and/or professional certificates with appropriate courses in the program.

We strongly encourage that you contact the Professional Service Careers Department for assistance in planning your program of study.

DENTAL HYGIENE (DETH-AAS) A.A.S.

A two-year curriculum designed to assist students to develop and master basic clinical competencies and theoretical concepts of current dental hygiene practice. Graduates receive an A.A.S. degree in dental hygiene education and are eligible to sit for the state board examination in any state in which they desire to practice. Graduates of this program are eligible to pursue the B.S. degree at a senior level institution. The dental hygiene program is fully accredited by the American Dental Association Commission on Accreditation.

We strongly encourage that you contact the Applied Health Technologies Department for assistance in planning your program of study.

SPECIAL ADMISSIONS REQUIREMENTS

Admission to this program is limited by special accreditation requirements and/or the availability of clinical assignments; therefore, students seeking admission to the program must complete application to both the college and the program. Application packets are available from the Health Programs Admission Office or the PJC website at www.pjc.edu. All information about job opportunities in this field is available through the Professional Services Department or the Student Services Office.

Admission requirements for eligibility to the program include high school diploma or GED, satisfactory scores on diagnostic tests in reading and computation skills, and a minimum GPA of 2.0.

Applicants are considered eligible for the applicant pool when they have meet required scores on the health-related math test and the reading, academic aptitude, and science portions of the Revised PSB Health Occupations Aptitude Examination. When an applicant completes all sections of the application process and meets minimum criteria, they will be provisionally accepted into the program and assigned a seat in the next available class. For applicants meeting selection criteria who do not wish to pursue the two year course sequence, there is a three year course sequence. Contact the Department of Applied Health Technologies at (850) 484-2308 for details.

JOB PLACEMENT INFORMATION

The percent of Dental Hygiene graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%, 100% and 92% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

---

**DRAFTING AND DESIGN TECHNOLOGY** (DRFT-AAS) A.A.S.

This program is designed to prepare individuals for employment in the drafting and computer drafting field. The program emphasizes the theoretical knowledge required for a variety of drafting positions in the building industry. It addresses drafting for the manufacturing industry and technology in a general sense.

We strongly encourage that you contact the Center for Information and Engineering Technology Department for assistance in planning your program of study.

ELECTRONICS ENGINEERING TECHNOLOGY  (ELEC-AAS) A.A.S.

The Electronics Engineering Technology Program is designed to provide students with the fundamentals of electronics that will prepare them as technicians in a variety of fields including computer technology, networking, instrumentation, telecommunications, and biomedical. Selected specialty courses are available to provide detailed instruction in these technical areas. The student must complete the general education courses specified and all the core courses for electronics. The additional nineteen hours are to be selected from technical electives included in the program listing.

We strongly encourage that you contact the Information Technology Department for assistance in planning your program of study.

Program Director, Information Technology Department:

EMERGENCY MEDICAL SERVICES  (EMS-AAS) A.A.S.

This program provides an added dimension in advanced emergency skills judgment and emergency services management. This program is accredited by the Commission on Accreditation of Allied Health Education Programs, A.M.A.

We strongly encourage that you contact the Applied Health Technologies Department for assistance in planning your program of study.

Department Head: Mr. Bill Moore 484-2308
bmoore@pjc.edu

Program Contact: Ms. Sandra Hartley 484-2225
shartley@pjc.edu

SPECIAL ADMISSIONS REQUIREMENTS

Admission to this program is limited by special accreditation requirements and/or the availability of clinical assignments; therefore, students seeking admission to the program must complete application to both the college and the program. See the website at www.pjc.edu, click on the Warrington campus, then the Emergency Medical Services program for specific details.

All application requirements must be completed by the established deadlines before a student will be considered eligible for admission to this program.
Minimum requirements for eligibility to the program include high school diploma or GED, satisfactory scores on diagnostic tests in reading and computation skills. Applicants are considered eligible for the applicant pool when they have minimum scores on the reading, academic aptitude, and science knowledge portions of the Revised PSB Health Occupations Aptitude Examination. Admission to this program is based upon receipt date of completed application requirements. Once a particular class is full, the remaining qualified applicants are automatically listed as alternates for that class. If the applicant is not seated he/she is offered admission in the next available class.

Final admission to the program is contingent upon submission of satisfactory physical examination/immunization forms.

**JOB PLACEMENT INFORMATION**

The percent of Emergency Medical Services graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

****Fire Science electives are any FFP or EMS courses.

---

**FIRE SCIENCE TECHNOLOGY (FIRE-AAS) A.A.S.**

The Fire Science Technology program is open to all students who wish to gain the understanding necessary for entry into the field of fire science. It is also designed to increase the level of competency of in-service officers and to help prepare them for promotions. Students desiring a career in Fire Science should visit the Applied Health Technologies Department and discuss with the department head or full-time faculty members their interests and career goals in order that they may select the proper courses.

Prior to enrollment, students should review employment entrance requirements of local, state and federal agencies.

We strongly encourage that you contact the Applied Health Technologies Department for assistance in planning your program of study.

Total Program Credits: 60

The courses with identified categories meet general education requirements.

* Electives based on general education distribution requirements.
** Meets oral communication requirement.
***Meets computer competence requirement.
****Fire Science electives are any FFP or EMS courses.

Emphasis courses provide information on obtaining various certifications from the Bureau of Fire Standards.
Fire Safety Inspector I Emphasis
FFP 1120 Fire Service: Building Construction ...........................................3
FFP 1505 Fire Prevention Practices .........................................................1
FFP 2510 Codes and Standards ................................................................3
FFP 2521 Techniques for Reading Blueprints and Plans ......................3
FFP 2540 Private Fire Protection Systems I .............................................3

Fire Safety Inspector II Emphasis
FFP 2541 Private Fire Protection Systems II .............................................3
FFP 2111 Fire Chemistry ........................................................................3
FFP 2610 Fire Investigation: Cause and Origin ........................................3
FFP 2793 Fire and Life Safety Educator I ................................................3
FFP 2706 Public Information Officer .....................................................3

Fire Investigator I Emphasis
FFP 1120 Fire Service: Building Construction ...........................................3
FFP 2111 Fire Chemistry ........................................................................3
FFP 2540 Private Fire Protection Systems I .............................................3
FFP 2610 Fire Investigation: Cause and Origin ........................................3

Pump Operator Emphasis
FFP 2301 Fire Service Hydraulic ............................................................3
FFP 2302 Fire Apparatus Operations ......................................................3

Hazardous Materials Emphasis
FFP 2111 Fire Chemistry ........................................................................3
FFP 2401 Hazardous Materials I ..............................................................3
FFP 2402 Hazardous Materials II ............................................................3
FFP 2423C Hazardous Materials III ..........................................................6

Fire Officer I Emphasis
FFP 1120 Fire Service: Building Construction ...........................................3
FFP 1505 Fire Prevention Practices .........................................................1
FFP 2111 Fire Chemistry ........................................................................3
FFP 2540 Private Fire Protection Systems I .............................................3
FFP 2720 Company Officer Leader ..........................................................3
FFP 2740 Fire Service Course Delivery ...................................................3
FFP 2800 Public Information Officer ......................................................3

Fire Service Instructor I Emphasis
FFP 2740 Fire Service Course Delivery ...................................................3

Fire Service Instructor II Emphasis
FFP 2740 Fire Service Course Delivery ...................................................3
FFP 2741 Fire Service Course Design or Equivalent ................................3

Fire Service Instructor III Emphasis
FFP 2740 Fire Service Course Delivery or Equivalent ..........................3
FFP 2741 Fire Service Course Design or Equivalent ...............................3

Requires 6 years in fire service experience, 2 year degree and examination.

We strongly encourage that you contact the Biological Sciences Department for assistance in planning your program of study.

Department Head: Mr. James Brady 484-1168
Program Contact: Dr. Conrad Brewer 484-4432

JOB PLACEMENT INFORMATION
The percent of Forest Technology graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%, 83%, and 75% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

Wood Procurement Emphasis (WOOD-AAS)
FOR 1741 Timber Harvesting | 3 |
FOR 2454 Timber Inventory | 3 |
FOR 2750 Timber Procurement | 3 |

We strongly encourage students to seek employment with forest industries, state and federal agencies and forestry consulting firms. Students may choose from two areas of specialization, Forest Management and Wood Procurement. A field experience at Blackwater River State Forest is required during the summer term.

FOREST TECHNOLOGY
(TREE-AAS, WOOD-AAS) A.A.S.

This program of study prepares students for careers as forest technicians by providing hands-on training and an understanding of the many disciplines of forestry. Instruction by working foresters, field experience and exposure to the forest industry will prepare students to enter employment with forest industries, state and federal agencies and forestry consultants. Students may choose from two areas of specialization, Forest Management and Wood Procurement. A field experience at Blackwater River State Forest is required during the summer term.
GRAPHIC DESIGN TECHNOLOGY (GRAPHICS TECHNOLOGY) (GRPH-AAS) A.A.S.

A two-year program that prepares students for careers in graphic design upon graduation, or acts as a transfer degree for persons wishing to continue their education toward an advanced degree at a professional art school. Additional general education course work may be required for transfer to a four-year college. Contact the four-year school for information.

Courses cover practical and theoretical problems of visual communication from the inception of an idea to its final presentation to the printer or client. Concepts and execution are covered with strong emphasis on computer assistance, drawing skills, and technical developments in the field. Some professional internships are available for advanced students.

We strongly encourage that you contact the Visual Arts Department for assistance in planning your program of study.

Department Head: Mr. Allan Peterson 484-2554
Primary Faculty: Mr. David Hinds
Ms. Patricia Reppenhagen
Mr. Spiros Zachos
Mr. William Clover

JOB PLACEMENT INFORMATION

The percent of Graphic Design Technology graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%, 80%, and 100% respectively. For additional information about job opportunities in this field, contact the Visual Arts Department or the Student Job Services Office.

HEALTH INFORMATION MANAGEMENT (HIM-AAS) A.A.S.

The two-year degree provides a student with the technical skills necessary to prepare, analyze, and maintain health information required by the patient, health facility, and public. The program is accredited by the Commission on the Accreditation of Allied Health Education Programs (CAAHEP) and the American Health Information Management Association. Graduates of the program are eligible to sit for the national qualifying examination offered through AHIMA for certification as Registered Health Information Technician (RHIT).

We strongly encourage that you contact the Arts and Sciences Department for assistance in planning your program of study.

Department Head: Ms. Ann Webb 484-2336
Program Contact: Ms. Donna Shumway 484-2213

JOB PLACEMENT INFORMATION

The percent of Health Information Management graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%, 100%, and 89% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

SPECIAL REQUIREMENTS

Persons interested in the program should contact the Health Programs Admissions Office at the Warrington Campus. Applications must be returned to this office.

HEALTH SERVICES MANAGEMENT (HSM-AAS) A.A.S.

Health Services Management graduates work in the administrative support areas of the health field. Positions include professional duties in hospitals, clinics, insurance companies, pharmaceutical firms, and doctor’s offices. Health Services Management professionals have little or no direct patient contact, but provide business and administrative services “behind the scenes” by managing insurance, payroll, patient admissions, billings, regulatory reports, marketing, auxiliary services and other similar administrative functions.

We strongly encourage that you contact the Arts and Sciences Department for assistance in planning your program of study.

HOSPITALITY AND TOURISM MANAGEMENT (HOTL-AAS) A.A.S.

The Hospitality and Tourism Management Program prepares graduates for careers in the many varied areas of the hospitality/tourism industry. The program is designed for individuals wanting to enter or advance in a professional career in lodging, restaurants, tourism, travel, food service, catering, and beverage as well as many other management positions in the industry. Courses in the program prepare all students to work in any area of the hospitality industry. In addition, students select from one of four emphasis areas, which allows them to gain additional management skills in a particular segment of the hospitality industry. The students completing the program will have gained knowledge and competencies in three areas: first, in the management of people and other business resources; second, in how to apply their administrative and management skills in any position in the industry; and third, in skills related to one of the areas of emphasis.

Students may receive dual credits toward diplomas and/or professional certificates with appropriate courses in the program. For information and assistance in selecting courses, please contact the Hospitality and Tourism Management program coordinator.

We strongly encourage that you contact the Professional Service Careers Department for assistance in planning your program of study.

Department Head: Mr. Larry Gardner 484-1013
Program Contact: Mr. L.B. “Sandy” Southerland 484-1159

### Total Program Credits: 60

The courses with identified categories meet general education requirements.

* Electives based on general education distribution requirements.

** Area Elective—Any college credit course from one of the following prefix areas or SLS1371.

### INTERNET SERVICES TECHNOLOGY (INST-AAS) A.A.S.

This program prepares students for entry-level positions in Internet/Intranet related jobs. Students will be prepared for jobs such as Web Technician, Web Developer, Web Author, Website Designer, Website Manager, and Internet Programmer. The program includes foundation courses in Information Technology and Business as well as a series of technical courses in development of Web site content and Web site management.

We strongly encourage that you contact the Computer Science Department for assistance in planning your program of study.

LANDSCAPE AND HORTICULTURE TECHNOLOGY  
(LAWN-AAS) A.A.S.

This program is designed to provide the basic skills needed by the Landscape Maintenance Industry. Students will learn plant identification, disease management, landscape installation, equipment operation, cultural practices, basic landscape design, equipment safety, and management and economic skills. Periodic professional development courses will be offered to enhance the skill levels of individuals working in the industry.

We strongly encourage that you contact the Biological Sciences Department for assistance in planning your program of study.

MANUFACTURING TECHNOLOGY  
(MNFG-AAS) A.A.S.

The Manufacturing Technology program prepares students for careers in the industrial manufacturing environment. The broad-based, systems-oriented foundation courses provide a basis for employment in computer-aided manufacturing. Upon completion of the emphasis courses, the student must select any (12) credits from the emphasis courses listed. Each emphasis provides the student with unique skills necessary for employment in local and regional industries.

We strongly encourage that you contact the Center for Information and Engineering Technology Department for assistance in planning your program of study.

Director:  
Dr. Carol S. Halfhill  
484-2522

Program Contact:  
Mr. Mike Cannon  
484-2524

JOB PLACEMENT INFORMATION

The percent of Manufacturing Technology graduates who have been reported as satisfying state and federal definitions of in-field job placement for the year 2000, 2001, and 2002 is 71%, 100%, and 100% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

MULTIMEDIA TECHNOLOGY (DIGITAL MEDIA/MULTIMEDIA TECHNOLOGY) (MDIA-AAS, VIDEO-AAS) A.A.S.

Multimedia uses the computer's ability to incorporate graphics, sound, video, animation, text, and still images in the production of a variety of applications, including fine art, personal computing, promotional presentations, education authoring, electronic publishing, television, recording, gaming, and more. Students can expect creative, hands-on experience in current computer capabilities, picture and text generation, video, and professional application of those integrated skills.

We strongly encourage that you contact the Visual Arts Department for assistance in planning your program of study.

Department Head: Mr. Allan Peterson 484-2554 apeterson@pjc.edu
Primary Faculty: Ms. Stacey Rimmerman Mr. Spiros Zachos

JOB PLACEMENT INFORMATION

The percent of Multimedia Technology graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%, 92% and 90% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

NETWORKING SERVICES TECHNOLOGY (NET-AAS) A.A.S.

The Networking Services Technology program prepares students to design, install, and administer local area networks. Typical job titles include system administrator and network support specialist. By special agreement with the University of West Florida, students with an A.A.S. Degree can continue their studies in a Bachelor of Arts Degree program. If a student plans to do so, electives should be chosen carefully with the help of the department head. UWF will also require certain additional general education course work for transfers holding the A.A.S. Degree.

We strongly encourage that you contact the Information Technology Department for assistance in planning your program of study.

Program Director, Information Technology Department:
Mr. Robert Pierce 484-1949 rpierce@pjc.edu

Primary Faculty: Mr. Larry Ball Mr. Rich Cacace Mr. Jim Drennen Mr. Lance Hall

JOB PLACEMENT INFORMATION

The percent of Networking Services Technology graduates who have been reported as satisfying state and federal definitions of in-field job placement for the year 2000, 2001, and 2002 is 100%, 73%, and 93% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

**PHYSICAL THERAPIST ASSISTANT (PTA-AAS) A.A.S.**

The physical therapist assistant is a skilled technical health care worker, who under the supervision of a registered physical therapist carries out a planned patient care program. Duties of the physical therapist assistant include: training patients in exercise and activities of daily living; conducting treatments utilizing special equipment; assisting in performing tests, evaluations and treatment procedures; and observing the patient’s responses and reporting to the supervising physical therapist. This program is accredited by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association.

We strongly encourage that you contact the Applied Health Technologies Department for assistance in planning your program of study.

**Department Head:** Mr. Bill Moore 484-2308

**Program Contact:** Ms. Cena Harmon 484-2303

**Primary Faculty:** Ms. Amy Crum

**SPECIAL ADMISSIONS REQUIREMENTS**

Admission to this program is limited by special accreditation requirements and/or the availability of clinical assignments; therefore, students seeking admission to the program must complete application to both the college and the program. Application packets are available from the Admissions Specialist, Health Programs Admissions Office on the Warrington Campus or the PJC website at www.pjc.edu, click on Warrington Campus, then Physical Therapist Program for specific details.

All application requirements must be completed by the established deadlines before a student will be considered eligible for admission to this program.

Minimum requirements for eligibility to the program include high school diploma or GED and satisfactory scores on diagnostic tests in reading and computation skills. Applicants are considered eligible for the applicant pool after taking the revised PSB Health Occupations Aptitude Examination and health-related math test, and after completing 48 hours of observation of physical therapy on three different venues. See application packet for more specific details.

Final admission to the program is contingent upon submission of satisfactory physical examination/immunization forms.

**JOB PLACEMENT INFORMATION**

The percent of Physical Therapist Assistant graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

**Total Program Credits** ................................. 74

The courses with identified categories meet general education requirements.

* Electives based on general education distribution requirements.

** Meets oral communication requirement.

***Meets computer competence requirement.
RADIOGRAPHY (XRAY-AAS) A.A.S.

The 23 month full-time curriculum has been designed to assist students in developing and mastering basic clinical competencies and theoretical concepts of current radiography practice. Graduates receive an A.A.S Degree in Radiologic Technology and are eligible to sit for the national examination given by the American Registry of Radiologic Technologists. The American Registry of Radiologic Technologists certification is recognized throughout the country. The Radiologic Technology program is fully accredited by the Joint Review Committee on Education in Radiologic Technology.

We strongly encourage that you contact the Applied Health Technologies Department for assistance in planning your program of study.

Department head: Mr. Bill Moore 484-2308
Program Contact: Ms. Marilyn Coseo 484-2305
Primary Faculty: Ms. Margaret Ward
Mrs. Marie Hattabaugh

SPECIAL ADMISSIONS REQUIREMENTS

Admission to this program is limited by special accreditation requirements and/or the availability of clinical assignments; therefore, students seeking admission to the program must complete application to both the college and the program. Application packets are available from the Health Programs Admissions Office on the Warrington Campus or the PJC website at www.pjc.edu, click on Warrington Campus, then Radiography Program for specific details.

All application requirements must be completed by the established deadlines before a student will be considered eligible for admission to this program.

Minimum requirements for eligibility to the program include high school diploma or GED and satisfactory scores on diagnostic tests in reading and computation skills.

When a student completes all sections of the application process and meets minimum criteria, they will be provisionally accepted into the program and assigned a seat in the next available class. Therefore, it is important to complete the application, testing and transcript acquisition process as soon as possible. The student will be notified of their provisional acceptance in a timely manner. Final admission into the program is contingent upon submission of satisfactory physical examination/immunization forms. Students not meeting the minimum criteria will be notified of their status.

Core courses with an RTE prefix may not be taken on a Pass/Fail option except RTE 2864.

Requirements for the Associate in Applied Science Degree for Hospital Based Radiographic graduates:

Pensacola Junior College provides a means for graduates of JRCERT accredited hospital based two year programs who are currently registered Radiologic Technologist to pursue an Associate Degree. To qualify the applicant must submit an application to the college and the Applied Health Technologies Department. The applicant must also submit an official transcript to the college and hold a current RT license.

Academic Programs

The courses with identified categories meet general education requirements.

* Electives based on general education distribution requirements.
** Meets oral communications requirement.
***Meets computer competence requirement
SONOGRAPHY
(DIAGNOSTIC MEDICAL SONOGRAPHY TECHNOLOGY)

(SON-AAS) A.A.S.

The Diagnostic Medical Sonography A.A.S. two-year curriculum is designed to prepare graduates to exercise initiative and independent judgement in the performance of sonographic examinations as prescribed by a licensed physician. The curriculum encompasses theoretical concepts and clinical competency in sonography.

Graduates are encouraged to pursue registry with the American Registry of Diagnostic Medical Sonographers. Information regarding the registry can be found at www.ardms.org. The program is actively seeking accreditation by the Commission on Accreditation of Allied Health Education Programs in conjunction with the Joint Review Committee in Diagnostic Medical Sonography. Instruction is consistent with Curriculum Frameworks as administered by the Florida Department of Education.

We strongly encourage that you contact the Applied Health Technologies Department for assistance in planning your program of study.

Department Head:  Mr. Bill Moore  484-2308
Program Contact:  Ms. Liesa Bromet  484-2251

SPECIAL REQUIREMENTS

Admission to this program is limited by special accreditation requirements and/or the availability of clinical assignments; therefore, students seeking admission to the program must complete application to both the college and the program. Application forms are available from the Health Program Admissions Office on the Warrington campus, or at the PJC website, www.pjc.edu, click Warrington Campus, then the Diagnostic Medical Sonography program. All application requirements must be completed before a student will be considered eligible for admission to the program. Minimum requirements for eligibility to the program include high school diploma or GED, satisfactory scores on diagnostic tests in reading and computation skills, and demonstration of the minimum GPA.

When a student completes all sections of the application process and meets minimum criteria, they will be provisionally accepted into the program and assigned a seat in the next available class. Therefore, it is important to complete the applications, testing and transcript acquisition process as soon as possible. The student will be notified of their provisional acceptance in a timely manner. Final admission into the program is contingent upon submission of satisfactory physical examination/immunization forms and meeting the technical standard set for this program. Students not meeting the minimum criteria will be notified of their status.

The program information packet is available on the college website for more specific details. From the college website, at www.pjc.edu, select the Warrington Campus. Sonography information is available from this page.

JOB PLACEMENT INFORMATION

As a new program job placement information is not available.
TELECOMMUNICATIONS ENGINEERING TECHNOLOGY (TELE-AAS) A.A.S.

The Telecommunications Engineering Technology Program prepares students to develop, install, maintain, and operate a full range of telecommunications systems. The required core courses provide instruction in computer, electronics and digital fundamentals, telecommunications and networking fundamentals, data communications and communications distribution. The student must take at least twenty-two credit hours of electives from specialty courses in telecommunications cabling, advanced networking, telephony, and advanced communications. Additional courses in emerging technologies will be included as technologies evolve.

Students in the Telecommunications Engineering Technology degree program are required to take the specified courses in general education, all of the technical core courses and the twenty-two hours of approved emphasis electives.

We strongly encourage that you contact the Information Technology Department for assistance in planning your program of study.

Program Director, Information Technology Department:
Mr. Robert Pierce 484-1949

ADVANCED TECHNICAL CERTIFICATE PROGRAMS

An advanced technical certificate consisting of a program of instruction of college-level courses may be awarded to students who have already received an associate degree and are seeking an advanced specialized planned program of study to supplement their associate degree.

Legal Assisting
Zoo Animal Technology

LEGAL ASSISTING  LEG-A.T.C.

Department Head: Dr. Linda Bloom 484-2504
Program Contact: Dr. James Hightower 484-1367

This program is designed for students who have completed the Legal Assisting A.S. Program (see page 81) and want additional certification in one or more specialty areas of law including: Commercial Law, Criminal Law, Litigation, Probate, and Real Estate.

Commercial Law Specialty
PLA 2445  Commercial Transactions ...........................................3
PLA 2435  Corporations ..............................................................3
PLA 2465  Creditor/Debtor Rights ...............................................3
Total Program Credits .................................................................9

Criminal Law Specialty
PLA 2308  Criminal Procedure ....................................................3
PLA 2363  Criminal/Constitutional Questions .................................3
PLA 2364  Forensic Science Survey ..............................................3
Total Program Credits .................................................................9

Litigation Specialty
PLA 2230  Federal Procedure ......................................................3
PLA 2263  Evidence ....................................................................3
PLA 2274  Torts II .....................................................................3
Total Program Credits .................................................................9

Real Estate Probate Specialty
PLA 2635  Florida Estate Administration and Guardianship ............3
PLA 2630  Real Estate Sales and Closings ......................................3
PLA 2613  Real Estate Litigation ...................................................3
Total Program Credits .................................................................9

Total Program Credits ..................................................................................18

(For additional information, contact the Biological Sciences Department on the Pensacola Campus, 484-1168.)

Herpetology Specialty (HERP-ATC)

This program is designed for students who have completed the Zoo Animal Technology A.S. Program (see page 84). This program exposes students to amphibian and reptile morphology, taxonomy, physiology, conservation, and the skills necessary for captive husbandry and management. Students will spend five weeks observing and participating in the operation of amphibian and reptile management at Kentucky Reptile Zoo, Slade, Kentucky. The program will provide a unique experience for graduates interested in exploring a career with amphibians and reptiles to receive training unavailable anywhere else in the country.

PAZ 2350  Research in Herpetology ..................................................2
PAZ 2351  Reptile Husbandry and Management I ............................3
PAZ 2352  Reptile Husbandry and Management II ...........................3
STA 2023  Elementary Statistics ....................................................3

Total Program Credits ..............................................................................12

(For additional information, contact the Biological Sciences Department on the Pensacola Campus, 484-1168.)

Zoo Research Specialty (ZOO-ATC)

This program is designed for students who have completed the Zoo Animal Technology A.S. Program (see page 84). This program exposes students to the skills necessary for conducting research with exotic animals. Skills will include advanced husbandry and management of research animals, experimental design, and data collection and analysis. Students will spend two weeks at the Lubeck Foundation in Gainesville, Florida and four weeks at Zoo Atlanta, two AZA accredited facilities involved in research programs.

PAZ 1050  Principles of Zoo Research ..............................................6
PAZ 2323  Chiropteran Husbandry and Research ..............................1
PAZ 2935  Advanced Concepts in Zoo Science ..............................1
STA 2023  Elementary Statistics ....................................................3

(For additional information, contact the Biological Sciences Department on the Pensacola Campus, 484-1168.)

ZOO ANIMAL TECHNOLOGY  A.T.C.

Department Head: Mr. James Brady 484-1168
Program Contact: Ms. Joyce Kaplan 484-1164

Elephant Biology and Management Specialty (ELEF-ATC)

This program is designed for students who have completed the Zoo Animal Technology A.S. Program, page 84. This program exposes students to elephant morphology, taxonomy, physiology, conservation, and the skills necessary for captive husbandry and management. Students will spend five weeks observing and participating in the operation of elephant management. The program will provide a unique experience for graduates interested in exploring a career with elephants to receive training unavailable anywhere else in the country.

PAZ 2329  Elephant Biology for Conservation Education ..................2
PAZ 2326L  Elephant Husbandry and Management I ......................3
PAZ 2327L  Elephant Husbandry and Management II ......................3
PAZ 2935  Advanced Concepts in Zoo Science ..............................1
Total Program Credits ..............................................................................9

(For additional information, contact the Biological Sciences Department on the Pensacola Campus, 484-1168.)
CERTIFICATE PROGRAMS AND APPLIED TECHNICAL DIPLOMA

Three kinds of programs of study are offered that range in length from approximately five weeks to eighteen months, but most average two terms or one year that lead to employment in a specific occupation. They are Technical or College Credit Certificates, Applied Technical Diplomas, and Vocational Certificates. Most applied technical diploma and certificate programs do not contain a separate general education component, but students are required to achieve a specified level of competence in basic communication skills as evidenced by minimum scores on the Test of Adult Basic Skills (TABE).

Applied Technical Diplomas (ATD) consist of a course of study that is part of associate in applied science and leads to employment in a specific occupation.

Emergency Medical Technician  Medical Coder/Biller

Technical or College Credit Certificates (CT) consist of a program of instruction of college-level courses which are a part of an associate of applied science or associate of science degree program and which prepares students for entry into employment.

Accounting Applications  Landscape and Horticulture Specialist  Paramedic
Auto CAD Foundations  Landscape and Horticulture Technician  Sonography (General Sonography (Specialist)
Cable Installation  Medical Information Coder/Biller  Web Development Specialist
Computer Programming  Network Communications (LAN)  Wireless Communications
Landscape and Horticulture Professional  Office Management

Vocational Certificates (VC) is a program of instruction consisting of non-college-level courses awarding vocational credits to prepare for entry into employment:

Accounting Applications  Landscape and Horticulture Specialist  Paramedic
Barbering  Fire Fighter  Nursing Assistant
Cosmetology  Health Unit Coordinator  Phlebotomy
Dental Assisting  Massage Therapy  Practical Nursing
Facials Specialty  Medical Assisting  Surgical Technology
Massage Therapy  Nails Specialty

ACCOUNTING APPLICATIONS
(ACCTG-CT) CERTIFICATE

This program is designed to provide accounting coursework over a two-year span leading to a certificate in Accounting.

We strongly encourage that you contact the Business Department for assistance in planning your program of study.

Department Head: Dr. Linda Bloom 484-2504 lboom@pjc.edu
Program Contact: Mr. Richard Irvine 484-2508 rirvine@pjc.edu

JOB PLACEMENT INFORMATION

The percent of Accounting Applications graduates who have been reported as satisfying state and federal definitions of in-field job placement for 2002 is 100%. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

AUTOCAD FOUNDATIONS
(CAD-CT) CERTIFICATE

The AutoCAD Foundations technical certificate provides students with the practical skills necessary to accept the challenges of a construction drafting career. The program is designed to prepare students for an entry level professional position in a technical area that requires computer-aided drafting skills. The program is composed of selected college-credit courses offered within the Drafting and Design Technology AAS degree which prepares students to draw, dimension and print technical drawings by computer. Successful certificate holders may find employment as a drafts-person in an architect’s, engineer’s, or contractor’s office, governmental agencies, corporate planning departments, or other private industries.

We strongly encourage that you contact the Director of the Center for Information and Engineering Technology or the Program Contact for assistance in registering for the courses.

AUTOMOTIVE SERVICE TECHNOLOGY
(AUTO-VC) CERTIFICATE

This Automotive Service Technology Program is an 1800 contact hour, 60 vocational credit course of study, which will provide students with necessary training, skills and experience to pass the nationally recognized ASE certification exams. It is an integrated program of applied instruction with the eight automotive service areas of ASE certification.

We strongly encourage that you contact the Center for Information and Engineering Technology Department for assistance in planning your program of study.

Department Head: Dr. Carol S. Halfhill 484-2522
Program Contact: Mr. Ernie Forester 484-2265
eforester@pjc.edu

CABLE INSTALLATION (VOICE AND DATA CABLING) (CABLE-CT) CERTIFICATE

The Cable Installation technical certificate provides students with the practical skills necessary for employment as a cable installer, cable tester, cable technician, or to provide supplemental training to persons currently employed in the field. The program is composed of selected college-credit courses offered within the Telecommunications Technology A.A.S. degree. If desired, successfully completed coursework within the technical certificate can be transferred into an appropriate A.A.S. program. The program prepares the student with a basic knowledge of voice and data cabling and prepares them for BICSI Level I Installer Certification.

This certificate assumes the student has a basic knowledge of computer operating systems, hardware and software. These credits may be applied towards the Electronics Engineering Technology, Networking Services Technology, or the Telecommunications Engineering Technology AAS degree programs.

We strongly encourage that you contact the Information Technology Department for assistance in planning your program of study.

Program Director, Information Technology: Mr. Robert E. Pierce 484-1950

DENTAL ASSISTING (DENTA-VC) CERTIFICATE

The Dental Assisting program is a ten-month vocational credit curriculum which is designed to provide students with current competencies and concepts of dental assisting. The program is accredited by the American Dental Association and meets the state of Florida requirements for Expanded Functions in radiography, and all other advanced functions. Program completers will be prepared to sit for the national certification examination for dental assisting.

We strongly encourage that you contact the Applied Health Technologies Department for assistance in planning your program of study.

Program Contact: Ms. Barbara Harris
bharris@pjc.edu 484-2246

2004-2005
SPECIAL ADMISSION REQUIREMENTS

Admission to this program is limited by special accreditation requirements and/or the availability of clinical assignments; therefore, students seeking admission to the program must complete application to both the college and the program. Application packets are available from the Admissions Specialist, Health Programs Office on the Warrington Campus or on the PJC website at www.pjc.edu, click on Warrington Campus, then Dental Assisting Program for specific details.

All application requirements must be completed by the established deadlines before a student will be considered eligible for admission to this program.

Minimum requirements for eligibility to the program include high school diploma or GED and satisfactory scores on diagnostic tests in reading and computation skills.

Applications are numbered as they are received in the Health Admissions Office. All applications are placed in numerical order. The Health Admissions clerk verifies the applications are complete and minimum qualifications are met. Applicants meeting minimum qualifications are accepted into the Dental Assisting Program in numerical order until the number of available seats are filled. Applicants not meeting minimum qualifications are notified. Remaining qualified applicants are placed on an alternate list to be notified as space becomes available.

JOB PLACEMENT INFORMATION

The percent of Dental Assisting graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 94%, 100% and 100% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

EMERGENCY MEDICAL TECHNICIAN (EMT-ATD)

The program is designed to provide an opportunity for persons interested in pre-hospital emergency care to become skilled in basic emergency care to save lives and reduce injury. The program is accredited by the Commission on Accreditation of Programs AMA and certified by Health and Rehabilitative Service. Graduates are eligible to take the State EMT Certification examination. Application packets are available from the Admissions Specialist, Health Programs Office on the Warrington Campus or on the PJC website at www.pjc.edu, click on Warrington Campus, then Emergency Medical Technician program for specific details.

All application requirements must be completed by the established deadlines before a student will be considered eligible for admission to this program.

Minimum requirements for eligibility to the program include high school diploma or GED.

Admission is competitive among eligible applicants. Applicants who have submitted the application packet and met the minimum criteria for entrance into the program will be placed in the class according to when the applicant’s completed packet is received. Each class is limited to eighteen students. Once the current class is filled, the applicants will be placed in the next available class. Final admission to the program is contingent upon submission of satisfactory physical examination/immunization forms.

We strongly encourage that you contact the Applied Health Technologies Department for assistance in planning your program of study.

Department Head: Mr. Bill Moore 484-2308
Program Contact: Mr. Joseph Diamond jdiamond@pjc.edu 484-2217

JOB PLACEMENT INFORMATION

The percent of Emergency Medical Technician graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 100%, 100% and 98% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

**FIRE FIGHTER (FIRE-VC) CERTIFICATE**

The Fire Fighter course is 450 clock hours, approximately half of which are classroom instruction and half practical (hands-on) exercises. Topics include: fire behavior, hazardous materials, fire control, hoses, ladders, rescue and extrication, forcible entry, ventilation, and live burns. Because of the physical demand of the career, satisfactorily passing a physical assessment test is required for entrance into the program.

A copy of the physical assessment requirements may be obtained from the Applied Health Technologies Department office. It is recommended that the student join a volunteer department; this will enable the student to have a better understanding of the terminology of the fire service.

Successful completion of this program and passing the state fire fighters examination, both practical and written, will allow the student to become a certified fire fighter within the State of Florida. Florida Fire Fighter Certification is nationally recognized.

JOB PLACEMENT INFORMATION

As a new program no placement information is available.

MEDICAL CODER/BILLER
(HIM-CT) CERTIFICATE

The Medical Coder/Biller program provides the student with the technical skills necessary to code medical diagnosis, procedures and services provided for reimbursement in a wide variety of settings including hospital outpatient, ambulatory surgery centers, clinics and physician offices. Upon completion of the program the student will be eligible to sit for the national credentialing examination for the Certified Coding Assistant (CCA) credential offered through the American Health Information Management Association (AHIMA). Upon completion of the program students will have the option to progress towards a two-year Associate of Applied Science (A.A.S.) degree in Health Information Management to become a Registered Health Information Technician (RHIT).

Students enrolled in the Medical Coder/Biller program must provide documentation of a CPR Health Care Provider Card and/or certificate or letter stating attendance in an AIDS/OSHA/Domestic Violence Workshop or course to the HIM program director or Arts and Sciences Department Head located at the Warrington Campus.

SPECIAL REQUIREMENTS

Persons interested in the program should contact the Health Programs Admission office at the Warrington campus. Applications must be returned to this office.

We strongly encourage that you contact the Arts and Sciences Department for assistance in planning your program of study.

JOB PLACEMENT INFORMATION

As a new program no placement information is available.
NAILS SPECIALTY  (NAILS-VC) CERTIFICATE

Nails Specialty is a (15) fifteen-week program of study designed to prepare the student for state licensure and employment in the areas of manicuring, pedicuring, and nail extension services. Students may register any time during the term.

We strongly encourage that you contact the Professional Service Careers Department for assistance in planning your program of study.

Department Head: Mr. Larry Gardner 484-1013
Program Contact: Ms. Jacki Knudsen 484-1641

JOB PLACEMENT INFORMATION

The percent of Nails Specialty graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 67%, 86%, and 50% respectively. For more information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

NETWORK COMMUNICATIONS (LAN)  (LAN-CT) CERTIFICATE

Network Communications (LAN) program is an 18 college credit hour certificate designed to provide students with a basic knowledge of local area networks (LAN) and prepare them for the Cisco Certified Network Associate (CCNA) certification. These credits may be applied towards the Electronics Engineering Technology, Networking Services Technology, or the Telecommunications Engineering Technology A.A.S. degree programs.

We strongly encourage that you contact the Information Technology Department for assistance in planning your program of study.

Program Director, Information Technology Department: Mr. Robert Pierce 484-1949
Program Contact: Mr. Lance Hall 484-1941

OFFICE MANAGEMENT  (CLERK-CT) CERTIFICATE

The purpose of this one-year certificate college credit program is to prepare students for employment in a clerical position. The content prepares individuals to use computers in a variety of activities including correspondence and compiling and keying reports, application forms, and other data from clerical records. It includes instruction in filing, posting information to records, sorting and distributing mail, answering telephones, and an introduction to computer concepts as an integral part of modern business.
SPECIAL REQUIREMENTS

After completing college testing requirements, students should consult a business counselor or the Business Department head. (All students must be able to key at a speed of 35 wpm or successfully complete OST 1100 before taking OST 1110.)

We strongly encourage that you contact the Business Department for assistance in planning your program of study.

PHLEBOTOMY (PHLEB-VC) CERTIFICATE

This vocational certificate program is designed to train participants in the basic and supporting skills of the phlebotomist. Skills will include: specimen collection by venipuncture and capillary puncture, basic anatomy and physiology, infection control and safety, and patient relations.

Admission to this program is based upon receipt date of completed application. Men and women are invited to apply. Once a particular class is full, the remaining qualified applicants are automatically listed as alternates for that class. If the applicant is not seated he/she is offered admission in the next available class.

We strongly encourage that you contact the Applied Health Technologies Department for assistance in planning your program of study.

Department Head: Dr. Claudette Coleman 484-2254 ccoleman@pjc.edu
Program Contact: Ms. Mary Turner 484-2360 mturner@pjc.edu

JOB PLACEMENT INFORMATION

The percent of Phlebotomy graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 96%, 88%, and 81% respectively. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

PRACTICAL NURSING (LPN-VC) CERTIFICATE

This program prepares the student to perform safe nursing care as a practical nurse under the direction of a registered nurse or a licensed physician. Entry-level skills are acquired through classroom instruction and supervised experience in the laboratory and hospital. The program completers are eligible to take the National Council Licensure Examination for Practical Nurses.

We strongly encourage that you contact the Nursing Department for assistance in planning your program of study.

Department Head: Dr. Claudette Coleman 484-2254 ccoleman@pjc.edu
Primary Faculty: Ms. Susan Mack 484-2360 smack@pjc.edu
Ms. Mary Turner 484-2360 mturner@pjc.edu
Ms. Carol Stinson 484-2360 mstinson@pjc.edu

SPECIAL ADMISSION REQUIREMENTS

Admission to this program is limited by special accreditation requirements and/or the availability of clinical resources; therefore, students seeking admission to the program must complete application to both the college and the program. Information/Application packets are available online at www.pjc.edu, click on Warrington Campus, then Practical Nursing Program for specific details.

All application requirements must be completed before a student will be considered eligible for admission to this program. Minimum requirements for eligibility to the program include high school diploma or GED and satisfactory scores on the PSB-PN Entrance Examination and Health Related Math Test.

Any student achieving candidate status for the RN-A.S. program and choosing to apply to the LPN-VC program will be exempted from taking the PSB-PN Entrance Examination or the TABE Testing Requirements.

The program has both classroom and clinical components that require the use of special equipment and supplies. This includes tuition, lab fees, uniforms, books, and supplies. Specialized nursing courses are offered in strict sequence and students must take courses in that order. See course description for pre- and co-requisite course requirements.

JOB PLACEMENT INFORMATION

The percent of Practical Nursing graduates who have been reported as satisfying state and federal definitions of in-field job placement for the years 2000, 2001, and 2002 is 98%, 98% and 100%. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

* Students who have satisfactory TABE test scores are not required to take these courses.

** Practical Nursing applicants who plan to apply in the future to the Career Mobility (LPN to RN) program may consider taking the college credit equivalents of Life Span (Human Growth and Development), Nutrition and Diet (Elements of Nutrition), and Structure and Function (A & P I and II and labs). Note that the College Placement Test (CPT) is required before registering for Human Growth and Development. Contact an academic counselor for more information.
SONOGRAPHY
(GENERAL SONOGRAPHY SPECIALIST)
(ULTRA-CT) CERTIFICATE

The Sonography certificate program is designed to prepare health care professionals to transition into the field of diagnostic medical sonography. The 14 month curriculum encompasses theoretical concepts and clinical competency in sonography. Graduates will be prepared to sit for the American Registry of Diagnostic Medical Sonographers immediately upon graduation from the program. Information regarding the registry can be found at www.arrms.org. The program is actively seeking accreditation by the Commission on Accreditation of Medical Sonography. Instruction is consistent with Curriculum Frameworks as administered by the Florida Department of Education.

We strongly encourage that you contact the Dental and Radiographic Sciences Department for assistance in planning your program of study.

Department Head: Mr. Bill Moore  484-2308
Program Contact: Ms. Liesa Bromet  484-2251

SPECIAL REQUIREMENTS

Admission to this program is limited by special accreditation requirements and/or the availability of clinical assignments; therefore, students seeking admission to the program must complete application to both the college and the program. Application forms are available from the Health Program Admissions Office on the Warrington campus or on the PJC website at pjc.edu, click on Warrington Campus, then Sonography Program for specific details.

All application requirements must be completed before a student will be considered eligible for admission to the program. Minimum requirements for eligibility to the program include an associate degree in a health field with direct patient contact (i.e. Radiologic Technology, Nursing-RN, etc.). The completed postsecondary education must include biological sciences, introductory physics and mathematics. Other qualifications include current CPR, AIDS, OSHA status.

When a student completes all sections of the application process and meets minimum criteria, they will be provisionally accepted into the program and assigned a seat in the next available class. Therefore, it is important to complete the applications, testing and transcript acquisition process as soon as possible. The student will be notified of their provisional acceptance in a timely manner. Final admission into the program is contingent upon submission of satisfactory physical examination/immunization forms and meeting the technical standard set for this program. Students not meeting the minimum criteria will be notified of their status.

The program information packet is available on the college website at www.pjc.edu, select the Warrington Campus, General Sonography Specialist program.

Externship clinical hours meet the ARDMS requirements for application for accreditation.

SURGICAL TECHNOLOGY
(SURG-VC) CERTIFICATE

The Surgical Technology program is a twelve-month vocational program accredited by the Commission on Accreditation of Allied Health Education Programs. The program requires 1,320 clock hours (44 credits) of classroom and clinical instruction. Surgical Technologists are members of the surgical team who work closely with surgeons, anesthesiologist, registered nurses, and other surgical personnel in delivering patient care and assuming appropriate responsibilities before, during, and after surgery.

We strongly encourage that you contact the Nursing Department for assistance in planning your program of study.

Department Head: Dr. Claudette Coleman  484-2254
Program Contact: Ms. Gayle Griffin  484-2257
Primary Faculty: Ms. Pat Miller-Coburn

SPECIAL ADMISSION REQUIREMENTS

Admission to this program is limited by special accreditation requirements and resources; therefore, students seeking admission to the program must complete application to both the college and the program. All application requirements must be completed before a student will be considered eligible for admission to this program. Applicants are admitted to the program on a first qualified, first accepted basis; the program begins in August. If the class is full, qualified applicants will be offered the next available start date.

Minimum requirements for eligibility to the program include high school diploma or GED and acceptable score on the Nelson Denny Reading Test.

Current CPR certification and documentation of all required immunizations are required prior to the first clinical experience.

JOB PLACEMENT INFORMATION

The percent of Surgical Technology graduates who have been reported as satisfying state and federal definitions of in-field job placement for the year 2002 is 100%. For additional information about job opportunities in this field, contact the appropriate department or the Student Job Services Office.

WEB DEVELOPMENT SPECIALIST

(WEB-CT) CERTIFICATE

This program provides an opportunity to establish a basic foundation in the field of web design and programming for employment in business, industrial and governmental institutions. Graduates are prepared for entry level positions as web technician, web development specialist trainee, and web developer trainee. All courses in this program apply to the Internet Services Technology A.A.S. program except that the A.A.S. program requires MAC 1105, College Algebra.

We strongly encourage that you contact the Computer Science Department for assistance in planning your program of study.

* Co-op prefix is the same as other similar courses. The number is always ___ 2949 or ___ 0949L. Prerequisite: Approval of the academic department and the Cooperative Education/Student Job Services Office. This is a special course in which a student may earn credits for planned, paid work experience and that may count towards the credit requirements for graduation.
Courses in this catalog are identified by prefixes and numbers that were assigned by Florida’s Statewide Course Numbering System. This common numbering system is used by all public postsecondary institutions in Florida and by participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the Statewide Course Numbering System (SCNS). The list of course prefixes and numbers, along with their generic titles, is referred to as the “SCNS taxonomy.” Descriptions of the content of courses are referred to as “statewide course details.”

### Example of Course Identifier

<table>
<thead>
<tr>
<th>Prefix</th>
<th>Level Code (first digit)</th>
<th>Century Digit (second digit)</th>
<th>Decade Digit (third digit)</th>
<th>Unit Digit (fourth digit)</th>
<th>Lab Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>SYG</td>
<td>1</td>
<td>0</td>
<td>1</td>
<td>0</td>
<td>No Laboratory Component in this Course</td>
</tr>
<tr>
<td>Sociology General</td>
<td>Freshman Level at this Institution</td>
<td>Entry-level General Sociology</td>
<td>Survey Course</td>
<td>Social Problems</td>
<td></td>
</tr>
</tbody>
</table>

### General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions. (Exceptions are listed below.) For example, a survey course in social problems is offered by 34 different postsecondary institutions. Each institution uses “SYG_010” to identify its social problems course. The level code is the first digit and represents the year in which students normally take the course at a specific institution.

In the SCNS taxonomy, “SYG” means “Sociology, General,” the century digit “0” represents “Entry-Level General Sociology,” the decade digit “1” represents “Survey Course,” and the unit digit “0” represents “Social Problems.”

In science and other areas, a “C” or “L” after the course number is known as a lab indicator. The “C” represents a combined lecture and laboratory course. The “L” represents a laboratory course or the laboratory part of a course, having the same prefix and course number without a lab indicator, which may meet at a different time or place.

Transfer of any successfully completed course from one institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, SYG 1010 is offered at a community college while the same course is offered at a state university as SYG 2010. A student who has successfully completed SYG 1010 at the community college is guaranteed to receive transfer credit for SYG 2010 at the state university upon transfer. The student cannot be required to take SYG 2010 again since SYG 1010 is equivalent to SYG 2010. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution to offer transfer credit for courses successfully completed which have not been designated as equivalent.

### The Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or sub-category of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the prefix designation.

### Authority for Acceptance of Equivalent Courses

State Board of Education Rule 6A-10.024(19), Florida Administrative Code, reads:

When a student transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the common course designation and numbering system, the receiving institution shall award credit for courses satisfactorily completed at the previous participating institutions when the courses are judged by the appropriate common course designation and numbering system faculty task forces to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or non-public control of the previous institution. The award of credit may be limited to courses that are entered in the course numbering system. Credits so awarded shall satisfy institutional requirements on the same basis as credits awarded to native students.
Exceptions to the General Rule for Equivalency

The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution:

A. Courses in the 900-999 series (e.g., HUM 2905)
B. Internships, practica, clinical experiences, and study abroad courses
C. Performance or studio courses in Art, Dance, Theater, and Music
D. Skills courses in Criminal Justice
E. Graduate courses
F. Courses not offered by the receiving institution

College preparatory and vocational preparatory courses may not be used to meet degree requirements and are not transferable.

Questions about the Statewide Course Numbering System and appeals regarding course credit transfer decisions should be directed to Lena Morgan in the Curriculum Implementation Office or the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling telephone number (850) 245-0427 or SunCom 205-0427.
The Adult Basic Education Department offers programs for adults 18 years of age and older (16 and 17 year old students may enroll with an age waiver from the school district in which they reside) who want to improve their academic skills. The program offers:

- Free courses to those who qualify as Florida residents
- Convenient class locations throughout the community
- Open entry classes; enroll at any time!
- Day, afternoon, and evening classes
- On-site Workplace Employee Development Classes that are available to businesses and their employees

**ADULT BASIC EDUCATION**

Adult Basic Education (ABE) classes are designed for students who want to improve their basic skills in reading, writing, speaking, listening, problem solving, and/or mathematics.

**A 099AC - ABE Comprehensive.**
Comprehensive Adult Basic Education is a non-credit course designed to develop literacy skills necessary to be a successful worker, citizen and family member. Comprehensive Adult Basic Education prepares students to enroll in GED preparation courses. A student enrolled in the Comprehensive ABE program may be receiving instruction in mathematics, language and/or reading.

**A 099RA - ABE Basic Reading.**
**A 099RB - ABE Beginning Reading.**
**A 099RC - ABE Intermediate Reading.**
**A 099RD - ABE Functional Reading.**
ABE Basic, Beginning, Intermediate, and Functional Reading are non-credit courses designed to help adult students gain and improve basic reading skills. Word attack skills, reading comprehension, vocabulary building, and understanding a variety of literary forms are among the topics covered in the ABE Reading continuum of classes.

**A 099MA - ABE Basic Mathematics.**
**A 099MB - ABE Beginning Mathematics.**
**A 099MC - ABE Intermediate Mathematics.**
**A 099MD - ABE Functional Mathematics.**
ABE Basic, Beginning, Intermediate, and Functional Mathematics are non-credit courses designed to help adult students gain and improve basic mathematics skills. Addition, subtraction, multiplication and division of whole numbers, fractions, and decimals, percents, ratio and proportion, problem solving, measurement, and beginning algebra and geometry are among the topics covered in the ABE Mathematics continuum of classes.

**A 099LA - ABE Basic Language.**
**A 099LB - ABE Beginning Language.**
**A 099LC - ABE Intermediate Language.**
**A 099LD - ABE Functional Language.**
ABE Basic, Beginning, Intermediate, and Functional Language are non-credit courses designed to help adult students gain and improve basic language skills. Capitalization, punctuation, sentence identification, grammatical concepts, communication of ideas and information in both spoken and written forms, and organization of ideas are among the topics covered in the ABE Language continuum of classes.

**GED CLASSES**

General Education Development (GED) classes prepare students to take the GED tests which offer students an opportunity to earn a high school equivalency diploma. Instruction is offered in writing skills, mathematics, literature, social studies and science.

**A 099GC - GED Comprehensive.**
GED Comprehensive is a non-credit class designed to prepare adult learners for all aspects of the GED examinations.

**A 099GW - GED Writing.**
GED Writing is a non-credit class designed to prepare adult learners to successfully take the Language Arts: Writing portion of the GED examinations.

**A 099GS - GED Social Studies.**
GED Social Studies is a non-credit class designed to prepare adult learners to successfully take the Social Studies portion of the GED examinations.

**ESOL**

English for Speakers of Other Languages (ESOL) classes are available primarily for foreign born U.S. citizens or adults with resident alien status who wish to improve their English language skills. Everyday survival skills and a basic knowledge of the English language are covered in these non-credit classes.

**A 099CE - ESOL Citizenship.**
ESOL Citizenship is designed to help prepare students for success in the Naturalization process required for all who have United States Citizenship as a goal. The content includes preparation for the Citizenship Test by studying U.S. history, government, culture and symbols with specific emphasis on rights and responsibilities under the Constitution of the United States of America.
A 099EA - ESOL Literacy/Foundation.
A 099EB - ESOL Low Beginner.
A 099EC - ESOL High Beginner.
ESOL Literacy/Foundation, Low Beginner and High Beginner are non-credit courses designed to help students develop and build on vocabulary, pronunciation, spelling, and reading skills. In addition, students are exposed to communication and writing skills necessary for citizenship and job enhancement.

A 099ED - ESOL Low Intermediate.
A 099EE - ESOL High Intermediate.
A 099EF - ESOL Advanced.
A 099EG - ESOL Adult.
ESOL Low Intermediate, High Intermediate, Advanced, and Adult are non-credit courses designed to fine tune student skills in grammar, contextual reading, and paragraph writing. Science, health, social studies, and consumer education help prepare the student for a high school or college diploma. Written and oral communication is strengthened to help the student achieve goals in the workplace and/or academic arena.

ADULT HIGH SCHOOL CLASSES

The primary purpose of the Secondary Education Department is to provide individuals 16 years of age and older, the opportunity to continue their interrupted education and earn a traditional high school diploma. Courses offered in this program are similar to those offered in a regular high school program, but the emphasis is placed on the unique needs of the at-risk/adult student. We believe that academic competency is a consequence of good learning skills, learning confidence, and self discipline. Our goal is to assist students in the development of life skills that will enhance their future success. There is no charge for those who qualify as Florida residents.

Not all courses are offered each term. Students should consult a current course schedule booklet for information, then make an appointment with the high school counseling staff for advising. Courses are taught on the Pensacola campus.

Department Head: Dr. James E. Grant 484-2133
jgrant@pjc.edu

Assistant Department Head/ Curriculum Coordinator: Dr. Lanny W. Barnes
Coordinator of Counseling: Mr. Joseph V. Kyle
Counselor: Ms. Karen Harris
Primary Faculty: Ms. Paige Anderson Ms. Joyce Daniels Ms. Deborah Friedman
Ms. Arianna Smith
Ms. M. Elaine Miller Ms. Susan Morgan
Ms. Shirl Shaw Mr. Kevin Slattery

HIGH SCHOOL ART

0104300 Advanced Placement Art–Drawing Portfolio. 1/2 credit.
Prerequisite: 0104340 or 0104370. The purpose of this course is to give advanced students the opportunity to develop quality, concentration, discipline, and breadth in drawing.

0104340 Fundamentals of Art/Drawing. 1/2 credit.
This course includes the techniques of pictorial art. Most work will be done in charcoal, pencil, and pen and ink.

0104350 Drawing II. 1/2 credit.
Prerequisite: 0104340. The purpose of this course is to provide an opportunity for students to expand their drawing abilities, use new media and challenging techniques, complete requirements for portfolios for higher education institutions, or simply to acquire new skills.

0104370 Fundamentals of Art/Painting. 1/2 credit.
The fundamentals of art are now put to use in actual painting and design.

HIGH SCHOOL COUNSELING

1400300 Peer Counseling I. 1/2 credit.
The purpose of this course is to provide students with an understanding of the elements of communications and group processes.

1400310 Peer Counseling II. 1/2 credit.
The purpose of this course is to provide an understanding of the components of personal development and to facilitate personal and group growth and fulfillment through individual and group processes.

8300310 Workplace Essentials. 1/2 credit.
The purpose of this course is to provide students with the essential abilities known as employability skills. The content of this program includes the following: how to obtain personal and occupational information necessary in choosing a career; how to prepare for the job hunt, get leads on jobs, make contact with employers; how to write resumes, fill out application forms, check payroll deductions; how to handle promotions, resignation, losses and career changes.
HIGH SCHOOL ENGLISH

0400300 Introduction to Drama. 1/2 credit.
The purpose of this course is to provide a broad overview of the study and practice of dramatic arts.

1000400 Intensive Language Arts. 1 credit.
The purpose of this course is to enable students to develop language arts skills through remedial instruction and practice. This course may be repeated for elective credit. (counselor approval)

1000410 Intensive Reading. 1 credit.
The purpose of this course is to enable students to build comprehensive reading knowledge, develop independent reading endurance, and increase comprehension through intensive instruction and practice. This course may be repeated for elective credit. (counselor approval)

1001310 English I. 1 credit.
The purpose of this course is to provide instruction in English language skills including reading, writing, speaking, and listening in the content areas of literature and language.

1001340 English II. 1 credit.
Prerequisite: 1001310. This course will provide instruction in English language skills and in the study of world literature.

1001370 English III. 1 credit.
Prerequisite: 1001360. An introduction to American literature and English language skills.

1001400 English IV. 1 credit.
Prerequisite: 1001370. The purpose of this course is to provide instruction in English language skills and the study of British literature.

1007300 Speech I. 1/2 credit.
This course provides instruction in the fundamentals of formal and informal oral communication.

1007310 Speech II. 1/2 credit.
Prerequisite: 1007300. This course offers further instruction in intermediate skills of formal and informal oral communication.

1008300 Reading I. 1 credit.
Reading I helps students with serious reading problems develop reading skills. (counselor approval)

1008320 Advanced Reading. 1/2 credit.
Develops advanced reading skills in students who plan to continue their formal education after high school.

1009520 Creative Writing I. 1/2 credit.
The purpose of this course is to develop writing and language skills needed for individual expression in literary forms.

1009300 Writing I. 1/2 credit.
The purpose of this course is to provide an organized study of the structure of sentences, paragraphs, and larger discursive patterns culminating in written assignments which are based upon personal experience, observations and literature.

1009310 Writing II. 1/2 credit.
This course will extend the writing skills introduced in Writing I by focusing on refining exposition and introducing analysis and persuasion. There will be a variety of reading samples that will serve as modules of effective writing styles.

HIGH SCHOOL FOREIGN LANGUAGES

0701320 French I. 1 credit.
This course will introduce students to French and French culture and to develop communication skills and cross-cultural understanding.

0701330 French II. 1 credit.
Prerequisite: 0701320. French II reinforces previously acquired fundamental skills and will develop increased listening, speaking, reading, and writing skills, as well as cultural awareness.

0708340 Spanish I. 1 credit.
This course is an introduction to Spanish and Hispanic culture. Students will develop communication skills and cross-cultural understanding.

0708350 Spanish II. 1 credit.
Prerequisite: 0708340. The purpose of this course is to reinforce previously acquired fundamental skills. This course develops increased listening, speaking, reading, and writing skills, as well as cultural awareness.

HIGH SCHOOL FAMILY AND CONSUMER SCIENCES

8500300 Parenting Skills. 1/2 credit.
The purpose of this course is to prepare students for the multiple roles essential to becoming a model parent and to understand the dual roles of males and females as parents and wage earners. This course will also enhance their abilities to assist children to become effective citizens in a multi-cultural and technological society.

8500310 Child Development and Parenting. 1/2 credit.
This course will prepare students to understand the nature of child development from prenatal care through age six and the function and significance of the parenting experience.

8500345 Family Dynamics. 1/2 credit.
The purpose of this course is to prepare students for the roles, responsibilities, and relationships essential to functional families. To understand the nature, function, and significance of human relationships within the family/individual units.

8500355 Nutrition and Wellness. 1/2 credit.
The purpose of this course is to prepare students to understand the relationship between nutrition and wellness. The program also provides for selection, preparation, service, and storage of foods. It allows students to use technology to practice meal management techniques directed toward nutritional food choices based on the life cycle. This course will provide an awareness of consumer issues relating to health and wellness.

8502000 Life Management Skills. 1/2 credit.
The purpose of this course is to assist students with the development of essential life management skills to enhance the quality of personal and family life.

8500375 Blueprint for Professional Success. 1 credit.
This course is designed to prepare students for the workplace in the twenty-first century. Emphasis will include using current technology resources to investigate the broad range of occupations and careers in family and consumer sciences.

HIGH SCHOOL MATHEMATICS

1200300 Pre-Algebra. 1 credit.
Students will develop the skills necessary for success in algebra.

1200310 Algebra I. 1 credit.
This course will provide the foundation for more advanced mathematics courses and to develop the skills needed to solve mathematical problems.

1200330 Algebra II. 1 credit.
Prerequisite: 1200310 or 1200380. A continuation of the study of the structure of algebra and to provide the foundation for applying these skills to other mathematical and scientific fields.

1200370 Algebra IA. 1 credit.
The purpose of this course is to develop the algebraic concepts and processes that can be used to solve a variety of real world and mathematical problems. This is the second of a two-year sequence of courses, Algebra IA and Algebra IB. Together, the two courses have the same requirements as Algebra I, Course Number 1200310.

1200380 Algebra IB. 1 credit.
Prerequisite: 1200370. The purpose of this course is to develop the algebraic concepts and processes that can be used to solve a variety of real world and mathematical problems. This is the second of a two-year sequence of courses, Algebra IA and Algebra IB. Together, the two courses have the same requirements as Algebra I, Course Number 1200310.
1200400 Intensive Mathematics. 1 credit.
The purpose of this course is to provide remedial instruction and practice in mathematics skills and concepts. The content may be identified by diagnosis of each student’s needs for remedial instruction and/or, designed to assist the student in passing the HSCT or FCAT. A student may repeat this course for multiple elective credits if, on subsequent offerings, the required level of student proficiency increases. This course may not be used to meet the graduation requirement for mathematics. (counselor approval)

1206300 Informal Geometry. 1 credit.
Prerequisite: 1200310. This course emphasizes the use of basic geometric skills as tools in solving real-world problems. No formal proofs are required.

1208300 Liberal Arts Math. 1 credit
Prerequisite: 1200310 or 1200380. The purpose of this course is to strengthen mathematical skills necessary for further study of advanced mathematics.

HIGH SCHOOL OCCUPATIONAL

0200300 Introduction to Computers. 1/2 credit.
The purpose of this course is to provide opportunities that will allow students to understand the capabilities, applications, and social implications of computer terminology.

8200320 Practical Keyboarding Skills. 1/2 credit.
The purpose of this course is to teach students basic keyboarding skills and techniques of formatting to include information systems inputting.

8200330 Practical Computer Skills. 1/2 credit.
The purpose of this course is to teach practical computer skills and the effects of its application on society.

8209010 Keyboarding and Document Processing. 1 credit.
Prerequisite: 8200320 or 8200330. This course is designed to provide a foundation for all business technology education programs and includes the following areas: keyboarding, math, communication and technology applications.

8212010 Word Processing I. 1 credit.
Prerequisite: 8209010 or 8200320 and 8200330. This course is designed to provide instruction that will enable the student to perform the basic functions of input, edit, store and retrieval utilizing electronic equipment.

HIGH SCHOOL RESEARCH AND CRITICAL THINKING

1700370 Critical Thinking/Study Skills. 1/2 credit.
The purpose of this course is to provide an opportunity for students to learn and adopt methods to be successful in school.

1700380 Career Research and Decision Making. 1/2 credit.
The purpose of this course is to teach decision-making and self-assessment skills, help students develop self-esteem, and enable students to make career choices.

HIGH SCHOOL SCIENCE

2000310 Biology I. 1 credit.
General exploratory experience and activities in the fundamental concepts of life will be covered in this course.

2001310 Earth/Space Science. 1 credit.
The purpose of this course is to develop concepts basic to the earth, its materials, processes, history and environment in space.

2001340 Environmental Science. 1 credit.
A study of man’s interaction with the environment.

2003310 Physical Science. 1 credit.
This course is a quantitative investigative study of the introductory concepts of physics and chemistry.

2003340 Chemistry I. 1 credit.
Prerequisite: 2003510 or instructor approval. Students will study the composition, properties, and changes associated with matter.

HIGH SCHOOL SOCIAL STUDIES

2100310 American History. 1 credit.
The purpose of this course is to acquire an understanding of the chronological development of the American people by examining the political, economic, social, religious, military, scientific, and cultural events that have effected the rise and growth of our nation.

2102310 Economics. 1/2 credit.
An understanding of the way in which society organizes its limited resources to satisfy unlimited wants. Students will be introduced to the major characteristics of the mixed market economic system in the United States and how the basic economic questions are answered. The intent is to provide the students with an understanding of the forces of the marketplace by examining the effect of their roles as producers, consumers, savers, investors, resource owners, voters, and taxpayers on the system.

2105300 World Geography. 1 credit.
This course introduces students to an understanding of the inter-relationships between people and their environment.

2104320 Global Studies. 1 credit.
A course to provide students with interdisciplinary knowledge, skills, and attitudes necessary to meet their responsibilities as citizens of their community, state, and nation in an increasingly interdependent and complex global society.

2106310 American Government. 1/2 credit.
An understanding of American government and political behavior.

2106350 Law Studies. 1/2 credit.
The purpose of this course is to acquire an understanding of the American legal process.

2107300 Psychology I. 1/2 credit.
This course provides students with opportunities to acquire an understanding of human behavior, behavioral interaction, and the progressive development of individuals.

2108300 Sociology. 1/2 credit.
An understanding of group interaction and its impact on individuals.

2109310 World History. 1 credit.
By examining the political, economic, social, religious, military, dynamic, scientific, and cultural events that have affected humanity, students will acquire an understanding of the chronological development of civilization.
The Developmental Studies Department provides college preparatory classes in English, reading, and math and college credit classes in English, reading, and college success. According to the Florida Administrative Code, all entering students must take the CPT (College Placement Test). Those students whose CPT scores in math, reading, and/or English fall below the minimum in these areas must take college preparatory classes. In addition, we offer Vocational Preparatory courses in reading, math, and language for students in vocational certificate and college credit certificate programs. This department also provides individualized academic support for all PJC students in the Learning Enrichment Center (math lab), the S.A.I.L. Program, the Reading Lab, the Writing Help Center, and the Computer Learning Lab.

Students who test into college preparatory instruction and subsequently enroll in college preparatory instruction must successfully complete the required college preparatory studies by the time they have accumulated 12 hours of college credit coursework or they must maintain continuous enrollment in college preparatory coursework each semester until the requirements are completed while performing satisfactorily in the degree earning coursework. College preparatory courses do not satisfy any requirements for graduation. Each college preparatory course is designated in the course descriptions to indicate the number of college preparatory (c.p.) credits awarded. For assistance in college credit course selection, or for additional information about this state requirement, contact a counselor.

Students may have two attempts on any college preparatory course while paying regular fees. A third attempt is permitted with additional fees charged. A fourth attempt is rarely approved.

In accordance with Florida law, students may use Adult Basic Education, Adult Secondary Education, or private provider instruction as an alternative to traditional college preparatory instruction. For information on these options, contact the Developmental Studies Department on the Pensacola campus or the Student Affairs Office on either the Milton or Warrington campus.

**Department Head:** Ms. Wanda Cook 484-1185

**Primary Faculty:**
- Ms. Ruth Becker
- Ms. Deedra Herington
- Ms. Kathryn Merritt
- Ms. Tracy Peyton
- Ms. Susan Scott

**Course Descriptions**

### COLLEGE PREP

College preparatory courses are designed to develop the student's communication and computation skills to enhance the opportunity for success in regular college courses. College preparatory courses may be required for students not achieving minimum scores on PJC placement tests. Students should contact the Developmental Studies Department for additional information.

**ENC 0001C College Preparatory Writing I.** 4 hours, 3 c.p.

**Prerequisite:** Appropriate score on Florida Entry-Level Placement Exam. Designed for students whose basic language skills need improvement, this course includes a review of basic grammar rules, sentence structure, punctuation, and capitalization. The writing component of the course focuses on effective sentence construction.

**ENC 0002C College Preparatory Writing II.** 4 hours, 3 c.p.

**Prerequisite:** Appropriate score on Florida Entry-Level Placement Exam or ENC 0001C. Designed for students who need to improve their language skills, this course offers a review of grammar rules, language usage, sentence structure, punctuation, and effective paragraph composition.

**MAT 0002C College Preparatory Mathematics.** 4 hours, 3 c.p.

**Prerequisite:** Appropriate score on Florida Entry-Level Placement Exam. A mathematics skills course designed for the student who needs to develop basic arithmetic, geometry, and pre-algebra skills.

**MAT 0024C College Preparatory Algebra.** 4 hours, 3 c.p.

**Prerequisite:** Appropriate score on Florida Entry-Level Placement Exam or MAT 0002C. This course is designed for the student who has had no algebra or has very little knowledge of the subject. Topics to be covered will include simplifying and evaluating variable expressions; solving linear equations, inequalities and related word problems; operations with polynomials; factoring; some algebraic fractions; quadratic equations; radicals and introduction to graphing.

**REA 0001C College Preparatory Reading I.** 4 hours, 3 c.p.

**Prerequisite:** Appropriate score on Florida Entry-Level Exam. This is a basic course designed to increase a student's reading comprehension and vocabulary. This course will provide basic skills in word usage and reading comprehension.

**REA 0002C College Preparatory Reading II.** 4 hours, 3 c.p.

**Prerequisite:** Appropriate score on Florida Entry-Level Placement Exam or REA 0001C. Designed for students whose basic language skills fall below the college level. It provides instruction in vocabulary skills, listening skills, and comprehensive skills.

### VOCATIONAL PREP

**VPI 0100 Vocational Preparatory Reading.** 2 hours, 1 v.p.

**Prerequisite:** A student must apply for a Vocational Certificate Program. The course is designed to develop reading skills, basic study skills and comprehension. Development of these skills is through individual lab activities, computer-assisted instruction, lab and home assignments, and pre/post evaluation. Two repeats are allowed.

**VPI 0200 Vocational Preparatory Mathematics.** 2 hours, 1 v.p.

**Prerequisite:** A student must apply for a Vocational Certificate Program. The course is designed for the student who needs to develop basic arithmetic skills focusing on relating math to the specific vocational training area. Emphasis is on individualized learning including lab activities, computer-assisted instruction, lab and home assignments and pre/post evaluation. Two repeats are allowed.

**VPI 0311 Vocational Preparatory Language.** 2 hours, 1 v.p.

**Prerequisite:** A student must apply for a Vocational Certificate Program. The course is designed for the student who needs to develop basic writing skills and language skills, including language mechanics, punctuation, and sentence and paragraph development. Individualized approaches include lab activities, computer-assisted instruction, lab and home assignments, and pre/post evaluation. Two repeats are allowed.
Courses are listed alphabetically and are organized by numerical order within each discipline. The index of course prefixes at the beginning of this section may be of additional help in finding a particular course description. Courses are either college credit, vocational credit, or preparatory credit.

Courses with numbers which begin with “0,” such as COM 0101, are vocational credit (v.c.). Courses with numbers which begin with a “1” or a “2,” such as APA 1111 and COP 2220, are college credit (c.c.). In general, vocational credit courses are not transferable to an upper division university; college credit courses, except those marked “A.A.S. Only,” are usually transferable. College credit courses with the “A.A.S. Only” designation may be transferable to upper division schools with which PJC has developed special articulation agreements. Students with questions about these issues should consult with a counselor or departmental advisor, or contact the Registrar's Office. See also the section entitled “Florida’s Statewide Course Numbering System” on page 121.

Selected courses may be offered by means of distance learning such as Internet courses and telecourses. These courses may be located in the current course schedule booklet. Internet courses are identified with a “W” suffix following the course number and telecourses are identified with a “T” suffix following the course number. Not all courses are offered at all campuses or during all terms. Students should consult the current course schedule booklet to determine which courses are available.

Course Section Term Schedule: Courses are designated as listed below indicating which terms sections will be offered. Course sections may be added or canceled based on enrollment. The designation of course offerings as (even years) or (odd years) is based on a calendar year.

- **FA** = Fall Term
- **SP** = Spring Term
- **SU** = Summer Term(s)
- **TBA** = To be announced (check with appropriate department)

**A.C.G. 2001 Accounting I.** 3 c.c.

*FA, SP, SU* – The study of accounting terminology, concepts, techniques, methods, principles, practices and procedures as applied to soleproprietorship. Typical financial transactions are analyzed in relation to the basic accounting equation and recorded in the books of the business. Business financial statements are prepared and interpreted by the student.

**A.C.G. 2002 Computerized Accounting.** 3 c.c.

*FA, SP – A.A.S. only. Lab Fee. Prerequisite: ACG 2001 or ACG 2021.* Corequisite: CGS 1570. This course is an introduction to computerized integrated accounting procedures found in microcomputer office environments. The popular Quickbooks accounting program is used to record financial transactions. Major topics include managing revenue and expenses, payroll setup and processing, bank reconciliation, reports, and graphs, inventory, adjustments and year-end procedures, and company file setup and maintenance.

**A.C.G. 2011 Accounting II.** 3 c.c.

*FA, SP, SU – Prerequisite: ACG 2001. Continuation of Accounting I including long-term assets, partnerships, corporations, long-term liabilities, the statement of cash flows, and financial statement analysis.*

**A.C.G. 2021 Financial Accounting Principles.** 3 c.c.

*FA, SP, SU – This course approaches accounting as an information or decision support system. Emphasis is placed on the analysis of business transactions and the evaluation of their effect on the operation of the enterprise. The method of instruction is shifted from “how to do it” to “why it is done and what it means;” The basic logic and principles associated with preparation and/or critical evaluation of accounting information will also be addressed.*

**A.C.G. 2071 Introduction to Managerial Accounting.** 3 c.c.

*FA, SP, SU – Prerequisite: ACG 2011 or ACG 2021.* Using accounting information for planning, control, and decision making. Includes principles of product costing, budgeting techniques, and capital decisions.

**A.C.G. 2500 Governmental/Not-For-Profit Accounting.** 3 c.c.

*TBA – A.A.S. only. Prerequisite: ACG 2011 or ACG 2021.* This course covers the application of general accounting principles to governmental organizations. Special emphasis is placed upon auditing and financial reporting through budgetary accounting and its potential usefulness in planning and controlling revenues and expenditures.

**A.C.G. 2650 Auditing.** 3 c.c.

*TBA – A.A.S. only. Prerequisite: ACG 2011 or ACG 2021.* This course provides an introduction to the concepts involved in auditing.

**A.C.G. 2650 Introduction to Auditing Government and Non-Profit Agencies.** 3 c.c.

*TBA – A.A.S. only. Prerequisite: ACG 2630.* This course provides an introduction to the concepts involved in auditing governmental and nonprofit entities. Basic auditing standards applicable to governmental funds is the central focus of study.

**A.C.G. 2947, 2948, 2949 Accounting Co-op.** 1 c.c., 2 c.c., 3 c.c.

*FA, SP, SU – Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.*

**A.C.O. 1806 Payroll Accounting.** 3 c.c.

*FA – A.A.S. only. Prerequisite: ACG 2001 or ACG 2021 or permission of instructor.* The purpose of this course is to train the student to complete all payroll activities of any business. Topics covered are payroll and personnel records, federal payroll laws, payroll accounting systems, payroll operations, and preparation of payroll records such as payroll registers, individual earnings records and federal, state, and local payroll tax forms.

**A.C.O. 2941, 2942, 2943 Accounting Internship.** 1 c.c., 2 c.c., 3 c.c.

*FA, SP, SU – A.A.S. only. Prerequisite: Permission of the department head. The student gains accounting related work experience in the offices of various employers in the Pensacola area. This course should be taken during the student’s sophomore year.*

**A.E.B. 2947, 2948, 2949 Agriculture Co-op.** 1 c.c., 2 c.c., 3 c.c.

*FA, SP, SU – Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.*

**A.E.R. 0006 Automotive Lube Technician.** 3 v.c.

*TBA – The course content includes applying appropriate math skills; an understanding of basic sciences; safety regulations, routine maintenance, and customer services; appropriate communication skills and employee behavior in the automotive industry.*

**A.E.R. 0014 Automotive Service Assistant Core.** 10 v.c.

*TBA – The course content includes demonstrating proficiency in routine maintenance and consumer services in the automobile industry.*
AER 0110 Engine Repair Technician. 4 v.c.  
**TBA** – The course content provides the principles and procedures in engine diagnosis, removal, disassembly, rebuilding, and dynamic check out enabling proficiency in engine theory and repairs in the automotive industry.

AER 0250 Automatic Transmission and Transaxle Technician. 6 v.c.  
**TBA** – The course content provides the skill training enabling proficiency in the operation and servicing of automatic transmissions and transaxles.

AER 0270 Manual Drive Train and Axles Technician. 4 v.c.  
**TBA** – The course content provides the skill training enabling proficiency in the operation and servicing of manual drive trains and axles.

AER 0310 Automotive Electrical/Electronic System Technician. 9 v.c.  
**TBA** – The course content provides skill training in diagnosis and service of batteries. It also provides skill training in diagnosis and repair of starting systems, lighting systems, gauges, warning devices, driver information systems, horns and wipers/washers, and accessories.

AER 0411 Automotive Brake Technician. 4 v.c.  
**TBA** – The course content provides skill training enabling proficiency in the diagnosis, operation, servicing, and repair of automotive brake systems in the automobile industry.

AER 0450 Automotive Steering and Suspension Technician. 5 v.c.  
**TBA** – The course content provides the skill training enabling proficiency in the diagnosing and repairing of suspension systems including four-wheel alignment.

AER 0503 Automotive Engine Performance Technician. 10 v.c.  
**TBA** – The course content provides skills training in the introduction to computer command control, electronic engine control, and electronic fuel injection systems in the automobile industry.

AER 0610 Heating, Air Conditioning and Engine Cooling Systems. 4 v.c.  
**TBA** – The course content provides skills training enabling proficiency in the heating, air conditioning, and engine cooling systems in the automobile industry.

AER 0931, 0932, 0933 Special Topics in Automotive Service. 1 v.c., 2 v.c., 3 v.c.  
**TBA** – The course centers on current topics or special interests to meet the needs of the community.

AER 0947, 0948, 0949 Automotive Service Co-op. 1 v.c., 2 v.c., 3 v.c.  
**TBA** – The course content provides students working in the automotive field to advance skills in different areas. Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.

AER 1006C Automotive Fundamentals and Minor Services. 4 c.c.  
**FA** – A.A.S. only. Lab fee. This course is designed to acquaint the student with tools, equipment and service procedures used in the modern automotive service facility. The student will learn all component parts by name, location, and function. The student will also learn the proper use of technical manuals, English, metric measurements, and safety rules and regulations as they relate to the service facility. Students will learn the different career opportunities available, various pay structures, and the importance of good employee work habits.

AER 1230C Automotive Manual Transmissions and Drive Systems. 4 c.c.  
**FA** – A.A.S. only. Lab fee. Prerequisite or Corequisite: AER 1006C. An introduction to the theory, principles, and operation of automotive transmission and drive systems, with emphasis on manual systems. Learned theory and principles will be applied to the diagnosis, maintenance, repair, and overhaul of manually-operated transmission systems, transaxles, and differentials. The course emphasizes inspection of systems and components, location of malfunctions, the performance of preventive and corrective maintenance, and the proper use of instruments, tools, and equipment.

AER 1250C Automotive Transmissions and Transaxles. 4 c.c.  
**FA** – A.A.S. only. Lab fee. Prerequisite or Corequisite: AER 1006C. A continuation and expansion of the theory and principles included in AER 1230C, with emphasis on automatic transmission and drive systems. Learned theory and principles will be applied to the diagnosis, maintenance, repair, and overhaul of automatic transmission systems, transaxles, and differentials. The course emphasizes inspection of systems and components, location of malfunctions, and performance of preventive and corrective maintenance, and the proper use of instruments, tools, and equipment.

AER 1410C Automotive Brake Systems. 4 c.c.  
**SP** – A.A.S. only. Lab fee. Prerequisite or Corequisite: AER 1006C. The theory, principles, and operation of automotive brake systems. The course includes the application of the principles of mechanical linkages, hydraulics, pneumatics, friction, heat transfer, and electricity to brake systems and related components. The course emphasizes inspection of systems and components, location of malfunctions, the performance of preventive and corrective maintenance, and the proper use of instruments and equipment.

AER 1450C Automotive Steering and Suspension. 4 c.c.  
**SU** – A.A.S. only. Lab fee. Prerequisite or Corequisite: AER 1006C. Introduction to suspension systems and shop safety. Steering and suspension components, diagnostics, steering geometry and wheel and tire balance will be covered. Alignment, repair and replacement of steering components including shocks, ball joints, steering linkages, rear suspensions and struts. Both two and four wheel alignment will be covered.

AER 1610C Automotive Heating and Air Conditioning. 4 c.c.  
**SP** – A.A.S. only. Lab fee. Prerequisite or Corequisite: AER 1006C or permission of the department head. Theory and operation of modern heating and air conditioning systems are studied in detail. Diagnosis and repair procedures are included.

AER 2110C Automotive Engines. 4 c.c.  
**SP** – A.A.S. only. Lab fee. Prerequisite or Corequisite: AER 1006C or permission of the department head. This course is a study of the principles of the internal combustion engine. The theory and operation of the various engines in use in modern vehicles is presented. Engines will be properly disassembled, parts identified, inspected, measured, and reassembled. Proper testing and break-in procedures along with diagnostic troubleshooting procedures will be emphasized.

AER 2315C Automotive Electrical Systems I. 4 c.c.  
**FA** – A.A.S. only. Lab fee. Prerequisite or Corequisite: AER 1006C or permission of department head. The student will be introduced to basic electrical and electronics theory, test equipment usage, schematic and wiring diagrams as used in the diagnosis and repair of modern vehicles. The student in this course will study various electrical systems, and the use of basic electrical skills in troubleshooting and repairing electrical systems. This course covers both chassis and engine electrical systems. Safety will be stressed.
AER 2316C Automotive Electrical Systems II. 4 c.c.
SP – A.A.S. only. Lab fee. Prerequisite or Corequisite: AER 2315C or permission of the department head. This course offers the student the opportunity to become proficient in the knowledge of electricity and electronics as applied to the modern vehicle. Students will learn circuit types and their equivalent automotive circuits, work with wiring schematics and apply knowledge of procedures to actual electronic systems. The hands-on lab procedure will include, but not be limited to, starter and alternator overhauls, diagnosis and repair of power windows and seats, electrical switches, relays and lighting systems. Safety procedures will be strictly followed.

AER 2520C Automotive Engine Performance. 4 c.c.
SU – A.A.S. only. Lab fee. Prerequisite or Corequisite: AER 2316C or permission of the department head. This course is designed for the second year student and will emphasize theory of operation, diagnosis and repair of electronic ignition systems, emission control systems, fuel systems and carburetion systems. The student will work with state of the art diagnostic equipment and will be introduced to the components used in electronic engine control systems.

AER 2522C Automotive Driveability/Diagnosis. 4 c.c.
SU – A.A.S. only. Prerequisite or Corequisite: AER 1006C. This is a capstone course that treats the automobile as a total system comprised of the subsystems addressed previously in other courses. Emphasis is on diagnostic procedures and fault isolation. Content includes a review of the theories and principles underlying the operation of automotive subsystems, the interrelationships of subsystems, and their combined effect on the driveability of the total automotive system. The course also covers specific application of computerized systems and subsystems, and the application of computer technology to the diagnosis of the total automotive system.

AER 2700 Automotive Service and Parts Management. 4 c.c.
SU – A.A.S. only. Prerequisite or Corequisite: AER 1006C. An introduction to the operation and management of automotive parts departments and automotive service departments that covers both the technical and business aspects of these departments. The course includes layout of parts and service facilities, and computer simulation of the operation of a parts department. The course also introduces the student to the concept of parts and service operations as small businesses, and addresses some of the financial and legal requirements associated with formation of small businesses.

AMH 1010 American History to 1877. 3 c.c.
FA, SP, SU – A.A.S. only. Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.

AMH 2091 African-American History and Culture. 3 c.c.
FA, SP, SU – Prerequisite: Test score requirement the same as ENC 1101. A history of the African-American experience from 1619 to the present. This course will emphasize the growth of an African-American community from slavery to freedom. This course will also examine the socio-political, cultural and artistic aspects of American life for Blacks in America. Meets A.A. general education Category IV. A writing emphasis course.

AML 2111 American Literature to 1870. 3 c.c.
FA, SP, SU – Prerequisite: ENC 1102. Selected American literature from its beginnings to the mid-nineteenth century. Meets A.A. general education Category II. A writing emphasis course.

AML 2121 American Literature from 1870. 3 c.c.
FA, SP, SU – Prerequisite: ENC 1102. Selected American literature from the mid-nineteenth century to the present. Meets A.A. general education Category II. A writing emphasis course.

ANT 2410 Cultural Anthropology. 3 c.c.
FA, SP – Prerequisite: Test score requirement the same as ENC 1101. A course which focuses on non-Western cultures; specifically, the conditions that account for the different ways people organize their economic, religious, political, and family life. Meets A.A. general education Category IV. A writing emphasis course.

APA 0260 Office Accounting. 2 v.c.
SP – The purpose of this course is to provide the students with a thorough knowledge of accounting procedures as applied in a medical setting. Students cover basic bookkeeping topics including accounting for accounts receivable, accounts payable, and payroll. After learning the accounting cycle and accounting principles, students complete an office accounting simulation case.

APA 1111 Introduction to Accounting. 3 c.c.
FA, SP, SU – A.A.S. only. An introductory accounting course designed to provide students with a basic understanding of accounting. Emphasis is placed on the fundamentals of accounting. Bookkeeping aspects of accounting are stressed by covering the structure and nature of accounting, recording business transactions, the accounting cycle, accounting for cash, sale of merchandise, purchases or merchandise, and payroll accounting.

ARH 1050 Art History I. 3 c.c.
FA – A chronological study of art history (to and including the Middle Ages). Meets A.A. general education Category V.

ARH 1051 Art History II. 3 c.c.
FA – A continuation of ARH 1050 in sequence from the Middle Ages to the present day. May be taken prior to ARH 1050. Meets A.A. general education Category V.

ARH 1831 Art for Non-Majors. 3 c.c.
FA, SP – A study of the creative process for non art majors. Course is meant to develop an understanding of the contexts within which artists work, modern and historical, the technical processes they use, and the means by which art is evaluated. May include lectures, films, videos, gallery and studio visits, class discussions. No artistic skill required. Meets A.A. general education Category V.

ARP 2000 Humanities Art. 3 c.c.
FA, SP, SU – A survey of painting, sculpture, architecture, and the arts of Western civilization from antiquity to the present. Meets A.A. general education Category V.

ART 1150C Jewelry I. 3 c.c.
FA, SP, SU – Lab fee. A basic course involving the fundamentals of jewelry construction. Projects will be assigned that cover fabrication, cutting, soldering, lost wax casting, and stone setting, using silver and non-ferrous metals.

ART 1151C Jewelry II. 3 c.c.
FA, SP, SU – Lab fee. Prerequisite: ART 1150C. Advanced jewelry making techniques building on those learned in Jewelry I. Processes will include enameling, raising, and forging.
ART 1302C Two-Dimensional Design. 3 c.c.
FA, SP, SU – The elements of design; line, texture, shape, value and color are used to give substance to visual expression on the two-dimensional plane. Basic course for art majors.

ART 1203C Three-Dimensional Design. 3 c.c.
FA, SP – Lab fee. Basic problems in integrating line, form, color, and texture with actual space and volume. Various materials are used to construct three-dimensional forms. Serves as an introduction to sculpture.

ART 1300C Drawing I. 3 c.c.
FA, SP, SU – Lab fee. A beginning studio class covering the drawing process and pictorial composition. Basic, analytical and expressive approaches are applied to still life, interiors, landscape and the figure based on works from the Renaissance throughout the 20th century.

ART 1301C Drawing II. 3 c.c.
FA, SP – Lab fee. Prerequisite: ART 1300C. A continuation of ART 1300C in the study of drawing with emphasis on color.

ART 1750C Ceramics I. 3 c.c.
FA, SP, SU – Lab fee. Methods and techniques of making pottery using both the potter’s wheel and hand-built procedures. Lectures in theory and practical experience in the use of clay, glazes, and firing techniques.

ART 1751C Ceramics II. 3 c.c.
FA, SP, SU – Lab fee. Prerequisite: ART 1750C. Further exploration of techniques of pottery making.

ART 2253C Illustration I. 3 c.c.
TBA – A.A.S. only. Lab fee. Prerequisites: ART 1301C, GRA 2190C. Principles of commercial illustration and the application of these principles as they apply to visual communication. A variety of media is used.

ART 2500C Painting I. 3 c.c.
TBA – Lab fee. Prerequisites: ART 1202C, ART 1300C or permission of instructor. The student is instructed in the academic methods of painting and then encouraged to explore other methods.

ART 2501C Painting II. 3 c.c.
TBA – Lab fee. Prerequisite: ART 2500C or permission of the instructor. A continuation of ART 2500C in the exploration of traditional painting methods with an emphasis on mixed media and current development.

ART 2602C Digital Imaging. 3 c.c.
TBA – Lab fee. Prerequisites: ART 1202C, ART 1300C, GRA 2152C. An advanced course using the computer for the creation of original art. Students might use resources such as drawing, collage, photography, mixed media, and digital scanning, along with image manipulation programs to explore the creation of expressive images and create a finished portfolio of art works. Emphasis will be placed on creativity, experimentation, and personal expression.

ART 2701C Sculpture I. 3 c.c.
FA, SP – Lab fee. Prerequisite: ART 1203C or permission of the instructor. Investigation and employment of various materials, methods, and concepts available to the sculptor today. Exploration of metal, wood, clay, stone, and plaster techniques; lost wax bronze casting.

ART 2702C Sculpture II. 3 c.c.
FA, SP – Lab fee. Prerequisite: ART 2701C or permission of the instructor. Further investigation of sculptural media with major emphasis on advanced theories and techniques. Individual interests and personalized projects will be encouraged.

ART 2900, ART 2901 Independent Study. 3 c.c.
TBA – Some sections may require lab fees. Prerequisite: Permission of instructor. Independent study courses are available for most studio offerings. Contact the department head for information about repeating this course for credit.

ART 2905 Portfolio. 3 c.c.
TBA – The course will enable each student to present a prospective employer, college, or university with a professional portfolio and proof of experience in studio art courses, graphic design, photography and multimedia.

ART 2943 Arts Internship. 3 c.c.
TBA – Several professional internships are available on a competitive basis in various studio areas. These positions provide on-the-job training for college credit in local art-related businesses. Only advanced students are eligible. Contact your instructor for details on availability as internships vary from semester to semester.

ART 2947, 2948, 2949 Art Co-op. 1 c.c., 2 c.c., 3 c.c.
TBA – Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.

AST 1005 Descriptive Astronomy. 3 c.c.
FA, SP, SU – A study of the celestial sphere, constellations, time, telescopes, properties of light, the solar system, introduction to stars and galaxies. A working knowledge of arithmetic and simple algebra is required. Meets A.A. general education Category VII.

AST 1005L Descriptive Astronomy Laboratory. 1 c.c.
FA, SP, SU – Lab fee. Corequisite: AST 1005. An optional laboratory course designed to illustrate the laws and principles presented in AST 1005. Includes computer simulations, Internet astronomy, and calculations using the latest research. A working knowledge of arithmetic and simple algebra is required. Meets A.A. general education Category VII.

BAN 1004 Principles of Banking. 3 c.c.
FA, SP – A.A.S. only. Emphasizes installment lending techniques in commercial banks including the development of credit information, credit investigation, inventory financing, collection procedures, special loan programs, and advertising and business development.

BCN 1001 Building Construction. 4 c.c.
FA, SP, SU – A.A.S. only. A course planned to acquaint the student with the terminology, methods, procedures, materials, sequences of operations, and types of construction.

BCN 2213 Concrete Construction. 3 c.c.
SP – A.A.S. only. Corequisite: MAT 1033 or permission of instructor. An introductory course involving the design of mixes of quality concrete, reinforced concrete designs of various types of structures using algebraic equations, use of tables, nomographs, and other handbook data.

BCN 2405C Construction Mechanics. 4 c.c.
FA, SP – A.A.S. only. Corequisite: MAT 1033 or higher math or permission of instructor. A beginning course in structural design for Building Construction, Drafting and Design, and Civil Engineering Technology students which does not require a rigorous mathematical treatment. Emphasis is on problem solving. Includes resultant and equilibrium of force systems—beams, trusses, frames. Includes centroids and shear and moment diagrams.

BCN 2721 Construction Management. 3 c.c.
FA – A.A.S. only. Lab fee. Prerequisites: BCN 1001, CGS 1570 or permission of instructor. A study of the techniques and skills needed to plan, manage, and oversee the processes involved in the Building Construction Industry. A computer applications software is used in the course.

BCT 2600 Construction Estimating. 3 c.c.
FA – A.A.S. only. Lab fee. Prerequisite: BCN 1001 or permission of instructor. Corequisite: MAT 1033 or higher math. A course involving systems of accounting, material inventory, and the critical path method of planning and scheduling. This course is designed specifically for cost estimating in heavy construction but those who complete it should have no trouble doing light construction or commercial estimating. Completion of or simultaneous enrollment in, ETU 152C or the ability to read blueprints will aid the student in this class. Some computer assisted estimating is used.
BCT 2706 Construction Documents. 3 c.c.
FA – A.A.S. only. Prerequisite: BCN 1001 or permission of instructor. A study of the documents used in the construction industry. These documents involve the study, use and legal aspects of advertisement for bids, contracts, change orders, extra specifications, insurance and bid bonds.

BCT 2760 Building Codes. 3 c.c.
FA – A.A.S. only. Prerequisite: BCN 1001 or permission of instructor. A study of the Building Codes designed to acquaint the student with the requirements for commercial construction based on occupancy classification and construction type.

BOT 1010 General Botany. 3 c.c.
FA, SP, SU – Corequisite: BOT 1010L. Morphological, physiological, and taxonomic aspects of plants are studied. Significant plant groups are surveyed to illustrate basic biological principles. Meets A.A. general education Category VI.

BOT 1010L General Botany Laboratory. 1 c.c.
FA, SP, SU – Lab fee. Corequisite: BOT 1010. An introductory laboratory course with the appropriate microscope, dissection, and experimental exercises to accompany BOT 1010. Meets A.A. general education Category VI.

BSC 0084 Structure and Function. 2 v.c.
FA, SP, SU – This course covers basic normal anatomy and physiology in the human body. Emphasis is placed on the interrelationship of the body systems. Meets A.A. general education Category VI.

BSC 1005 Biological Principles for Non-Majors. 3 c.c.
FA, SP, SU – A study of the principles of biology (cell theory, cellular process, theories of heredity and evolutionary theory) and a survey of the diversity of organisms. A course for non-majors; not recommended for biology majors. Meets A.A. general education Category VI.

BSC 1005L Biological Principles for Non-Majors Laboratory. 1 c.c.
FA, SP, SU – Lab fee. Prerequisite or Corequisite: BSC 1005. A laboratory course providing exercises and experiments to demonstrate the principles of biology and the diversity of life. A course for non-majors; not recommended for biology majors. Meets A.A. general education Category VI.

BSC 1080 Essentials of Anatomy and Physiology. 3 c.c.
FA, SP – Corequisite: BSC 1080L. This is a survey course consisting of lectures and demonstrations covering the basic structures and functions of the human body. It is not recommended for students who intend to major in biology, medicine, or registered nursing.

BSC 1080L Essentials of Anatomy and Physiology Laboratory. 1 c.c.
FA, SP – Lab fee. Corequisite: BSC 1080. This is a laboratory course in which dissected materials, microscopy, models, and other supplemental materials will be used to reinforce concepts presented in BSC 1080.

BSC 1093 Anatomy and Physiology I. 3 c.c.
FA, SP, SU – Prerequisite: BSC 1093L. A laboratory course providing exercises in anatomy and physiology intended to enhance topics covered in BSC 1093. Dissection material and other media will be used to explore the structure of the integumentary, skeletal, muscular, and nervous systems.

BSC 1094 Anatomy and Physiology II. 3 c.c.
FA, SP, SU – Prerequisite: BSC 1093. Corequisite: BSC 1094L. This course is a continuation of BSC 1093. Topics covered include the cardiovascular, lymphatic, immune, respiratory, digestive, urinary and reproductive systems. Normal and pathological conditions of fluid, acid base, and electrolyte balance are also surveyed.

BSC 1094L Anatomy and Physiology II Laboratory. 1 c.c.
FA, SP, SU – Lab fee. Corequisite: BSC 1093L. Continuation of BSC 1093L Laboratory exercises in anatomy and physiology to enhance topics covered in BSC 1094. Models, dissection material and other media will be used to explore the structure of the sensory, cardiovascular, respiratory, digestive, urinary and reproductive systems.

BSC 1931L, 1932L, 1933L Special Topics in Biological Sciences. 1 c.c., 2 c.c., 3 c.c.
FA, SP, SU – Some sections may require lab fees. This course is designed to allow flexibility for presenting a variety of topics in biological sciences, such as biotechnology, environment, and natural history. The course may be repeated for credit when content varies.

BSC 2010 Integrated Principles of Biology. 3 c.c.
FA, SP, SU – Prerequisites: High school biology and chemistry or permission of department head. Corequisite: BSC 2010L. Study of the cellular, genetic, and evolutionary principles which form the foundation of biology. Emphasis on biomolecules, cell structure and function, protein synthesis, genetics, and organic evolution. The first course for biology majors. Meets A.A. general education Category VI.

BSC 2010L Integrated Principles of Biology Laboratory. 1 c.c.
FA, SP, SU – Lab fee. Prerequisites: High school biology and chemistry or permission of department head. Corequisite: BSC 2010. A laboratory course which provides hands-on exercises to complement the material in lecture course BSC 2010. Required for biology majors. Meets A.A. general education Category VI.

BSC 2033 Ethical Issues in Biology. 2 c.c.
FA, SP, SU – Prerequisite: BSC 1005 or BSC 2010. In recent years, the life sciences have produced numerous techniques and laboratory devices whose applications have produced challenging ethical dilemmas for modern society. This course explores the complex interactions that occur at the overlap between ethics and modern biology. Topics to be presented will include the use of genetic information, genetic testing, genetic engineering, gene therapy, medical ethics, use of reproductive technologies, abortion, euthanasia, xenotransplantation and cloning.

BSC 2040 Integrated Principles of Biology Honors. 3 c.c.
FA, SP – Prerequisites: High school biology and chemistry or permission of the department head; permission of the instructor/director of Honors Program. Corequisite: BSC 2040L. Study of the cellular, genetic, and evolutionary principles which form the foundation of biology. Emphasis on biomolecules, cell structure and function, protein synthesis, genetics, and organic evolution. An Honors Program level first course for Biology majors. Meets A.A. general education Category VI.

BSC 2040L Integrated Principles of Biology Laboratory Honors. 1 c.c.
FA, SP – Lab fee. Prerequisites: High school biology and chemistry or permission of the department head; permission of the instructor/director of Honors Program. Corequisite: BSC 2040. An Honors Program level laboratory course which provides hands-on exercises to complement the concepts discussed in the lecture course. Required for Biology majors. Meets A.A. general education Category VI.

BUL 2241 Business Law. 3 c.c.
FA, SP, SU – This is a general introduction to law which includes a study of the foundations of legal systems and the role of law in society, fundamental principles of the law of crimes, torts, contracts, sales, and commercial paper. Emphasis is placed on logical reasoning and the application of rules of law to everyday business affairs.

CCJ 1020 Introduction to Criminal Justice. 3 c.c.
FA, SP, SU – An introductory course designed to familiarize students with the criminal justice system. Emphasis is placed on understanding the nature, functions and limits of law. Special attention will be given to the criminal justice process from arrest to final disposition. The course will prepare the student for succeeding courses in the criminal justice program. Course is highly recommended for non-majors.
CET 1485 Networking Essentials. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CET 1462C or CGS 1570. This courseprovides students with the knowledge and skills necessary to install, configure, and troubleshoot the Windows 2000 Active Directory components, DNS for Active Directory components, DNS for Active Directory, and Active Directory security solutions. In addition, the course will develop the skills required to manage, monitor, and optimize the desktop environment by using Group Policy.

CET 1071 Introduction to Telecommunications. 3 c.c.
FA, SP, SU – A.A.S. only. A first course in telecommunications, which will cover all facets of the field, including voice, data and video technologies. The history of telecommunications is discussed with an emphasis on the regulatory environment and standards, which have shaped telecommunications development. A large portion of the subject material will be directed toward data handling and how networks are used in telecommunications. Case studies are used to support instruction.

CEN 1320 Windows 2000 Server. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CEN 1304. This courseprovides students with the knowledge and skills necessary to perform post-installation and day-to-day administrative tasks of Windows Server in single-domain networks. In addition, students learn how to integrate Windows 2000 and Novell Netware networks.

CEN 2306 Microsoft Exchange Server. 3 c.c.
TBA – A.A.S. only. Lab fee. Prerequisite: CEN 2325. This courseprovides students with an extensive introduction to the knowledge and skills necessary to install, configure, manage, monitor, and troubleshoot networks that incorporate Microsoft Exchange Server 2000. Prepares students for Exam 70-224: Installing, Configuring, and Administering Microsoft Exchange 2000 Server.

CEN 2321 Administering Network Infrastructure. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CEN 1320. This courseprovides students with the knowledge and skills necessary to install, manage, monitor, and troubleshoot network infrastructure. In addition, the course will develop the skills required to manage, monitor, and troubleshoot network infrastructure. In addition, the course will provide introductory concepts of digital circuits. Material covered in theory and lab includes number systems, digital codes, logic circuits, Boolean algebra, Karnaugh mapping, Demorgan’s Theorem, arithmetic circuits, code converters, multiplexers, and demultiplexers.

CEN 1112C Digital Fundamentals. 3 c.c.
FA, SP, SU – A.A.S. only. Lab fee. Prerequisite or Corequisite: CET 1462C or CGS 1570. A theory-lab course covering introductory concepts of digital circuits. Material covered in theory and lab includes number systems, digital codes, logic circuits, Boolean algebra, Karnaugh mapping, Demorgan’s Theorem, arithmetic circuits, code converters, multiplexers, and demultiplexers.

CET 1171C PC Hardware (A+). 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CET 1462C. Corequisite: CET 1173C. This course is designed to prepare the student to take the A+ Certification exam, by teaching the student basic technical skills needed to understand the function and operation of the major elements of personal computer systems, and how to localize and correct common hardware and software problems.

FA, SP, SU – A.A.S. only. Lab fee. Prerequisite: CET 1462C. This course is designed to prepare the student to take the A+ Certification exam by making the student proficient in personal computer operating systems including DOS, Win 95/98/2000. Major topics include disk, file and memory management, system configurations, menu driven processing, graphical user interfaces, boot files, disk caching, virtual memory, device drivers, TSRs, and basic system errors.

CET 1462C Introduction to Computers in Technology. 3 c.c.
FA, SP – A.A.S. only. Lab fee. A first computer course, geared to providing technology students with a working knowledge of computer hardware and software related to their vocation. This course focuses on five concepts: basic keyboarding, word processing, computer hardware, operating systems, and basic computer maintenance.

CET 1485 Networking Essentials. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CET 1462C or CGS 1570 or permission of instructor. This course serves as a general introduction for students to acquire a foundation in current network technologies for local area networks (LANs), wide area networks (WANs), and the Internet. This course prepares the student to take the CompTIA Network+ certification exam. The course provides an introduction to the hardware, software, terminology, components, design, and connections of a network, as well as the topologies and protocols for LANs. It covers LAN-user concepts and the basic functions of system administration and operation.

CET 1600C Networking Fundamentals. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CET 1462C or CGS 1570 or permission of instructor. This course introduces the student to the basics of internetworking technology. This is also the first of four courses designed to prepare a student to take the Cisco Certified Network Associate Exam. The student will study networks and layers, networking devices, IP addressing, ARP and RARP, media and design, topology, structured cabling, electricity and electronics, and network management.
CET 1610C. Router Theory and Router Technologies. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CET 1600C. This course introduces the student to the basics of router configurations. This is also the second of four courses designed to prepare a student to take the Cisco Certified Network Associate Exam. The student will study router components, router configuration, IOS, TCP/IP addressing, and other router protocols.

CET 1610C. Router Theory and Router Technologies. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CET 1600C. This course introduces the student to the basics of router configurations. This is also the second of four courses designed to prepare a student to take the Cisco Certified Network Associate Exam. The student will study router components, router configuration, IOS, TCP/IP addressing, and other router protocols.

CET 1634C Telecommunications Distribution Systems. 3 c.c.
FA, SP – A.A.S. only. Lab fee. This course is designed to teach a student the fundamentals of structured cabling systems and the fundamentals of grounding and protection for telecommunications systems. It also will be an introduction to telecommunications cabling infrastructure for a customer-owned outside plant.

CET 2000C. Electronics for Computers and Telecommunications. 3 c.c.
FA, SP, SU – A.A.S. only. Lab fee. Prerequisite: CET 2113C. A student will learn the theory and perform basic experiments in the following subject areas: basic electricity, direct current (DC) circuits, alternating current (AC) circuits, diodes and power supply circuits and transistors and Op-Amps.

CET 2113C. Digital Circuits. 3 c.c.
SP, SU – A.A.S. only. Lab fee. Prerequisite: CET 1112C. A theory-lab course which covers additional digital electronics circuits and concepts. Circuits include latches, flip-flops, counters, registers, multivibrators, timers, digital-to-analog converters (DAC), analog to digital converters (ADC), and common memory technologies (R/W and ROM).

CET 2123C. Microprocessor Fundamentals. 3 c.c.
FA, SP, SU – A.A.S. only. Lab fee. Prerequisite: CET 2113C. A theory-lab course which teaches the fundamentals of the microprocessor, including MPU architecture, bus concepts, and memory mapping. Assembly language programming is emphasized with specific applications for interrupt routines.

CET 2127C. Personal Computers Maintenance, Upgrade and Support. 3 c.c.
FA, SP, SU – A.A.S. only. Lab fee. Prerequisite: CET 21171C or departmental waiver based on documented personal experience. A combination theory and laboratory oriented course which introduces the student to maintenance of microcomputers. It will prepare students in maintenance, upgrade, and support of PC’s. Major items covered include: hardware/software/firmware concepts, troubleshooting, repair, support of the PC, LAN/WAN network applications, and operating systems.

CET 2481C. Wireless LANS. 3 c.c.
SP – A.A.S. only. Lab fee. Prerequisite: CET 1610C or CCNA certification or departmental waiver based on documented personal experience. This course provides an overview of the emerging communications technology surrounding Digital Subscriber Lines (DSL) and Cable Modems. Mathematics and physics are held to a minimum to allow for the broadest possible audience.

CET 2482C. Computer Telephony. 3 c.c.
FA – A.A.S. only. Lab fee. Prerequisite: CET 1610C or CCNA certification or departmental waiver based on documented personal experience. This course will allow a student to successfully interpret customer requirements, understand complex computer telephony systems and quickly assimilate working knowledge of new computer telephony technologies, such as, VoIP, VoFR, and VoATM.

CET 2515C. Advanced Routing and Switching. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CET 1610C. This course introduces the student to fundamentals of LAN configurations. This is also the third of four courses designed to prepare a student to take the Cisco Certified Network Associate Exam. The student will study LAN switching, VLANs, LAN design, IGRP, access list, and IPX.

CET 2620C. Advanced Network Design and Management Projects. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CET 2615C. This course introduces the student to advanced router configurations. This is also the fourth of four courses designed to prepare a student to take the Cisco Certified Network Associate Exam. The student will study LAN switching, VLANs, LAN design, IGRP, access list, and IPX.

CET 2625C. Designing Cisco Networks. 3 c.c.
SP – A.A.S. only. Lab fee. Prerequisite: CET 2620C or CCNA certification or departmental waiver based on documented personal experience. This course is designed to prepare a student to take the Cisco Systems Exam 640-441, Cisco Certified Design Associate. This course will prepare the student to perform entry-level LAN/WAN network needs analysis.

CET 2626C. Building Scalable Cisco Networks (BSCN). 4 c.c.
FA – A.A.S. only. Lab fee. Prerequisite: CET 2620C or CCNA certification or departmental waiver based on documented personal experience. This course is designed to prepare a student to take the Cisco Systems Exam 640-505, Building Scalable Cisco Networks. This course addresses those tasks that network managers and administrators need to perform when managing access and controlling overhead traffic in growing, routed networks once basic connectivity has been established. This course discusses router capabilities used to control traffic over LANS and WANS, as well as connecting corporate networks to an Internet Service Provider.

CET 2627C. Building Cisco Multilayer Switching Networks (BCMSN). 4 c.c.
SP – A.A.S. only. Lab fee. Prerequisite: CET 2628C. This course is designed to prepare a student to take the Cisco Systems Exam 640-504, Building Cisco Multilayer Switching Networks. This course will teach network administrators how to build campus networks using multilayer-switching technologies over high speed Ethernet.

SP – A.A.S. only. Lab fee. Prerequisite: CET 2626C. This course is designed to prepare a student to take the Cisco Systems Exam 640-505, Building Cisco Remote Access Networks. This course will teach network administrators how to build a remote access network to interconnect central sites to branch offices and home/office telecommuters. The course further teaches students how to control access to the central site, as well as maximize bandwidth utilization over the remote links.

CET 2629C. Cisco Internetwork Troubleshooting (CIT). 4 c.c.
SU – A.A.S. only. Lab fee. Prerequisite: CET 2627C. This course is designed to prepare a student to take the Cisco Systems Exam 640-506, Cisco Internetwork Troubleshooting. This course will teach students how to diagnose and troubleshoot a remote access network using Cisco routers and switches for multilayer protocol client hosts and servers connected with: Ethernet, Fast Ethernet, and Token Ring LANS, Serial, Frame Relay, and ISDN BRI WANS.

CET 2640C. DSL and Cable Modem Access Technologies. 3 c.c.
SP – A.A.S. only. Lab fee. Prerequisite: CET 1610C or CCNA certification or departmental waiver based on documented personal experience. This course provides the student with an overview of the emerging communications technology surrounding Digital Subscriber Lines (DSL) and Cable Modems.

CET 2932 Advanced Telecommunications Topics. 3 c.c.
FA – A.A.S. only. Prerequisite: CET 1071. This course will provide emphasis on current changes and advances in the tele-communications field. Topics will include recent developments and emerging technologies affecting telecommunications including new products, standards, and applications.

CET 2947, 2948, 2949 Telecommunications Co-op. 1 c.c., 2 c.c., 3 c.c.
FA, SP, SU – A.A.S. only. Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.
This course will cover basic terminology of data processing, general characteristics of various computers, word processing, spreadsheets, database, graphics, and programming. It includes a discussion of uses of the computer for a variety of areas such as business, science, music, history, art, etc. Course requires computer use outside of class time. (Course cannot be taken for credit if student has earned credit in CGS 1570.)

CGS 1050 Electronic Access to Information. 1 c.c.
FA, SP, SU – Lab fee. This course is designed to provide students with an introduction to the concept of information retrieval in an electronic environment. Students will access information in online databases that contain book, journal, and newspaper information, as well as connect to the Internet for data retrieval.

CGS 1052H Research in the Electronic Age Honors. 1 c.c.
FA, SP – Lab fee. Introduces honors students to the use of computer technology for research purposes. Students will locate, identify, and access information sources, and create bibliographies using several software programs. Material covered will emphasize the research needs of the interdisciplinary honors curriculum and will prepare students for their university careers.

CGS 1560 Microcomputer Operating Systems. 3 c.c.
FA, SP – Lab fee. Prerequisite: CET 1462C or CGS 1570. This course will cover basic terminology and techniques of several important microcomputer operating systems. Students will learn advanced methods of organizing data, creating batch files, managing hard and floppy disk file systems, and configuring systems for maximum use. Operating systems covered will be Windows, UNIX and OS/2.

CGS 1570 Computer Concepts and Applications. 3 c.c.
FA, SP, SU – Lab fee. This course will cover computer and networking concepts, computer applications, and productivity software (word processing, spreadsheet, graphics, and database). Course requires use of computers outside of class time.

CGS 1584 Multimedia Presentations for Business. 3 c.c.
FA – A.A.S. only. Lab fee. Prerequisite: CET 1462C or CGS 1570. A projects-based course in multimedia presentation tools with emphasis on the use of microcomputers for professional and academic use. Topics include presentation planning, ergonomic design, and integration of several different types of multimedia. Participants will become familiar with integrating text, clip art, digital pictures, ole objects, and animation with the Microsoft Power Point program.

CGS 1700 Introduction to Operating Systems. 3 c.c.
FA, SP – Prerequisite: CGS 1570. Course covers concepts concerning hardware design, data representation, and operating systems without regard to any particular type of computer. This course will examine the "what" and "why" of an operating system and its responsibility to hardware applications.

CGS 2069 Fundamentals of Electronic Commerce. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CGS 1570. This course will deal with the changing field of electronic business. Topics include an overview of Internet commerce, business basics, advertising, marketing, and security issues.

CGS 2510 Spreadsheet. 3 c.c.
FA, SP, SU – Lab fee. Prerequisite: CGS 1570. Spreadsheet applications will be taught by a combination of lecture and hands-on experience. Electronic spreadsheet and data management applications will be covered.

CGS 2555 Internet Literacy. 3 c.c.
FA, SP, SU – Lab fee. Prerequisite: CGS 1570. This course will cover use of Windows based software, Internet concepts, connectivity, communication, search engines, Web page creation, Internet multimedia, and the origin, current impact on society, and future of the Internet.

CGS 2760C Fundamentals of UNIX. 3 c.c.
FA, SP, SU – A.A.S. only, Lab fee. Prerequisite: CET 1462C or CGS 1570. This course is designed to introduce students to the UNIX/Linux network operating systems using Sun Solaris. Students will learn about user accounts, file systems, text editors, security, printing, backups and restores, various shells and shell scripting within UNIX.

CGS 2820 Introduction to HTML. 3 c.c.
FA, SP, SU – A.A.S. only. Lab fee. Prerequisite: CGS 1570. This projects-based course introduces students to a variety of tools used to access, design, and develop web sites that provide information through the World Wide Web interface. Course content includes an overview and review of Internet concepts and vocabulary, usage of various tools to actively search and access information. The participant will also be trained in techniques for the implementation of well-designed web sites using HTML coding.

CGS 2821 Web Site Theory and Project. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CGS 2874. Review of web site design and development concepts and techniques with emphasis on incorporating graphic and multimedia elements into web pages and managing the site development process. Students will use Adobe software including Acrobat, Photoshop, GoLive and others. Course project will involve creation of a Web site for a client.

CGS 2822 Scripting for the Web. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisites: CGS 2820, COP 1510. This course teaches the basics of writing scripts for use on the World Wide Web. Emphasis will be placed on the student learning to program with Javascript and Perl, with a brief survey of several other scripting languages.

CGS 2874 Web Design with Macromedia Software. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CGS 2820. This projects-based course continues the participant’s development of skills using advanced web design techniques. Course content includes integration of multimedia objects and introduction to Macromedia Dreamweaver, ‘Flash’ and ‘Fireworks’. The participant will also be able to author original web sites that are cohesive.

CHD 1004 Introduction to Child Care. 3 c.c.
FA, SP, SU – This is an introductory course to acquaint students with the many facets of child care programs; center-based, family, in-home, nursery, after-school. This course provides the 20 hours of training required by the state to be certified as a caregiver in a child care program. It also includes a 10-hour training module on Infants and Toddlers, one of several modules which meets IHS requirements for child care certification.

CHD 1332 Creative Experiences for Children. 3 c.c.
FA – This course emphasizes the importance of creativity and play for the intellectual development of the child. Areas covered are the curriculum areas in children’s programs, the value of the learning environment, and the need to match materials and activities to developmental levels of children. The student prepares materials and activities to use with children.

CHD 1800 Management in Child Care. 3 c.c.
FA, SP, SU – This course explores the role of the administrative process in child care and the laws that affect the operation of a center. Facility, program, budget, schedule, and food service management are emphasized.

CHD 1932 Early Childhood Seminar. 2 c.c.
TBA – Lab fee. This course explores current topics as they affect the child in the family, the child’s development, and the child in programs such as child care and preschool and primary education.

CHD 2380 Teaching Young Children. 3 c.c.
FA – This course is based on the High/Scope Learning Processes and the Perry School Research model that provides for students an in-depth study of how to set up learning environments, interaction strategies and the problem solving approach to discipline. This course also provides an opportunity for students to develop a philosophy of how children learn.
CHD 2432C Early Childhood Practicum. 4 c.c.

SP – Prerequisites: Six credit hours in CHD courses or permission of instructor. The student plans and carries out specific activities with small groups of children. The student reads professional materials, learns to arrange materials appropriately in a learning environment, and to identify some teaching behaviors that promote learning. This course will include field-based observation and participation components.

CHD 2947, 2948, 2949 Child Development Co-op. 1 c.c., 2 c.c., 3 c.c.

FA, SP – Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.

CHM 1025 Introduction to College Chemistry. 3 c.c.

FA, SP, SU – An introductory course in chemistry for students who have had little or no prior exposure to the subject. Emphasis is on the language, fundamental concepts, and problem solving in chemistry. Meets A.A. general education Category VII.

CHM 1025L Introduction to College Chemistry Laboratory. 1 c.c.

FA, SP, SU – Lab fee. Corequisite: CHM 1025. An optional laboratory course to accompany CHM 1025, with emphasis on basic laboratory skills and practical applications of chemistry. Activities performed by the student in CHM 1025L will help reinforce concepts presented in CHM 1025. Lab safety exam is required. (Students taking CHM 1025 concurrently are required to withdraw from CHM 1025L if they withdraw from CHM 1025.) Meets A.A. general education Category VII.

CHM 1033 Elements of Biochemistry. 3 c.c.

TBA – A.A.S. only. An introduction to fundamental concepts in biochemistry and basic chemical concepts relevant to the subject. This course is offered for credit only to dental hygiene majors. Successful completion of high school biology and high school chemistry is recommended for this course. Does not meet general education requirements.

CHM 1045 General Chemistry I. 3 c.c.

FA, SP, SU – Prerequisite: Corequisites: CHM 1025 or high school chemistry. Corequisites: MAC 1105 and either CHM 1045L or CHM 1050L. A modern survey of the principles of chemistry with emphasis on scientific measurement, atomic and molecular structure, periodic properties, chemical reactions, stoichiometry, and the kinetic molecular theory of gases. Mastery of basic algebra skills is essential for successful completion of this course. Meets A.A. general education Category VII.

CHM 1045L General Chemistry I Laboratory. 1 c.c.

FA, SP, SU – Lab fee. Corequisite: CHM 1045. A laboratory course to accompany CHM 1045, with emphasis on the development of laboratory skills in chemistry which are fundamental to students of science. Experiments performed by the student in CHM 1045L will both complement and supplement the concepts presented in CHM 1045. Lab safety exam is required. (Students taking CHM 1045 concurrently are required to withdraw from CHM 1045L if they withdraw from CHM 1045.) Meets A.A. general education Category VII.

CHM 1046 General Chemistry II. 3 c.c.

FA, SP, SU – Prerequisite: Completion of CHM 1045 with a grade of “C” or better. Corequisite: CHM 1046L or CHM 1051L. Topics treated include physical states of matter, the nature and physical properties of solutions, acids and bases, kinetics, chemical equilibrium, thermodynamics, electrochemistry, coordination compounds, and nuclear chemistry. Meets A.A. general education Category VII.

CHM 1046L General Chemistry II Laboratory. 1 c.c.

FA, SP, SU – Lab fee. Prerequisite: Completion of CHM 1045L or CHM 1050L with a grade of “C” or better. Corequisite: CHM 1046. A laboratory course to accompany CHM 1046, with emphasis on the development of laboratory skills in chemistry which are fundamental to students of science. Experiments performed by the student in CHM 1046L will both complement and supplement the concepts presented in CHM 1046. Lab safety exam is required. (Students taking CHM 1046 concurrently are required to withdraw from CHM 1046L if they withdraw from CHM 1046.) Meets A.A. general education Category VII.

CHM 1050L General Chemistry I Laboratory Honors. 1 c.c.

TBA – Lab fee. Prerequisite: Honors program participant or departmental permission. Corequisite: CHM 1045. An honors chemistry laboratory course (in place of CHM 1045L laboratory) to accompany CHM 1045 and designed for honors program participants and other students seeking an enriched laboratory experience in freshman chemistry. Experiments will help develop fundamental laboratory skills and will both complement and supplement concepts presented in CHM 1045. The CHM 1050L laboratory is an honors-level equivalent of CHM 1045L and satisfies the CHM 1045L requirement in any program. Lab safety test required. (Students taking CHM 1045 concurrently are required to withdraw from CHM 1050L if they withdraw from CHM 1045.) Meets A.A. general education Category VII.

CHM 1051L General Chemistry II Laboratory Honors. 1 c.c.

TBA – Lab fee. Prerequisite: Honors Program participant or departmental permission, completion of CHM 1045L or CHM 1050L with a grade of “C” or better. Corequisite: CHM 1046. An honors chemistry laboratory course (in place of CHM 1046L laboratory) to accompany CHM 1046 and designed for honors program participants and other students seeking an enriched laboratory experience in freshman chemistry. Experiments will help develop fundamental laboratory skills and will both complement and supplement concepts presented in CHM 1046. The CHM 1051L laboratory is an honors-level equivalent of CHM 1046L and satisfies the CHM 1046L requirement in any program. Lab safety test required. (Students taking CHM 1046 concurrently are required to withdraw from CHM 1051L if they withdraw from CHM 1046.) Meets A.A. general education Category VII.

CHM 1200 Introduction to Organic Chemistry. 3 c.c.

TBA – Prerequisite: Completion of CHM 1025 or CHM 1045 with a grade of “C” or better. An elementary course in organic chemistry designed to meet the requirement of certain programs or to help prepare students for mainstream organic chemistry CHM 2210 and CHM 2211. Topics covered include a brief review of general chemistry concepts, an overview of organic chemistry, and selected topics in biochemistry. Emphasis will be placed on organic chemical structure and nomenclature.

CHM 1200L Introduction to Organic Chemistry Laboratory. 1 c.c.

FA, SP, SU – Lab fee. Corequisite: CHM 1200. A laboratory course designed to provide hands-on experience to reinforce topics covered in the lecture course. Lab safety test required. (Students taking CHM 1200 concurrently are required to withdraw from CHM 1200L if they withdraw from CHM 1200.)

CHM 2120 Quantitative Analysis. 2 c.c.

TBA – Prerequisite: Completion of CHM 1046 with a grade of “C” or better. Corequisite: CHM 2120L. A study and practice of principles of volumetric and gravimetric analysis, and of technical analysis including analytic calculations.

CHM 2120L Quantitative Analysis Laboratory. 2 c.c.

TBA – Lab fee. Prerequisite: Completion of CHM 1046L or CHM 1051L with a grade of “C” or better. Corequisite: CHM 2120. Laboratory determinations of common metals, nonmetals, acids, and bases. Lab safety test required. (Students taking CHM 2120 concurrently are required to withdraw from CHM 2120L if they withdraw from CHM 2120.)
CHM 2211 Organic Chemistry I. 3 c.c.  
FA, SP – Prerequisite: Completion of CHM 1046 with a grade of “C” or better. Corequisite: CHM 2210L. A study of carbon compounds with emphasis placed on reaction mechanisms, functional group behavior, synthesis, and structure determination.  

CHM 2211L Organic Chemistry I Laboratory. 1 c.c.  
FA, SP – Lab fee. Prerequisite: Completion of CHM 1046L or CHM 1051L with a grade of “C” or better. Corequisite: CHM 2210. Experiments designed to provide hands-on experience to reinforce topics covered in the lecture course. Lab safety test required. (Students taking CHM 2210 concurrently are required to withdraw from CHM 2210L if they withdraw from CHM 2210.)  

CHM 2211 Organic Chemistry II. 3 c.c.  
SP, SU – Prerequisite: Completion of CHM 2210 with a grade of “C” or better. Corequisite: CHM 2211L. A continuation of CHM 2210.  

CHM 2211L Organic Chemistry II Laboratory. 1 c.c.  
SP, SU – Lab fee. Prerequisite: Completion of CHM 2210L with a grade of “C” or better. Corequisite: CHM 2211. A continuation of CHM 2210L. Lab safety test required. (Students taking CHM 2211 concurrently are required to withdraw from CHM 2211L if they withdraw from CHM 2211.)  

CHM 2947, 2948, 2949 Chemical Technology Co-op. 1 c.c., 2 c.c., 3 c.c.  
TRI – Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.  

CIS 2354C Network Security +. 4 c.c.  
TRI – A.A.S. only. Lab fee. Prerequisites: CET 1485 or CET 1610C, CIS 2355. This course is intended to serve the needs of individuals interested in understanding the field of network security and how the field relates to other areas of Information Technology. The material in this course will provide the broad-based knowledge necessary to prepare students for further study in specialized security fields or may be used as a course for those interested in a general introduction to field network security. This course will also serve the needs of individuals seeking to pass the CompTIA Security + certification exam.  

CIS 2355 Foundations for Information Security. 3 c.c.  
EA, SU – A.A.S. only. This course is intended as an overview of the many facets of Information Security. Managers will see the big picture more clearly, Network Administrators will see that security encompasses more than just hardware and software, and students will be exposed to career possibilities that were not visible to them before.  

CJC 1000 Theory and Practice of Corrections. 3 c.c.  
FA, SP, SU – A comprehensive view of the history and philosophy of corrections at the federal, state and local levels. The present types and classifications of correctional facilities; temporary problems in corrections; and a career orientation.  

CJC 2162 Probation and Parole. 3 c.c.  
FA, SP, SU – This is a course designed to explore the theories and practices of correcting behavior in the community setting. The difference between the two is discussed along with the range of restrictions that can be placed on the parolee or probationer in attempts to guide his behavioral modification.  

CJE 1500 Police Operations. 3 c.c.  
FA, SP, SU – This is a study of the principles and purposes of divisional functions of police agencies—line, auxiliary, and administrative—and analysis of the major activities of each division, including communications, record keeping, public relations, selection processes, and specialized units.  

CJS 1100 Criminal Law. 3 c.c.  
FA, SP, SU – An introduction to the specific rules of criminal law generally in force in the United States and the State of Florida. Topics will include: fundamentals of criminal law; essential elements of a crime; criminal liability, responsibility and capacity; defenses and criminal jurisdiction.  

CJL 1130 Rules of Evidence. 3 c.c.  
FA, SP, SU – Instruction in the Basic Rules of Evidence, including classification of various kinds of evidence. Rules governing privileged communication, hearsay, test of admissibility and the application of these rules to the criminal justice process, emphasizing the study of pertinent case law.  

CJT 1100 Criminal Investigation. 3 c.c.  
FA, SP, SU – This course is a survey of the methods and techniques employed by law enforcement officers in the detection and investigation of crime.  

CJT 1140 Introduction to Criminalistics. 3 c.c.  
FA, SP, SU – Scientific methods are applied in the course. It includes the examination of documents, firearms identification, toxicology, pathology, photography, fingerprinting, and the basic capabilities of local, state, and federal crime laboratories.  

CLP 2140 Basic Psychopathology. 3 c.c.  
SP – Prerequisite: PSY 1000 or PSY 2012. A course surveying abnormal behavior and mental conditions and their treatment. Major topics include: an historical perspective on mental disorder; current theories on the causes of mental disorder, including the psychodynamic, humanistic-existential, and neuroscience perspectives; a detailed overview of many of the disorders listed in DSM-IV and an examination of psychological and biological treatment methods.  

CLT 1500 Classical Mythology. 3 c.c.  
FA, SP, SU – Prerequisite: Test score requirement the same as ENC 1101. The first third of this course is spent learning the major deities and heroes of Greco-Roman mythology, including Greco-Roman literature involving these. The course then follows a chronological examination (beginning with Greece to the present) of how artists and poets thematically used classical mythology in their works. The course will involve lectures, correlated readings and illustrations or representative works from each period studied. Meets A.A. general education Category V. A writing emphasis course.  

COM 0101 Business Communications. 3 v.c.  
FA – Corequisites: CGS 0040, OTA 0101. A comprehensive course designed to provide basic mechanics for grammar usage and punctuation for acceptable written communication with emphasis on clarity and simplicity necessary in business communications.  

COM 2100 Business Communications. 3 c.c.  
FA, SP, SU – Prerequisites: OST 1100 or one year high school typewriting, ENC 1101 or LIN 1670C. Business Communications is a comprehensive course designed to improve skills in all aspects of organizational communication. Systems, practices, and media will be included as will some aspects of the behavioral sciences. Emphasis is on composing and arranging effective written communications.
COP 1510 Programming Concepts I. 3 c.c. 
FA, SP, SU – Lab fee. Prerequisites: CET 1462C or CGS 1570 and appropriate score on Florida Entry-Level Placement Exam or MAT 1033 or higher level math. Introduction to programming with an emphasis on problem solving and programming techniques. Covers basic concepts of data representation, procedures, functions, program control structures and files.

COP 2010 Visual Basic Applications. 3 c.c. 
FA, SP – A.A.S. only. Lab fee. Prerequisite: COP 2332. This course provides an introduction to Visual Basic for Applications (VBA), which is the programming language found in many Microsoft and non-Microsoft application products. The course is designed to guide the programmer in writing procedures that will customize such Microsoft applications as Word, Excel, and Access. The student will be able to access objects contained in object models, and write procedures using the sequence, selection, and repetition programming structures, as well as creating dialog boxes.

COP 2120 COBOL. 3 c.c. 
FA, SP, SU – Lab fee. Prerequisites: COP 1510, MAC 1105. Corequisite: ACG 2001 or ACG 2021. This is a course in structured COBOL programming. It includes an introduction to file processing and appropriate documentation. Programming assignments focus on business applications.

COP 2220 “C” Programming. 3 c.c. 
TBA – Lab fee. Prerequisites: COP 1510 or other beginning programming course taught using a language other than C/C++. MAC 1105. Introduction to programming in C++ with an emphasis on problem solving and programming techniques. Covers basic concepts of data representation and types, functions, program control structures, and files.

COP 2332 Visual Basic. 3 c.c. 
FA, SP – A.A.S. only. Lab fee. Prerequisites: COP 1510, MAC 1105. Introduction to object-based, event-driven programming in Microsoft Visual Basic. Use of controls, objects, events, methods, procedures, functions, statements, properties, and data types. Development of business-related applications.

COP 2511 Programming Concepts II. 3 c.c. 
FA, SP, SU – Lab fee. Prerequisites: COP 1510, MAC 1105. Continuation of Programming I. Course covers additional features of C++ with an emphasis on program design, problem solving using procedural programming. Includes structured data, arrays, pointers, linked list (stacks, queues, and trees), binary files, sorting and searching.

COP 2740 Introduction to Oracle SQL. 3 c.c. 
FA, SP – A.A.S. only. Lab fee. Prerequisite: COP 1510. This course provides students with an introduction to database technology using the Oracle 9i database. The course covers relational database concepts. A strong SQL focus is emphasized. The student will be introduced to DDL, DML, and DCL statements. The course prepares students for the Oracle Database Administrator exams.

COP 2741 Oracle Database Administration. 3 c.c. 
FA, SP – A.A.S. only. Lab fee. Prerequisite: COP 2740. This course provides the basic knowledge required to perform database administration tasks. The course prepares students for the most commonly used administration tasks. These tasks include managing user accounts, managing database instances and managing all database resources. The course prepares students for the Oracle Database Administrator exams.

COP 2800 Java Programming. 3 c.c. 
FA, SP – Lab fee. Prerequisites: COP 1510, MAC 1105. This is a course in Java Programming. It includes emphasis on basic programming logic, structured and object oriented programming, documentation, and utilization of the unique capabilities of Java to create both applications and applets.

COP 2947, 2948, 2949 Computer Science Co-op. 1 c.c., 2 c.c., 3 c.c. 
FA, SP, SU – Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.

COS 0001 Introduction to Cosmetology. 1 v.c. 
FA, SP, SU – This course helps students to develop awareness, appreciation, and understanding of the theoretical principles of cosmetology and procedures for cosmetology licensure.

COS 0020 Consumer Relations/Salon Management. 1 v.c. 
FA, SP, SU – This course helps students to develop the ability to communicate effectively with the client and to understand the business aspect of effective salon management.

COS 0064 Trichology. 1 v.c. 
FA, SP, SU – This course is designed to give the student a thorough understanding of basic chemistry in hair structure, chemicals, and products used in the beauty salon.

COS 0080L Design Clinic I. 5 v.c. 
FA, SP, SU – This course is designed to provide the student with hair-dressing techniques with emphasis on proper procedures and safety precautions.

COS 0081L Design Clinic II. 4 v.c. 
FA, SP, SU – This course is a continuation of Design Clinic I which provides practical application of design services targeted to increase the student’s proficiency emphasizing workmanship, safety and sanitation as appropriate to the salon environment.

COS 0082L Design Clinic III. 4 v.c. 
FA, SP, SU – This course is a continuation of Design Clinics I and II which provides practical application of design services targeted to increase the student’s proficiency emphasizing the technical standards appropriate to the student’s level.

COS 0083L Advanced Design Clinic. 1 v.c. 
FA, SP, SU – This course is designed to provide the cosmetology student with advanced styling and shaping exercises and practice to develop dexterity, coordination, and application skills necessary to create the designs and patterns in the hair for ladies, men, and long hair applications.

COS 0301 Haircutting. 1 v.c. 
FA, SP, SU – This course is structured to develop skills in all phases of hair shaping including appropriate selection of the correct shears, razor and clippers with emphasis on proper procedures and safety precautions.

COS 0401 Hairstyling I. 2 v.c. 
FA, SP, SU – This course helps the student to develop awareness of cosmetology principles of design in regard to facial shape and body composition, and to develop skills in the execution of hair design with proper use of styling implements.

COS 0402 Hairstyling II. 1 v.c. 
FA, SP, SU – This course is a continuation of COS 0401 with emphasis on enhancing basic techniques and skills.

COS 0420 Advanced Hairstyling. 1 v.c. 
FA, SP, SU – This course is designed to teach the cosmetology student advanced styling and hair shaping techniques. The cosmetology student will accomplish objective through the development of dexterity and coordination skills and application of principles of these techniques in creating designs and patterns in the hair using a variety of techniques that will include sculpting for patrons coordinated with Pivot Point.

COS 0500C Barber-Styling I. 4 v.c. 
FA, SP, SU – This course provides students with beginning theoretical and practical procedures of barbering. The basic topics and tasks to be performed are: history of barbering; professional image and ethics; bacteriology; sterilization and sanitation, safety and efficient work practices, and implements, tools and equipment. In addition, skin, scalp and hair structure; disorders and treatments of hair and skin and manipulations and facial treatments will be addressed in this course.
COS 0510C Barber-Styling II. 4 v.c.  
*FA, SP, SU* – This course provides students with beginning theoretical and practical procedures of barbering. The basic topics and tasks to be performed are: draping; shampooing/rinsing men’s hair cutting and hairstyling, beard and mustache trims; and women’s haircutting and hairstyling.

COS 0520C Barber-Styling III. 4 v.c.  
*FA, SP, SU* – This course provides students with beginning theoretical and practical procedures of barbering. The basic topics and tasks to be introduced are non-chemical and chemical hair processing as the students expand their skill base in both men’s and women’s hair design techniques.

COS 0530C Barber-Styling IV. 4 v.c.  
*FA, SP, SU* – This course provides students with beginning theoretical and practical procedures of barbering. The basic topics and tasks to be introduced are non-chemical and chemical hair processing as the students expand their skill base in both men’s and women’s hair design techniques.

COS 0540C Barber-Styling V. 4 v.c.  
*FA, SP, SU* – This course provides students with additional theoretical and practical procedures in barbering. The student will follow clinic floor procedures by performing reception desk and sanitation duties and perform assigned barbering services under instructor supervision.

COS 0550C Barber-Styling VI. 4 v.c.  
*FA, SP, SU* – This course provides students with a continuation of proper barbering techniques as assigned in the supervised clinical classroom. All services will be monitored with individualized instruction and approval by the clinic instructor. In addition hair piece and wig fitting and care will be covered along with thinning and hair care.

COS 0551C Barber-Styling VII. 4 v.c.  
*FA, SP, SU* – This course provides students with a continuation of proper barbering techniques as assigned in the supervised clinical classroom. All services will be monitored with individualized instruction and approval by the clinic instructor. In addition the development of barber management skills, employability skills and a knowledge of State Board requirements, rules, and regulations will be covered.

COS 0552C Barber-Styling VIII. 4 v.c.  
*FA, SP, SU* – This course provides students with a continuation of proper barbering techniques as assigned in the supervised clinical classroom. All services will be monitored with individualized instruction and approval by the clinic instructor. In addition the development of shop management and communication skills will be emphasized in consumer relations.

COS 0590, 0591, 0592, 0593 Professional Barbering I, II, III, IV. 1 v.c.  
*FA, SP, SU* – This course provides students with a continuation of proper barbering techniques as assigned in the supervised clinical classroom. All services will be monitored with individualized instruction and approval by the clinic instructor. In addition the student will address professional image.

COS 0594L Professional Barbering V. 4 v.c.  
*FA, SP, SU* – This course provides students with a continuation of proper barbering techniques as assigned in the supervised clinical classroom. All services will be monitored with individualized instruction and approval by the clinic instructor. In addition the student will address professional image and prepare for the State board Examination for Barbering practical segment.

COS 0600 Permanent Waving/Chemical Relaxing. 1 v.c.  
*FA, SP, SU* – This course helps the student to develop competence and understanding in the process of chemical reformation with emphasis on safety precaution and manual execution.

COS 0641L Chemical Reformation Clinic I. 1 v.c.  
*FA, SP, SU* – This course is designed to help the student to develop competence and understanding in the process of chemical reformation with emphasis on safety precaution and manual execution.

COS 0642L Chemical Reformation Clinic II. 4 v.c.  
*FA, SP, SU* – This course provides the student with the knowledge in the principles of understanding of decolorization in hair structure with proper safety procedures. Emphasis is stressed on proper use of chemicals and manual execution.

COS 0631L Chemical Reformation Clinic III. 4 v.c.  
*FA, SP, SU* – This course is a continuation of Chemical Reformation Clinic II which provides the student with the knowledge in the principles of understanding of decolorization in hair structure with proper safety procedures. Emphasis is stressed on proper use of chemicals and manual execution.

COS 0700 Haircoloring. 2 v.c.  
*FA, SP, SU* – This course is designed to help the student to develop and apply the theoretical concepts of haircoloring product selection, techniques, and formulations with emphasis placed on proper procedures and safety precautions.

COS 0941, 0942, 0943 Internship. 1 v.c., 2 v.c., 3 v.c.  
*FA, SP, SU* – This course provides students with practical applications in a clinical setting either demonstrating manual proficiency of the principles of cosmetology/barbering or in the workforce setting to observe styling techniques, procedures, and salon operations in industry. This course is offered at the junior/senior cosmetology/barbering level and is designed to strengthen specific skill development to prepare the student for the Florida Board of Cosmetology/Barbering Examination.

COS 0946 Barbering Co-op. 4 v.c.  
*FA, SP, SU* – Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.

COS 0963 State Board Preparation. 1 v.c.  
*FA, SP, SU* – This course is designed to review pertinent areas in cosmetology in order to prepare the student for the State Board examination for licensure. This course focuses on and highlights the learning materials for both theory and practical examinations questions and provides the student with a practice in evaluating and answering State Board situational problems.

CRW 2100 Creative Writing: Fiction. 3 c.c.  
*FA, SP, SU* – Prerequisite: Test score requirement the same as ENC 1101. A course designed to help the student to develop and apply the theoretical concepts of haircoloring product selection, techniques, and formulations with emphasis placed on proper procedures and safety precautions.

CRW 2300 Creative Writing: Poetry. 3 c.c.  
*FA, SP* – Prerequisite: Test score requirement the same as ENC 1101. A course designed to aid the student in the clear, effective expression of ideas with emphasis upon imaginative work in prose. Group discussions of students’ papers and selected literary works. Elective only. A writing emphasis course.

CRW 2600 Introduction to Screenwriting. 3 c.c.  
*TBA* – Prerequisite: ENC 1102. A course designed to teach the student the format, structure, and conventions of writing a screenplay. A writing emphasis course.

CSP 0002 Specialty Services. 1 v.c.  
*FA, SP, SU* – This course is designed to provide information and procedures necessary to administer facial treatments and professional manucuring services with emphasis on safety and identification of disorders that affect the specialty service.

CSP 0006L Specialty Services Clinic I. 2 v.c.  
*FA, SP, SU* – This course provides practical application of manucure, pedicure, and facial procedures administered in a clinical setting.

CSP 0007L Specialty Services Clinic II. 2 v.c.  
*FA, SP, SU* – This course is a continuation of Specialty Services Clinic I that provides extended practical application of manucure, pedicure, and facial procedures administered in a clinical setting.

CSP 0008L Specialty Services Clinic III. 2 v.c.  
*FA, SP, SU* – This course is a continuation of Specialty Services Clinic I and Specialty Services Clinic II and provides practical application of manucure, pedicure, and facial content exercised in a clinical setting.
CSP 0011L Advanced Nail Techniques. 6 v.c.
FA, SP, SU – This course provides the manicure, pedicure, nail specialist with advanced nail extension techniques and continued practice in basic nail care.

CSP 0201 Introduction to Skin Care. 1 v.c.
FA, SP – This course is designed to provide instruction in safety, rules, and procedures for the classroom/laboratory setting. In addition it will provide competencies in facials and facial manipulations, procedures and techniques.

CSP 0300L Facials/Make-up Clinic. 5 v.c.
FA, SP – Prerequisite or Corequisite: CSP 0331. This course is designed to provide superviced clinical instruction in the hands-on application of facials and make-up utilizing consultation, anatomy and physiology, salon management and proper sanitation.

CSP 0331 Make-up/Salon Management. 1 v.c.
FA, SP – This course is designed to provide instruction in proper make-up application and encompassing color analysis, facial balance and corrective make-up. This course also focuses on the successful role of the esthetician in the cosmetology or specialty salon.

CTE 1401 Introduction to Fiber Technology. 3 c.c.
TBA – A.A.S. only. A survey of textiles and the industry to include technical and economic history of the industry; physical and chemical properties of textiles and how these properties relate to raw materials and production processes; the influence of textile materials on their utilization and performance. This course is designed to provide a basic course in textiles for students enrolled in the A.A.S. Chemical Technology program as well as non-degree seeking students who may be interested in an overview of the subject.

CTS 1351C Novell Administration. 3 c.c.
TBA – A.A.S. only. Lab fee. Prerequisite: CET 1462C or CGS 1570. This course is designed to introduce students to Novell administration. This course will include installation of Novell network operating system software and networking hardware, and managing and troubleshooting a typical computer network. This course is designed around the Certified Novell Administrator (CNA) certification.

CTS 1400 Database with Microsoft Access. 3 c.c.
FA, SP – A.A.S. only. Lab fee. Prerequisite: CGS 1570. This course covers theory and application of database management systems with emphasis on relational DBMS.

CTS 2101 Windows. 3 c.c.
FA, SP, SU – Lab fee. Prerequisite: CGS 1570. This course is designed to cover Windows, starting with an overview to the basic interface and leading into advanced topics.

DAA 2501 Intermediate Jazz Dance. 1 c.c.
SP – Prerequisite: DAA 1500 or permission of instructor. This course includes instruction and practice in intermediate jazz technique, involvement in dance composition, and a basic study of the different forms of jazz dance. May be repeated once for credit.

DAA 2680 Concert Dance Performance. 1 c.c.
SP – Corequisite: Enrollment in a dance class (on or off campus). This credit hour is restricted to the students who are performing with PJC Dance Theatre. It involves rehearsals for, and performing in Dance Theatre’s Annual Concert. Hours to be arranged. May be repeated once for credit.

DAA 2920 Dance Techniques Workshop. 1 c.c.
TBA – Lab fee. Prerequisite: Permission of instructor. This summer dance workshop includes techniques in ballet, jazz, modern and tap dance and seminars for dancers. May be repeated once for credit.

DEA 0020C Dental Assisting Pre-Clinic. 5 v.c.
FA – Lab fee. This course is designed to instruct the student in basic fundamentals of chairside assisting. This course includes both didactic and clinical applications. Subject areas are arranged in a clinical competency program which is a method of study that helps the student master each skill in a module before advancing to the next module. Each module contains the information that the student needs to learn through the use of general and specific behavioral objectives.

DEA 0209 Dental Specialties. 1 v.c.
SP – This course will introduce the dental assisting student to the area of dental specialty practice. It will include, but not be restricted to, Periodontics, Pediatric Dentistry, Prosthodontics, Endodontics, Oral Surgery, Orthodontics, Dental Public Health, Forensic Dentistry and Dental Oncology.

DEA 0130 Allied Dental Theory. 2 v.c.
SP – Designed to acquaint student with basic body structures, functions and diseases which affect dental treatment. Basic concepts of microbiology and their relevance to sterilization. General aspects of oral pathology including common pathological conditions of the mouth, teeth, and their supporting structures will be covered. Additional consideration will be given to the common office emergencies will be included.

DEA 0800C Dental Assisting Clinic I. 9 v.c.
SP – Lab fee. Prerequisites: DEA 0020C, DES 0000, DES 0100C, DES 0210C, DES 0850C. This course is designed to provide the dental assisting student with clinical chairside assisting experience in all areas of dentistry. This course will prepare students to perform in all dental specialty areas. This course includes both didactic and clinical applications. Subject areas are arranged in a clinical competency program which is a method of study that helps the student master each skill in a module before advancing to the next module. Each module contains the information that the student needs to learn through the use of general and specific behavioral objectives.

DEA 0850L Dental Assisting Clinic II. 7 v.c.
SU – Prerequisites: DEA 0800C and successful completion of Terms I and II. The course is designed to allow students the opportunity to assist dentists and their staff in a variety of private practice offices in the community. Assignments are three weeks in a specialty office and three weeks in a general practice office.

DEH 1003 Fundamentals of Dental Hygiene. 3 c.c.
FA – A.A.S. only. Prerequisite: DES 1020. Corequisite: DEH 1003L. A series of lectures designed to introduce the students to basic principles and skills required in providing comprehensive preventive dental health services for patients. Topics include instrument design and adaptation, gingival characteristics, oral inspection, preventive services and comprehensive medical history analysis.

DEH 1003L Dental Hygiene Pre-Clinic. 3 c.c.
FA – A.A.S. only. Lab fee. Corequisite: DEH 1003. A clinical practice course designed for the clinical application of principles and concepts developed in DEH 1003. Students master basic instrumentation skills through practice on mannequin models prior to performing preventive dental hygiene services for clinical patients.

DEH 1130 Oral Embryology and Histology. 1 c.c.
SP – A.A.S. only. Prerequisite: DES 1020. The study of histologic and embryonic development with emphasis on the face and oral cavity. Comprehensive course content includes instruction in early facial and tooth development.
DEH 1400 Oral Pathology. 2 c.c.  
SP – A.A.S. only. Prerequisite: DES 1020. A study of general and oral pathological diseases with emphasis on those related to the oral cavity. Students will apply pathological principles to the clinical practice of dental hygiene. Recognition of normal and abnormal conditions of the oral cavity and surrounding tissues will be cultivated through case presentations and slide series.

DEH 1800 Dental Hygiene I. 2 c.c.  
SP – A.A.S. only. Prerequisite: DEH 1003. Corequisite: DEH 1800L. A continuation of DEH 1003 with an emphasis on preventive oral hygiene techniques and procedures. Topics will include treatment planning for patients, nutritional counseling, patient management, and ultrasonic instrumentation techniques. A study of medical and dental emergencies is an important component of this course.

DEH 1800L Dental Hygiene Clinic I. 5 c.c.  
SP – A.A.S. only. Lab fee. Corequisite: DEH 1800. Clinical experiences designed to incorporate the basic principles and concepts of current preventive dental hygiene services. Clinical application and refinement of preclinical instrumentation skills and procedures with increased emphasis on entry-level dental hygiene services. Medical/Dental Health Surveys, Data Collection, Patient Assessment, Vital Signs, Treatment Planning, Appointment Control, Preventive Oral Prophylactic Procedures, Oral Hygiene Education, Asepsis Standards and Optimum Oral Maintenance Therapy are clinical competencies cultivated through supervised practice. An introduction to the clinical management of dental medical emergencies is an important component of clinical practice.

DEH 1802 Dental Hygiene II. 1 c.c.  
SU – A.A.S. only. Prerequisite: DEH 1800. Corequisite: DEH 1802L. Didactic instruction will be presented with an emphasis on advanced functions which are degradable in the state of Florida. Lecture topics will include: Rubber Dam, Debonding, Alginate Impressions, Periodontal Dressings, Matrices, Liners, Bases, Manipulation of Amalgam, Polishing Amalgam Restorations, Instrument Identification and Exchange, Temporary Restorations, Sealants, Dry Socket Treatment, Suture Removal, Periodontal Charting, Treatment Planning and Advanced Instrumentation Techniques.

DEH 1802L Dental Hygiene Clinic II. 2 c.c.  
SU – A.A.S. only. Lab fee. Corequisite: DEH 1802. Didactic and clinical/laboratory instruction will be presented with an emphasis on advanced functions which are degradable in the state of Florida. Clinical practice will be coordinated with didactic instruction to develop essential skills in the techniques of: Rubber Dam, Debonding, Alginate Impressions, Periodontal Dressings, Matrices, Liners, Bases, Manipulation of Amalgam, Polishing Amalgam Restorations, Instrument Identification and Exchange, Temporary Restorations, Sealants, Dry Socket Treatment, Suture Removal, Periodontal Charting, Treatment Planning and Advanced Instrumentation Techniques.

DEH 2300 Pharmacology/Dental Office Emergencies. 2 c.c.  
FA – A.A.S. only. Prerequisite: BSC 1094. A study of drugs and anesthetics used in dentistry with emphasis on therapeutic and adverse effects. Route of administration, absorption, metabolism and excretion of drugs will be studied as well. Management of dental office medical emergencies will be an important component of this course.

DEH 2602 Periodontics. 2 c.c.  
FA – A.A.S. only. Prerequisites: DEH 1130, MCB 1000. An intensive comprehensive study of chronic inflammatory periodontal disease. An analysis and correlation of etiology, immunology, clinical and radiographic diagnosis, treatment planning, prognosis and oral therapy are presented. A special emphasis is placed on the role of the dental hygienist in preventive oral therapy. Clinical and laboratory experiences are coordinated with DEH 1802 Periodontal procedures included in this study are within the legal scope of practice of the dental hygienist.

DEH 2702C Dental Public Health. 2 c.c.  
FA – A.A.S. only. This course will enable the student to assess, plan, implement, and evaluate community oral health programs and their needs. The educational aspects of dental health will also be a primary objective. Epidemiological surveys and fundamental concepts in biostatistics will be introduced in order to permit the student to evaluate programs and research literature.

DEH 2804 Dental Hygiene III. 2 c.c.  
FA – A.A.S. only. Prerequisite: DEH 1802. Corequisite: DEH 2804L. A continuation of DEH 1802 preventive dental hygiene services progressing to the use of ultrasonic instrumentation techniques. Case presentations for comprehensive dental hygiene services will be presented. A study of the various dental specialties is a significant component of this study.

DEH 2804L Dental Hygiene Clinic III. 5 c.c.  
FA – A.A.S. only. Lab fee. Corequisite: DEH 2804. A clinical practice course designed to cultivate the student’s progress to critical thinking, professional judgment and decision making, clinical analysis of patients presenting with various medical/dental histories and various patient management strategies. Clinical application of concepts presented in DEH 2804 will be supervised learning experiences in this course.

DEH 2806 Dental Hygiene IV. 2 c.c.  
FA – A.A.S. only. Prerequisite: DEH 2804. Corequisite: DEH 2806L. Proficient management of total patient dental health services is emphasized. A comprehensive literature review on current concepts in dental hygiene practice is conducted for student analysis and presentation. The student has mastered basic concepts and is prepared for advanced treatment strategies and services.

DEH 2806L Dental Hygiene Clinic IV. 5 c.c.  
FA – A.A.S. only. Lab fee. Corequisite: DEH 2806L. A continuation of DEH 2806 Clinical application of current concepts mastered in DEH 2804. Students progress to advanced treatment strategies, efficient clinical competency, effective patient management and efficient time utilization. Professional judgment and decision making is a significant component of this clinical practice experience.

DEP 2001 Child Development. 3 c.c.  
FA, SP, SU – This course focuses on the physical, cognitive, emotional and social theories of how children grow and develop. This course examines the role of adults in promoting optimum development of children and is of special interest to parents, educators, nurses, social workers and counselors. This course fulfills a portion of the required 120 hours of training for the C.D.A. credential.

DEP 2003 Human Growth and Development. 3 c.c.  
FA, SP, SU – Prerequisite: Test score requirement the same as ENC 1101. A study of the human life span. The course is designed to provide the foundation for understanding the life cycle from birth to death. The approach throughout the course is multidisciplinary, including biological, sociological, anthropological, and psychological perspectives with emphasis on basic psychological principles. Concepts are related to every day life situations and to current social issues. Meets A.A. general education Category IV. A writing emphasis course.

DES 0000 Dental Anatomy. 2 v.c.  
FA – This course provides the basic information on the anatomy and tooth morphology of the head and neck. Emphasis will be placed on terminology, permanent and deciduous dentition, histology, embryology, function and importance in the field of dentistry.

DES 0053C Nitrous Oxide Monitor. 1 v.c.  
FA, SP, Lab fee. This course is designed to certify dental auxiliaries in monitoring Nitrous Oxide Analgesia in the dental office. A great deal of emphasis will be devoted to the advantages and disadvantages of the use of nitrous oxide in the dental office. This course will contain didactic and clinical experience.

DES 0100C Dental Materials. 2 v.c.  
FA – Lab fee. This course is designed to familiarize the student with the various types of dental materials, their physical properties and characteristics, proper manipulation and application in the field of dentistry; and the necessary safety precautions that must be taken to protect the patient, doctor and assistant when using these materials.
DES 0210C Dental Radiography. 3 v.c.
FA – Lab fee. This course will provide the student with an orientation to the practice of clinical dental radiology. Lecture sessions will include a study of theories, techniques and principles of dental radiology. The lab sessions will provide an opportunity for the application and development of the skills involved in exposing, processing, mounting and interpreting dental radiographs.

DES 0502 Dental Office Practice. 1 v.c.
SP – This course is designed to provide the dental assisting student with basic knowledge in practice management, patient record keeping, filing systems, appointment scheduling, bookkeeping and telephone technique. Included will be an introduction to the IBM computer keyboard and hands-on experience using the computer with management forms designed for a private dental practice.

DES 0830C Expanded Duties I. 2 v.c.
FA – Lab fee. The course provides the instruction and application of the first portion of the expanded functions legally delegable to dental assistants in the state of Florida.

DES 0831C Expanded Duties II. 2 v.c.
SP – Lab fee. Prerequisite: DES 0830C. This course provides the instruction and application of the second portion of the expanded functions legally delegable to dental assistants in the state of Florida.

DES 0840 Preventive Dentistry. 1 v.c.
FA – This course is designed to assist students in prescribing oral hygiene regimens based on the uniqueness of each patient presented. Emphasis will be placed on developing preventive programs for the dental office and community.

DES 1010 Head and Neck Anatomy. 2 c.c.
FA – A.A.S. only. Prerequisite: BSC 1093. A detailed study of the skeletal, muscular, circulatory and nervous systems of the head and neck. Special emphasis is placed on the structures associated with oral cavity. Teeth are studied in relationship to the structures that support them and are covered in more detail in DES 1020.

DES 1020 Dental Anatomy. 2 c.c.
SU – A.A.S. only. This course will provide the student with comprehensive instruction in macroscopic anatomy of the human dentition. The teeth are studied individually and collectively in terms of shape, function and relation to each other. The course content will provide the student with essential dental terminology to facilitate communication among dental professionals. This course will also address the eruption patterns of both deciduous and permanent dentitions.

DES 1052 Nitrous Oxide Monitoring. 1 c.c.
FA – A.A.S. only. Lab fee. A sixteen-hour certification course for dental auxiliaries in the legal monitoring of nitrous oxide conscious sedation.

DES 1120C Dental Materials. 3 c.c.
SP – A.A.S. only. Lab fee. A study of the basic chemical, physical and biological properties of the commonly used dental materials. Compositions and proper handling will be presented.

DES 1200C Dental Hygiene Radiology I. 3 c.c.
FA – A.A.S. only. Lab fee. Corequisites: DES 1010, DES 1020. This competency based course is structured as a method of study of the student to master, through interpretation and recognition, each module before advancing to the next module. Dental radiography is a clinical discipline encompassing the techniques of exposing, processing, mounting dental radiographs and includes interpretation of the films to aid in obtaining a diagnosis. Radiation safety is a crucial component of this study. The history and theory of the use of ionizing radiation as applied to dentistry will be presented.

DES 1201C Dental Hygiene Radiology II. 2 c.c.
FA – A.A.S. only. Lab fee. Prerequisite: DES 1200C. Advanced course in dental radiographic interpretation, surveys and techniques. In addition, information will be presented on the following subjects: quality control, radiologic physics, health physics.

DIE 1270C Introduction to Clinical Experiences for Dietetic Technicians. 3 c.c.
FA – Lab fee. Corequisite: HUN 1201. Introduction to the clinical aspects of the dietetic technician program. Students will have the opportunity to apply the principles of menu planning and nutritional assessments, in food service operations in health care facilities.

DIE 2121 Food Service Management. 3 c.c.
FA – Prerequisites: Six hours of dietetic technician courses. The management roles of dietetic professionals will be addressed in this course. Included in the study of management will be human resource issues, procurement, production, budgeting, and financial considerations as they relate to dietetics and food service.

DIE 2201 Modified Diets. 3 c.c.
SP – Lab fee. Prerequisite: HUN 1290. The study of diet and disease states. Includes nutritional assessment, medical abbreviations, documentation of nutritional care and the development of menus for specified health problems.

DIE 2350 Clinical Experiences in Applied Nutrition. 4 c.c.
SP – Prerequisites: DIE 1270C, HUN 1201. Corequisite: HUN 1290. Supervised clinical experiences (160 hours) will be scheduled which provide the demonstration of the principles and knowledge of nutrition in the life cycle. Students will be assigned to the Public Health Department, school food services, area hospitals, nursing homes, elderly nutrition programs, fitness centers, and other community nutrition programs.

DIE 2500 Dietetics Seminar. 1 c.c.
SP – Prerequisites: Twelve hours of dietetic technician courses. Identification, discussion, and problem solving related to topics in food service, nutrition, and health care. Areas covered include health laws licensing, management, scheduling, nutrition education, and professional development.

DIE 2531 Clinical Experiences in Modified Diets. 6 c.c.
SP – Prerequisites: DIE 2550, DIE 2944. Corequisite: DIE 2201. Supervised clinical experiences (80 hours) in a health care facility demonstrating nutritional care in a health care setting. Experiences will include nutrition screenings, and assessments, diet education for patients and employees, and development of care plans. Students are required to present two oral presentations as part of the oral communications requirement. Students are provided supervised practice in the role of a dietetic technician with an instructor and preceptor.

DIE 2944 Dietetic Management Internship. 4 c.c.
FA, SP – Prerequisite: DIE 1270C. Corequisite: DIE 2121. Internship is a supervised hands-on training experience of observations and participation in the operation and management functions of a food service or dietary operation. The student will learn the day-to-day operations of food service management while demonstrating knowledge and skills learned in the classroom.

ECO 2013 Economics I. 3 c.c.
FA, SP, SU – This is a basic survey of economic principles, concepts and institutions. The course describes the basic mechanism of the American economic system, examines how well the system operates, shows how to develop economic measuring devices, and outlines potential policies to keep the economy operating effectively. It offers some consideration to the development of economic concepts that treat mainly macro theory. Meets A.A. general education Category IV.

ECO 2023 Economics II. 3 c.c.
FA, SP, SU – The course treats mainly micro theory. It gives much attention to model building and analysis of product and resource markets. The course especially emphasizes topics such as the economics of the firm under the four major market conditions, resources allocation, the monopoly problem and legislation associated there with, agriculture, unionism, international trade and finance, and the institutions of the command economy.
This course stresses the practical aspects of EET 1141C. This is a CET 2100C or MAT 1033. An electrical CET 1071. This course MAC 1114. A theory-lab course involving the study EET 1015C. A study MAC 1105. A 2004 EET 1351C Introduction to Data Communications Systems. 3 c.c. EET 1141C Electronic Devices and Integrated Circuits I. 3 c.c. EET 2142C Linear Circuits. 3 c.c. SP – A.A.S. only. Lab fee. Prerequisite: EET 1141C. This is a continuing study of the principles of semiconductors, special devices, and transistor applications in power supply circuits. AF and RF amplifiers, and oscillators. This will include operational amplifier circuits and special ICs. Power circuits will include switching and amplifying applications. Laboratory experiences are provided to use test instruments to measure and determine various operational characteristics of solid state devices and circuits.

EET 2215C Instrumentation Electronics. 3 c.c. SP – A.A.S. only. Lab fee. Prerequisites: CET 2123C, EET 2142C. This course includes theory and application of electronics control circuits and systems used in electronics instrumentation. The function of interfacing devices, test instruments, and sensors which are used in instrumentation measurements in an integral part of this course.

EET 2326C Communications Electronics Systems. 3 c.c. FA – A.A.S. only. Lab fee. Prerequisite: CET 2100C or EET 2142C. An introductory communications course course dealing with electronics circuits utilized with amplitude modulations, frequency modulation, single sideband, and other radio communications techniques. The study of transmission lines, antennas, and propagation of electromagnetic waves are also considered.

EET 2343C Microwave Circuits. 3 c.c. SP, SU – A.A.S. only. Lab fee. Prerequisite: EET 2142C. A study of analog and digital communications as it exists in the microwave radio frequency bands, including the theory of operation related to klystrons, magnetrons, and travel-wave tubes as microwave oscillators. Modulation and demodulation techniques, multiplexing, and microwave communications systems operation are also treated in a lecture and laboratory environment.

EET 2947, 2948, 2949 Electronic Technology Co-op. 1 c.c., 2 c.c., 3 c.c. FA, SP, SU – A.A.S. only. Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.

EEX 1600 Behavior Management. 3 c.c. FA, SP, SU – A.A.S. only. An introduction to behavior change techniques and methods for recording behavior. Emphasis is placed on the acquisition of skills used in promoting constructive interactions between children and adults and their learning environment. The course is designed for Education and Special Education majors and interested parents.

EEX 2010 Introduction to Exceptional Children. 3 c.c. FA, SP, SU – An introductory survey of the categories of exceptional (disabled) children and adults. Attention will be directed to each of the following: learning disabilities, behavior disorders, mental handicaps, visual and hearing impairments, communication disorders, and physical and multiple handicaps. Giftedness also will be covered. Course is designed for Education and Special Education majors.

EEX 2080 Teaching Special Needs Learners. 3 c.c. SP – Prerequisites or Corequisites: EEX 1600, EEX 2010. A course designed to provide students with strategies and methods to teach learners with special needs. This course will provide practical, relevant teaching approaches derived from learning theory, research and experience. Effective teaching methods, appropriate curricula for special needs learners and teaching activities will be discussed.
EEX 2260C Special Education Practicum. 3 c.c.
SP – Prerequisite or Corequisite: EEX 2010. Observation-participation field experience in a special education rehabilitation setting under supervision. Weekly seminars with the course instructor will be held for informative and evaluative purposes.

EEX 2947, 2948, 2949 Instructional Services Co-op. 1 c.c., 2 c.c., 3 c.c.
FA, SP, SU – Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.

EGS 1111C Engineering Graphics. 4 c.c.
FA, SP, SU – A.A.S. only. Lab fee. An introductory course dealing with the fundamentals of engineering graphics and computer-aided drafting (CAD) using AutoCAD. This combined lecture and laboratory course covers the depiction of objects in a standard multiview drawing on a computer. One, two, three, auxiliary, and section views are used. Dimensioning is covered. Three dimensional objects are created both in surface and solid models and then depicted in a standard multiview format including pictorial views. This course is the Prerequisite for all the computer drafting courses.

EGS 2311 Engineering Statics. 3 c.c.

EGS 2321 Engineering Dynamics. 3 c.c.
SU – Prerequisites: EGS 2311, MAC 2313, Corequisites: MAP 2302. Pre-engineering elective. Dynamics of particles and rigid bodies for rectilinear translation, curvilinear motion, rotation and planar motion. Principles of work and energy, also impulse and momentum. Topics in mechanics of materials. Taught with calculus, vector analysis and differential equations.

EME 2040 Introduction to Educational Technology. 3 c.c.
FA, SP, SU – Lab fee. This course will assist educators in developing self-paced learning opportunities which are essential if they are to integrate technology into the delivery of classroom instruction. Students will operate, select, produce and manage instructional technology materials and systems. They will systematically integrate conventional instructional media and computer-based technologies into the instructional process.

Meet A.A. computer competence requirement.

EMS 1065C Cardiovascular Emergencies. 3 c.c.
SP – A.A.S. only. Lab fee. Prerequisites: EMT certification, CPR for Health Care Providers. Corequisites: EMS 1683C. This course focuses upon cardiovascular anatomy and physiology, electrocardiographic monitoring, dysrhythmias, assessment and management of the cardiovascular patient. 12-lead ECG monitoring, and Advanced Cardiovascular Life Support.

EMS 1119 Introduction to Advanced Prehospital Care. 2 c.c.
FA – A.A.S. only. Prerequisites: EMT certification, CPR for Health Care Providers. This course focuses upon advanced basics skills and competencies which are essential to the paramedic and EMTs. Students will practice emergency airway, use of equipment for assessment and treatment, and use of airway adjuncts.

EMS 1152C Emergency Medical Technician II. 4 c.c.
FA, SP, SU – A.A.S. only. Lab fee. Prerequisite: EMS 1151. This course includes assessment of sign and symptoms medical and trauma including the care of such. Accident control, extrication and transportation of the patient along with maintenance of the emergency vehicle. Clinical practicum with variable supervised hospital, ambulance or other health agency experience.

EMS 1153C Emergency Medical Technician III. 2 c.c.
FA, SP, SU – A.A.S. only. Lab fee. Prerequisite: EMS 1152C. This course includes legal aspects of emergency care, physical assessment, use of telecommunications, and maintenance of emergency equipment. Clinical practicum with variable supervised hospital, ambulance or other health agency experience. This course is a combination lecture and lab.

EMS 1335 Emergency Vehicle Operations. 1 c.c.
TBA – A.A.S. only. Lab fee. Designed to teach EMS personnel and others how to anticipate and control emergency situations through classroom and behind-the-wheel instruction and to assist in them in meeting state certification requirements.

EMS 1551C Advanced Cardiovascular Life Support. 1 c.c.
SP – A.A.S. only. Lab fee. Prerequisites: EMT certification, CPR for Health Care Providers. Corequisites: EMS 1065C. This course focuses upon an intensive review of American Heart Association’s guidelines for emergency cardiovascular care and cardiac arrest management, followed by written and performance testing. Skill testing is done by certified instructors. Successful completion yields a successful course completion card from the American Heart Association (“ACLS Provider”) and is a graduation requirement for the Paramedic Program.

EMS 1654 Paramedic Field/Clinical Experience I. 3 c.c.
FA – A.A.S. only. Lab fee. Prerequisites: EMT certification, CPR for Health Care Providers. This course focuses upon orientation, clinical and field experience provided in area hospitals and EMS agencies under supervision. Students begin their ambulance time in an observant capacity with an assigned preceptor and add skills as they progress through the term.

EMS 1683C Fundamentals of Advanced Prehospital Care. 2 c.c.
FA – A.A.S. only. Lab fee. Prerequisites: EMT certification, CPR for Health Care Providers. Corequisites: EMS 1119. This course focuses upon general concepts of pathophysiology, pharmacology, administration of medications, venous circulation, effective therapeutic communication, human development, patient assessment, physical examination, and communication strategies.

EMS 1931C Special Topics in Emergency Medicine. 1 c.c.
TBA – A.A.S. only. Prerequisites: EMS 1152C. This course is designed to enhance the student’s basic patient assessment skills in the medical/ trauma environment. Current changes and updates in Emergency Medicine will be incorporated into the course as they occur. The course will build on information acquired in EMS 1151 and EMS 1152C. After successful completion, the student will meet the requirements for HIV/AIDS update and State of Florida EMS requirements for recertification.

EMS 2010C Prehospital Essentials of Anatomy, Physiology, and Pathophysiology. 2 c.c.
FA – A.A.S. only. This course is a survey of human anatomy with emphasis on pathophysiology for the assessment and management of emergency patients. Topics covered include basic cellular function, cellular injury and cellular death, analyzing disease risk, familial diseases and associated risk factors, inflammation response, homeostasis as a dynamic state, neuroendocrine regulation, genetics, tissue components of the body, skeletal, muscular, nervous, and the endocrine system.

EMS 2612C Airway Management and Ventilation. 3 c.c.
FA – A.A.S. only. Prerequisites: EMT certification, CPR for Health Care Providers. Corequisites: EMS 1683C. This course focuses upon establishing and maintaining a patient airway and ventilation, including anatomy, physiology and pathophysiology of the airway, use of equipment for assessment and treatment, and use of airway adjuncts.
EMS 2613C Patient Assessment. 2 c.c.  
**FA – A.A.S. only. Prerequisites:** EMT certification, CPR for Health Care Providers. **Corequisite:** EMS 1683C. This course focuses upon general patient assessment and initial management, techniques of patient assessment, and application of a process of clinical decision making.

EMS 2627 Medical Emergencies. 4 c.c.  
**SP – A.A.S. only. Prerequisites:** EMT certification, CPR for Health Care Providers. **Corequisite:** EMS 1683C. This course focuses upon teaching the paramedic student how to integrate pathophysiological and assessment findings to formulate a field impression and implement the treatment plan for the patient with a medical emergency.

EMS 2628C OB/GYN/Neonatal/Pediatric Emergencies. 3 c.c.  
**SP – A.A.S. only. Lab fee. Prerequisites:** EMT certification, CPR for Health Care Providers. This course focuses on implementation of the proper treatment plans for a patient with a suspected gynecological emergency, a suspected obstetrical emergency, a neonatal emergency, and for a pediatric patient with an emergency.

EMS 2633C Respiratory Emergencies. 2 c.c.  
**SP – A.A.S. only. Prerequisites:** EMT certification, CPR for Health Care Providers. This course focuses upon a review of respiratory anatomy and physiology, pathophysiology, assessment of the respiratory system, diagnostic testing, and management of specific respiratory disorders.

EMS 2655 Paramedic Field/Clinical Experience II. 3 c.c.  
**SP – A.A.S. only. Prerequisites:** EMT certification, CPR for Health Care Providers. This course focuses upon clinical and field experience provided in area hospitals and EMS agencies under supervision.

EMS 2656 Paramedic Field/Clinical Internship. 5 c.c.  
**SU – A.A.S. only. Lab fee. Prerequisites:** EMT certification, CPR for Health Care Providers. This course focuses upon successful integration of all prehospital skills by the student. The field internship verifies that the student has achieved entry-level competence, and is able to serve as team leader in a variety of prehospital advanced life support emergency medical situations.

EMS 2680C Behavioral Emergencies. 1 c.c.  
**FA – A.A.S. only. Prerequisites:** EMT certification, CPR for Health Care Providers. **Corequisite:** EMS 1683C. This course focuses upon psychiatric and behavioral emergencies, the pathophysiology of psychiatric disorders, biological, psychosocial and socio-cultural components, assessment and management of behavioral emergency patients, potentially suicidal patients and violent patients.

EMS 2681C Special Considerations in Prehospital Care. 2 c.c.  
**SU – A.A.S. only. Prerequisites:** EMT certification, CPR for Health Care Providers. This course focuses upon implementation of a proper treatment plan for: the geriatric patient, the patient who has sustained abuse or assault, diverse patients with a suspected emergency, the chronic care patient, and the patient with common complaints; procedures to ensure safe and effective ground and air transport; integration of the principles of: general incident management and multiple casualty incident management (MCI), rescue awareness management, human hazards awareness management, and general incident management of hazardous materials emergencies.

EMS 2682C Advanced Prehospital Trauma Management. 3 c.c.  
**SU – A.A.S. only. Lab fee. Prerequisites:** EMT certification, CPR for Health Care Providers. This course focuses upon the principles of kinematics to enhance patient assessment, implementation of a proper treatment plan for a patient with: shock or hemorrhage, soft tissue trauma, burn injuries, traumatic head injury, suspected spinal injury, suspected thoracic injury, suspected abdominal trauma, or suspected musculoskeletal injury.

EMS 2930C Special Topics in Advanced Prehospital Care. 1 c.c.  
**SU – A.A.S. only. Lab fee. Prerequisites:** EMT certification, CPR for Health Care Providers. This course is designed to enhance the student’s skills and knowledge in the prehospital environment. The course will meet the Florida requirements for education on HIV/AIDS. Current changes and updates in the prehospital environment will be incorporated as they occur.

ENC 0001C College Preparatory Writing I. 3 c.p.  
**FA, SP, SU – Prerequisite:** Appropriate score on Florida Entry-Level Placement Exam or ENC 0001C. Designed for students who need to improve their language skills, this course offers a review of grammar rules, language usage, sentence structure, punctuation, and effective paragraph composition.

ENC 0002C College Preparatory Writing II. 3 c.p.  
**FA, SP, SU – Prerequisite:** Appropriate score on Florida Entry-Level Placement Exam or ENC 0001C. Designed for students who need to improve their language skills, this course offers a review of grammar rules, language usage, sentence structure, punctuation, and effective paragraph composition.

ENC 1003C Practical Communication Skills. 2 v.c.  
**FA, SP, SU** – This course is designed to promote the recognition of effective communication skills via the written word and through the use of electronic equipment. The course focuses on the use of vocabulary, standard written English, grammar, punctuation, capitalization, and sentence structure. The student will be required to demonstrate the ability to read, analyze, and interpret communications. This course will introduce the student to basic computer terminology and functions of a microcomputer for business and personal use. Hands-on experience and an introduction to major software applications are included.

ENC 1101 English Composition I. 3 c.c.  
**FA, SP, SU – Prerequisite:** Appropriate score on Florida Entry-Level Placement Exam or LIN 1670C. **Corequisite:** REA 1105C may be taken as a corequisite with the first writing emphasis course when test scores so indicate. A comprehensive course embodying the fundamentals of effective expression with emphasis on expository writing and logical thinking. **Meets A.A. general education Category I. A writing emphasis course.**

ENC 1101H English Composition I Honors. 3 c.c.  
**TBA – Prerequisite:** Appropriate CPT score. An accelerated course embodying the fundamentals of effective expression, with emphasis upon expository writing, logical and imaginative thinking, and reading literature for understanding and appreciation. See general requirements for participation in college honors program. **Meets A.A. general education Category I. A writing emphasis course.**

ENC 1102 English Composition II. 3 c.c.  
**FA, SP, SU – Prerequisite:** ENC 1101. A comprehensive course embodying the fundamentals of effective expression with emphasis on writing the essay, preparing a research paper, and reading literature for understanding and appreciation. **Meets A.A. general education Category I. A writing emphasis course.**

ENC 1102H English Composition II Honors. 3 c.c.  
**TBA – Prerequisites:** ENC 1101, department permission. An accelerated course embodying the fundamentals of effective expression, with emphasis upon research techniques and writing, and reading literature for understanding and appreciation. See general requirements for participation in college honors program. **Meets A.A. general education Category I. A writing emphasis course.**

ENC 1105 Essential English Skills. 1 c.c.  
**TBA – Prerequisite:** ENC 1101. Optional course recommended for students preparing for the English Language Skills and Essay portions of the CLAST. This course provides an extensive review, rather than in-depth instruction. It is offered four hours a week for four weeks prior to each administration of the CLAST.
ENC 1210 Technical Writing I. 3 c.c.
FA, SP – Prerequisite: Test score requirement the same as ENC 1101. The principles of expository writing (unity, clarity, coherence, organization, and corrections) are applied to a variety of industrial and technical reports, letters, and forms. Students will be given practice in writing reports, letters, and proposals.

ENC 2222 Technical Editing. 3 c.c.

ETD 1532C Architectural Drafting. 3 c.c.
SP – A.A.S. only. Lab fee. Prerequisites: BCN 1001, ETD 2320C or permission of instructor. Corequisite: ETC 1250. An advanced computer drafting course dealing with selected topics from architectural plans as well as mechanical and electrical drafting used in the preparation of working drawings for light and heavy commercial projects. Most emphasis will be placed on the collecting of building components into a contract document rather than the drafting aspect.

ETD 1542C Structural Drafting. 3 c.c.
SU – A.A.S. only. Lab fee. Prerequisite: BCN 1001, ETD 2320C or permission of instructor. Corequisite: ETC 1250. An advanced computer drafting course consisting of the drafting of steel and reinforced concrete details for commercial building. Includes minor connection details.

ETD 1931, 1932, 1933 Special Topics in Drafting Design. 1 c.c., 2 c.c., 3 c.c.

ETD 2320C Computer Drafting. 4 c.c.
FA, SP, SU – A.A.S. only. Lab fee. Prerequisite: EGS 1111C or permission of instructor. Corequisite: CGS 1570. A second course in computer drafting where the drafting is emphasized. This course is intended for drafting students and covers the nuances of the computer as a drafting tool. Much of the material in EGS 1111C will be covered but in greater detail while omitting the 3D/design aspect. The course is taught “hands-on” using desktop computers with AutoCAD software.

ETD 2332 AutoCAD Customization. 1 c.c.
FA – A.A.S. only. Lab fee. Prerequisite: ETD 2320C or permission of instructor. A basic course in AutoCAD customization that enables the user to work more efficiently. This will be oriented towards the user; not for advanced programmers.

ETD 2350C Advanced Computer Drafting. 4 c.c.
SP – A.A.S. only. Lab fee. Prerequisite: ETD 2320C or permission of instructor. A computer-drafting course dealing with advanced topics. Most of this course will dwell on 3D and technical illustration. Topics include minor customization, surface and solid modeling, and rendering.

ETD 2540C Civil Engineering Drafting. 3 c.c.
FA – A.A.S. only. Corequisite: MAT 1035 or higher math. This course covers fundamentals of civil engineering for computer drafting, including measuring errors, error of closure, coordinate conversion, curve data, contour lines, cut and fill, and profile work. Because computer-drafting solutions are so accurate they can be measured, material will be dealt with both mathematically and graphically. A trig calculator is required.

ETD 2947, 2948, 2949 Drafting and Design Technology Co-op. 1 c.c., 2 c.c., 3 c.c.

ETI 1110C Manufacturing Product Design. 3 c.c.
SU – A.A.S. only. Lab fee. Prerequisite: EGS 1111C or approval of program coordinator. This course investigates the role of quality control in computerized processes involved in product development, product design, layout, and prototyping. Product development will utilize CAD/CAM work stations and programming methods to set up CNC milling, turning, router, and plasma cutting machines. CAD/CAM software is used in the design of products and generating of engineering documents and assembly illustrations. Quality issues and procedures are applied through hands on applications and product development and design.

152 Pensacola Junior College
ETI 1720 Industrial Safety. 3 c.c.  
FA – A.A.S. only. Lab fee. Principles of safety in a typical industrial environment are studied. Emphasis is on OSHA, and the analysis and design of safety programs for industry.

ETI 1801 Chemical Plant Operations. 3 c.c.  
SP, SU – A.A.S. only. Lab fee. A foundations course covering a broad range of topics which typify the knowledge and skills needed to work in a chemical industry. Topics covered are: Plant Science, Chemistry Fundamentals, Industrial Math, Basic Operator Responsibilities, Chemical Plant Operations, Valves, Pumps, Instrumentation, and Distillation.

ETI 2411C Computerized Manufacturing Processes, Metals. 3 c.c.  
SP – A.A.S. only. Lab fee. Prerequisite: ETI 2416C This course provides a background in manufacturing methods employed in machining, welding and sheet metal processes. Through lecture, demonstration, and “hands-on” applications the student becomes familiar with various manual and automated equipment. Computer numerical controlled (CNC) programming utilizing milling, turning and plasma cutting machines are used. Specific programming topics include the machine coordinate system, linear and circular interpolation and use of “G” and “M” codes.

ETI 2412C Computerized Manufacturing Processes, Non Metals. 3 c.c.  
FA – A.A.S. only. Lab fee. Prerequisite: ETI 2416C. An in-depth study of fabrication methods in wood, plastics and foam using computer-assisted machining. Students will learn to use woodworking equipment and fabrication processes. The course emphasis is to teach students CNC programming, operations and set-up procedures using computer numerical controlled (CNC) router. Specific programming topics include the machine coordinate system, linear and circular interpolation and use of “G” and “M” codes.

ETI 2414C Computer-Aided Manufacturing. 3 c.c.  
SP – A.A.S. only. Lab fee. Prerequisite: EGS 1111C or departmental waiver based on documented personal experience, ETI 2416C. An in-depth study of CAD/CAM workstations, programming methods, set-up and operation of CNC milling, turning router and plasma cutting machines. Computer-assisted programming is emphasized through the use of computer-aided drafting (CAD) and computer-aided manufacturing (CAM) software. Class lecture and lab will consist of specific topics such as CAD to CAM communications, code generation, editing, and automation. A strong computer drafting and CNC background is recommended prior to taking this course.

ETI 2416C Mechanical Devices and Systems. 3 c.c.  
FA – A.A.S. only. Lab fee. Mechanical devices and systems is a study of the principles, concepts, and applications of various mechanical systems encountered in industrial applications. The subject matter on mechanical components and systems covers operational principles, uses, maintenance, trouble-shooting, and procedures for repair and replacement.

ETI 2947, 2948, 2949 Manufacturing Technology Co-op. 1 c.c., 2 c.c., 3 c.c.  
FA, SP, SU – A.A.S. only. Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job interviews. Students must also complete specific objectives related to their program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.

ETM 2315 Hydraulics and Pneumatics. 3 c.c.  
FA – A.A.S. only. Corequisites: MAT 1033. An introductory course providing the student with the skills and techniques required to work with fluid power systems. Principles of fluid power components and flow is enforced in the lecture. Labs will include demonstration and set-up of various pneumatic components explaining how they are combined and function in pneumatic circuits.

EVS 1002 Ecology. 3 c.c.  
FA – Corequisite: EVS 1002L. A comprehensive survey of modern ecology; covering such essential topics as ecosystem processes, species strategies, social systems, community building, ecosystems stability, population ecology, individual adaptations, and species diversity. The course includes extensive treatment of physical and chemical systems from geochemistry to soil science. Ecosystems are defined by climate, energy flux, substrate, and periodicity in the environment.

EVS 1002L Ecology Laboratory. 1 c.c.  
FA – Lab fee. Corequisite: EVS 1002. Laboratory and field methodology in the analysis of representative aquatic and terrestrial ecosystems. Detection of the presence and effect of substances and environmental factors through the responses of aquatic organisms will be stressed.

EVS 1601 HAZMAT Fundamentals. 3 c.c.  
FA, SP – A.A.S. only. A survey of the major areas of HazMat training to include federal and local regulations; environmental hazards, safety and compliance; personal safety and industrial hygiene.

EVS 2893C Laboratory Analysis I. 4 c.c.  
FA, SP, SU – Prerequisite: CHM 1045. Quantitative chemical analysis fundamentals for determining inorganic substances in the environment. Includes sampling methods, preparation and preservation techniques stressing EPA approved methods. Current industry Quality Assurance and Quality Control (QA/QC) practices are emphasized throughout including basic statistical accuracy and precision techniques and record keeping/legal requirements. Builds on the knowledge and skills from prerequisite, Chemistry I, providing laboratory technician skills so students can accurately and safely perform routine laboratory tasks with glassware and equipment found in modern environmental chemical laboratories.

EVS 2894C Laboratory Analysis II. 4 c.c.  
FA, SP – Lab fee. Prerequisite: EVS 2893C. Fundamentals for determining trace metals in the environment. Includes sampling methods, preparation and preservation techniques stressing EPA approved methods for trace metals. Builds on the knowledge and skills from prerequisite, EVS 2893C, students will use the Atomic absorption spectrophotometer both flame and furnace techniques. Mercury will be determined using a mercury analyzer and chromium by a visible spectrophotometer.
This is a study of fire codes and standards. The properties of aviation fuels are examined, as are various types of explosive ordinance found in military craft. Also examined are the methods of extraction of victims from passenger aircraft.

FFP 2111 Fire Chemistry. 3 c.c.

FFP 2111 - A.A.S. only. This course is designed to give the basic chemistry of hazardous materials, features of matter and energy, forms of matter including chemical formulas of some flammable and combustible substances and the nature of chemical bonding. Principles of chemical reactions related to fire and oxidation and the chemistry of fire. Subject material also includes chemistry of common elements and corrosive materials. Particular emphasis is placed on the specific substances that are found in fires that ignite and accelerate burning.

FFP 2301 Fire Service Hydraulics. 3 c.c.

FFP 2301 - A.A.S. only. This course applies the laws of mathematics and physics to properties of fluid states, force, pressure, and flow velocities. The emphasis is in applying principles of hydraulics to firefighting problems.

FFP 2302 Fire Apparatus Operations. 3 c.c.

FFP 2302 - A.A.S. only. Prerequisite: FFP 2301 or permission of department head/instructor. A study of the efficient operation of Fire Department pumping apparatus, including vehicle operation, maintenance, testing and all phases of water delivery by the fire department's pumping equipment. The major emphasis will be on emergency scene water delivery situations.

FFP 2401 Hazardous Materials I. 3 c.c.

FFP 2401 - A.A.S. only. Study of chemical characteristics and reactions related to storage, transportation, and handling hazardous materials, i.e. flammable liquids, combustible solids, oxidizing and corrosive materials, and radioactive compounds. Emphasis on emergency situation and fire fighting and control.

FFP 2402 Hazardous Materials II. 3 c.c.

FFP 2402 - A.A.S. only. Prerequisite: FFP 2401. This course is a continuation of FFP 2401. Hazardous Materials with special emphasis on the transportation of various hazardous materials and the emergencies which may occur. Strategies for prevention and control of these emergencies.

FFP 2423C Hazardous Materials III. 2 c.c.

FFP 2423C - A.A.S. only. Lab fee. Prerequisites: FFP 2111, FFP 2402. This is the 120 hours hands-on practice Hazardous Materials course in which students fulfill the functions of Haz/Mat Technicians in a variety of full-scale scenarios. These scenarios include making entries into hazardous materials scenes and determination of type of incident by observation, monitoring, and research. Students will set up full size incident command and decontamination facilities and respond to simulated container and vehicle emergencies.

FFP 2510 Codes and Standards. 3 c.c.

FFP 2510 - A.A.S. only. Instruction in National, State and Local Fire Codes and Standards related to life-safety and fire prevention features designed into various types of building structures.

FFP 2521 Techniques for Reading Blueprints and Plans. 3 c.c.

FFP 2521 - A.A.S. only. Instruction on the techniques used to read various types of blueprints and plans, with emphasis on examination to ensure compliance to fire and safety codes and standards.

FFP 2540 Private Fire Protection Systems I. 3 c.c.

FFP 2540 - A.A.S. only. This is a study of the required standard for water supply, protection systems, automatic sprinklers and special extinguishing systems, including analyses of various automatic signaling and detection systems.

FFP 2541 Private Fire Protection Systems II. 3 c.c.

FFP 2541 - A.A.S. only. Prerequisite: FFP 2540. This course is an in-depth discussion of pre-engineered and portable systems, extinguishing agents, inspection procedures for code compliance and enforcement, and alarm systems.
The course includes the history, development, and philosophy of fire investigation and detection, including inspection techniques; gathering of evidence and development of techniques; gathering of evidence and development of technical reports; fundamentals of arson investigation; processing of criminal evidence; and criminal procedures related to various local and state statutes.

FPP 2706 Public Information Officer. 3 c.c.

TPA – A.A.S. only. This course prepares the student to serve as an organizational spokesperson, according to current practices in the profession of public relations and numerous examples from the fire service. Particular emphasis will be placed on case studies in crisis communications and the role of the Public Information Officer’s role in the Incident Command System.

FPP 2720 Company Officer Leader. 3 c.c.

TPA – A.A.S. only. This course covers the broad concept of supervision and leadership needed in the Fire Service organization and the relationship of various roles found in the Fire Department. Emphasis will be placed on communication skills, motivation and group dynamics.

FPP 2741 Fire Service Course Delivery. 3 c.c.

TPA – A.A.S. only. This course prepares the student to serve as an organizational spokesperson according to current practices in the profession of public relations and numerous examples from the fire service. Particular emphasis will be placed on case studies in crisis communications and the role of the Public Information Officer’s role in the Incident Command System.

FPP 2741 Fire Service Course Design. 3 c.c.

TPA – A.A.S. only. Prerequisite: FPP 2740. This course covers the principles of effective curriculum design. It stresses the principles of adult learning and student-centered learning. Designing courses and units that address learning, performance, and behavioral objectives is the goal of the program.

FPP 2793 Fire and Life Safety Educator. 3 c.c.

TPA – A.A.S. only. This course is designed to provide the public educator with the knowledge and skills needed to successfully perform as a fire and life safety educator as addressed in NFPA 1035. For those who practice multidiscipline profession of fire and life safety educator (including uniformed fire service personnel and other professionals), topics include fire behavior, community assessment, injury prevention and juvenile fire setting. The student will also develop presentation skills and learn how to formulate public education programs.

FPP 2811 Fire Fighting Tactics and Strategy II. 3 c.c.

TPA – A.A.S. only. Prerequisite: FPP 1810. This course is a continuation of FPP 1810 with advance study in the area of modern fire suppression, tactical decisions, and sprinkler operations. The student will receive a better understanding of special problem fires.

FIN 2100 Personal Finance and Money Management. 3 c.c.

FA, SP, SU – This is a course in personal financial planning, resource management, and economic security. It is designed to provide students with the basic analytical skills and practical working knowledge necessary to set realistic financial goals, prepare a manageable budget, and make the decisions that will protect income, assets, credit rating, and retirement security. The course stresses objective approaches and strategies in determining needs, designing and managing a budget, coping with income and other taxes, calculating the cost of and wisely using credit, stretching income and assets through the effective use of insurance and investment options, and managing all phases of a financial program to achieve personal financial goals.

FOR 1003 Introduction to Forestry. 2 c.c.

FA – A.A.S. only. Fundamentals of forestry with emphasis on history, terminology, industry structure, careers, and current problems and policies.

FOR 1120Dendrology. 3 c.c.

FA – A.A.S. only. Corequisite: FOR 1120L. The study of major plants, emphasis on commercial and Northwest Florida species; their distribution and habitat requirements, growth characteristics, economic importance, utilization and response to management.

FOR 1120L Dendrology Laboratory. 1 c.c.

FA – A.A.S. only. Lab fee. Corequisite: FOR 1120. Field experience in identifying important species including the use of botanical keys and general sampling techniques.

FOR 1163 Silviculture. 3 c.c.

SP – A.A.S. only. Corequisite: FOR 1163L. The principles of reproducing and maintaining the forest. Studies the practice of controlling forest establishment, composition and growth.

FOR 1163L Silviculture Laboratory. 1 c.c.

SP – A.A.S. only. Lab fee. Corequisite: FOR 1163. Field exercises and observations of silvicultural practices. Field trips are required.

FOR 1433 Photogrammetry. 2 c.c.

SP – A.A.S. only. Fundamentals of aerial photography and interpretation of aerial photographs for forest resources inventory, mapping and management.

FOR 1661 Recreation Management in Forestry. 3 c.c.

TPA – A.A.S. only. The course covers wildland recreation in various governmental agencies and private industry and the incorporation of recreation in the multiple use concept of forest management. Field trips may be required.

FOR 1741 Timber Harvesting. 3 c.c.

FA – A.A.S. only. The buying and selling of timber, planning of timber sales to protect the environment; and logging methods and contracts are included in this course.

FOR 2210 Forest Fire Use and Control. 3 c.c.

SP – A.A.S. only. Corequisite: FOR 2210L. Includes fire behavior in the forest situation. Fundamentals of prescribed burning, dealing with the uncontrollable fire, and forest fire fighting techniques are among topics stressed.

FOR 2210L Forest Fire Use and Control Laboratory. 1 c.c.

SP – A.A.S. only. Lab fee. Corequisite: FOR 2210. A study of the numerous factors of fire behavior in a forest situation; the fundamentals of an uncontrolled fire, its effects and how to prevent or control; fundamentals of prescribed burning, its advantages and how to apply properly. Field application of forest fire fighting and prescribed burning techniques. Field trips.

FOR 2211 Forest Insects and Disease. 3 c.c.

SP – A.A.S. only. Study of forest insects and diseases; identification, effect, and control. Some field trips are required.

FOR 2450 Forest Measurements. 3 c.c.

SU – A.A.S. only. A study of forest measurement techniques for evaluating tree, stand and product volumes, as well as, density, stocking and growth projections. Includes grading, scaling, type mapping, and 2 weeks of 10 hours/day field instruction.

FOR 2451 Timber Cruising. 3 c.c.

SU – A.A.S. only. Lab fee. Prerequisites: FOR 2450, FOR 2462 or permission of instructor. Practice in the techniques of timber cruising for stand volumes and conditions, utilizing various sampling methods with statistical analysis of field data. Classroom instruction 3-1/2 weeks of 3 hours/week classes and 2 weeks of 10/day field instructions. Lab fee will be charged for room and board for 40 days.

FOR 2454 Timber Inventory. 3 c.c.

FA – A.A.S. only. Prerequisite: FOR 2451. The course will include hands on work experience covering the inventory of a tract of land; includes harvest costs, stumpage values, and lump sum tract values. The student will conduct a timber sale, observe the bidding process, compare bids, and observe the results of the sale. The course contains advanced concepts of timber inventory. Commercially available computer assisted inventory software packages used by government and private industry will be introduced. The course will provide forestry students the ability to conduct all aspects of a timber sale.

FOR 2462 Forest Surveying. 3 c.c.

SU – A.A.S. only. Fundamentals of surveying with emphasis on the simpler methods of measurements and measuring devices used in topographic mapping. Classroom instruction—3-1/2 weeks of 3 hours/week. Field instruction—2 weeks of 10 hours/day.

FOR 2620 Forest Management. 3 c.c.

SP – A.A.S. only. Analysis of the management options available for a forested tract given a variety of ownership objectives. Standard investment criteria will be used to determine the best available options.
FOR 2720 Equipment Operation, Safety and Maintenance. 3 c.c.  
FA – A.A.S. only. Corequisite: FOR 2720L. Operation, maintenance and minor repair of chain saws, small air-cooled engines and other hand and mechanized tools used in natural resource measurements and activities. Personal safety and first aid included. General operation of larger processing equipment. 

FOR 2720L Equipment Operation, Safety and Maintenance Laboratory. 1 c.c.  
FA – A.A.S. only. Lab fee. Corequisite: FOR 2720. Two hour lab aimed at providing individual efficiency in the operation of selected natural resource tools. Some field trips will be required. 

FOR 2931 Forest Seminar. 1 c.c.  
FA, SP, SU – A.A.S. only. A seminar that will examine assigned or selective areas of study in the forestry. Topics will vary according to student need or instructor availability. 

FOS 2200 Food Service Sanitation. 3 c.c.  
FA, SP, SU – This course introduces students to the Food and Drug Administration (FDA) Model Food Code. Emphasis is placed on the importance of food-safety and the obligation of the food service manager to provide guests with a safe dining experience. The course provides the student with an understanding of the fundamentals of food safety. The course focuses on proper food handling, personal hygiene and food service sanitation, as well as, food-safety training for employees, and the manager’s role in food safety. 

FOS 2201 Sanitation and Safety. 3 c.c.  
FA, SP, SU – This course is a study of the scientific rationale for sanitary practices enforced for group protection in institutional and food service facilities. It covers safety standards and practices for the protection of employees and patrons. It includes all types of sanitation problems, including food-borne illnesses, chemical poisoning, and methods of their control. 

FRE 1120 Beginning French I. 4 c.c.  
FA – Fundamentals of grammar; drill in pronunciation, reading, and special emphasis on oral expression in the language. The course will include four credits of classroom instruction which may be augmented by study in the Foreign Language Laboratory. If you have had two consecutive years of French in high school, it is strongly advised you begin in FRE 1121. 

FRE 1121 Beginning French II. 4 c.c.  
SP – Prerequisite: FRE 1120. Not for beginners. The course will include four credits of classroom instruction which may be augmented by study in the Foreign Language Laboratory. Emphasis will be placed upon speaking and comprehension as well as culture. A wide variety of audiovisual material will be at the student’s disposal. If you have had two consecutive years of French in high school, it is strongly advised you begin in FRE 1121. Meets A.A. general education Category V. 

FRE 2200 Intermediate French I. 3 c.c.  
TBA – Prerequisite: FRE 1121 or two years of high school French. Development of ability to read a variety of French publications, literary and journalistic, in French, French civilization, literature, and cultural history. Class discussion, complete review of grammar, practice in composition. 

FRE 2201 Intermediate French II. 3 c.c.  
TBA – Prerequisite: FRE 2200. Further development of the ability to read a variety of French publications, literary and journalistic, in French. French civilization will be discussed in the hope of stimulating the imagination by isolating current events and interesting individuals rather than merely presenting a series of facts. Group discussion will be encouraged to allow students to express their own opinions. 

FSS 1220C Culinary Techniques. 3 c.c.  
FA, SP, SU – Lab fee. Prerequisite or Corequisite: FOS 2200 or FOS 2201. Emphasis in this course will be placed on the basic methods and chemistry of cooking. Students study ingredients, cooking, theories, terminology, equipment, technology, weights and measures, formula conversions and work on cooking skills and procedures. 

FSS 1222L Culinary Production. 3 c.c.  
FA, SP – Prerequisite: FSS 1220C. Through extensive hands-on experience, students will acquire the skills necessary to plan and prepare various meals utilizing menu planning methods. 

FSS 1246C Professional Baking. 3 c.c.  
FA, SP, SU – Lab fee. Prerequisite or Corequisite: FOS 2200 or FOS 2201. This course introduces the student to the principles of professional baking. The student will become familiar with the techniques and equipment used in a bakeshop or the baking area of a commercial kitchen. The student will apply the fundamentals of baking science in the production of various products. The student will learn the basic baking skills required in the culinary arts field. 

FSS 1250C Dining Room Management. 3 c.c.  
FA – Corequisites: FOS 2200, HFT 2200. Through extensive hands-on experience, students will acquire the skills necessary to plan and prepare various meals utilizing cost control methods. 

FSS 2100 Food Purchasing. 3 c.c.  
FA – This course introduces the student to the principles of food purchasing and menu planning. The student will become familiar with the techniques and theory of purchasing and menu planning. The student will be introduced to the techniques and equipment used in menu preparation for the food service industry. 

FSS 2224L Advanced Culinary Production. 3 c.c.  
SP – A.A.S. only. Prerequisite: FSS 1220C. This course allows students to practice advanced culinary skills under operating conditions. Students prepare and serve meals to the public. 

FSS 2242L International/Regional Cuisine. 3 c.c.  
FA – Prerequisites: FSS 1220C, FSS 1246C. This course covers the unique food styles and preparation techniques used around the world. Students design and implement banquet style international menus. Meals are prepared for the public. 

FSS 2247C Advanced Baking. 3 c.c.  
SP – A.A.S. only. Lab fee. Prerequisite: FSS 1246C. This course builds on the skill and knowledge the student gained in FSS 1246C. The student will be made familiar with advanced baking theories and techniques. The student will apply the fundamentals of baking science in the production of various products. The student will learn the basic baking skills required in the culinary arts field. 

FSS 2248C Garde Manger. 3 c.c.  
SU – Lab fee. Prerequisite: FSS 1220C. The student will become familiar with the techniques and equipment used in the production of Hors d’oeuvres, appetizers, charcuterie and other products found typical to catered events. Students will apply these fundamentals in actual catered events as outlined during the first day in class. Students are advised that class times vary greatly. 

FSS 2284C Catering, Banquet, and Event Management. 3 c.c.  
SU – Corequisites: FOS 2200, HFT 2020. This course introduces students to the techniques and management principles necessary for the management of a catering and banquet operation. The course covers catering functions, special events, and banquets. Course topics will include planning and management of events. Students examine the management process and learn to apply this process to catering functions, banquet operations, and special events. This course provides students interested in event management with practical knowledge in the management of on and off premise functions. 

FSS 2382L Culinary Management Practical Exam. 1 c.c.  
TBA – Lab fee. A.A.S. only. Prerequisites: Completion of all culinary courses. Techniques and knowledge required for a career as a professional chef. Provides knowledge needed to demonstrate artistic and creative abilities in various culinary shows, recipe contests, and exhibitions. 

FSS 2941, 2942, 2943 Culinary Management Internship. 1 c.c. 2, 2, 3 c.c.  
FA, SP, SU – Internship is a supervised hands-on training experience in which the student will observe and participate in the operation of a restaurant, food service, dietary or other food production operation. The student will learn firsthand the day-to-day operations of a food production facility. The student will have the opportunity to demonstrate the knowledge and skills learned in the classroom and apply them on the job. 

Pensacola Junior College
FSS 2946 Basic Culinary Management Co-op.  1 c.c.
   FA, SP, SU – The Cooperative Education Program is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job program during each working term. Students should contact the Cooperative Education Office, Student Services Building 6, Room 610, for further information.

FSS 2947, 2948, 2949 Culinary Management Co-op.  1 c.c., 2 c.c., 3 c.c.
   FA, SP, SU – Cooperative Education is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job program during each working term. Students should contact the Cooperative Education office, Student Services Building 6, Room 610, for further information.

GEA 2000 World Regional Geography.  3 c.c.
   FA, SP – A descriptive study of selected countries and regions of the world around such key topics as location, population, culture, and distribution, natural environment, type of economy, resources, potentialities, chief problems. Human activities are related to natural environmental conditions of countries, regions, and continents. Meetings A.A. general education Category IV.

GEB 1011 Introduction to Business.  3 c.c.
   FA, SP, SU – The course includes principles of organization and management as well as operational aspects and the social and economic environment of a business, fundamentals of management controls, marketing, and financial management. This course is a prerequisite only for those students following a program of study in business administration, but is offered in three different formats: the conventional classroom style, a special format which reduces formal classroom time but requires more self-study, and by means of Channel 23, WSRE-TV.

GEB 1931, 1932, 1933 Business Professions Seminar.  1 c.c., 2 c.c., 3 c.c.
   FA, SP, SU – A.A.S. only. Business Professions Seminar is designed to teach interpersonal relations to students who are preparing for business careers and wish a greater understanding of people and the workplace. An outstanding speaker from the business community will speak to the class each week on an appropriate topic. The other two days will consist of lectures, discussion, and activities with total student involvement.

GEB 2139 E-Business Management.  3 c.c.
   FA, SP – The course includes the applications, principles, and concepts of business transactions that take place via electronic communication networks. Specific emphasis will be placed on the process of buying and selling goods and services, and the information over computer networks.

GEB 2350 International Business.  3 c.c.
   FA, SP – The course includes a perspective and the applications, principles, and concepts of international business. Specific emphasis will be placed on a global perspective, international business environments, trade and investment, financial systems, and management/marketing.

GEB 2430 Business Ethics.  3 c.c.
   FA, SP – This course will enable students to confront the issues of what is right, proper, and just when making decisions that affect other people in the business world. The focus is on what relationships are and ought to be with employees.

GEO 2150C Geographic Information Systems.  3 c.c.
   FA – A.A.S. only. Lab fee. Prerequisite: CGS 1570 or permission of instructor. A beginning course in Geographic Information Systems (GIS). GIS is the combination of data and where that data occurs spatially on a map. This computer application technology is used by utility companies, forestry managers, environmental businesses, government planners, market researchers, real estate developers, emergency planners, civil engineers, and a variety of other disciplines. Topics include data representation of data, analyzing spatial relations layering data in combinations, and creating presentations. This course is open to all students with basic computing skills.

GER 1120 Beginning German I.  4 c.c.
   FA – Essentials of German grammar with special emphasis on reading ability and pronunciation, as well as basic speaking ability. The course will include four credits of classroom instruction which may be augmented by study in the Foreign Language Laboratory. If you have had two consecutive years of German in high school, it is strongly advised you begin in GER 1121.

GER 1121 Beginning German II.  4 c.c.
   SP – Prerequisite: GER 1120. Not for beginners. The course will include four credits of classroom instruction which may be augmented by study in the Foreign Language Laboratory. Emphasis will be placed upon speaking and comprehension as well as culture. A wide variety of audio-visual materials will be at the student’s disposal. If you have had two consecutive years of German in high school, it is strongly advised you begin in GER 1121. Meetings A.A. general education Category V.

GER 2200 Intermediate German I.  3 c.c.
   FA – Prerequisite: GER 1121 or two years of high school German. Review of German grammar, advanced reading, and conversation.

GER 2201 Intermediate German II.  3 c.c.
   SP – Prerequisite: GER 2200. The grammar presentations in Deutsch heute proceed from the known to the new; it builds on grammatical structures the student has already mastered. A student who completes this course satisfactorily will be expected to have the ability to read ordinary German of a non-technical nature (magazines and newspapers) and to read the standard works of German literature with a minimum use of the dictionary. A passing grade of 70 will be required.

GLY 1001 Earth Science.  3 c.c.
   FA, SP, SU – A broad survey of geology (earth materials and processes, oceanography, meteorology, and astronomy). A course primarily designed for non-science majors taught at an introductory level which will provide the student with a solid background of the interrelated disciplines that make up the “earth sciences.” Meetings A.A. general education Category VII.

GLY 1010 Physical Geology.  3 c.c.
   FA, SP – Corequisite: GLY 1010L. An introduction to the study of the earth, its composition (minerals and rocks), gradational processes (running water, glaciers, winds and gravity), diastrophism (plate tectonics, folding, faulting), vulcanism (volcanic and plutonic features). Meetings A.A. general education Category VII.

GLY 1010L Physical Geology Laboratory.  1 c.c.
   FA, SP – Lab fee. Corequisite: GLY 1010L. A study of rocks and minerals, structural features of the earth, and various earth forms as related to certain geologic processes with the aid of rock and mineral samples, topographic maps and aerial photographs. Meetings A.A. general education Category VII.

GRA 1140C Beginning Multimedia Production.  3 c.c.
   FA, SP – A.A.S. only. Lab fee. Prerequisite: GRA 2151C. Beginning Multimedia introduces the core principles of artistic design and development of interactive, computer-based multimedia. Students are exposed to industry standard authoring systems, combining images, text, animation, video, sound and user interactivity. Applications will include: Macromedia Flash, Adobe Premier and Sonic Foundry Sound Forge. This class is designed for Multimedia art majors.
GRA 2141C Advanced Multimedia Production. 3 c.c.
TBA – A.A.S. only. Lab fee Prerequisite: GRA 1140C, GRA 2721C. Advanced Multimedia synthesizes material learned in Beginning Multimedia and Creative Web Design. Students will create projects emphasizing conceptual development through to final presentation. In addition to artistic principles of design, emphasis will be placed on professional project management, budget issues, client relations, and project scope. Applications will include: Macromedia Flash and Freehand, Adobe Photoshop and Premier and Sonic Foundry Sound Forge. This class is designed for multimedia art majors.

GRA 2151C Computer Graphics I. 3 c.c.
FA, SP, SU – A.A.S. only. Lab fee. Explores the Macintosh® computer’s capabilities as a tool for artists and graphic designers. Students will use a variety of layout and image-processing programs, digital scanning, and video images in assignments that stress creativity and technical proficiency.

GRA 2152C Computer Graphics II. 3 c.c.
TBA – A.A.S. only. Lab fee. Prerequisite: GRA 2151C. A continuation of GRA 2151C using advanced software and programs on the user-friendly Macintosh®. Directed at artists and graphics designers.

GRA 2158C Multimedia 3D. 3 c.c.
TBA – A.A.S. only. Lab fee. Prerequisites: GRA 1140C, GRA 2152C. Teaches the construction and development of three-dimensional objects on the personal computer using modeling programs in use in the graphics and multimedia industries. Models will be created with variable form, lighting, and textural characteristics presented and manipulated in functional three-dimensional environments.

GRA 2190C Graphic Design I. 3 c.c.
TBA – A.A.S. only. Lab fee. Prerequisites: ART 1202C, GRA 2151C. Basic experience in the creative and technical processes of visual communication. Concept development, layout skills, uses of type, illustration, and computer-aided design with the Macintosh® will be covered.

GRA 2191C Graphic Design II. 3 c.c.
TBA – A.A.S. only. Lab fee. Prerequisite: GRA 2190C. Advanced techniques and projects in visual communications with emphasis on development of a professional portfolio and understanding of market demands. A high degree of creativity and craftsmanship is stressed.

GRA 2206C Typography 3 c.c.
TBA – A.A.S. only. Lab fee. Prerequisites: ART 1202C, GRA 2151C. A practical introduction to typography, including the development of type styles and their creative uses in graphic design from historic forms to modern and computer type, emphasizing the expressive power of type usage in design, while also covering technical aspects of fonts, letter forms, measurement, x-height, leading, kerning, and aesthetic considerations.

GRA 2210C Electronic Prepress. 3 c.c.
TBA – A.A.S. only. Lab fee. Prerequisites: ART 1202C, GRA 2152C, PGY 2401C. This class, which replaces the former GRA 2117C, Graphic Processes, is a highly specialized course that teaches the current techniques for electronic delivery of artwork for prepress production. Working with Quark, Photoshop, Acrobat, and Freehand, students will learn industry standards and requirements including digital file output, digital printing processes, and file management.

GRA 2721C Creative Web Design. 3 c.c.
TBA – A.A.S. only. Lab fee. Prerequisites: GRA 1140C, GRA 2152C. Creative Web Design builds on the design and development skills gained in Beginning Multimedia Production and moves the student to the production of artistic web-based projects on the PC. Beginning with an introduction to the different capabilities in a dual platform environment, the course will emphasize advanced skills in animation, sound, video, authoring, editing and HTML coding, focusing entirely on intranet and internet environments. Applications will include Macromedia Flash, Adobe Premiere, Sonic Foundry Sound Forge and Macromedia Dreamweaver. This class is designed for Multimedia art majors.

GRA 2931, 2932, 2933 Multimedia Seminar. 1 c.c., 2 c.c., 3 c.c.
TBA – A.A.S. only. Lab fee. Multimedia Seminar is designed to teach about interpersonal relationships, contextual constraints, problem solving, employment possibilities and strategies for students interested in multimedia production as a career. Guest speakers and/or the instructor will present to the class concerning appropriate topics. Site visits to area businesses, industries, schools and other facilities involved in the production of multimedia may occur. Students will design, develop and present multimedia-based materials on selected topics.

GRE 1100 Beginning Greek I. 3 c.c.
FA – This course introduces the student to the fundamentals of Ancient Greek grammar and vocabulary and will enable the student to translate fairly simple Greek passages.

GRE 1101 Beginning Greek II. 3 c.c.
SP – Prerequisite: GRE 1100. This course, a continuation of Beginning Greek I, will continue to emphasize Ancient Greek grammar and vocabulary and will enable the student to translate more complex Greek passages. Meets A.A. general education Category V.

HCP 0120C Nursing Assistant. 3 v.c.
FA, SP, SU – Lab fee. Prerequisite: HSC 0591C. This course is designed to prepare the student for employment in the long term care setting. Students have the opportunity to apply content learned in the classroom to the care of geriatric and long term care patients. Content includes legal, ethical, safety, comfort, nutrition, infection control and rehabilitative measures central to the care of patients by nursing assistants.

HFT 1000 Introduction to the Hospitality Industry. 3 c.c.
FA, SP – An introductory course designed to acquaint the student with the many facets of the hotel/lodging, restaurant, travel and tourism, and food service industries. The student will become familiar with the various interrelated professions in these industries and their relationships to each other.

HFT 1031 Management of Environmental Services. 3 c.c.
SP – This course will introduce students to the methods, techniques and procedures used in commercial cleaning. Included in the topics of the course are servicing of restrooms, cleaning walls, windows, fixtures and the methods, techniques and procedures used in the care and cleaning of floors, rugs and carpeting. The course will emphasize guest room cleaning, laundry and housekeeping operations utilized in the lodging industry. The class covers the use and maintenance of professional cleaning equipment. Students will become familiar with the laws, regulations and agencies governing the environmental service industry. The course is designed to prepare students for a supervisory role in the management of a housekeeping department.

HFT 1040 Hospitality Industry Management Lectures. 1 c.c.
TBA – Lecture series provides information on current topics of interest in the hospitality industry provided by notables from the various fields represented in hospitality management.

HFT 1254 Lodging Operations. 3 c.c.
TBA – This course introduces students to guest service operations. This course is designed for students interested in managing hotels, motels, resorts, and other related lodging businesses. The course provides students with practical knowledge of the concepts and procedures used in managing commercial lodging operations. Students are introduced to the rooming and guest service functions. The course includes the theories and principles of guest service management used in the lodging industry. The course gives students the opportunity to develop human relations and customer service skills. Operation of the various functions of the rooming department of a lodging operation is covered.

HFT 1313 Hospitality Property Management. 3 c.c.
SP – This course focuses on three main areas of property management including physical plant management, facilities, systems engineering and management, and utilities and energy management. All phases of property management are covered from operations management to cost analysis and capital investment. The general principles of design, installation, operation, and economical evaluation are applied to hospitality operations.
HFT 1410 Hospitality Industry Accounting. 3 c.c.
FA, SP – Presents basic introduction to the reservation system and the accounting functions of hospitality operations. The course focuses on the reservations and billing, audit, transient ledger, city ledger, income statement, and of the statistical analysis used in the hospitality industry.

HFT 1860 Bar and Beverage Management. 3 c.c.
SU – An in-depth study into the principles of beverage management. This course will introduce students to the production and characteristics of the different types of beers, liqueurs and spirits. Students will be introduced to the techniques of mixology with an emphasis on the responsible vending of alcoholic beverages.

HFT 1867 Wine Technology and Merchandising. 3 c.c.
FA – This course introduces students to the principles of oenology. The course provides students interested in wines, wine production, and service with the fundamentals of wine technology. Students are introduced to the theories and principles of marketing, merchandising and promoting wines in the hospitality industry. Practical knowledge of viticulture and vinification methods is covered in the course. Students are introduced to the theories, concepts, and principles of sensory evaluation and other quality factors of wine. The course is designed for both the hospitality manager as well as the individual who enjoys wine for personal pleasure.

HFT 2020 Food Service Sanitation HACCP. 1 c.c.
FA, SP, SU – Prerequisite or Corequisite: FOS 2200. This course acquaints students with the Hazard Analysis Critical Control Point (HACCP) program. The course stresses a proactive, comprehensive, science-based approach to food safety. Students will learn to continuously monitor a food service operation and reduce the risk of a foodborne illness. Emphasis is placed on identifying points in the flow of food through the food service operation where contamination or other hazards to safe food can occur. Control procedures, which can be implemented to neutralize identified hazards, will be a focus of the course.

HFT 2211 Management of Hospitality and Food Service Resources. 3 c.c.
SU – This course introduces students to the resources available to managers in the hospitality industry. This course includes management concepts and practices applicable to the hospitality industry. Students are introduced to the theories and principles of managing a hospitality industry. Students examine the management process and learn to apply this process to the hospitality industry. This course provides students interested in lodging, food service, beverage service, and other related fields with practical knowledge in the acquisition, management and utilization of the resources available to hospitality managers.

HFT 2250 Lodging Systems and Procedures. 3 c.c.
FA – This course introduces students to the principles of operating a profitable lodging operation. This course is designed for students interested in managing hotels, motels, resorts, and other related lodging businesses. The course provides students with practical knowledge of the concepts and procedures used in managing commercial lodging operation. Students are introduced to the utilization of reservation systems and the procedures for handling various types of reservations. The student will be introduced to the information systems for registration, guest accounts, checkout and the audit functions of guest services. The course includes the theories and principles of yield management, the economics principles of pricing used in the lodging industry in addition to other related topics.

HFT 2261 Restaurant Management and Development. 3 c.c.
SP – This course introduces students to the principles of operating a profitable restaurant. The course provides students interested in managing a restaurant and other related businesses with practical knowledge of the concepts and procedures used in managing a commercial food service facility. Students are introduced to the theories and principles of facility and menu development, design, and layout. The course covers the process of developing a commercial food service operation.

HFT 2451 Cost Control and Purchasing. 3 c.c.
FA, SP – An overview of the management system with an in-depth study of purchasing and the control component of the management cycle. This course will focus on the principles and practices concerned with the purchase and receipt of food, supplies, and equipment for various food service operations.

HFT 2500 Marketing in the Hospitality Industry. 3 c.c.
FA – This course is designed to study the principles of marketing and promotion as they relate to the hospitality industry. This course looks at applying promotional techniques to a hospitality operation. The course addresses such topics as using a restaurant’s menu and service staff to generate word-of-mouth advertising, the organization of a lodging operation’s sales department, promotion of special events, etc.

HFT 2600 Concepts of Hospitality Law. 3 c.c.
SP – This course provides the student with a familiarization of the fundamentals of law and an in-depth study of the legal aspects affecting the hospitality industry. This course addresses risk management in the hospitality industry.

HFT 2840L Advanced Dining Room Management. 3 c.c.
FA, SP – Prerequisites: FSS 1220C, FSS 1250C or HFT 2841C. This course exposes the student to advanced table service techniques and service styles to include French and à la Ritz and buffet. Special attention is given to table-side preparation, carving, and service. Students are also introduced to wine service.

HFT 2841C Intermediate Dining Room Management. 3 c.c.
FA, SP – Prerequisites or Corequisites: FOS 2200, HFT 2020; or FOS 2201. This course introduces the student to the principles of managing service. This course covers the service skills required in the culinary field from taking reservations to writing guest checks and handling money.

HFT 2931L, 2932, 2933 Hospitality Management Seminar. 1 c.c., 2 c.c., 3 c.c.
TBA – This course is designed to allow flexibility for a wide variety of topics/topic of interest, problem, need, etc. of the hospitality industry to meet the special needs of an identified group of students. This course explores current topics as they affect the hospitality industry.

HFT 2941L, 2942, 2943 Hospitality Management Internship. 1 c.c., 2 c.c., 3 c.c.
FA, SP, SU – Internship is a supervised hands-on training experience in which the student will observe and participate in the operation and management functions of a food service, lodging, dietary, or other hospitality operation. The student will learn to “hand the day to day operations of a business in the hospitality industry. The student will have the opportunity to demonstrate the knowledge and skills learned in the classroom and apply them on the job.

HFT 2946L Basic Hospitality Management Co-op. 1 c.c.
FA, SP, SU – The Cooperative Education Program is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job program during each working term. Students should contact the Cooperative Education Office, Student Services Building 6, Room 610, for further information.

HFT 2947L, 2948L, 2949L Hospitality Management Co-op. 1 c.c., 2 c.c., 3 c.c.
FA, SP, SU – The Cooperative Education Program is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job program during each working term. Students should contact the Cooperative Education Office, Student Services Building 6, Room 610, for further information.
HIM 0050C Health Unit Coordinator Functions. 8 v.c.  
**FA, SP – Lab fee. Prerequisites or Corequisites:** HSC 0001, OTA 0101. Classroom instruction and laboratory practice in receptionist duties, transcription of physician’s orders, orientation to the hospital environment, maintenance of patient charts and forms, and coordinating the non-clinical tasks associated with health care nursing units. (Students must be preadmitted into the Health Unit Coordinator Program to take this course.)

HIM 0055L Health Unit Coordinator Clinical I. 6 v.c.  
**SP, SF – Lab fee. Prerequisite:** HIM 0050C. Provides instruction in the use of a specific hospital’s computer order entry system. On-the-job training is designed to give the student work experience in hospitals on various nursing units. The experience allows the student to practice health unit coordinating skills learned in the classroom under the supervision of practicing health unit coordinators and the instructor.

HIM 1000C Introduction to Health Information Management. 3 c.c.  
**FA – A.A.S. only. Prerequisite:** Permission required. Orientation to medical records, history, professional associations, and careers in the health care environment. Emphasis is on the key processes for identification, resolution of problems in the Health Information Management profession.

HIM 1012 Health Information Law. 3 c.c.  
**SP – A.A.S. only. Prerequisite:** HIM 1000C or permission of instructor. Study of principles of law as applied to the health care field, with particular emphasis on medical record practice, confidentiality and release of information; hospital risk management, and quality improvement.

HIM 1800 Health Information Management Clinical Practice I. 4 c.c.  
**FA – A.A.S. only. Lab fee. Prerequisites:** HIM 1000C, HSA 1101, HSC 1502. **Corequisite:** HIM 1012. Supervised directed experience in hospital medical record department. Specific assignments: medical record admitting procedures, assembly and analysis of medical records, record and loose document filing, record controlling, release of information and medical staff relations.

HIM 2002C Quality Improvement in Health Information. 2 c.c.  
**SP – A.A.S. only. Prerequisite:** HIM 2620C. An introduction to the concepts, techniques, and tools in the process of improving performance in the health care environment. Emphasis is on the key processes for identification, resolution of problems in the Health Information Management profession.

HIM 2212C Health Information Management in Alternative Settings. 2 c.c.  
**SP – A.A.S. only. Prerequisite:** HIM 1012 or permission of instructor. Medical record applications in non-hospital settings including long term care, ambulatory care, mental health, home health, hospice, Quality/ Improvement, Utilization Management, and Risk Management, etc.

HIM 2234C Advanced ICD-9-CM Coding. 2 c.c.  
**SP – A.A.S. only. Prerequisites:** HIM 2280C, HIM 2436. **Corequisite:** HIM 2283. Continuation and expansion of HIM 2280C. This course covers the advanced features of the ICD-9-CM Coding System. Also included are prospective payment systems and diagnostic-related groups (DRGs).

HIM 2280C Coding and Classification Systems. 3 c.c.  
**FA, SP – A.A.S. only. Prerequisites:** BSC 1080, HIM 2433, HSC 1531 or permission of instructor. **Corequisite:** HIM 2436. Historical development and purpose of medical nomenclature and classification systems/indexes, registers, abstracts, and an introduction to ICD-9-CM, CPT/HCPCS and DRG systems.

HIM 2283 Outpatient Reimbursement and Methodologies. 2 c.c.  
**SP – A.A.S. only. Prerequisites:** HIM 2280C, HIM 2436. **Corequisite:** HIM 2234C. Instruction and practice in CPT-4 Coding, HCPCS, and APC as used in physician’s offices and other outpatient settings.

HIM 2304 Health Information Management and Supervision. 3 c.c.  
**FA – A.A.S. only.** Application of basic principles of management related to office management in a medical record department; planning and organizing space, equipment, supplies, and personnel using systems procedures, methods and organization charts.

HIM 2433 Pathophysiology and Pharmacology I. 3 c.c.  
**SP – A.A.S. only. Prerequisite:** HSC 1531. **Corequisite:** BSC 1080A. A study of the nature, cause, and treatment of specific disease entities. Basic understanding of the body’s defense mechanism and drugs commonly used to treat the above.

HIM 2436 Pathophysiology and Pharmacology II. 3 c.c.  
**FA, SO – A.A.S. only. Prerequisite:** HIM 2433. A study of nature, cause and treatment of disease entities, and the drugs commonly used to treat the above.

HIM 2620C Medical Statistics and Financial Applications. 3 c.c.  
**FA – A.A.S. only. Prerequisites:** HIM 1000C, MTB 1310 or higher math or permission of the instructor. Statistical concepts and procedures in data collection and preparation of statistical reports for hospital administration and accrediting agencies; financial concepts and optimum utilization of resources.

HIM 2650C Computer Applications in Health Information Management. 3 c.c.  
**SP – A.A.S. only. Lab fee. Prerequisites:** CGS 1570, HIM 1000C. This course is designed to give the student an overall scope of computer applications in the health care industry with special emphasis on the Computer Applications in the Health Information Management domain.

HIM 2810 Health Information Management Clinical Practice II. 4 c.c.  
**SP – A.A.S. only. Lab fee. Prerequisites:** HIM 1800, HIM 2620C. **Corequisites:** HIM 2212C, HIM 2234C. Supervised learning experience in various health care facilities. Specific assignments: statistical applications, computer applications, coding, quality assurance and risk management.

HLP 1081 Concepts of Life Fitness. 3 c.c.  
**FA, SP, SU – Lab fee.** A basic course designed to acquaint students with the principles, concepts and values of physical fitness, proper nutrition, and stress management; and the dangers attached to negative lifestyle behaviors. Students will learn to evaluate their fitness, nutrition and stress levels, identify their areas of interest, and write their own exercise prescriptions. Class periods are held in both the classroom and the Life Center where students will take part in a number of health and fitness assessments and will be instructed on the proper use of both strength and cardiovascular training equipment. Upon successful completion, students may register for RO0064 which gives them access to the Life Center. **Meets A.A. general education Category IV.**

HLP 2947, 2948, 2949 Human Performance and Recreation Co-op. 1 c.c., 2 c.c., 3 c.c.  
**FA, SP, SU – Cooperative Education is a planned, paid work experience in which students are employed in a job directly related to their academic major. Students must maintain a minimum 2.5 GPA and complete certain requirements prior to enrollment in the course. Students interested in doing cooperative education should contact the Cooperative Education office, Building 6, Room 610, for further information.**

HOS 1010 Introduction to Horticultural Science. 3 c.c.  
**FA, SU – Prerequisite:** BSC 1005 or BOT 1010 or BSC 2010 or permission of instructor. An overview of the biology of horticulture, the horticultural industry and an introduction to the scientific principles that are involved in the production of horticultural crops. The course will provide a comprehensive review of the aesthetic value of horticulture, plant classification, plant problems, plant growth, and plant use.
The purpose of this course is to introduce the student to the health care delivery system and to provide an overview of the role and responsibility of members of the health care team. Common illnesses will be discussed with a focus on prevention of disease and promotion of wellness. Legal/ethical issues, basic medical terminology, infection control, and the personal and professional characteristics of the successful health care professional are also included.

HSA 1172 Third-Party Reimbursement. 3 c.c. SP – A.A.S. only. Prerequisite: HSC 1531 or OST 1257. This course covers principles and practices related to payment or insurance of health or medical expenses, by a public or private organization, on behalf of beneficiaries or recipients of health or medical services.

HSA 2500 Introduction to Risk Management. 3 c.c. SP – A.A.S. only. This is an introductory course in the assessment and control of risk within health-care facilities. Included in the course are analysis of possibilities of liability, methods to reduce risk of liability, and methods to transfer risk to others.

HSC 0001 Orientation to the Health Sciences. 1 v.c. FA, SP, SU – Prerequisite: Acceptance into the program or permission of the instructor. The purpose of this course is to introduce the student to the health care delivery system and provide an overview of the role and responsibility of members of the health care team. Common illnesses will be discussed with a focus on prevention of disease and promotion of wellness. Systems of measurement, interpersonal skills, legal/ethical issues, basic medical terminology, infection control, and the personal characteristics of the successful health care professional are also included. Also included are the basic concepts of patient care skills which are common to all health occupations. Topics include patient and professional communication, proper patient identification, and monitoring patient status.

HSC 0591C AIDS/OSHA for Health Professionals. 1 v.c. FA, SP, SU – A Study of Human Immunodeficiency Virus (HIV), Acquired Immune Deficiency Syndrome (AIDS), and OSHA standards for blood borne pathogens. Domestic Violence education and medical errors for the health professional. This course satisfies the minimum HIV/AIDS education requirements including transmission, infection control, prevention, general treatment, legal aspects, confidentiality, testing and attitudes. Within this course, requirements are met for OSHA standards for universal precautions, PPE, microbiological practices, Hepatitis B vaccination, post-exposure evaluation/follow-up and hazard communication in working with blood borne pathogens.

HSC 1531 Medical Terminology. 3 c.c. SP – A.A.S. only. The study of medical terminology as the language of medicine including the study of prefixes, suffixes, word roots, with emphasis on spelling, pronunciation, definition, and usage.

HSC 1592 AIDS/OSHA for Health Professionals. 1 c.c. FA, SP, SU – A.A.S. only. A study of Human Immunodeficiency Virus (HIV), Acquired Immune Deficiency Syndrome (AIDS), and OSHA standards for blood borne pathogens, Domestic Violence education and medical errors for the health professional. This course satisfies the minimum HIV/AIDS education requirements including transmission, infection control, prevention, general treatment, legal aspects, confidentiality, testing and attitudes. Within this course, requirements are met for OSHA standards for universal precautions, PPE, microbiological practices, Hepatitis B vaccination, post-exposure evaluation/follow-up and hazard communication in working with blood borne pathogens.

HSC 2100 Personal and Community Health. 3 c.c. SP – This course includes information and principles for protection and promotion of individual and public health. Emphasis is given to mental health, parenthood, nutrition, disease prevention, and community organization for maintaining and improving health in society.

HSC 2400 First Aid and Injuries. 3 c.c. FA, SP – Lab fee. This course includes standards and accepted principles of first aid, discussion and laboratory practices in dressings and bandages, wounds and their care, rescue breathing and CPR, poisonings, fractures, burns, and transportation of the injured. The course includes the American Red Cross first aid course. Upon successful completion of all tests, students will be certified in CPR and Basic First Aid.

HSC 2402 Managing Medical Emergencies. 3 c.c. SP – A course designed to instruct human service providers, such as special educators and mental health professionals, in anticipating and controlling student/client medical/behavioral emergencies in agency and/or school settings. Skills in medical first aid, CPR, and non-violent crisis intervention will be taught. Meets American Red Cross certification requirement for Community First Aid and Safety and Crisis Prevention Institute certification for non-violent crisis intervention.

HSC 2642 Health Care Law. 3 c.c. FA – An introduction to health-care law. Covers the legal aspects of the delivery of health care in various settings. Includes an introduction to the American legal system, the liabilities of health-care organizations and health-care professionals, patient rights and responsibilities, labor relations, and insurance, among other topics.

HUM 1510C Arts Experience. 3 c.c. FA, SP – Lab fee. This course enables the student to see the arts as they are produced. Class will be held once a week on campus and also in various locations including the concert hall, art gallery, theatre and museum where the student will attend different arts events. Students will learn many aspects of art, music, and theatre. Meets A.A. general education Category V.

HUM 1930 Lyceum. 1 c.c. TBA – This course meets once a week for lectures and discussions designed to help the student understand and enjoy the Lyceum Series distinguished speakers and offerings in art, music, dance, and drama. The student attends at least six Lyceum events and is tested at midterm and final exam on vocabulary and appreciation skills presented in eight lectures.

HUM 2211 Humanities in the Ancient World. 3 c.c. FA, SP, SU – Prerequisite: Test score requirement the same as ENC 1101. An integrated approach to the humanities which examines philosophy and the arts in terms of their relationships, rather than as separate activities. The emphasis throughout will be on the ways in which a shared cultural outlook gives meaning to human experience and is, in turn, expressed through works of art. This course considers the achievements of Greece, Rome, and the Middle Ages, treating them chronologically in order to provide a sense of change and development in succeeding epochs. There will be lectures, correlated readings and illustrations of representative works from each period studied. Meets A.A. general education Category V. A writing emphasis course.

HUM 2230 Humanities in the Modern World. 3 c.c. FA, SP – Prerequisite: Test score requirement the same as ENC 1101. An integrated approach to the humanities which examines philosophy and the arts in terms of their relationships, rather than as separate activities. The emphasis throughout will be on the ways in which a shared cultural outlook gives meaning to human experience and is, in turn, expressed through works of art. This course considers the achievements of the Renaissance, the Modern Era, and the Post-Modern Era, treating them chronologically in order to provide a sense of change and development in succeeding epochs. There will be lectures, correlated readings and illustrations of representative works from each period studied. Meets A.A. general education Category V. A writing emphasis course.

HUM 2454 African-American Humanities. 3 c.c. FA, SP – Prerequisite: Test score requirement the same as ENC 1101. The course will examine the impact that the Atlantic slave trade has had on the new world. It will trace Western African culture and how it “re-appears” in the Caribbean, Latin America and North America. The course will examine the history, music, literature and art of these places as well. Meets A.A. general education Category V. A writing emphasis course.
HUN 2740 Humanities Travel. 3 c.c.

SU – Prerequisite: Test score requirement the same as ENC 1101. Each offering is specially designed to expose the student to the culture of other countries. The exact itinerary and experience is determined by the faculty member in charge. Inquiries should be made to the appropriate department head.

Meets A.A. general education Category V. A writing emphasis course.

HUN 1290 Applied Nutrition. 3 c.c.

SP – Prerequisite: HUN 1201. An advanced course designed to give updated scientific nutrition information and products, programs, and services affecting its application in the community. Will include special interest areas such as pediatrics, geriatrics, and world hunger.

HUN 1322 Nonviolent Crisis Intervention. 1 c.c.

FA, SP – A course designed to teach educators, emergency service workers, mental health professionals, and other human service providers to effectively and nonviolently anticipate, assess and intervene in crisis situations. Crisis theory, verbal interventions, and physical protection measures will be taught. This course meets the requirements for certification in nonviolent crisis intervention by the Crisis Prevention Institute (CPI).

HUS 2400 Drugs and Behavior. 3 c.c.

FA – “Addiction” is often, incorrectly, equated with “physical dependence.” In this course, we will come to understand “addiction” in terms of its defining patterns of behavior, and examine the effects of addiction of family dynamics, and society. The different classes of drugs will be discussed; their scope of the problem of chemical dependence, possibilities for intervention and treatment will be examined.

IDH 1110 Nature, Technology and Values Honors. 3 c.c.

FA, SP – Prerequisite: Test score requirement the same as ENC 1101. This course comprises a three-credit component of the Honors Program core. This course is an interdisciplinary humanities course taking a critical approach to the relationships between humans and the non-human environment. The course begins with a consideration of the Greek Pre-Socratic philosophers who initiate and generate rational theoretical models of nature. The course then offers a consideration of the beginning of western value theory by considering the life and thoughts of Socrates as articulated by Plato. After considering these ancient theoretical origins, the course focuses on a variety of contemporary texts concerned with: the history of western science, the philosophy of technology, ecology, dystrophies and various critical assessments of the nature(s) of different forms of reason. The course attempts to distinguish between instrumental and emancipatory reason. Meets A.A. general education Category V. A writing emphasis course.

IDH 2109 Summer Study at Cambridge University. 6 c.c.

SU – Prerequisites: Completion of nine credits of core courses in the Honors Program. This is an interdisciplinary humanities course that students will take at Cambridge University International Summer School in England. Students will choose two courses in literature, art, music, theater, international relations, or cultural studies. In addition, they will attend daily plenary lectures given by various international scholars. Specific course outlines are available for every course that students will take in conjunction with Honors History from the French Revolution to World War I as part of the Honors core curriculum. Meets A.A. general education Category II. A writing emphasis course.

IDH 2402 The American Dream: History Honors. 3 c.c.

FA, SP – Prerequisite: Test score requirement the same as ENC 1101. This course comprises a three-credit component of the Honors Program core. This course focuses on historical constructions of race and identity for blacks living in America. The African-American history sections explore the meanings of freedom, justice and democracy in a nation that held these ideals to be tantamount to its foundation. Meets A.A. general education Category IV. A writing emphasis course.

IDH 2450 Modern European Cultural History Honors. 3 c.c.

FA, SP – Prerequisite: Test score requirement the same as ENC 1101. This course comprises a three-credit component of the Honors Program core. This course highlights events and movements leading to an understanding of the background of the 20th century. The course begins with the French Revolution and concludes with the First World War. In addition to specific historical events, concentration will include nationalism, the arts, international relations, industrialization, and science. Meets A.A. general education Category IV. A writing emphasis course.

IDH 2614 Literature in the Modern World Honors. 3 c.c.

FA, SP – Prerequisite: ENC 1102. This course explores the origins of modernity in the Western World as reflected in literary selections ranging over the historical period from the French Revolution to the beginning of World War I. Varied literary selections will touch upon issues that define the modern consciousness, including industrialization, urbanization, science, religion, revolution, and social reform. The course will be offered in conjunction with Honors History from the French Revolution to World War I as part of the Honors core curriculum. Meets A.A. general education Category II. A writing emphasis course.

INR 2002 Introduction to International Relations. 3 c.c.

TBA – Corequisite: ENC 1101. The student who successfully completes this course will develop a framework for the logical analysis of international politics. By combining the study of historical events of international importance and the study of various theories of international behavior, the student will develop an ability to evaluate and comprehend current world events. This course will address: the structure of the nation-state system; the motivations, interests and interactions of the various actors; the cultural and structural effects on decision-making and crises management; and, the various ways in which we can think about international relations. The student should gain a better appreciation for and a deeper comprehension of the variety and complexity of the behavior of states and the system which governs international relations today. Meets A.A. general education Category IV. A writing emphasis course.

IPM 1011 Pests and Pest Control. 2 c.c.

FA – A.A.S. only. Corequisite: IPM 1011L. This course is designed to provide information on identification and control of plant diseases, insects and weeds in woody ornamentals. Information on fungicides, bactericides, insecticides, nematicides, herbicides, EPA regulations and training for state licensing will be included.

IPM 1011L Pests and Pest Control Laboratory. 1 c.c.

FA – A.A.S. only. Corequisite: IPM 1011. A course designed to provide experience in recognition, identification and control of plant pests. Study and use of equipment and chemicals for their prevention and control. Students are expected to participate in use of chemicals and spray equipment. Occasional field trips are required.

ITA 1120 Beginning Italian I. 4 c.c.

FA – Fundamentals of grammar, drill in pronunciation, reading and special emphasis on oral expression in the language. This course includes four credits of classroom instruction which may be augmented by study in the Foreign Language Laboratory. If you have had two consecutive years of Italian in high school, it is strongly advised you begin in ITA 1121.

ITA 1121 Beginning Italian II. 4 c.c.

SP – Prerequisite: ITA 1120. Not for beginners. The course includes four credits of classroom instruction which may be augmented by study in the Foreign Language Laboratory. Emphasis will be placed upon speaking and comprehension as well as culture. If you have had two consecutive years of Italian in high school, it is strongly advised you begin in ITA 1121. Meets A.A. general education Category V.

ITA 2200 Intermediate Italian I. 3 c.c.

FA – Prerequisite: ITA 1121 or two years of high school Italian. Development of ability to read with comprehension material dealing with Italian civilization (especially Renaissance), literature, and cultural history. Class discussion, complete review of grammar, practice in composition.

| JOU 1400  | College Publications.                                               | 1       | Test score requirement the same as ENC 1101. Introduces the student to the        |
|            |                                                                     |         | practical world of print journalism. The course surveys news and feature writing,  |
|            |                                                                     |         | headline writing, and legal concerns (libel, privacy). Students electing to     |
|            |                                                                     |         | take a course a second time work on special projects. A writing emphasis course.  |
| JOU 2941  | Journalism Practicum.                                               | 1       | Internship with the Pensacola News Journal or other area publication or agency.   |
|            |                                                                     |         | Student works in the newsroom and is supervised by editors. The publication (or  |
|            |                                                                     |         | agency), the college, and the student arrange work schedules.                    |
| LAT 1120  | Beginning Latin I.                                                  | 4       | This course will introduce the student to the fundamentals of Latin grammar and   |
|            |                                                                     |         | vocabulary, and enable the student to translate fairly simple Latin passages. If  |
|            |                                                                     |         | you have had two consecutive years of Latin in high school, it is strongly advised |
|            |                                                                     |         | you begin in LAT 1121.                                                           |
| LAT 1121  | Beginning Latin II.                                                 | 4       | Not for beginners. This course will provide the student with an introduction to  |
|            |                                                                     |         | Roman and Greek writers via Latin translations of their works. It will also provide |
|            |                                                                     |         | the student with an in-depth look at the culture and history of the classical      |
|            |                                                                     |         | world. If you have had two consecutive years of Latin in high school, it is       |
|            |                                                                     |         | strongly advised you begin in LAT 1121. Meets A.A. general education Category V.  |
| LAT 2200  | Intermediate Latin I.                                               | 3       | This course will concentrate on reading Latin authors (primarily Caesar). The       |
|            |                                                                     |         | translations will be prose and the appropriate grammar and vocabulary necessary    |
|            |                                                                     |         | for the translation of the Latin works will be covered. The course will also      |
|            |                                                                     |         | involve a brief look at the culture and history of the Romans of the first century|
|            |                                                                     |         | B.C. Meets A.A. general education Category V.                                     |
|            |                                                                     |         | The student will translate Latin prose and poetry and be expected to know pertinent|
|            |                                                                     |         | information regarding the authors of those prose and poetry works.               |
| LEI 1141  | Introduction to Recreation and Leisure Services.                    | 3       | An exploratory course primarily designed to serve those students curious about or  |
|            |                                                                     |         | committed to Leisure Services as a major. Considers historical and philosophical   |
|            |                                                                     |         | foundations and interpretations of the meaning of leisure as well as a practical   |
|            |                                                                     |         | examination of status and crucial issues. Served well also are students seeking a  |
|            |                                                                     |         | personal perspective on the value and place of leisure in their lives.             |
| LEI 1541  | Outdoor Recreation Management.                                       | 3       | An orientation and participation course designed for those students who plan to   |
|            |                                                                     |         | pursue a career in Recreation and Leisure Services. Course includes outdoor activity|
|            |                                                                     |         | planning, conservation, nature activities, safety and hazard procedures and        |
|            |                                                                     |         | outdoor facility management. Field observation is included as a part of the course. |
| LEI 2750  | Adaptive/Therapeutic Recreation.                                     | 3       | This course is designed to develop the beginning-level knowledge and skills of      |
|            |                                                                     |         | students who aspire to meet individual needs in sport, recreation or rehabilitation|
|            |                                                                     |         | settings. It covers the rapidly expanding knowledge base of adaptive physical      |
|            |                                                                     |         | activity as a profession.                                                         |
| LIN 1670c | Traditional English Grammar and Composition.                        | 3       | Appropriate score on Florida Entry-Level Placement Exam or ENC 0002C. A comprehensive |
|            |                                                                     |         | course including grammar usage and mechanics, basic sentence structure, effective  |
|            |                                                                     |         | paragraph writing, and introduction to the essay.                                 |
| LIS 1001  | Use of Library Materials.                                           | 1       | An independent study course that teaches the methods of library research and the   |
|            |                                                                     |         | use of basic reference materials and online catalogs. There are no formal classes; |
|            |                                                                     |         | the student works at his or her own rate of speed during regular library hours.   |
|            |                                                                     |         | Students may register throughout the term.                                       |
| LIS 1004  | Introduction to Internet Research.                                   | 1       | Provides an introduction to Internet search concepts and vocabulary. Emphasis is   |
|            |                                                                     |         | on using a variety of search terms and techniques employed in library research to  |
|            |                                                                     |         | access information sites on the Internet. Lessons cover history of the Internet;   |
|            |                                                                     |         | electronic communication; research strategies covering topic decision making using  |
|            |                                                                     |         | a variety of search statements, refining searches using Boolean terms, phrase,     |
|            |                                                                     |         | proximity, truncation and field searching; web search tools; evaluating websites    |
|            |                                                                     |         | and documentation of websites using Modern Language Association (MLA) standards.    |
|            |                                                                     |         | Course meets A.A. computer competence requirement.                                 |
| LIT 2090  | Contemporary Literature.                                            | 3       | This course will introduce the student to the fundamentals of Latin grammar and   |
|            |                                                                     |         | vocabulary, and enable the student to translate fairly simple Latin passages. If  |
|            |                                                                     |         | you have had two consecutive years of Latin in high school, it is strongly advised |
|            |                                                                     |         | you begin in LIT 1101. Meets A.A. general education Category II. A writing       |
| LIT 2100  | World Literature.                                                   | 3       | This course will introduce the student to the fundamentals of Latin grammar and   |
|            |                                                                     |         | vocabulary, and enable the student to translate fairly simple Latin passages. If  |
|            |                                                                     |         | you have had two consecutive years of Latin in high school, it is strongly advised |
|            |                                                                     |         | you begin in LIT 1101. Meets A.A. general education Category II. A writing       |
| LIT 2110  | World Literature to 1650.                                           | 3       | This course will introduce the student to the fundamentals of Latin grammar and   |
|            |                                                                     |         | vocabulary, and enable the student to translate fairly simple Latin passages. If  |
|            |                                                                     |         | you have had two consecutive years of Latin in high school, it is strongly advised |
|            |                                                                     |         | you begin in LIT 1101. Meets A.A. general education Category II. A writing       |
| LIT 2120  | World Literature from 1650.                                         | 3       | This course will introduce the student to the fundamentals of Latin grammar and   |
|            |                                                                     |         | vocabulary, and enable the student to translate fairly simple Latin passages. If  |
|            |                                                                     |         | you have had two consecutive years of Latin in high school, it is strongly advised |
|            |                                                                     |         | you begin in LIT 1101. Meets A.A. general education Category II. A writing       |
| LIT 2933  | Special Topics in Literature.                                       | 3       | Provides an introduction to Internet search concepts and vocabulary. Emphasis is   |
|            |                                                                     |         | on using a variety of search terms and techniques employed in library research to  |
|            |                                                                     |         | access information sites on the Internet. Lessons cover history of the Internet;   |
|            |                                                                     |         | electronic communication; research strategies covering topic decision making using  |
|            |                                                                     |         | a variety of search statements, refining searches using Boolean terms, phrase,     |
|            |                                                                     |         | proximity, truncation and field searching; web search tools; evaluating websites    |
|            |                                                                     |         | and documentation of websites using Modern Language Association (MLA) standards.    |
|            |                                                                     |         | Course meets A.A. computer competence requirement.                                 |
| MAC 1105  | College Algebra.                                                    | 3       | This course covers the following topics: functions and functional notation;       |
|            |                                                                     |         | domains and ranges of functions; graphs of functions and relations; operations on  |
|            |                                                                     |         | functions; inverse functions; linear, quadratic, and rational functions; absolute  |
|            |                                                                     |         | value and radical functions; exponential and logarithmic properties, functions, and  |
|            |                                                                     |         | equations; systems of equations and inequalities, applications (such as curve      |
|            |                                                                     |         | fitting, modeling, optimization, exponential and logarithmic growth and decay.)    |
|            |                                                                     |         | Course meets A.A. general education Category III.                                 |
MAC 1114 Plane Trigonometry. 3 c.c.
FA, SP, SU – Prerequisite: Completion of MAC 1105 with a grade of "C" or better or permission of the instructor. This is a basic course designed to prepare the student for more advanced mathematics. The course treats both circular and trigonometric functions. Topics covered include fundamental concepts, identities, graphs of the functions, inverse functions and their graphs, application to right and oblique triangles, trigonometric equations, vectors, and complex numbers. Meets A.A. general education Category III.

MAC 1140 Precalculus Algebra. 3 c.c.
FA, SP, SU – Prerequisite: Completion of MAC 1105 with a grade of "C" or better. This course furthers the preparation of students in important areas such as graphing techniques, algebraic functions, and transcendental functions. Special emphasis is given to the algebra needed in calculus. Calculators are used to contribute to the goals of the course. Meets A.A. general education Category III.

MAC 1147 Precalculus Algebra/Trigonometry. 4 c.c.
FA, SP, SU – Prerequisites: Completion of MAC 1105 with a grade of "C" or better and high school trigonometry. This course furthers the preparation of students in important areas such as graphing techniques, algebraic functions, trigonometry functions and transcendental functions. Special emphasis is given to the algebra needed in calculus. Calculators are used to contribute to the goals of the course. Meets A.A. general education Category III.

MAC 2233 Calculus with Business Applications. 3 c.c.
FA, SP, SU – Prerequisite: Completion of MAC 1105 with a grade of "C" or better. Designed for the business major. Topics include graphing techniques, differential calculus, exponential and logarithmic functions, with applications to supply and demand curves, cost functions, revenue and profit functions, market equilibrium, taxation, and elasticity. Meets A.A. general education Category III.

MAC 2311 Analytic Geometry and Calculus I. 4 c.c.
FA, SP, SU – Prerequisites: Completion of MAC 1144 and MAC 1105 or MAC 1147 with a grade of "C" or better. This course consists of elements of plane analytic geometry, differentiation of algebraic functions and integration of the polynomial functions with application. Meets A.A. general education Category III.

MAC 2311H Analytic Geometry and Calculus I Honors. 4 c.c.
FA, SP, SU – Prerequisites: Completion of MAC 1114 and MAC 1140 or MAC 1147 with a grade of "C" or better. This course consists of elements of plane analytic geometry, differentiation of algebraic, trigonometric, exponential, and logarithmic functions, and integration of polynomial, exponential, logarithmic functions, historical development of Calculus, in-depth applications and use of technology, and proofs of theorems. Meets A.A. general education Category III.

MAC 2312 Analytic Geometry and Calculus II. 4 c.c.
FA, SP, SU – Prerequisite: Completion of MAC 2311 with a grade of "C" or better. A course including differentiation and integration of the trigonometric, logarithmic, and exponential functions; integration by algebraic and trigonometric substitutions, partial fractions, and parts, vectors, and polar coordinates. Meets A.A. general education Category III.

MAC 2313 Analytic Geometry and Calculus III. 4 c.c.
FA, SP, SU – Prerequisite: Completion of MAC 2312 with a grade of "C" or better. This course includes a study of vectors, solid analytic geometry, infinite series, partial differentiation and multiple integrals. Meets A.A. general education Category III.

MAN 2021 Principles of Management. 3 c.c.
FA, SP, SU – The basic principles of planning, organizing, and controlling operations in the process of management. Emphasis is directed toward the development on the part of the student of soundly coordinated managerial philosophy.

MAP 2302 Differential Equations. 3 c.c.
SP – Prerequisite or Corequisite: MAC 2313. A course in ordinary differential equations. It includes solutions to first and higher order differential equations, series solutions of linear differential equations, graphical and numerical methods, and an introduction to the La Place Transform. Meets A.A. general education Category III.

MAR 2011 Marketing. 3 c.c.
FA, SP, SU – The analysis of the potential target market, the marketing mix in relation to its market, channels of distribution, sales promotion, and marketing management.

MAT 0002C College Preparatory Mathematics. 3 c.p.
FA, SP, SU – Prerequisite: Appropriate score on Florida Entry-Level Placement Exam. A mathematics skills course designed for the student who needs to develop basic arithmetic, geometry, and pre-algebra skills.

MAT 0024C College Preparatory Algebra. 3 c.p.
FA, SP, SU – Prerequisite: Appropriate score on Florida Entry-Level Placement Exam or completion of MAT 0024C with a grade of "C" or better. This course covers the following topics: factoring, algebraic fractions, radicals and rational exponents, complex numbers, quadratic equations, rational equations, linear equations, and inequalities in two variables and their graphs, systems of linear equations and inequalities introduction to functions, and applications of the above topics.

MCB 1000 Applied Microbiology. 3 c.c.
FA, SP, SU – Corequisite: MCB 1000L. This course consists of the study of the characteristics and activities of microorganisms; survey of microbial groups with emphasis on pathogenic forms; theories of destruction, removal and inhibition of microorganisms; relationships between infection, immunity, and allergy. While the course is recommended for student nurses and dental hygienists, students in other programs will be admitted.

MCB 1000L Applied Microbiology Laboratory. 1 c.c.
FA, SP, SU – Lab fee. Corequisite: MCB 1000. Students will study microorganisms to develop an understanding of how they interact with man.

MCB 1060 Food Microbiology. 3 c.c.
FA – Corequisite: MCB 1060L. This course offers detailed examination of the principles of food microbiology and their application to current food technology. Additional topics covered are food and enzymes produced by microorganisms, food in relation to disease, food sanitation control and inspection and the Food Additives Amendment of the Federal Food, Drug, and Cosmetic Act.

MCB 1060L Food Microbiology Laboratory. 1 c.c.
FA – Lab fee. Corequisite: MCB 1060L. This course is designed to accompany MCB 1060. Aspects of technique and the culturing of microorganisms are presented. Various techniques for culturing foods, performing food counts, preparing food using microorganisms, and sampling the environment for microorganisms are presented.

MCB 2013 General Microbiology. 2 c.c.
SP – Prerequisites: BSC 2010, CHM 1045. Corequisite: MCB 2013L. A study of the taxonomy, morphology, and physiology of bacteria and related organisms, with a brief introduction to pathology, immunology, and food microbiology. Recommended for majors and students in certain four-year medically related programs.

MCB 2013L General Microbiology Laboratory. 2 c.c.
SP – Lab fee. Corequisite: MCB 2013L. A laboratory course designed to accompany MCB 2013. Laboratory work includes stains and techniques used to culture and identify microorganisms, techniques in biotechnology and studies in pathogenesis and disease transmission.

MEA 0200C Medical Assisting Theory and Practice I. 3 c.v.
SU – Lab fee. Prerequisite: MEA 0222C. Corequisite: MEA 0201C. This course teaches operation and maintenance of clinical equipment for patient examination and treatment. The learner will practice a variety of skills necessary in assisting the physician in providing patient care. Ethical and theoretical principles will be presented insuring quality and safe practice.
MEA 0201C. Medical Assisting Theory and Practice Clinical.

**SU – Lab fee. Prerequisite:** MEA 0222C. **Corequisite:** MEA 0200C. This course teaches methods of securing specimens and performing diagnostic tests. In time of emergency, the learner will be able to initiate appropriate first aid and act in a responsible manner. This student also will administer medication safely under the direction of the physician in charge and assess the patient’s response to the medication and its intended effect on the body.

MEA 0222C Medical Assisting Theory and Practice I.

**SP – Prerequisites:** BSC 0084, MEA 0230. **Corequisite:** MEA 0232 or OTA 0605C. This course introduces the student to the basic principles of clinical practice in the physician’s office. Includes aseptic technique, maintaining of the clinical setting, and principles of psychology.

MEA 0230 Medical Terminology with Anatomy and Physiology.

**3 v.c.**

**FA** – This course gives the student a thorough working knowledge of anatomy and physiology of the human body in health and disease on which the terms are based. Medical terms are analyzed in detail as to the meaning of their component parts. Pronouncing, spelling, and defining are emphasized. The names and locations of body structures and the functions of each structure are correlated with the terms. A basic understanding of the etiology, symptomatology, diagnosis, and treatment of disease is included.

MEA 0232 Pharmacology Terminology.

**3 v.c.**

**SP – Prerequisites:** BSC 0084, MEA 0230. Teaches the student pronunciation, spelling, actions, and side effects of the most commonly prescribed drugs by generic and trade names, and the interpretation of pharmacological terms, abbreviations, and symbols. The student learns to read and write prescriptions, under the physician’s direction and to use current references works quickly and efficiently. The student learns the basic concepts of drug administration. The course includes an overview of the historical development of pharmacology and drug legislation as it relates to Medical Assisting.

MEA 0274 Medical Insurance and Coding.

**2 v.c.**

**SP – Prerequisites:** MEA 0230. This course covers the purpose of medical insurance, the variety of plans, the payment of benefits, the abstracting of medical information from charts, the processing of claims, and coding for insurance purposes. Extensive practice in preparing and filing insurance forms is provided. The student learns to transcribe from verbal and written descriptions of diagnoses, injuries, and medical procedures into internationally standardized numerical designations for third party payers.

MEA 0382 Medical Law and Ethics.

**2 v.c.**

**FA** – An entry-level course designed to familiarize the student with the legal and ethical responsibilities of the medical assistant as an agent of the physician while employed. Emphasis is placed on licensure, registration, certification, professional liability, and legislative acts governing medicine. Also, ethical issues related to professional conduct are discussed.

MEA 0801L Medical Assisting Preceptorship.

**6 v.c.**

**SU – Prerequisite:** MEA 0201C. On-the-job training is designed to give the student work experience in a medical agency or physician’s office. The experience allows the student to practice skills learned in the classroom, to build confidence, to adjust to a work environment, and to increase opportunities for employment in a medical field.

MEA 1242 Pharmacology Terminology.

**3 c.c.**

**FA – A.A.S. only. Corequisite:** OST 1257. This course teaches the student the pronunciation, spelling, actions, and side effects of the most commonly prescribed drugs and the interpretation of pharmacological terms, abbreviations, and symbols used in prescription writing.

MET 1010 Introduction to Meteorology.

**3 c.c.**

**FA, SP** – An introduction to the atmosphere, its structure, composition and processes. Major topics will include atmospheric structure and composition, heating and cooling, temperature, pressure and winds, weather systems and climate. Meets A.A. general education Category VII.

MGF 1106 Mathematics for Liberal Arts I.

**3 c.c.**

**FA, SP – SU – Prerequisite:** Appropriate score on Florida Entry-Level Placement Exam or completion of MAT 1033 with a grade of “C” or better. This course consists of the following topics: set theory, symbolic logic, introductory combinatorics, probability, descriptive statistics, number theory, linear programming and geometry with applications, history of mathematics, and algebra applications. Meets A.A. general education Category III.

MGF 1107 Mathematics for Liberal Arts II.

**3 c.c.**

**FA, SP, SU – Prerequisite:** Appropriate score on Florida Entry-Level Placement Exam or completion of MAT 1033 with a grade of “C” or better. This course consists of the following topics: financial mathematics, linear and exponential growth, numbers and number systems, history of mathematics, elementary number theory, voting techniques, graph theory and society. Meets A.A. general education Category III.

MGF 1118 Essential Math Skills.

**1 c.c.**

**FA, SP, SU – Prerequisite:** Appropriate score on Florida Entry-Level Placement Exam or completion of MAT 1033 with a grade of “C” or better. This course is designed to meet the needs of college students who must attain acceptable performance levels with regard to a specific set of required competencies in mathematics. The Florida Legislature has mandated that students achieve this mastery by the end of their sophomore year. The mathematics competencies include arithmetic, logic, algebra, geometry, probability, and statistics. This course covers all CLAST topics. Meets A.A. general education Category III.

MKA 1021 Salesmanship.

**3 c.c.**

**SP – A.A.S. only.** Principles and problems in personal selling relating to prospecting, preapproach, demonstration, meeting objections, and closing. Correct attitudes and personal attributes of one who deals with the public on a business or professional basis.

MKA 2511 Advertising.

**3 c.c.**

**FA, SP – A.A.S. only.** A study of the basic promotional objective, advertising markets, the product to be advertised, media, and the composition of the advertisement.

MLT 0042 Phlebotomy.

**2 v.c.**

**FA, SP – Lab fee.** This course will train participants to obtain blood specimens from adults, children, and neonates by venipuncture or capillary puncture. Skills and concepts taught include the basic principles of clinical practice in the physician’s office. Includes aseptic technique, maintaining of the clinical setting, and principles of psychology.

MLT 0042.1 Phlebotomy Clinical.

**4 v.c.**

**FA, SP – Lab fee. Prerequisite:** MLT 0042. This course provides 90 hours of clinical experience in a patient care environment. Students will perform a minimum of 50 successful unaided phlebotomies. Students will be exposed to a variety of patients and a variety of collection techniques, including capillary and skin puncture methods.

**3 c.c.**

**FA, SP** – This course covers the history and development of mass media in the U.S. and how those media affect society. Media covered include newspapers, magazines, radio, television, and film along with a study of the impact of advertising and public relations.
MSS 0253C Massage Therapy I. 4 v.c.  
- This course teaches the first-time supervisor the skills that are applicable to any job position that has contact with customers. Included in the topics of the course are the subjects of communication, customer service, handling complaints and customer relations.

MSS 0001 Introduction to Massage Therapy. 3 c.c.  
- This laboratory is an extension of MSS 2101. It provides hands-on experience in the practical application of the classroom material.
MUN 1120C Band. 1 c.c.  
FA, SP – Prerequisite: Permission of band director. Open to all qualified instrumental students enrolled in the college. The credit received for participation, however, is in addition to the normal academic load. Required for all wind and percussion music majors unless otherwise specified by the director. This course may be repeated three times for credit.

MUN 1180C Pensacola Civic Band. 1 c.c.  
FA, SP, SU – Open to all qualified wind and percussion players who may also be members of MUN 1120C (other interested students should see the instructor prior to registering). This course may be repeated once for credit.

MUN 1310C Concert Chorale. 1 c.c.  
FA, SP – The PJC Concert Chorale is a mixed voice (SATB) chorus presenting concert performances of choral masterworks. A wide variety of musical styles centered around the classical repertoire and including popular, ethnic and theatre works performed a capella, with keyboard and orchestra. A well rounded musical experience for the choral student. While most works are performed in English, students will also gain experience singing in the major foreign languages. Students additionally benefit from vocal and sight reading instruction incorporated into the regular rehearsals. A formal public concert is presented at the end of the fall and spring terms with other concerts, workshops outreach and touring activities scheduled on an ongoing basis. As the premier student chorus at PJC, membership is a prerequisite for other smaller choral ensembles. Auditions for entrance and placement are held during the first and last week of the fall and spring terms. This course may be repeated three times for credit.

MUN 1380C Choral Society. 1 c.c.  
FA, SP – A community organization devoted to the performance of major choral works. This course may be repeated once for credit. By audition only.

MUN 1410C String Ensemble. 1 c.c.  
FA, SP – An approach to ensemble singing or playing is available in several applied music areas. Course is open to all students with the permission of the instructor. Composition of the organization is dependent upon available talent. This course may be repeated three times for credit.

MUN 1420C – MUN 1480C Music Ensemble. 1 c.c.  
FA, SP – An approach to ensemble singing or playing is available in several applied music areas. Course is open to all students with the permission of the instructor. Composition of the organization is dependent upon available talent. This course may be repeated three times for credit.

MUN 1450C Piano Ensemble. 1 c.c.  
FA, SP – An approach to ensemble singing or playing is available in several applied music areas. Course is open to all students with the permission of the instructor. Composition of the organization is dependent upon available talent. This course may be repeated three times for credit.

MUN 1710C Jazz Ensemble. 1 c.c.  
FA, SP – An approach to ensemble singing or playing is available in several applied music areas. Course is open to all students with the permission of the instructor. Composition of the organization is dependent upon available talent. To repeat for credit, see the Music and Theatre department head.

MUN 1720C Jazz Choir. 1 c.c.  
FA, SP – Corequisite: MUN 1310C. A select ensemble of 12-16 of the finest student singers, open to all student singers in the a capella choir repertoire with an emphasis on jazz “tight harmony” arrangements, Broadway and doo-wop.

MUO 2501C Opera Workshop. 1 c.c.  
SP – Participation in the preparation and performance of musical stage production. The student will perform a role as a principal or as a chorus member. The student may also work back stage in the construction of scenery, setting of lights, and/or operation of sound equipment. This course may be repeated three times for credit.

MUS 1360 Music and Computers. 3 c.c.  
FA, SP, SU – Lab fee. Prerequisite: MUN 1001 or student must understand music. A course to introduce music students to the abilities of the computer and of MIDI with primary emphasis on entering, performing, and printing music through the program FINALE. Students will also be introduced to tutorials, databases, word processing, and the Internet. Meets A.A. computer competence requirement.

MUT 1001 Fundamentals of Music. 3 c.c.  
FA, SP, SU – For students who wish to learn the mechanics of music but who have little or no background. Presentation of basic principles of music notation, rhythm, scales, key signatures, and terminology. Also a preparation course for students who wish to major in music.

MUT 1121 Integrated Music Theory I. 3 c.c.  
FA – Prerequisite: MUT 1001 or passing score on departmental music fundamentals test, or permission of department head. The fundamentals of musicianship approached through visual and aural analysis, notation, scales and intervals, and formation of triads, leading to a study of harmony and nonharmonicism. Elementary exercises in reading at sight and writing from dictation.

MUT 1122 Integrated Music Theory II. 3 c.c.  
SP – Prerequisite: MUT 1121 or permission of department head. A continuation of MUT 1121. Modulation to closely related keys; chords of the seventh. Further exercises in reading and writing for dictation.

MUT 2126 Integrated Music Theory III. 3 c.c.  
SP – Prerequisite: MUT 2126 or permission of department head. A continuation of MUT 2126. A brief introduction to two part counterpoint instrumentation and modern composition with emphasis on completing the study of composition of the 18th and 19th centuries. Analysis of music of the 19th and 20th centuries. Advanced problems in chromatic, sight reading and dictation.

MUT 2127 Integrated Music Theory IV. 3 c.c.  
SP – Prerequisite: MUT 2126 or permission of department head. A continuation of MUT 2127. A brief introduction to twopart counterpoint instrumentation and modern composition with emphasis on completing the study of composition of the 18th and 19th centuries. Analysis of music of the 19th and 20th centuries. Advanced problems in chromatic, sight reading and dictation.
MVS 1116 Beginning Guitar Class. 1 c.c.
FA, SP, SU – Lab fee. This course is for beginners in their respective performance areas.

NUR 1021C Nursing Process I. 11 c.c.
FA, SP – Lab fee. Prerequisites: Acceptance into the RN program, BSC 1094, ENC 1101, HUN 1201, MAC 1105 or MGF 1106 or above, CPR card. Corequisite: DEP 2003. Introductory course for nursing curriculum focusing on health promotion, health maintenance and nursing management of adults with commonly occurring altered health states in both community and acute care settings.

NUR 1221C Nursing Process III. 11 c.c.

NUR 1460C Nursing Process II. 9 c.c.
FA, SP – Lab fee. Prerequisites: NUR 1021C. Corequisite: SYG 2000. Expands focus on health promotion, health maintenance, and nursing management of commonly occurring altered health states to children and family groups in acute care settings and in the community.

NUR 2223C Nursing Process IV. 7 c.c.
SP, SU – Lab fee. Prerequisites: NUR 2221C. Humanities elective. Students gain nursing knowledge and clinical experience in managing nursing care for clients with chronic or progressive and irreversible alterations in health states in learning environments of acute care, rehabilitation and community sites.

NUR 2701C Career Mobility Nursing Concepts. 2 c.c.
FA – Prerequisites: Acceptance to Career Mobility, BSC 1094, DEP 2003, ENC 1101, HUN 1201. This course presents areas included in the associate degree nursing program first year that are not in the curriculum for a practical nurse. The theory portion includes a review of patient assessment, the nursing process, fluid and electrolytes, issues in role transition, and critical thinking as it applies to the practice of nursing. The lab portion presents information on intravenous therapy, nasogastric intubation, and oncologic chemotherapeutic agents. Basic skills, including hand washing, sterile dressing change, administration of intramuscular injections, and blood glucose measurement, are assessed. Students will demonstrate understanding of assessment and the nursing process by writing a nursing care plan. Peer interview and interpersonal process recording are included in campus laboratory sessions.

NUR 2811L Transitional Practice/Preceptorship. 4 c.c.
SP, SU – Prerequisite: NUR 2223C. Culminating clinical course focused on promoting student transition from student role to graduate nurse. Multiple client assignments in acute care settings with RN preceptors assisting faculty in supervision and evaluation of student preceptors. Management of care for groups of clients and leadership functions with other health care team members are emphasized.

OCE 1001 Oceanography. 3 c.c.
FA, SU – Corequisite: OCB 1003L. A study of the biology of marine waters, with emphasis on the physical, chemical, geological, and ecological factors that influence biological populations in the sea. Emphasis on the observation and taxonomy of the biota of local marine and estuarine waters. Meets A.A. general education Category VI.

OCE 1001L Oceanography Laboratory. 1 c.c.
FA, SU – Lab fee. Corequisite: OCE 1001. Basic oceanography laboratory, covering the experimental or hands-on aspects of bathymetry, water chemistry, and physical oceanography. Meets A.A. general education Category VII.

ORH 1206 Greenhouse Crop Management. 3 c.c.
SP – A.A.S. only. Corequisite: ORH 1206L. Greenhouse production and marketing of foliage and flowering house plants, holiday pot plants and bedding plants; management of various types of greenhouses and other related growing structures to include construction and repair, irrigation, fertilization, light and temperature regulation, insect and disease control. Students are expected to participate in practical exercises.

ORH 1206L Greenhouse Crop Management Laboratory. 1 c.c.
SP – A.A.S. only. Lab fee. Corequisite: ORH 1206L. A course designed to develop skills in the production of foliage and flowering house plants, holiday pot plants and bedding plants; management of various types of greenhouses and other related growing structures to include construction and repair, irrigation, fertilization, light and temperature regulation, insect and disease control. Students are expected to participate in practical exercises.

ORH 1510 Plant Materials for Landscape Use. 2 c.c.
SP – A.A.S. only. Prerequisite: BOT 1010. Corequisite: ORH 1510L. Ornamental trees, shrubs, vines and ground cover for landscape use with emphasis on their identification, characteristics, adaptability, and use. Field trips are required.

ORH 1510L Plant Materials for Landscape Use Laboratory. 1 c.c.
SP – A.A.S. only. Lab fee. Prerequisite: BOT 1010L. Corequisite: ORH 1510L. Practical experience in identification of ornamental trees, shrubs, vines and ground cover. Students will make collections of plants used in area landscapes and note usage of plants. Field trips are required.

ORH 2220 Turfgrass Management. 2 c.c.
FA – A.A.S. only. Corequisite: ORH 2220L. A basic course in the establishment and maintenance of turfgrass areas. Considers soils, fertility, drainage, grasses and mixtures, maintenance and pest control; includes use of turfgrasses in residential and institutional lawns, athletic fields, and golf courses.

ORH 2220L Turfgrass Management Laboratory. 1 c.c.
FA – A.A.S. only. Lab fee. Corequisite: ORH 2220L. A practical course to develop student skills in identification of turfgrass species and the skills required to establish and maintain turf according to the various requirements of turf management. Several field trips will be taken to local golf courses, residential and institutional lawns. Students are expected to participate in practical exercises.

ORH 2800C Landscape Design. 3 c.c.
SU – A.A.S. only. Lab fee. Students practice analysis of landscape design, emphasizing residential and commercial properties.

ORH 2820C Landscape Irrigation. 3 c.c.
SU – A.A.S. only. Lab fee. The study of the design, operation and maintenance of modern irrigation systems including water requirements, supply and distribution.

ORH 2859 Landscape Management. 3 c.c.
SP – A.A.S. only. Corequisite: ORH 1510. Corequisite: ORH 2859L. Course centers on the management of landscapes including turf, annuals, vines, shrubs and trees. Course includes water, fertilizers, mowing, pruning and shaping. The course will address homeowner, commercial and sports complex management.

ORH 2859L Landscape Management Laboratory. 1 c.c.
SP – A.A.S. only. Lab fee. Prerequisite: ORH 1510. Corequisite: ORH 2859L. Course centers on the management of landscapes including turf, annuals, vines, shrubs and trees. Experience in water, fertilizer, mowing, pruning and shaping included. Includes home owner, commercial and sports complex management. Field trips required.

ORH 2862 Landscape Project Management. 3 c.c.
SU – A.A.S. only. Basic concepts of managing landscape projects to include estimating labor, supplies, equipment use and cash flow.

ORI 2000 Introduction to Oral Interpretation. 3 c.c.
FA, SP – A course that teaches the aesthetics and performance of selections of literature. Students practice oral reading of prose and poetry and group interpretation of various works. Meets A.A. oral communications requirement.

OST 1100 Keyboarding I. 3 c.c.
FA, SP, SU – Lab fee. This course includes practice in keyboard control; developing speed and accuracy; and typing reports, tables, and business letters. (Open-entry, open-exit.)
OST 1110 Keyboarding II. 3 c.c.
FA, SP, SU – Lab fee. Prerequisite: OST 1100. This course includes continued emphasis on building keyboarding speed and accuracy, developing communication skills, and refining the technical aspects of formatting acceptable business correspondence. Work on tables, letters, memos, reports, and forms will result in a more efficient production level. (Open-entry, open-exit.)

OST 1146 Basic Keyboarding. 1 c.c.
FA, SP, SU – Lab fee. This course includes practice in keyboard control for inputting information (words, numbers, and symbols) into electronic information processing systems. (Open-entry, open-exit.)

OST 1257 Interpretation of Medical Information. 3 c.c.
FA – A.A.S. only. Corequisite: MEA 1242. This course is designed to give the student knowledge of general medical terminology encountered in secretarial occupations within medical offices. Emphasis is on correct spelling, definitions, and pronunciation with application activities completed on the computer.

OST 1355 Records Management. 3 c.c.
FA, SP – A.A.S. only. This is a study of record systems, fundamentals of indexing and filing rules, procedures, the five methods (alphabetical, numeric, geographic, subject, and chronological) microrecords, and the selection of filing equipment and supplies.

OST 1461 Medical Office Practice. 3 c.c.
SP – A.A.S. only. Lab fee. Prerequisites: ENC 1101, OST 1100, OST 1257. Corequisites: OST 1611, OST 2135. This course familiarizes the student with the daily activities of a physician's office and provides actual practice in scheduling appointments, answering the telephone, processing the mail, maintaining the medical records, billing and collecting, ordering supplies, and performing office management procedures.

OST 1464 Computerized Medical Office Systems. 3 c.c.
FA – A.A.S. only. Lab fee. Prerequisite: OST 1461. This course is designed to provide students with practical experience on computerized applications in a medical office, patient record keeping, billing and accounting, insurance and coding, third party reimbursements, and appointment scheduling.

OST 1611 Medical Transcription I. 3 c.c.
SP – A.A.S. only. Lab fee. Prerequisites: ENC 1101, OST 1257. Corequisite: OST 2135. This course is designed to improve typewriting skills and give the student a working knowledge of transcription equipment. Skill is gained in transcribing accurately all type of medical dictation with special emphasis on accuracy, medical terminology, confidentiality and mailable work.

OST 1612 Medical Transcription II. 3 c.c.
FA – A.A.S. only. Lab fee. Prerequisite: OST 1611. This course is a continuation of Medical Transcription I.

OST 1613 Medical Transcription III. 3 c.c.
SP – A.A.S. only. Lab fee. Prerequisite: OST 1612. This course is a continuation of Medical Transcription II.

OST 1621 Legal Transcription I. 3 c.c.
FA – A.A.S. only. Lab fee. Prerequisite: OST 1713. This course is designed to give the student a working knowledge of computer/word processors and skills in transcribing accurately all types of legal dictation with special emphasis on accuracy, legal vocabulary, and mailable work.

OST 1622 Legal Transcription II. 3 c.c.
SP – A.A.S. only. Lab fee. Prerequisite: OST 1621. This course is designed to further develop the student's working knowledge of computer/word processors and skills in transcribing accurately all types of legal dictation with special emphasis on accuracy, legal vocabulary, and mailable work.

OST 1713 Word Processing I. 3 c.c.
FA, SP – Lab fee. Prerequisite: OST 1100 or typing speed of 30 wpm. This course is designed to enable the student to learn basic word processing concepts and procedures. Special emphasis is given to current office procedures in word processing. After the basic concepts are learned, office-related problems are produced on microcomputers.

OST 1821 Business Applications for Desktop Publishing. 3 c.c.
SP – Lab fee. This course is designed to introduce the student to desktop publishing concepts and computer graphics. The student will learn to use desktop publishing software, the scanner, and the laser printer to create a variety of professional-looking business and personal documents. It is designed for students interested in developing “hands-on” skill in using desktop publishing software.

OST 2135 Medical Typing. 3 c.c.
FA – A.A.S. only. Lab fee. Prerequisites: OST 1100, OST 1257. Corequisite: OST 1611. This course is designed to improve typewriting skills and give the student a working knowledge of documents encountered in a medical office. Skill is gained in accurately typing various medical reports, letters, and tables with an emphasis on correct format, punctuation, understanding of medical terminology, and mailable work.

OST 2258 Advanced Interpretation of Medical Information. 3 c.c.
FA – A.A.S. only. Prerequisites: MEA 1242, OST 1257. This course is designed to refine and expand the vocabulary and spelling of terminology found in medical facilities with application activities done on a computer.

OST 2402 Office Procedures. 3 c.c.
FA, SP – A.A.S. only. Prerequisite: Ability to type. It is also desirable to have had the following courses: Records Management, Human Relations, and Business Communications. This is a course for office management and secretarial majors designed to give the student to coordinate and utilize the knowledge and skills developed in previous courses.

OST 2431 Legal Office Procedures. 3 c.c.
FA – A.A.S. only. Lab fee. Corequisite: OST 1621. This course is intended to provide hands-on experience in advanced word processing applications on computers using word processing software. The students will work with macros, styles, fonts, graphics, merge documents, various sizes of paper, tables/columns, and floppy and hard disk management.

OST 2941, 2942, 2943 Office Systems Internship. 1 c.c., 2 c.c., 3 c.c.
FA, SP, SU – A.A.S. only. Prerequisite: Permission of department. This course is designed to provide students with work experience in a business office, a legal office, in a hospital or medical facility, or physician’s office. On-the-job training is designed to build confidence, to adjust to a work environment, and to increase the opportunities for employment.

OST 2947, 2948, 2949 Office Systems Co-op. 1 c.c., 2 c.c., 3 c.c.
FA, SP, SU – A.A.S. only. Prerequisite: The Cooperative Education Program is a planned, paid work experience in which students are employed in jobs directly related to their academic major. The program offers credit for each term worked (with department head approval). Students must maintain at least a 2.5 GPA and complete certain requirements before being sent on job program during each working term. Students should contact the Cooperative Education Office, Student Services Building 6, Room 610, for further information.

OTA 0101 Keyboarding. 1 v.c.
FA – Lab fee. This course provides instruction in using keyboards to enter data into microcomputers. It includes familiarization with computer keyboards and the mechanics of data entry. Correct fingering and accuracy will be emphasized. Letters, memoranda, reports, and other types of correspondence and forms will be used as teaching tools.

OTA 0483C Medical Documents. 2 v.c.
FA – Lab fee. Corequisite: OTA 0101. This course provides instruction in the preparation of medical documents. Included in this category are charts, forms, reports, letters, memoranda, and other materials generated by health care organizations.
OTA 0605C Medical Office Practice. 3 v.c.  
SP – Lab fee. Prerequisites: MEA 0230, OTA 0483C. This course familiarizes the student with the daily activities encountered in a physician's office and provides actual practice in scheduling appointments, answering the telephone, processing the mail, transcribing, maintaining the medical records, billing and collecting, ordering supplies and performing general office procedures. Human relations is emphasized throughout the course.

OTA 0612C Medical Transcription. 3 v.c.  
SP – Lab fee. Prerequisites: MEA 0230, OTA 0483C. This course is designed to improve typewriting skills and give the student a working knowledge of transcription equipment. Skill is gained in transcribing accurately many types of medical reports with emphasis on correct format, accuracy, punctuation, medical terminology, confidentiality, and mailable work.

PAZ 1050 Principles of Zoo Research. 6 c.c.  
SU – Lab fee. Prerequisite: Completion of Zoo Animal Technology A.S. Degree Program. This course will provide practical experience in conducting research in a zoological facility. Students will spend four weeks learning about and participating in the research program at an AZA-accredited facility, such as Zoo Atlanta.

PAZ 1331 Animal Care Technology I. 1 c.c.  
FA – Lab fee. Corequisite: ZOO 1010. This course provides a practical introduction to zookeeping. Topics include safety issues, emergency preparedness, a zoo orientation, animal observation skills, an introduction to sanitation, housing, and feeding of animals, identification and use of appropriate capture and restraint equipment, animal transport, instruments and measurements, identification of abnormal behavior and injuries, and legal and permit issues relevant to animal facilities.

PAZ 1561 Animal Medical Husbandry. 2 c.c.  
SP – Lab fee. Prerequisites: MAC 1105, PAZ 1330. Corequisite: PAZ 1561L. Students will work with staff veterinarians and keepers to learn about basic animal medical protocol. Focus will be on preventative maintenance regimens, capture and restraint, animal observation and problem solving, as well as maintenance and operation of hospital facilities. Course covers theoretical and administrative aspects of animal medical care.

PAZ 1561L Animal Medical Husbandry Clinic. 2 c.c.  
SP – Lab fee. Prerequisite: PAZ 1330. Corequisite: PAZ 1561L. Students will work with staff veterinarians and keepers to learn about basic animal medical protocol. Focus will be on preventative maintenance regimens, capture and restraint, animal observation and problem solving, as well as maintenance and operation of hospital facilities.

PAZ 2315 Animal Record Keeping Systems. 1 c.c.  
SP – Prerequisite: PAZ 1330. This course will cover animal record keeping in zoos. Students will learn how to keep daily records, use Animal Data Transfer forms for shipping, and use the International Species Information System ARKS program. Brief introductions to the MedARKS program for veterinary records and the SPARKS program for coordinated small population management will be included.

PAZ 2317C Visitor Relations. 1 c.c.  
FA – Lab fee. Prerequisite: PAZ 1330. This course will provide students with a basic understanding of public relations theory, and will include Red Cross Community First Aid and Safety certification (including CPR) and the preparation of animal-related educational materials and public presentations.

PAZ 2320 Herpetoculture. 3 c.c.  
SP – Prerequisite: PAZ 1330. Study of the biology, ecology, taxonomy, identification, care, maintenance and display of reptiles and amphibians.

PAZ 2322 Aviculture. 3 c.c.  
SU – Prerequisite: PAZ 1330. Study of the biology, ecology, taxonomy, identification, care, maintenance and display of birds.

PAZ 2323 Chiropteran Husbandry and Research. 2 c.c.  
SU – Lab fee. Prerequisite: Completion of Zoo Animal Technology A.S. Degree Program. This course will provide practical experience in the husbandry and management of bats in captivity, including an introduction to research methodology. Students will spend two weeks learning and participating in the functions of the Lubee Foundation, a bat conservation and research facility.

PAZ 2325 Mammmal Culture. 3 c.c.  
FA – Prerequisite: PAZ 1330. Study of the biology, ecology, taxonomy, identification, care, maintenance and display of mammals.

PAZ 2326L Elephant Husbandry and Management I. 3 c.c.  
SU – Lab fee. Prerequisite: Completion of Zoo Animal Technology A.S. Degree Program. This course will provide practical experience in the captive husbandry and management of elephants in a zoological park. Students will spend two weeks observing and participating in the operation of elephant management at an AZA-accredited zoological park. This focus is on basic elephant management terminology, management styles, and husbandry.

PAZ 2327L Elephant Husbandry and Management II. 3 c.c.  
SU – Lab fee. Prerequisites: Completion of Zoo Animal Technology A.S. Degree Program. This lecture course will provide practical experience in the captive husbandry and management of elephants in a zoological park. Students will spend two weeks observing and participating in the operation of elephant management at an AZA-accredited zoological park. This focus is on advanced aspects of elephant husbandry and management for students who have successfully completed the introductory lab and lecture courses.

PAZ 2329 Elephant Biology for Conservation Education. 2 c.c.  
SU – Lab fee. Prerequisite: Completion of Zoo Animal Technology A.S. Degree Program. This lecture course will introduce students to elephant husbandry, biology, morphology, taxonomy and physiology, and will include lectures on elephants as a flagship species for conservation in a modern zoo. The course is conducted at an AZA-accredited zoological park.

PAZ 2332 Animal Care Technology II. 5 c.c.  
SP – Lab fee. Prerequisite: PAZ 1330. This series will focus on basic zookeeper technology: including biology of animals in captivity, general maintenance of zoo and park facilities, as well as behavioral and reproductive management of representative zoo species. Students will work in rotations of bird, commissary, middle shift, and education departments throughout the spring semester. The focus this term is on learning protocols and basic zookeeping skills.

PAZ 2333 Animal Care Technology III. 5 c.c.  
FA – Lab fee. Prerequisite: PAZ 2332. This series will focus on advanced zookeeper technology: including biology of animals in captivity, general maintenance of zoo and park facilities, as well as behavioral and reproductive management of representative zoo species. Students will work in the hoofstock departments (primates/carnivores for advanced students) throughout the fall semester. The focus this term is on learning protocols rapidly, early and late shift duties, and advanced zookeeping skills.

PAZ 2334 Animal Care Technology IV. 5 c.c.  
SP – Lab fee. Prerequisite: PAZ 2333. This series will focus on basic zookeeper technology: including biology of animals in captivity, general maintenance of zoo and park facilities, as well as behavioral and reproductive management of representative zoo species. Students will work in the hoofstock and carnivore primates departments throughout the spring semester, with advanced students supervising Animal Care Technology II students as necessary. The focus this term is on demonstrating proficiency in zookeeping, non-routine areas of husbandry, and supervising volunteers and/or students.

PAZ 2350 Research in Herpetology. 2 c.c.  
SU – Lab fee. Prerequisite: Completion of Zoo Animal Technology A.S. Degree Program. An introduction to research in the field of herpetology, including finding information, developing hypotheses, planning scientific research, and data gathering and analysis. The course is conducted at a facility specializing in herpetology, such as the Kentucky Reptile Zoo.
PAZ 2351 Reptile Husbandry and Management I 3 c.c.
SU – Lab fee. Prerequisite: Completion of Zoo Animal Technology A.S. Degree Program. This course will provide practical experience in the captive husbandry and management of non-venomous snakes, lizards, turtles and alligators. Students will spend 85 hours participating in the operation of reptile management at a facility specializing in herpetology such as the Kentucky Reptile Zoo. The focus is on reptilian biology and husbandry. Field identification and collection, facilities maintenance and construction, and participating in educational and conservation programs.

PAZ 2352 Reptile Husbandry and Management II 3 c.c.
SU – Lab fee. Prerequisite: Completion of PAZ 2351 with a grade of “C” or better. This course will provide practical experience in the captive husbandry and management of a variety of reptiles including venomous snakes. Students will spend 85 hours observing and participating in the operation of reptile management at a facility specializing in herpetology such as the Kentucky Reptile Zoo. The focus is on advanced aspects of reptile husbandry, management, field collection, exhibit construction, and educational programming for students who have successfully completed the introductory prerequisite course.

PAZ 2531 Vertebrate Morphology 2 c.c.
FA – Lab fee. Prerequisite: PAZ 1330. A laboratory course in morphology, taking a comparative approach using dissection of representatives of each class of vertebrates. The determination of key morphological features used in taxonomy, and the use of taxonomic keys will complement each unit.

PAZ 2535 Animal Behavior 2 c.c.
SP – Prerequisite: PAZ 1330. A discussion of the variety of different behaviors in animals including instincts, learning, communication, social interactions, migrations, and predator-prey relationships. Lectures will also investigate the causes and motivations of animal behaviors both in the wild and in captivity.

PAZ 2540 Animal Nutrition 3 c.c.
FA – Prerequisite: PAZ 1330. This course will introduce the student to the science of animal nutrition. Discussions will emphasize the nutritional needs of domestic and exotic species. Topics to be covered will include feed formulation, vitamins, and basic nutrients, as well as toxic substances and other subjects of nutritional concern in animal husbandry.

PAZ 2551 Animal Breeding 3 c.c.
SP – Prerequisite: PAZ 1330. An introduction to the principles and practices of animal breeding. Students will receive instruction in the modes of inheritance and the biology of development as well as the requirements for animal reproduction. Case studies and rationales for scientific management of breeding programs will also be emphasized.

PAZ 2721C Exhibit Repair and Maintenance 3 c.c.
SP – Lab fee. Prerequisite: PAZ 2533. Corequisite: PAZ 2534. Students will work with zoo maintenance staff and keepers to learn about maintenance, repairs, and construction of zoo exhibits, facilities, and animal enrichment devices. Focus will be on the use of tools and construction materials, equipment operation, construction safety, teamwork, problem recognition, and the process of planning and making decisions about projects.

PAZ 2931 Zoo Seminar I 1 c.c.
SP – Lab fee. Prerequisites: ENC 1101, PAZ 1330, SPC 1600. In this seminar series, students will explore various aspects of history and goals of zoos and aquariums. Students are expected to present seminars on related topics of interest. This course will be offered only during the summer term.

PAZ 2932 Zoo Seminar II 1 c.c.
SU – Lab fee. Prerequisite: PAZ 1330. In this seminar series, students will explore various aspects of zoo administration and management. Guest speakers and zoo staff will present discussions on current issues facing zoos today as they relate to the topic. Students are expected to present seminars on related topics of interest. This course will be offered only during the summer (3A, 3B) terms.

PAZ 2933 Zoo Seminar III 1 c.c.
SU – Lab fee. Prerequisite: PAZ 1330. In this seminar series, students will explore various aspects of exhibit design, landscaping, and horticulture. Guest speakers and zoo staff will present discussions on current issues facing zoos today as they relate to the topics listed above. Students are expected to present seminars on related topics of interest. This course will be offered only during the summer (3A, 3B) terms.

PAZ 2935 Advanced Concepts in Zoo Science 1 c.c.
SU – Lab fee. Prerequisite: Completion of Zoo Animal Technology A.S. Degree Program. Corequisite: Enrollment in a specialty of the Zoo Animal Technology A.T.C. A web-based course in which students will submit journals of their activities and portfolios of research or educational materials they develop at cooperating institutions for the advanced Technical Certificates in Zoo Animal Technology. Course may be repeated for credit when a student is enrolled in a new specialty area of the certificate program.

PCB 2030 Introduction to Environmental Science 3 c.c.
FA, SP, SU – An introduction to basic ecological principles and current environmental problems. Meets A.A. general education Category VI.

PCO 2202 The Helping Relationship 3 c.c.
FA, SP, SU – This course is an introductory approach to the helping skills necessary for human services and counseling professions. Effective communication techniques and styles, theories of helping and specific strategies will be examined and practiced in the classroom. This course is also recommended for those who would like to gain a deeper understanding of the helping process: for teachers, those in police, medical, clergy or legal professions.

PEL 1121 Beginning Golf 1 c.c.
FA – This course is designed to develop skill and give practice in the basic fundamentals of golf. A green fee is required occasionally.

PEL 2122 Intermediate Golf 1 c.c.
SP – This course enables students to enhance and practice intermediate-level skills in the sport of golf. Green fee of $4.00 may be required on occasion.

PEL 2341 Beginning Tennis 1 c.c.
FA – This course includes a brief history of the game, followed by instruction and practice in the fundamental techniques of the game. Racket and one can of new balls required.

PEL 2342 Intermediate Tennis 1 c.c.
SP – This course includes a brief history of the sport, followed by instruction and practice in the intermediate-level techniques of the game. Tennis racket and one can of new tennis balls are required.

PEM 1102 Exercise and Conditioning 1 c.c.
FA – This course involves instruction in physical conditioning methods and their effects. Content varies based on student interest, and may include aerobic exercise, calisthenics, bench stepping, circuit training, interval training, or weight training. This is a co-ed class.

PEM 1131 Weight Training and Conditioning I 1 c.c.
FA, SP, SU – Lab fee. This course involves beginning instruction in physical conditioning methods and their effects: weight training, isometric exercises, circuit training, isotonic exercises, calisthenics, and cardiovascular endurance exercises. This is a co-ed class.

PEM 1132 Weight Training and Conditioning II 1 c.c.
FA, SP – Prerequisite: PEM 1131. This course involves advanced instruction in physical conditioning methods and their effects: weight training, isometric exercises, circuit training, isotonic exercises, calisthenics, and cardiovascular training. This is a co-ed class.

PEM 1171 Aerobics 1 c.c.
FA, SP – This course concentrates on increasing muscle tone and aerobic capacity through continuous rhythmic movement to music. Step aerobics are included. Discussions are held in nutrition and injury prevention. This is a co-ed class.
This course assists the student in developing the skills necessary to recognize a person in a distress or drowning situation and to effectively rescue that person. American Red Cross Lifeguard Certification is offered with this course. A qualifying swim test is administered during the first class meeting.

This course includes practice in the elementary fundamentals of swimming and drownproofing. It is designed to familiarize the nonswimmer with water and to assist him in developing skills in the basic strokes used in swimming. Nonswimmers only.

This course includes training and practice in four basic strokes: breaststroke, sidestroke, crawl, and elementary backstroke. Other related water safety skills will be taught.

This course is designed to give Recreational Technology AS degree majors a foundation in management of aquatic programs. This course will include but is not limited to water aerobics, water safety, pool operations, and aquatic scheduling.

This course introduces students to electronic imaging using computers, scanners, and image-manipulation software (Adobe Photoshop). Individual portfolios are created.

This course empowers the student with the knowledge and understanding of the principles and techniques involved in the prevention and care of athletic injuries. Upon successful completion of all tests, students will receive American Red Cross Sports Safety Certification.

This course is designed for students preparing for careers in recreation and leisure services. Whether the internship is on or off campus and where it is off campus (city recreation, Ymca, retirement facility, therapeutic recreation, outdoor recreation, etc.) will be determined by the interest of the student and available facilities.

This study of the history and the development of photography both as a technology and art form from its inception to current digital and commercial uses. Course will also explore photography from the standpoint of its sociological, cultural, communicative, and economic impacts.

This introductory course with emphasis on the use of large format cameras in fine art photography, commercial illustration, and historical documentation.

This course includes practice in the elementary principles, methods, and techniques of teaching a variety of individual sports, including organization and management, instruction of skills and concepts, motivation, and evaluation.

This course includes theory and practice in officiating various selected sports. Two hours of lecture and one hour of laboratory each week.

This course is designed to give Recreational Technology AS majors a foundation in management of aquatic programs. This course will include but is not limited to water aerobics, water safety, pool operations, and aquatic scheduling.

This course involves instruction in physical conditioning methods and their effects. Students may either walk, jog or run to fulfill the aerobic requirement.

This course is held in the LIFE Center and involves a number of fitness assessments and instruction on both Nautilus and cardiovascular training equipment. Upon successful completion, students may register for R00064 which gives them access to the LIFE Center. A student may not take both PBM 2108 and HLP 1081 for credit.

This course assists the student in developing the skills necessary to recognize a person in a distress or drowning situation and to effectively rescue that person. American Red Cross Lifeguard Certification is offered with this course. A qualifying swim test is administered during the first class meeting.

This course involves instruction in physical conditioning methods and their effects. Students may either walk, jog or run to fulfill the aerobic requirement.

This course is held in the LIFE Center and involves a number of fitness assessments and instruction on both Nautilus and cardiovascular training equipment. Upon successful completion, students may register for R00064 which gives them access to the LIFE Center. A student may not take both PBM 2108 and HLP 1081 for credit.

This course includes practice in the elementary fundamentals of swimming and drownproofing. It is designed to familiarize the nonswimmer with water and to assist him in developing skills in the basic strokes used in swimming. Nonswimmers only.

This course includes training and practice in four basic strokes: breaststroke, sidestroke, crawl, and elementary backstroke. Other related water safety skills will be taught.

This course is designed to give Recreational Technology AS degree majors a foundation in management of aquatic programs. This course will include but is not limited to water aerobics, water safety, pool operations, and aquatic scheduling.

American Red Cross Lifeguard Certification is offered with this course. A qualifying swim test is administered during the first class meeting.

This course includes practice in the elementary fundamentals of swimming and drownproofing. It is designed to familiarize the nonswimmer with water and to assist him in developing skills in the basic strokes used in swimming. Nonswimmers only.

This course includes training and practice in four basic strokes: breaststroke, sidestroke, crawl, and elementary backstroke. Other related water safety skills will be taught.

This course is designed to give Recreational Technology AS degree majors a foundation in management of aquatic programs. This course will include but is not limited to water aerobics, water safety, pool operations, and aquatic scheduling.

This course involves instruction in physical conditioning methods and their effects. Students may either walk, jog or run to fulfill the aerobic requirement.

This course is held in the LIFE Center and involves a number of fitness assessments and instruction on both Nautilus and cardiovascular training equipment. Upon successful completion, students may register for R00064 which gives them access to the LIFE Center. A student may not take both PBM 2108 and HLP 1081 for credit.

This course assists the student in developing the skills necessary to recognize a person in a distress or drowning situation and to effectively rescue that person. American Red Cross Lifeguard Certification is offered with this course. A qualifying swim test is administered during the first class meeting.

PGY 2802C Digital Photography II. 3 c.c.

TBA – Lab fee. Prerequisite: PGY 2801C. A continuation of work in Adobe Photoshop established in Digital Photography I. Students will work with advanced Photoshop techniques in the application of personal images that may have application in fine art, graphics, and multimedia productions.

PHI 2010 Introduction to Philosophy. 3 c.c.

FA, SP, SU – Prerequisite: Test score requirement the same as ENC 1101. A general survey of the philosophies that have shaped the growth of Western civilization from the ancient Greeks to modern times. This course is designed to present a comprehensive view of what philosophy is and to demonstrate the benefit students can expect to derive from its study. Meets A.A. general education Category V. A writing emphasis course.

PHI 2070 Introduction to Eastern Philosophy. 3 c.c.

FA, SP, SU – Prerequisite: Test score requirement the same as ENC 1101. A general survey of the philosophies of Asia. Hindu systems, Buddhist philosophy, and the philosophies of China and Japan will be considered. Comparisons with Western ideas will be made whenever feasible. Meets A.A. general education Category V. A writing emphasis course.

PHI 2100 Logic. 3 c.c.

FA, SP, SU – Prerequisite: Test score requirement the same as ENC 1101. Study of and practice in reasoning and critical thinking in deductive and inductive logic. Techniques the student learns are directly related to other courses and will help the student in solving everyday problems. Additional treatment may be given to symbolic logic. Meets A.A. general education Category V. A writing emphasis course.

PHI 2600 Ethics. 3 c.c.

FA, SP, SU – Prerequisite: Test score requirement the same as ENC 1101. An inquiry into the moral implications of personal, social, and political commitment. Representative traditional and contemporary ethical concepts will be discussed in light of issues affecting the quality of existence on this planet. Meets A.A. general education Category V. A writing emphasis course.

PHI 2701 Introduction to the Philosophy of World Religions. 3 c.c.

TBA – Prerequisite: Test score requirement the same as ENC 1101. Philosophical, historical and cultural analysis of selected world religions. Special emphasis on the fundamental philosophy of each tradition and the relationships between social institutions and religious systems. Meets A.A. general education Category V. A writing emphasis course.

PHI 1000 Introduction to Physical Therapy. 2 c.c.

FA – A.A.S. only. Prerequisite or Corequisite: BSC 1093. Introduction to the history, present practice and future trends of the profession; structure and services of the American Physical Therapy Association (A.P.T.A.); introduction to the team concept in health care including the role and responsibilities of the physical therapist assistant; and introduction to common disease processes. The scope of expanded practice for the PTA will be introduced.

PHT 1120 Functional Anatomy and Kinesiology. 3 c.c.

FA – A.A.S. only. Corequisites: BSC 1093, PHT 1120L. The student will have a basic knowledge and understanding of the biomechanical principles of human motion. The structure and function of the musculoskeletal and nervous systems will be studied and applied in basic analysis of therapeutic exercise and gait.

PHT 1120L Functional Anatomy and Kinesiology Laboratory. 2 c.c.

FA – A.A.S. only. Lab fee. Corequisite: PHT 1120. Laboratory sessions are designed to develop student skills in palpation of bony landmarks, goniometry, gross manual muscle testing, basic gait analysis and analysis of muscle function as it relates to the biomechanical principles of human motion.

PHT 1210 Therapeutic Modalities I. 2 c.c.

SU – A.A.S. only. Corequisites: BSC 1093, PHT 1210L, PHT 1801. This course is designed to instruct the student on the operation of the therapeutic modalities used by the physical therapist assistant. The student will be given the opportunity to develop knowledge of the physical principles, physiological effects; indications and contraindications of heat, cold, light, water, traction, and massage on the body; an understanding of selected test and evaluation procedures which are related to the application of the modalities; and the modality or procedure which would be most appropriate in application to a specific clinical symptom.

PHT 1210L Therapeutic Modalities I Laboratory. 2 c.c.

SU – A.A.S. only. Lab fee. Corequisite: PHT 1210. Laboratory sessions designed to develop student skills in actual performance of all modalities/procedures presented in Therapeutic Modalities I (Lecture).

PHT 1224 Therapeutic Techniques and Disabilities I. 3 c.c.

SP – A.A.S. only. Corequisites: PHT 1210L, PHT 1251. Students will work with advanced Photoshop techniques in the application of therapeutic exercises in the laboratory setting. Emphasis is on orthopedic, cardiopulmonary and vascular disorders and related therapeutic exercise programs.

PHT 1224L Therapeutic Techniques and Disabilities I Laboratory. 2 c.c.

SP – A.A.S. only. Lab fee. Corequisite: PHT 1224L. Corequisites: PHT 1210. Laboratory sessions for Therapeutic Techniques and Disabilities I A are designed to provide the student with observation and actual application of therapeutic exercises in the laboratory setting. Emphasis is on orthopedic, cardiopulmonary and vascular disorders and related therapeutic exercise programs.

PHT 1251 Basic Skills in Patient Care. 2 c.c.

SP – A.A.S. only. Prerequisites: BSC 1093, PHT 1000. Corequisite: PHT 1251L. Introduction to basic patient care skills, patient positioning and draping, treatment booth preparation, transfers, gait training with assistive devices, wheelchair measurement and operation, measurement of vital signs, identification of architectural barriers, wound debridement, and aseptic technique.

PHT 1251L Basic Skills in Patient Care Laboratory. 2 c.c.

SP – A.A.S. only. Lab fee. Corequisite: PHT 1251L. This is a laboratory course in which there is practice in activities basic to the care of patients in health agencies. The development of manual dexterity with patient safety and comfort, and all skills discussed in the lecture portion of this course.

PHT 1351 Pharmacology for Physical Therapist Assistants. 1 c.c.

SP – A.A.S. only. Prerequisite: PHT 1000. This course is a study of pharmacology correlated to the clinical practice of the PTA. Drug actions, interactions, adverse effects, toxicity, and biotransformation will be stressed. Wound care and burn management will be an important aspect of this course.

PHT 1801 PTA Clinic I. 1 c.c.

SU – A.A.S. only. Prerequisite: PHT 1210. The first clinical experience. A supervised planned learning experience in a physical therapy practice setting. Focus is on training, transfers, positioning, draping, note writing, gait training, vital sign measurements, and wound measurement/debridement. Thirty-five hours conducted in one week.

PHT 2162 Therapeutic Techniques and Disabilities II. 3 c.c.

FA – A.A.S. only. Corequisites: PHT 2162L, PHT 2212, PHT 2810. The pathology of complex neurological disorders and congenital deformities are presented. Specific topics include: cerebrovascular accidents, parkinsonism, alzheimers, and cerebral palsy. Therapeutic exercises and special facilitation techniques will be covered along with basic neuroanatomy. Special concerns related to physical therapy and the geriatric patient will be presented.
PHT 2162. Therapeutic Techniques and Disabilities II Laboratory. 2 c.c.
FA – A.A.S. only. Lab fee. Corequisite: PHT 2162. Laboratory sessions for Therapeutic Techniques and Disabilities II are designed to provide the student with observation and actual application of therapeutic exercises for the treatment of neurological conditions. Case studies of various medical conditions with emphasis on therapeutic rehabilitation are presented.

PHT 2212 Therapeutic Modalities II. 3 c.c.
FA – A.A.S. only. Prerequisite: PHT 1210. Corequisites: PHT 2162, PHT 2212L, PHT 2810. This course is designed to instruct the student on the physical and physiological principles underlying the application of therapeutic electricity.

PHT 2212L. Therapeutic Modalities II Laboratory. 2 c.c.
FA – A.A.S. only. Lab fee. Corequisite: PHT 2212. Laboratory sessions designed to develop student skills in the actual performance of modalities/procedures presented in Therapeutic Modalities II (Lecture).

PHT 2401 Psychosocial Issues of the Disabled. 2 c.c.
SP – A.A.S. only. Prerequisites: PHT 2162, PHT 2212. Corequisites: PHT 2703, PHT 2810. Course examines the psychosocial aspects of the disabled individual. Emphasis is placed on how the individual or his/her family relate to physical and social environments; specifically economic factors, support systems, discrimination, and loss/grief process.

PHT 2703. Rehabilitation Procedures I. 3 c.c.
SP – A.A.S. only. Prerequisite: PHT 2162. Corequisites: PHT 2703L, PHT 2820, PHT 2932. This course is designed to develop treatment skills and understanding of complex neurological and orthopedic conditions treated in physical therapy such as multiple trauma, spinal cord injury, and amputations. Principles and practices of prosthetics and orthotics will be presented. An introduction to pre- and post-partum exercises and pharmacology will be discussed. The student will prepare a written/oral report on a special condition treated in physical therapy. Prevention of medical errors will be addressed.

PHT 2703L. Rehabilitation Procedures I Laboratory. 1 c.c.
SP – A.A.S. only. Lab fee. Corequisite: PHT 2703. Laboratory sessions designed to develop student skills in the actual performance of procedures presented in Rehabilitation Procedures I.

PHT 2810 PTA Clinic II. 2 c.c.
FA – A.A.S. only. Prerequisite: PHT 1801. Corequisites: PHT 2162 – A.A.S. Corequisite: PHT 2162, PHT 2212. Second clinical experience. A supervised planned learning experience in a physical therapy practice setting. Focus is on application of superficial and deep heat, note writing, basic skills of gait training, transfers, positioning, draping, wound care, massage, goniometry, and gross muscle testing skills, therapeutic exercise, range of motion, and strengthening. Thirty-five hours per week for three weeks.

PHT 2820 PTA Clinic III. 4 c.c.
SP – A.A.S. only. Prerequisite: PHT 2810. Corequisites: PHT 2703, PHT 2932. The third clinical experience. Focus is on integrating all previously learned skills (in addition to electrotherapy and neurological treatment).

PHT 2830 PTA Clinic IV. 5 c.c.
SU – A.A.S. only. Prerequisite: PHT 2820. The final clinical experience. A six week supervised learning experience in a physical therapy practice setting. Focus is on integrating all didactic information in a practice setting as well as functioning as an entry-level PTA.

PHT 2932 Transition Seminar. 2 c.c.
SP – A.A.S. only. Prerequisites: PHT 1801, PHT 2820. Corequisite: PHT 2703. This course is designed to broaden the scope of the student’s understanding of health care. Topics to be presented include trends in health care and their influence on physical therapy; administrative procedures utilized in physical therapy; employment techniques. The student will also be required to prepare an individual or group project relevant to a specific aspect of physical therapy practice.

PHY 1025 Introduction to Fundamentals of Physics. 3 c.c.
FA, SP – Prerequisite or Corequisite: MAC 1105. An introductory course designed to prepare students for PHY 1053 General Physics I. Emphasis is on the fundamental concepts, language and mathematics used in physics. Topics include mechanics, sound, and heat.

PHY 1053 General Physics I. 3 c.c.
FA, SP, SU – Prerequisite: MAC 1114 or MAC 1147 or PHY 1025. Corequisite: PHY 1053L. General Physics I is the first term of a two term non-calculus based physics course sequence. Topics included are: scalar and vector quantities, Newton’s laws of motion, linear and rotational motion, energy, momentum, fluid dynamics, heat and sound. Meets A.A. general education Category VII.

PHY 1053L. General Physics I Laboratory. 1 c.c.
FA, SP, SU – Lab fee. Corequisite: PHY 1053. A laboratory course designed to illustrate the laws and principles presented in PHY 1053. Meets A.A. general education Category VII.

PHY 1054 General Physics II. 3 c.c.
SP – Prerequisite: Completion of PHY 1053 with a grade of “C” or better. Corequisite: PHY 1054L. Major topics include the study of magnetism, electricity, light and the elements of modern physics. Meets A.A. general education Category VII.

PHY 1054L. General Physics II Laboratory. 1 c.c.
FA – Lab fee. Prerequisite: Completion of PHY 1053L with a grade of “C” or better. Corequisite: PHY 1054. A laboratory course designed to illustrate the laws and principles presented in PHY 1054. Meets A.A. general education Category VII.

PHY 2048 Physics I with Calculus. 4 c.c.
FA, SP – Corequisites: MAC 2312, PHY 2048L. A physics course designed to illustrate the laws and principles presented in PHY 1053L. Meets A.A. general education Category VII.

PHY 2048L. Physics I with Calculus Laboratory. 1 c.c.
FA, SP – Lab fee. Corequisite: PHY 2048. A laboratory course designed to illustrate the laws and principles presented in PHY 2048. Meets A.A. general education Category VII.

PHY 2049 Physics II with Calculus. 3 c.c.
FA, SP – Prerequisites: MAC 2312, completion of PHY 2048 with a grade of “C” or better. Corequisite: PHY 2049L. Includes the study of waves, sound, optics, special relativity, electromagnetism, and quantization. Meets A.A. general education Category VII.

PHY 2049L. Physics II with Calculus Laboratory. 1 c.c.
FA, SP – Lab fee. Prerequisite: Completion of PHY 2048L with a grade of “C” or better. Corequisite: PHY 2049. A laboratory course designed to illustrate the laws and principles presented in PHY 2049. Meets A.A. general education Category VII.

PLA 1003. The Paralegal and the Legal Profession. 3 c.c.
FA, SP, SU – This course is the required introductory course for the paralegal program designed to give the student an overview of the law office, its function, and the role of the paralegal. The course covers legal ethics, the court system, pleadings and process, and an introduction to the areas of substantive law. It is a prerequisite or corequisite for all other legal assisting courses.

PLA 1104 Legal Research and Writing I. 3 c.c.
FA, SP – Corequisite: PLA 1003. This course emphasizes basic research of both common law and statutory sources, tools and techniques, and writing including basic computer-assisted legal research instruction in Lexis and Westlaw.

PLA 1273. Torts I. 3 c.c.
FA, SP, SU – Corequisite: PLA 1003. This course is a casebook study of the law of intentional torts, negligence, strict liability and their related defenses.
PLA 2114A Legal Research and Writing II. 3 c.c.
SP, SU (even years) – Lab fee. Prerequisites: ENC 1101, PLA 1104. This course emphasizes equally the application of legal research principles and the techniques of effective expression of the same into legal memorandums and other such traditional written legal communications. Computer-assisted legal research is taught, including use of Lexis and Westlaw.

PLA 2223 Florida Procedure. 3 c.c.
SP, SU (even years) – Prerequisites: PLA 1003, PLA 1104, PLA 1273. This course provides an in-depth study of the Florida Rules of Civil Procedure and involves the student in practical exercises in their application through extensive drafting of pleadings.

PLA 2230 Federal Procedure. 3 c.c.
SU – Lab fee. Prerequisite: PLA 2223. This course is—in effect—a continuation of PLA 2223 by providing for in-depth case and rule study of selected areas and problems in jurisdiction and procedure with primary regard to our federal judicial system.

PLA 2263 Evidence. 3 c.c.
SU – Prerequisite: PLA 1273. This course provides for a study of the rules regarding the admissibility of evidence conducted through a combined test, case, and transcript presentation.

PLA 2274 Torts II. 3 c.c.
SP – Prerequisite: PLA 1273. This course involves in-depth case study and research into selected areas of both common law and statutory forms of action as workers’ compensation.

PLA 2304 Criminal Law. 3 c.c.
FA, SU (odd years) – Corequisite: PLA 1003. This course involves a casebook study of the various crimes and their respective elements and the defenses thereto. Included also is an overview of criminal procedure and its related constitutional considerations.

PLA 2308 Criminal Procedure. 3 c.c.
SU (odd years) – Prerequisite: PLA 2304. This course involves an in-depth study of both the Florida Rules of Criminal Procedure and the Federal Rules of Criminal Procedure together with a survey of the elements of Florida’s statutory crimes and juvenile practice.

PLA 2363 Criminal/Constitutional Questions. 3 c.c.
FA (odd years) – Prerequisite: PLA 2304. This course involves a casebook study on both past and contemporary constitutional questions in the criminal law field.

PLA 2364 Forensic Science Survey. 3 c.c.
FA (odd years) – Prerequisite: PLA 2304. By the use of numerous guest lecturers who are experts in their various fields of forensic science, the student will receive from this course an overview of the availability for the utilization at trials of methods of accident reconstruction, crime-scene investigations, speed devices, sound spectrograms, neutron activation analysis, pathology, and the like.

PLA 2423 Contracts. 3 c.c.
SP, SU (odd years) – Corequisite: PLA 1003. This course utilizes a casebook approach to the study of contracts and their interpretation and such legal restraints and remedies as relate thereto.

PLA 2433 Business Organizations. 3 c.c.
FA, SU (even years) – Prerequisite: PLA 1003. Corequisites: PLA 1104, PLA 1273. This course involves a study of the law of business organizations together with its application in the related fields of agency and vicarious liability.

PLA 2435 Corporations. 3 c.c.
FA (even years) – Prerequisite: PLA 1104. This course combines a casebook study of the law of corporations with practical exercise in the formation and maintenance of the same.

PLA 2445 Commercial Transactions. 3 c.c.
SP (odd years) – Prerequisites: PLA 1104, PLA 2435. Corequisite: PLA 2423. This course provides the student with an in-depth study of the Uniform Commercial Code (UCC), commercial problems and practices, including sales, commercial paper, bulk sales, banks and banking and secured transactions.

PLA 2465 Creditor/Debtor Rights. 3 c.c.
SP (odd years) – Prerequisite: PLA 2435. This course combines an in-depth study of both creditor and debtor rights, and bankruptcy with practical exercises relating thereto.

PLA 2601 Probate. 3 c.c.
FA, SU (odd years) – Prerequisite: PLA 1003. This course involves a casebook study of the legal aspects relating to decedents' estates. As such, it covers gifts, descent and distribution, wills, trusts, and estate administrations.

PLA 2610 Real Estate Law. 3 c.c.
SP, SU (even years) – Prerequisite: PLA 1104. This course contemplates a study of the principles and techniques of real property transactions, including but not limited to, real versus personal property considerations, legal descriptions, concurrent estates, mortgaging, liens and title considerations.

PLA 2613 Real Estate Litigation. 3 c.c.
SU (even years) – Prerequisite: PLA 2610. This course involves in-depth study of such areas of real estate litigation as mortgage theory and foreclosure, mechanics liens, quiet title suits, and the like.

PLA 2630 Real Estate Sales and Closings. 3 c.c.
SP (even years) – Prerequisite: PLA 2610. This course combines the study of advanced practical exercises in abstracting, title examination, title insuring, and title closings.

PLA 2633 Florida Estate Administration and Guardianship. 3 c.c.
SP (even years) – Prerequisite: PLA 2601. This course provides for an in-depth study of the Florida law pertaining to descent and distribution, wills, trusts, estate administration, and guardianships.

PLA 2730 Computers in Legal Drafting and Research. 3 c.c.
FA, SU (even years) – Lab fee. Prerequisite: PLA 1003. Corequisite: PLA 1104. This course utilizes computers in legal research, drafting, and law office projects. The students will study the use of computers in legal research with a focus on Westlaw, Lexis, and CD-ROM research materials. The student will prepare pleadings, notices and letters, and real estate, corporate, and other legal documents.

PLA 2800 Domestic Relations. 3 c.c.
SP, SU (odd years) – Prerequisite: PLA 1003. This course covers research into and drafting of pleadings for dissolution of marriage, separation, custody, legitimacy, adoption, change of name, and support.

PLA 2941, 2942, 2943 Law Office Internship. 1 c.c., 2 c.c., 3 c.c.
FA, SP, SU – Prerequisites: Permission of Legal Assisting program coordinator; forty-five credit hours in PLA courses. This course is designed to provide students with practical law office experience working as a paralegal. This is a non-paid position for students meeting the prerequisites that involves 120 hours during the semester working in a law office. A student will receive a pass/fail grade based upon the employer’s evaluation of the student.

POS 2041 American National Government. 3 c.c.
FA, SP, SU – Prerequisite: Test score requirement the same as ENC 1101. A study of the American federal system of government with emphasis on the constitutional distribution of powers among the congressional, presidential, and judicial branches and the states. An analysis of policy formation as related to democratic theory and the role of government in the society. Meets A.A. general education Category IV. A writing emphasis course.

POS 2941 Government Practicum. 1 c.c.
FA, SP, SU – Prerequisite: POS 2041. Students will work with government agencies and public officials in local, state and national offices performing meaningful tasks to learn duties of officials and operations of the agencies.

PRN 0001 Fundamentals of Nursing I. 1 v.c.
FA, SP – Corequisite: PRN 0001L. This course introduces steps of the nursing process and the practical nurse’s role in assisting with the collection of data, contributing to the plan of care, performing basic therapeutic techniques, preventive measures and assisting in the evaluation of nursing interventions. A foundation for specific communication, documentation, and medical terminology in charting and reporting is given. Basic patient needs of comfort, safety, rest, sleep, activity, exercise, nutrition elimination, and hygiene are presented.

PRN 0001L Fundamentals of Nursing I Laboratory. 2 v.c.
FA, SP – Lab fee. Corequisite: PRN 0001. This course provides for the application of nursing knowledge and skills in the campus laboratory and clinical setting to plan and provide basic care for individual patients.
PRN 0002 Fundamentals of Nursing II. 3 v.c.
FA, SP – Prerequisites: PRN 0001, PRN 0030. Corequisite: PRN 0002L. This course covers the history of nursing, nursing roles, the health care delivery system and fundamental knowledge and skills required by the practical nurse in meeting more complex nursing needs of individual patients.

PRN 0002L Fundamentals of Nursing II Laboratory. 3 v.c.
FA, SP – Lab fee. Corequisite: PRN 0002. Fundamentals of Nursing II Laboratory will provide the student with the opportunity to apply in the clinical setting the more complex nursing knowledge and skills acquired in the theory course. Students will develop nursing care plans, perform basic assessment skills, and use nursing interventions to provide care for patients with more complex health problems.

PRN 0015 Interpersonal Relationships for Nurses. 1 v.c.
FA, SP – This course introduces mental health and psychosocial concepts in nursing. The nursing process is emphasized, including recognition, intervention and evaluation measures for individuals with common problems of mental health. Interviews of clients in various health care settings are required.

PRN 0020 Life Span. 1 v.c.
SU – This course explores normal growth and development from birth to death and includes events and conditions that promote or determine normal growth and development.

PRN 0030 Pharmacology I/Medical Terminology. 1 v.c.
SP, SU – Prerequisite: Acceptance to Practical Nursing Program. This course reviews basic mathematic computations and basic dosage and solutions necessary to safely administer medications and word building skills so that words and medical conditions can be identified by word parts.

PRN 0031C Pharmacology II. 1 v.c.
FA, SP – Lab fee. Prerequisite: PRN 0030. This course introduces basic pharmacological concepts and skills needed for the safe administration of medications to patients in various health care settings.

PRN 0034C Pharmacology III. 1 v.c.
SP, SU – Prerequisite: PRN 0031C. Focus is on commonly administered drugs, their classifications, effects, and patient responses in their use to treat disease. Developmental considerations will be explored regarding administration of selected medications to pediatric, adult, and geriatric patients. Students will assess and evaluate client responses to selected drug therapies in the clinical setting.

PRN 0070 Nutrition and Diet. 1 v.c.
FA, SU – This course focuses on the basic nutritional requirements necessary to support health. The concept that man shares responsibility for maintaining individual wellness is explored. Economic practice in purchasing, storing, preparing and serving food for the individual and the family will be discussed. The nurse’s responsibility for Diet and Nutrition in the health care agency is emphasized.

PRN 0100 Maternal/Child Health. 2 v.c.
SU – Prerequisites: DEP 2003 or PRN 0020, PRN 0070. Corequisite: PRN 0100L. This course is designed to assist the student to understand the needs of the expectant mother, infant, and family from the beginning of pregnancy through the childbearing period and to understand the needs of children as they grow and develop into adulthood. The promotion and maintenance of health during the rapidly developing years and the impact of illness on normal family life and growth and developmental tasks will be emphasized. The phases of the nursing process are used to guide the student in the performance of therapeutic and protective nursing measures.

PRN 0100L Maternal/Child Health Laboratory. 3 v.c.
SU – Lab fee. Corequisite: PRN 0100. This course provides for the application of content in clinical settings with mothers, infants and children. The student will utilize the nursing process to assist the client in meeting needs of growth and development, self care, prevention of illness, and early detection and treatment of problems. Follow through experiences will be planned for labor and delivery and accompanying a child to surgery when possible.

PRN 0200 Medical/Surgical Nursing I. 1 v.c.
FA, SU – Prerequisites: BSC 0084, PRN 0050. Corequisite: PRN 0301L. This course focuses on adults who are experiencing disturbances of ingestion, digestion, absorption and elimination; problems resulting from endocrine imbalances; and common problems of body supportive structures and locomotion. The nursing process provides the framework to acquire the knowledge necessary to implement care for patients with common occurring health problems having predictable outcomes. Diabetic diets, testing for blood sugar and the administration of hypoglycemics are discussed.

PRN 0201 Medical/Surgical Nursing II. 2 v.c.
FA, SP – Prerequisites: PRN 0070, PRN 0200. Corequisite: PRN 0302L. This course focuses on adult patients who are experiencing threats to adequate respiration, transmission of infectious respiratory diseases, insults to cardiovascular integrity, disorders of the circulatory system, immunological disorders, and oncology including care and treatment of the cancer patient. The nursing process provides a framework for the student to learn the common disease entities affecting cardiovascular, circulatory, and immunological function of the adult.

PRN 0202 Medical/Surgical Nursing III. 2 v.c.
FA, SP – Prerequisites: PRN 0201, PRN 0302L. Corequisite: PRN 0303L. This course focuses on the maintenance and preventive care of adults with acute and chronic sensory, neurologic, urologic, and reproductive disorders including sexually transmitted diseases. Emphasis is on the recipient of care and the family as an interrelated unit. The nursing process provides a framework for students to learn human responses to common health disorders.

PRN 0301L Medical/Surgical Nursing I Laboratory. 4 v.c.
FA, SP – Lab fee. Prerequisite: PRN 0002. Corequisite: PRN 0200. This clinical course is designed to assist the student to utilize the nursing process in planning care and nursing interventions in the care of adult patients who are experiencing disorders of ingestion, digestion, absorption and elimination; problems resulting from endocrine imbalances; and common problems of body supportive structures and locomotion.

PRN 0302L Medical/Surgical Nursing II Laboratory. 5 v.c.
FA, SP – Lab fee. Prerequisites: PRN 0200, PRN 0301L. Corequisite: PRN 0201. This course is designed to assist the student to use the nursing process in planning care of adult patients who are experiencing threats to adequate respiration, transmission of infectious respiratory diseases, insults to cardiovascular integrity, and circulatory disorders.

PRN 0303L Medical/Surgical Nursing III Laboratory. 5 v.c.
FA, SP – Lab fee. Prerequisites: PRN 0201, PRN 0302L. Corequisite: PRN 0202. This course is designed to assist the student to utilize the nursing process in planning care and nursing interventions for patients experiencing disorders of the psychomotor or sensory function, disorders resulting in urologic problems, and common problems of disfigurement.

PRN 0500C Gerontology. 1 v.c.
SP, SU – Corequisites: HSC 0001, HSC 0591C. Theories of aging, concerns of aging families, adjustments confronted by the elderly, and the normal aging process are discussed. This course serves as a foundation for Fundamentals of Nursing II, during which the student interacts with the elderly.

PRN 0904 Practical Nursing Seminar. 1 v.c.
FA, SU – The Practical Nursing Seminar provides the student with an opportunity to learn about employment opportunities, licensure, continuing education, legal and ethical aspects of nursing, substance abuse and its effect on individuals and families, community agencies dealing with health issues and other major issues affecting nurses and the nursing profession.
PSC 1351 Physical Science Survey. 3 c.c.
*FA, SP, SU – Prerequisite or Corequisite:* MAC 1105 or MGF 1106. An introductory physical science course for the non-science major with emphasis on the areas of physics and geology. The physics portion of the course deals with fundamental concepts, language and mathematics used in physics. Topics include sound, light, heat, electricity, magnetism, mechanics and elements of modern physics. The geology related section of the course includes the study of minerals and rocks, structural features of the earth, various earth forms, earth processes, and the physics principles behind them. A working knowledge of algebra is essential for this course. Meets A.A. general education Category VII.

PSC 1931, 1932, 1933 Special Topics in Physical Sciences. 1 c.c., 2 c.c., 3 c.c.
*TRA – This course is designed to allow flexibility for presenting a variety of topics in the physical sciences, such as a specialized offering in one of the physical science disciplines, or a hybrid/interdisciplinary course in two or more traditional disciplines in the physical sciences. This course may be repeated for credit when content varies."

PSY 1000 Introduction to Psychology. 3 c.c.
*TRA – An introductory course explaining the basic terms and concepts of psychology. This course will provide a basic understanding of human behavior and personality development with an emphasis on practical applications. It is not a prerequisite to PSY 2012 General Psychology. Students are advised to check program requirements of their major. Some schools may require PSY 2012 for transfer."

PSY 2001 Introduction to Experimental Psychology. 3 c.c.
*FA, SP – Prerequisites: Test score requirement the same as ENC 1101 and PSY 1000 or PSY 2012. Introduces the methods psychologists use to study behavior. The student will learn how to do a literature search, and how to design, conduct and report on a laboratory experiment of his/her own design. A writing emphasis course."

PSY 2012 General Psychology. 3 c.c.
*FA, SP, SU – Prerequisite: Test score requirement the same as ENC 1101. A survey of psychology as a natural science particularly suited for the psychology major. The course focuses on the adaptation of the individual to his physical and social environments. Human motives and emotions, learning and memory, attention, thinking, intelligence, personality, and abnormal mental conditions are among the topics covered. The emphasis is on the physiological and environmental bases of behavior. Meets A.A. general education Category IV. A writing emphasis course."

PSY 2941 Psychology Internship. 1 c.c.
*SP – This course is designed for students preparing for careers in psychology and/or social science disciplines. Students learn about the sequence of steps involved in the scientific research process including topic selection, literature review, data collection, selection of research design and methodology, presentation of findings, and interpretation of findings. Students gain first-hand knowledge about practicing the science of psychology by participating in activities such as meetings of the Southeastern Psychological Association."

PSY 2942 Psychology Internship. 2 c.c.
*FA, SP – This course is designed for students preparing for careers in psychology and/or social science disciplines. Students participate in crisis intervention training. Upon successful completion of training, students work as supervised volunteers in a crisis intervention and counseling setting."

PSY 2943 Psychology Internship. 3 c.c.
*TRA – This two-component internship is designed for students preparing for careers in psychology and/or social science disciplines. In the first component students learn about and practice the sequence of steps involved in the scientific research process by preparing for and participating in activities such as meetings of the Southeastern Psychological Association (SEPA). In the second component students participate in crisis intervention training and service. Upon successful completion of training, students work as supervised volunteers in a crisis intervention and counseling setting."

REA 0001C College Preparatory Reading I. 3 c.p.
*FA, SP, SU – Prerequisite: Appropriate score on Florida Entry-Level Placement Exam. This is a basic course designed to increase a student’s reading comprehension and vocabulary. This course will provide basic skills in word usage and reading comprehension."

REA 0002C College Preparatory Reading II. 3 c.p.
*FA, SP, SU – Prerequisite: Appropriate score on Florida Entry-Level Placement Exam or REA 0001C. This course is required for students reading below the college level. It provides instruction in vocabulary skills, listening skills, and comprehensive skills."

REA 1105C College Reading. 3 c.c.
*FA, SP, SU – Prerequisite: Appropriate score on Florida Entry-Level Placement Exam or REA 0002C. This course is designed to improve reading comprehension and vocabulary skills. Reading skills appropriate for college assignments are emphasized. The course can also be used as an elective for anyone wishing to improve the above skills."

REA 1125 Essential Reading Skills. 1 c.c.
*FA, SP, SU – This course is recommended for students preparing for the CLAST. It provides a review of each of the reading skills tested on the CLAST."

REL 2223 Biblical Studies I. 3 c.c.
*FA, SP – A look at selected chapters of the Torah (Five Books of Moses) through the eyes of ancient, medieval and modern commentators. The student will learn how thinkers have searched for truth and understanding in the Biblical text."

REL 2933 Special Topics in Religion. 3 c.c.
*FA, SP – Designed to present various topics related to the field of religion."

RTE 1000 Introduction to Radiologic Technology. 1 c.c.
*FA – A.A.S. only. An introduction to the role of the radiographer, the hospital, and the regulations of the program. Medical ethics and legal considerations are emphasized."

RTE 1111 Radiographic Nursing Procedures. 2 c.c.
*FA – A.A.S. only. Body mechanics, sterile technique, vital signs and emergency procedures are demonstrated with the student clinical activities."

RTE 1418C Principles of Radiographic Exposure. 3 c.c.
*SP – A.A.S. only. Prerequisite: RTE 1420. An overview of the production of the radiographic image on film involving both lecture and laboratory exercises. Laboratory experiments will be performed with campus radiographic equipment and phantoms demonstrating the various factors relating to and affecting radiographic images."

RTE 1420 Darkroom Techniques. 1 c.c.
*FA – A.A.S. only. An overview of automatic film processing, radiological film quality, facility design and function."

RTE 1503 Radiographic Positioning I. 2 c.c.
*FA – A.A.S. only. Corequisites: RTE 1702, RTE 1804. Positioning of the chest, abdomen, and extremities is coordinated with Radiography Clinic I."

RTE 1513 Radiographic Positioning II. 2 c.c.
*SP – A.A.S. only. Prerequisite: RTE 1503. Corequisites: RTE 1712. Correct positioning of the bones of the body, as well as the GI and GU tracts will be presented and correlated with the clinical experiences of semester II."

RTE 1562 Radiographic Special Procedures. 2 c.c.
*SU – A.A.S. only. An overview of angiographic procedures and equipment as well as advanced nursing procedures."

RTE 1613 Radiographic Physics. 2 c.c.
*FA – A.A.S. only. An introduction to the concept of radiation, atomic structure, energy, magnetism, basic electricity, and the use and production of high voltage as well as the x-ray machine parts and safeguards."

RTE 1702 Radiographic Anatomy and Physiology I. 2 c.c.
*FA – A.A.S. only. Corequisites: RTE 1503. Chest, abdomen, extremity and spine anatomy and physiology is presented and correlated with the clinical experience of the first semester.
RTV 2242C Television Field Production. 3 c.c.
FA – Lab fee. Prerequisite: RTV 2241C. This course develops field video production and editing techniques while enhancing aesthetic, writing and storytelling skills necessary for video production. The course emphasizes non-linear digital editing techniques, graphic design and digital audio production techniques. The basics of animation and digital video effects are introduced.

SLS 0341 Career Communications. 1 v.c.
TBA – This course is designed to prepare students for planning and implementing a successful job search and for maintaining productive work experience on the job. Specific topics include: interpersonal skills, interview skills, problem solving techniques, job planning and developing responsible work behaviors.

SLS 0380 Introduction to Entrepreneurship. 2 v.c.
SP, SU – Prerequisite: Permission of program manager. This is a basic course in entrepreneurship: the formation, planning, management and operation of a small business. This course will present a logical sequence of the necessary steps for either starting a new business or strengthening and continuing an existing business. Basic principles of finance, marketing, business law, accounting, management will be presented within the context of the small business. Also included is insurance billing and networking.
SLS 1101 College Success. 3 c.c.
**FA, SP, SU** – College Success is designed to assist students in developing effective study habits that will help them to experience success in college. The student will learn to improve test-taking skills, take good lecture notes, increase reading comprehension, use a textbook effectively, organize time, set realistic goals, and increase self-confidence.

SLS 1122 Introduction to College Life. 1 c.c.
**SU** – This course is designed to introduce students to the many educational opportunities and services at Pensacola Junior College. It will include the techniques of educational planning, how to register, and will provide experiences for establishing identity, determining strengths, clarifying values, setting goals, and taking action. Students are encouraged to participate in appropriate developmental services to enable them to achieve optimal success in college.

SLS 1345 Generations at Work. 3 c.c.
**FA, SP, SU** – This course covers basic skills needed for workplace success such as problem solving, critical thinking, team work and cooperation, time management, good communication, stress management and conflict resolution. Classroom sessions includes discussions, role playing, video modeling, practice, feedback, and activities to build participants skills and encourage the transfer of new skills to the workplace.

SON 1004C Sonographic Hospital Procedures. 4 c.c.
**SU** – A.A.S. only. Prerequisites: BSC 1094, PHY 1025. An introduction to hospital protocol/procedures with a basic overview of the role of the sonographer in diagnostic imaging. Also includes an overview to sonographic scanning and scanning protocols for the abdomen, pelvis, and vascular system and patient care.

SON 1100C Principles and Protocols of Sonography. 3 c.c.
**SU** – A.A.S. only. Corequisite: SON 1170. An introduction to the basic approaches to sonographic scanning and scanning protocols for the abdomen, pelvis, and vascular system with laboratory practice of basic skills and application of basic principles.

SON 1111 Abdominal Sonography I. 3 c.c.
**FA** – A.A.S. only. Prerequisite: SON 1170. This course is an introduction to the sonographic cross-sectional anatomy of the abdominal cavity. The sonographic recognition of the normal abdominal organs as well as the gross anatomy and physiology of these organs is presented.

SON 1112 Abdominal Sonography II. 3 c.c.
**SP** – A.A.S. only. Prerequisite: SON 1111. An in-depth presentation of sonography of the abdominal area stressing deviation from the norm and the studies to make a diagnostically acceptable study.

SON 1121 OB/GYN Sonography I. 3 c.c.
**FA** – A.A.S. only. Prerequisite: SON 1170. This course is an introduction to the cross-sectional anatomy of the female reproductive system with and without an existing pregnancy. The sonographic recognition of the normal throughout all terms of pregnancy is presented.

SON 1122 OB/GYN Sonography II. 3 c.c.
**SP** – A.A.S. only. Prerequisite: SON 1121. Abnormalities, pathology, and deviation from normal in the female pregnant and non-pregnant pelvis is stressed along with sonographic views required for accurate diagnosis.

SON 1144 Superficial Structures (Small Parts). 3 c.c.
**SU** – A.A.S. only. Prerequisite: SON 1112. This course includes anatomy, physiology, and pathophysiologic of the superficial structures imaged with sonography. Sonographic recognition of normal and pathologic states and the techniques unique to superficial structure imaging is stressed.

SON 1170 Sonography of the Circulatory System. 2 c.c.
**SU** – A.A.S. only. Corequisite: SON 1100C. An introduction to the hemodynamics of circulatory systems and the sonographic imaging and Doppler assessment of the cardiac and vascular structures.

SON 1211 Medical Sonography Physics I. 3 c.c.
**FA** – A.A.S. only. Prerequisite: SON 1170. This course offers the principles of diagnostic ultrasound and presents the fundamental properties of ultrasound physics. Stresses tissue interactions and interfaces. Focusing characteristics and methods and intensity and power considerations are introduced, along with system resolution considerations.

SON 1212 Medical Sonography Physics II. 3 c.c.
**SP** – A.A.S. only. Prerequisite: SON 1211. This course offers further consideration of the properties of diagnostic ultrasound stressing the operation of the diagnostic equipment, the display system, biological effects and quality assurance methods. Current developments in ultrasound are reviewed, discussed, and evaluated.

SON 1214 Practical Aspects of Sonography I. 3 c.c.
**FA** – A.A.S. only. Prerequisite: SON 1170. This course offers the principles of diagnostic ultrasound and presents the practical aspects of scanning techniques, film critique, film identification and patient care and handling as related to sonographic Doppler examination. Stresses the operation of diagnostic ultrasonic equipment and routine images obtained.

SON 1215 Practical Aspects of Sonography II. 3 c.c.
**SP** – A.A.S. only. Prerequisite: SON 1214. This course offers more advanced principles of diagnostic ultrasound, adding knowledge of pathological processes. Further presenting the practical aspects of scanning techniques, film critique, film identification and patient care and handling as related to the sonographic examination. Stressing the correlation of all patient data, including sonographic images obtained to assist in the differential diagnostic process.

SON 1804 Sonography Clinic I. 3 c.c.
**FA** – A.A.S. only. Lab fee. Prerequisite: SON 1170. Clinical education requiring application of the didactic knowledge is learned. Professionalism and personal interactions are stressed along with technical abilities. Each student will be assigned to a registered sonographer employed by the clinical site with one-on-one supervision. Students will demonstrate basic skills utilizing equipment in scanning techniques. He/she will also demonstrate appropriate patient interaction, understand basic protocol/procedures associated with gynecological/obstetrical examinations in all stages of pregnancy and with scanning abdominal structures. As the student successfully completes practical competencies, he/she will require less supervision during examinations but will always be under the supervision of a registered sonographer.

SON 1814 Sonography Clinic II. 3 c.c.
**SP** – A.A.S. only. Lab fee. Prerequisite: SON 1804. This course is a continuation of Sonography Clinic I. Student continues to build skills utilizing equipment. Can identify protocols for assigned clinical affiliate. Patient interaction appropriate for a sonographer is stressed. Understands protocols and procedures associated with gynecological and obstetrical examinations in all stages of pregnancy and with scanning abdominal structures. As the student successfully completes practical competencies, he/she will require less supervision during examinations but will always be under the supervision of a registered sonographer.

SON 1824 Sonography Clinic III. 4 c.c.
**SU** – A.A.S. only. Lab fee. Prerequisite: SON 1814. This course is a continuation of Sonography Clinic II. Application of didactic knowledge continues. Professionalism and personal interactions are stressed along with advanced technical abilities. The student will be able to explain and demonstrate all procedures learned in prior clinics including scans for thyroid/parathyroid glands, bladder/prostrate, scrotum/testes, breast, arterio/venous connections and lower extremity vascular structures. He/she will be under the supervision of a registered sonographer during all examinations.

SOS 2006 Introduction to Soil Science. 4 c.c.
**SP** – A study of the relationships of soil water, fertilizers and plant roots. The course will include soil properties, classification, management and use. The social issues surrounding soil water use will be covered. The laboratory period will give students practical experience in the above areas.
SPA 1612C Introduction to American Sign Language. 4 c.c.

FA, SP – This course will introduce the student to the syntax and morphology of the entire native language of deaf people. The course is designed to promote a better understanding of American Sign Language and to clarify how it differs not only from developed English Sign Systems, but from the English language as a whole. The course will also describe the history, values, and culture of deaf persons in America. Emphasis is placed on the students’ receptive skills rather than expressive skills. Learning activities are designed to reinforce instruction through the use of videotaped materials and practice exercises developed to correspond to textbook materials. Basic conversational receptive and expressive sign language practice will be emphasized. Greater depth is explored in Intermediate American Sign Language. Meets foreign language requirement.

SPA 1613C Intermediate American Sign Language. 4 c.c.

FA, SP – Prerequisite: SPA 1612C. This course will introduce the student to the principles of idiomatic speech and colloquialism in conversational sign language. The course emphasizes intermediate level sign vocabulary, complex grammatical constructions, and the inflection patterns in spontaneous conversation. Additional instruction will be given on the production of the conceptually accurate sign. Emphasis will be placed on increasing the expressive and receptive proficiency of the student. Learning activities emphasize the use of videotaped materials and practice exercises developed to correspond with text book materials. Intermediate level expressive skills, (i.e., conversational skills) and receptive skills will be emphasized through interaction with deaf adults and videotaped stories. Meets foreign language requirement.

SPC 1006C Basic Speaking and Listening Skills. 1 c.c.

FA, SP, SU – An introductory course which provides the speaking/listening skills prescribed by the Florida CLASP. Meets A.A. oral communications requirement.

SPC 1600 Public Speaking. 3 c.c.

FA, SP, SU – A study of speech principles and types of formal speeches. Emphasis is placed on development, critical analysis, and delivery of several types of formal speeches. Meets A.A. oral communications requirement.

SPC 2300 Interpersonal Communication. 3 c.c.

FA, SP, SU – A general speech communication course that demonstrates the predominance of the spoken language in forming your personality and relating your ideas to others. Informal class experiences focus on understanding symbols and the dynamics of the speech process, interpreting values and message variables, participating in small-group discussions and resolving conflict. Meets A.A. oral communications requirement.

SPC 2931, 2932, 2933 Special Topics. 1 c.c., 2 c.c., 3 c.c.

TBA – Prerequisites: A grade of “C” or better in ENC 1102, SPC 1600, SPC 2300. This course is designed to allow flexibility for presenting a variety of topics in communication, including but not limited to interpersonal relationships; communication in film; small group dynamics; voice and diction; nonverbal communication; and intercultural communication. Oral performance may be required. Course(s) may be repeated for credit when content varies. Lab fees may be required.

SPN 1120 Beginning Spanish I. 4 c.c.

FA, SP, SU – Fundamentals of grammar, drill in pronunciation, reading, and special emphasis on oral expression in the language. The course includes four credits of classroom instruction which may be augmented by study in the Foreign Language Laboratory. If you have had two consecutive years of Spanish in high school, it is strongly advised you begin in SPN 1121.

SPN 1121 Beginning Spanish II. 4 c.c.

FA, SP, SU – Prerequisite: SPN 1120. Not for beginners. The course will include four credits of classroom instruction which may be augmented by study in the Foreign Language Laboratory. Emphasis will be placed upon speaking and comprehension as well as culture. A wide variety of audio-visual materials will be at the student’s disposal. This course is available in an intensive, six-week version during the summer term. If you have had two consecutive years of Spanish in high school, it is strongly advised you begin in SPN 1121. Meets A.A. general education Category V.

SPN 2200 Intermediate Spanish I. 3 c.c.

FA, SP – Prerequisite: SPN 1121. Development of ability to read with comprehension varied material on literature, culture, or history of Spanish-speaking countries with the emphasis on the oral-aural aspects of the language. The study of grammar is continued on a more advanced level.

SPN 2201 Intermediate Spanish II. 3 c.c.

FA, SP – Prerequisite: SPN 2200. This course is designed to further enhance the knowledge of students in the Spanish language. The four language skills of listening, reading, writing and speaking will offer the students the opportunity to learn more about the stylistics of the language. Creative material will be introduced that will help students acquire more information about the history and the culture of the language.

SPN 2240 Conversational Spanish I. 3 c.c.

FA, SP – Prerequisite: SPN 2201. The course is intended for any student with at least six hours of Spanish who desires proficiency in spoken Spanish. The student is urged to use Spanish in class in the practicing of structural drills and the discussion of varied materials in Spanish.

SPN 2241 Conversational Spanish II. 3 c.c.

FA, SP – Prerequisite: SPN 2240. A continuation of Conversational Spanish I, SPN 2240.

STA 2023 Elementary Statistics. 3 c.c.

FA, SP, SU – Prerequisite: Appropriate score on Florida Entry-Level Placement Exam or completion of MAT 1033 with a grade of “C” or better. This is a study of fundamental statistical methods including organization, analysis and interpretation of numerical data, measures of central tendency and dispersion, statistical distributions, sampling techniques, hypothesis testing, probability, z-tests, chi-square tests, correlations, and regression equations. Meets A.A. general education Category III.

STS 003C Introduction to Surgical Technology. 6 v.c.

FA – Prerequisite: Admission to the Surgical Technology program. Corequisite: STS 0804. The purpose of this course is to introduce students to the duties and responsibilities of the surgical technologist as a member of the surgical team in a health care organization. Course topics will include surgical suite organization and management, the physical environment of the surgical suite, and the historical development of surgery. Communication skills and ethical, legal, and moral responsibilities of the surgical technologist will be emphasized throughout the course. Beginning skills needed in the operating room will be taught in the campus lab setting. Students will complete a clinical experience in the sterile processing department.

STS 0120 Surgical Specialties I. 4 v.c.

FA – Prerequisites: BSC 0084, HSC 0001, MEA 0230, STS 003C. Corequisites: STS 0255L, STS 0803C. This course focuses on the various types of General Surgery, and the surgical specialities of Obstetric and Gynecologic, Urologic, Otorhinolaryngologic, Plastic and Reconstructive, Ophthalmic, and Oral and Maxillofacial.

STS 0121 Surgical Specialties II. 1 v.c.

SU – Prerequisite: STS 0255L. Corequisite: STS 0255L. This course continues with and builds upon the various types of specialty surgical procedures introduced in Surgical Techniques and Procedures. The types of surgical specialties covered will include: orthopedic surgery, pediatric surgery and neurosurgery.
STS 0122 Surgical Specialties III. 1 v.c.

**SU** – Prerequisites: STS 0121, STS 0256L. Corequisite: STS 0257L. This course is the last in a series of courses which focus on specialty surgical procedures. More complex surgical specialties will also be covered: thoracic surgery, cardiac surgery and peripheral vascular surgery.

STS 0255L Surgical Procedures Clinical I. 9 v.c.

**SP** – Lab fee. Prerequisites: HSC 0591C, STS 0003C, STS 0804, S00758. Corequisites: STS 0120, STS 0805C. This course consists of supervised, beginning-level learning experiences in clinical settings. Students will acquire and practice skills in campus lab and will apply those skills in clinical practice. Students will apply and reinforce concepts, principles, and skills of surgical technology practice while progressing from the role of observer to that of a supervised member of the surgical team. Emphasis will be placed on general surgery and the specialties of Ophthalmic Surgery, Otorhinolaryngologic Surgery, Oral and Maxillofacial Surgery, Plastic Reconstructive Surgery, and Urologic Surgery.

STS 0256L Surgical Procedures Clinical II. 6 v.c.

**SU** – Prerequisite: STS 0255L. Corequisite: STS 0803C. The focus of this course is to provide clinical experience which will allow the student to develop increased competency of surgical technology skills in general surgery and selected specialty areas. Emphasis will be placed on pediatric surgery, orthopedic surgery, and neurosurgery.

STS 0257L Surgical Procedures Clinical III. 6 v.c.

**SU** – Prerequisites: STS 0121, STS 0256L. Corequisite: STS 0122. This course will reinforce and extend the instructional experiences of the previous courses. The focus is on integrating all previously learned concepts, principles, and skills essential to the role of the entry-level surgical technologist. Emphasis will be placed on the specialties of thoracic surgery, cardiac surgery, and peripheral vascular surgery.

STS 0803C Pharmacology and Anesthesia. 2 v.c.

**SP** – Prerequisites: BSC 0084, MEA 0230, STS 0804. An introduction to pharmacology and anesthesia from the perspective of the surgical technologist. Participants will become familiar with the care and handling of drugs and solutions, the use of drugs in the care of surgical patients, and the principles of anesthesia administration.

STS 0804 Basic Microbiology. 2 v.c.

**FA** – This course covers the characteristics and activities of microorganisms. The survey of the various microbial groups, especially bacteria, viruses, and fungi, with an emphasis on pathogenic forms. Bacterial growth, metabolism, and genetics are discussed in some detail. Theories and methods of destruction, removal and inhibition of microorganisms in the environment are studied, as well as how the human body’s natural defenses act to protect us against pathogenic microorganisms and how chemotherapeutic agents assist in this task. Various significant aspects of several infectious diseases that occur in humans are also covered.

SUR 1100C Construction Surveying. 4 c.c.

**SU** – A.A.S. only. Lab fee. Corequisite: MAT 1033 or higher prerequisite of permission of instructor. An introductory course including the fundamentals of plane surveying and the use and care of equipment. Topics covered are theory of leveling, angles and bearings, curves and topography. An introductory laboratory designed to include measurement of distance, leveling, and land surveying. Includes use of Laser/Electronic Distance Meter.

SYG 2000 Introduction to Sociology. 3 c.c.

**FA, SP, SU** – Prerequisite: Test score requirement the same as ENC 1101. Sociology is the systematic study of human group dynamics. As such, this introductory course will cover the theoretical foundations of sociology and their application to modern society. Some topics covered include: race and ethnicity, gender and age inequalities, globalization, education and politics. The course invites students to view and analyze their social world in a new and exciting perspective. Meets A.A. general education Category IV. A writing emphasis course.

SYG 2010 Social Problems. 3 c.c.

**FA, SP** – Prerequisite: Test score requirement the same as ENC 1101. This course utilizes current sociological research and theory to analyze the origins and possible solutions to those problems found in modern-day social institutions such as marriage, the economy, government, education and health care. Other topics include social costs of environmental degradation, ethical issues associated with a rapidly changing technology, poverty and crime. Students are encouraged to participate actively in this discussion-based class. Meets A.A. general education Category IV. A writing emphasis course.

TAX 2000 Income Tax Procedures. 3 c.c.

**FA, SP** – A.A.S. only. Prerequisite: ACG 2001 or ACG 2021. The study of current Federal Income Tax Laws and rules as they apply to individual income tax returns. Actual tax forms are studied and prepared by the student. Topics include gross income, deductions, personal itemized deductions, tax credits and pre-payments, capital gains and losses, and self-employment income.

THE 2000 Introduction to Theatre. 3 c.c.

**FA, SP, SU** – Prerequisite: Test score requirement the same as ENC 1101. Designed to instill in the student a curiosity and interest in all areas of the theatre by inspiring him or her to look at this collaborative art form from the point of view of those who create it. This is not an acting class. Meets A.A. general education Category V. A writing emphasis course.

THE 2083 Theatre Problems. 3 c.c.

**TBA** – Prerequisite: THE 2000. This is an advanced course for students who have demonstrated that they are capable of advanced, highly specialized work in a particular area of the theatre such as scene design, acting methods, play writing, and directing. Students are assigned to a teacher who will design, supervise; and evaluate their projects. May be used for certification or recertification of high school drama teachers. May be repeated for credit (three times).

THE 2300 Dramatic Literature. 3 c.c.

**SP** – Prerequisite: THE 2000. This course explores dramatic literature and develops the student's knowledge and appreciation of the elements of literature through the study of selected scripts, playwrights and dramatic theories. Among these elements are the history of dramatic literature, genre study and the theory and practice of dramatic analysis and criticism.

TPA 2290 Technical Laboratory. 1 c.c.

**FA, SP, SU** – Course constitutes participation in the backstage technical operation of the current production. This course may be taken three times. Hours to be arranged.

TPP 1100 Introduction to Acting. 3 c.c.

**SU** – An introduction to the basic skills of acting, voice, and dance for the stage. Course consists of one hour daily lecture participation covering various aspects of theatre arts, including costumes, scenery, and make-up to be followed by three hours of rehearsal. Students will participate on stage or back stage in a musical or dramatic production. This course may be repeated as different productions are performed.

TPP 1110 Acting I. 3 c.c.

**FA** – Prerequisite: Speech or permission of instructor. A practical study of beginning acting. Basic skills will be practiced in pantomime, improvisations, and selected scenes. Participation in current PJc production is encouraged, as well as studying other actors in performance in area theaters. Pensacola Little Theatre, University of West Florida, and local secondary schools.

TPP 1111 Acting II. 3 c.c.

**SP** – Prerequisite: TPP 1110 or permission of instructor. A study of acting styles with practical application of acting skills in classroom exercises and extra-curricular activities. A study of the advantages and disadvantages of theatre as a vocation and/or an avocation.
TPP 2190 Rehearsal and Performance. 1 c.c. 
FA, SP, SU – Prerequisite: Permission of instructor. This credit hour is restricted to the students who are cast in performing roles in the dramatic productions of the semester. This credit may be earned three times. Hours to be arranged.

TPP 2250 Introduction to Musical Theatre. 3 c.c. 
SP – Introduction to the study of musical theatre analysis, creation, and performance as applied to the study of voice, dance, and acting.

TPP 2300 Directing I. 3 c.c. 
FA – Prerequisite: TPP 1110 or permission of instructor. Introduction of the fundamental principles and techniques of play direction to include script selection and analysis, casting, blocking, composition, picturization, interpretation, and staging of plays.

VPI 0100 Vocational Preparatory Reading. 1 v.p. 
FA, SP, SU – Prerequisite: A student must apply for a Vocational Certificate Program. The course is designed to develop reading skills, basic study skills, and comprehension. Development of these skills is through individual lab activities, computer-assisted instruction, lab and home assignments, and pre/post evaluation. Two repeats are allowed.

VPI 0200 Vocational Preparatory Mathematics. 1 v.p. 
FA, SP, SU – Prerequisite: A student must apply for a Vocational Certificate Program. The course is designed for the student who needs to develop basic arithmetic skills focusing on relating math to the specific vocational training area. Emphasis is on individualized learning including lab activities, computer-assisted instruction, lab and home assignments, and pre/post evaluation. Two repeats are allowed.

VPI 0311 Vocational Preparatory Language. 1 v.p. 
FA, SP, SU – Prerequisite: A student must apply for a Vocational Certificate Program. The course is designed for the student who needs to develop basic writing skills and language skills, including language mechanics, punctuation, and sentence and paragraph development. Individualized approaches include lab activities, computer-assisted instruction, lab and home assignments, and pre/post evaluation. Two repeats are allowed.

WIS 2600 Wildlife Management in Forestry. 3 c.c. 
FA – The study of wildlife management practices and wildlife habitat; and the manipulation of wildlife through forest management practices.

WST 2010 Introduction to Women's Studies. 3 c.c. 
TB1 – Prerequisite: Test score requirement the same as ENC 1101. An interdisciplinary approach to the study of major issues relevant to the female experience. The course integrates imaginative literature with a variety of non-fiction readings from history, psychology, and other academic disciplines. Reading, writing, discussing, and working collaboratively will develop students’ understanding of the experiences of women in Western culture and provide them with a context for evaluating their personal experiences. A writing emphasis course.

ZOO 1010 General Zoology. 3 c.c. 
FA, SP, SU – Corequisite: ZOO 1010L. Morphological, physiological, and taxonomic aspects of animals are studied. Representative animals are used to illustrate significant characteristics of major and animal groups. Variety of form and function in animals is given considerable emphasis throughout the course. Local beach and marine animals are emphasized. Recommended for biology majors. Meets A.A. general education Category VI.

ZOO 2303 Vertebrate Zoology. 3 c.c. 
FA – Prerequisite: ZOO 1010. Corequisite: ZOO 2303L. A survey of the biology of vertebrates, with emphasis on evolution, taxonomy, anatomy, physiology, behavior, and ecology.

ZOO 2303L Vertebrate Zoology Laboratory. 1 c.c. 
FA – Lab fee. Prerequisite: ZOO 2303. A laboratory course covering the anatomy, taxonomy, and behavior of the vertebrates, including survey of related chordates. Dissection of representatives of vertebrate classes, use of taxonomic keys, and a project are included in class assignments.

A.A., Pensacola Junior College
B.A., M.A., University of West Florida

Department Head
Assistant Professor, Librarian
LRC, Milton Campus
B.S., Florida A&M University
M.L.S., Florida State University

Department Head
Department of Biological Sciences
A.B., Cornell University
M.S., John Carroll University

Coordinator, Fitness Center and Student Leadership and Activities,
Milton Campus
Selected for Academy of Teaching Excellence in 1996
A.A., Pensacola Junior College
B.S., M.S., University of West Florida

BREWER, Conrad (1989)
Professor of Forestry
Department of Biological Sciences
Selected for Academy of Teaching Excellence in 1995
B.S.F.E., M.S., University of Georgia
Ph.D., Louisiana State University

BREWER, Dale (1988)
Professor of Business
Department of Arts and Sciences,
Warrington Campus
B.S., M.Ed., University of West Florida

BRIGHAM, Isaac (1991)
Senior Vice President for Planning and Administration
B.S., M.S., Ph.D., Southern Illinois University

Assistant Professor of Diagnostic Medical Sonography
Department of Dental and Radiographic Sciences
Selected for Academy of Teaching Excellence in 2004
B.S.N., University of Missouri
RDMs: Abdomen, OB/GYN
Neurosonography Certifications
RDCS: Adult Echocardiography
RVT: Vascular Technology

BRONSON, Anita (2000)
Job Developer, Welfare Programs
Department of Vocational Education
B.A., University of West Florida

BROOKS, Reda F. (1996)
Assistant Professor of Early Childhood Education
Department of Behavioral Sciences
B.S., Mississippi State University
M.Ed., Mississippi State University

BROXTON, Randall (1995)
Learning Lab Supervisor
Student Support Services
Selected for the Academy of Teaching Excellence in 1998
B.S., University of South Alabama
M.S., Troy State University

Instructor/Librarian
LRC Technical Services
B.A., Indiana University at South Bend
M.L.S., Indiana University

BRYANT, Georgianna B. (1985)
Student Services Director, Milton Campus
A.A., Tallahassee Community College
B.A., M.S., Ph.D., Florida State University

BURDEN, Lynn A. (1992)
Coordinator, Continuing Education
B.B.A., University of Montevallo
M.Ed., University of West Florida

BURK, Kathleen B. (1989)
Professor of Mathematics
Department of Mathematics
B.S., M.S., Northwestern State University of Louisiana

BURKHARDT, Joan (1996)
Instructor of Mathematics
Department of Developmental Studies
B.S., University of South Alabama

BUSCH, William (2001)
Case Manager
Department of Vocational Education
B.S., Idaho State University

BUSH, Larry C. (1999)
Learning Lab Supervisor
Department of Developmental Studies
B.A., M.A., Florida State University

BUSSLER, Rowland (2001)
Instructor for Telecommunications
Electronics and Information Engineering Technology Programs
A.S., Pensacola Junior College

CACACE, Richard N. (1996)
Associate Professor of Information Technology
Electronics and Information Engineering Technology Programs
Selected for Academy of Teaching Excellence in 2004
B.S., U.S. Naval Academy
M.S., University of West Florida

CADE, Lynn B. (1988)
Professor of Mathematics
Department of Arts and Sciences,
Warrington Campus
A.A., Bishop State Junior College
B.S., Alabama State University
M.A., University of West Florida

CALLAWAY, James B. (1971)
Registrar, Admissions/Student Support Services
Director of Recruitment Services
B.S., Livingston University
M.S., University of South Alabama
Ed.D., Nova University

CANNON, Michael (1992)
Instructor of Engineering Technology
Engineering Technology Programs
B.S., East Tennessee State University

CARR, Jeremy (1996)
Instructor of Mathematics
Department of Mathematics
B.S., M.S., University of South Alabama

CARRIER, Brenda (1993)
Finance Coordinator
Bursar’s Office
B.A., University of West Florida

CARSON, Vicki (1980)
Coach, Women’s Basketball Team
B.S.E., University of Arkansas
M.A., University of Alabama

CASHWELL, Joe (2000)

Student Services Specialist
Educational Talent Search
B.S., Campbell University

DAVIS, Sandra L. (1981)
District Department Head, Reader Services
Learning Resources Center, Pensacola Campus
B.A., Arizona State University
M.S.L.S., Catholic University
Ed.D., Florida State University

DAVIS, Wanda C. (1971)
Professor of English
Academic Programs, Milton Campus
B.S., Florida State University
M.T.E., University of West Florida

DEAN, Michelle D. (1996)
Computer Systems Analyst
Department of Information Technology Services
A.A., Pensacola Junior College
B.S., University of West Florida

DEAN, Stan (1995)
Assistant Professor, Music and Theatre
Director of Theatre
Department of Music and Theatre
B.A., University of West Florida
M.E.A., University of Oklahoma

DELARGE, David (1993)
Computer Systems Analyst
Department of Information Technology Services
A.S., Pierce Junior College

DIAMOND, Joseph E. (1980)
Professor of Emergency Medical Technology
Department of Applied Health Technologies, Warrington Campus
E.M.T., Paramedic
A.S., Pensacola Junior College

DICKEY, Jennifer (2000)
Case Manager; Welfare Programs
Department of Vocational Education
B.S., University of Kentucky

Professor of Chemistry
Department of Physical Sciences
A.A., Pensacola Junior College
B.S., University of West Florida
M.A., Duke University
Ph.D., University of Florida

DOUMA, Deborah (1999)
Associate Professor
Department of Applied Health Technologies
Welfare Programs

DUNCAN, Cookie (2000)
Network Systems Analyst, Computer Services/Telecommunications
Department of Information Technology Services
B.S., William Carey College

DUNCAN, Frances H. (1992)
Professor of Biology
Department of Biological Sciences
Selected as Outstanding New Faculty Member in 1994
Selected for Academy of Teaching Excellence in 1997
B.S., Middle Tennessee State University
M.A., Central Michigan University

DUNCANS-BURNETT, Wilma (1988)
Associate Professor
Department of Applied Health Technologies, Warrington Campus
C.R.T.T., A.S., R.R.T., Pensacola Junior College
A.A., Normandale Community College

DUNN, Kenneth M. (1976)
Professor of Engineering Technology
Electronics and Information Engineering Technology Programs
A.A., B.S., University of Alabama
M.S., University of West Florida

DUNN, Richard (1997)
Employment and Follow-up Specialist, Welfare Programs
Department of Vocational Education
B.S., Wright State University
M.A., University of West Florida

DUNPHY, Doris (1997)
Assistant Professor
Electronics and Information Engineering Technology Programs
A.A., Pitt Community College
B.S., M.Ed., University of West Florida
DUPRE, Genie (2001)
Program Specialist
Vocational Student Support Services
Department of Vocational Education
A.A., Pensacola Junior College
B.S., University of West Florida

DYKSTRA, Margaret (1998)
Instructor of Nursing
Department of Nursing, Warrington
A.A.S., Orange County Community College
B.S.N., State University of New York
M.S.N., University of South Alabama

ELLEDGE, Elaine K. (1990)
Director, Testing, Assessment and Orientation
B.A., Alabama College
M.Ed., University of Florida

EMOND, Gean Ann (1991)
Vice President for Business Affairs
A.A., Pensacola Junior College
B.A., M.B.A., University of West Florida
Certified Public Accountant

ESSLINGER, Mary V. (1993)
Coordinator, Dual Enrollment
B.A., University of Mississippi
M.Ed., Auburn University-Montgomery

EUBANKS, Bryan (1999)
Network Administrator
Microcomputer Resources
CompTIA A+ Certification

EVANS, Earl (1998)
Dean, Career Planning and Counseling
B.S., Alabama State College
M.Ed., Alabama State University
M.S., Troy State University

FALZONE, Pete (2000)
Instructor of Mathematics
Department of Arts and Sciences, Warrington Campus
A.A., Pensacola Junior College
B.S., M.S.T., University of Florida

FERGUSON, Ronald “Tony” (2000)
Senior Television Producer/Director
WSRE-TV
B.S., Pensacola Christian College

FINK, Logan (1984)
Instructor of Agriculture
Department of Biological Sciences
B.S., M.S., University of Florida

FINLEY, Edith (1987)
Coordinator, Continuing Education
B.S., M.S.M., Troy State University

FISHER, William (1987)
Assistant Professor of English
Department of English/Communications
B.S., M.A., University of Kansas

FLORKIEWICZ, Christina (2004)
Coordinator, Training and Development
Downtown Center
B.S., University of Alabama

FLOYD, Judith (1988)
Professor/Counselor
Student Services, Warrington Campus
B.S., University of Arkansas
M.S., University of New York, Plattsburgh

FLYNN, Donna (2002)
Instructor
Department of Arts and Sciences, Warrington Campus
Certificate, Medical Assisting
A.S., Pensacola Junior College
B.S., University of West Florida
M.S., Troy State University

FOL SOM, Charles P. (1993)
Instructor of Mathematics
Department of Developmental Studies
Selected for Academy of Teaching Excellence in 1992
B.S., Emory & Henry College
M.S., Troy State University
Ed.S., University of West Florida

FOREHAND, Frederick F. (2003)
Telecommunications Network Analyst, Computer Services/Telecommunications
Department of Information Technology Services
A.S., Jefferson Davis College
A.S., Community College of the U.S.A.F.

Associate Professor of Automotive Service Management Technology
Engineering Technology Programs
A.S., Pensacola Junior College
ASE Certified Master Automotive Technician
ASE Certified Master Medium/Heavy Trucks Technician
ASE Certified Master Engine Machinist

FORMSMA, Carolyn (2000)
Department Head
Adult Basic Education
B.A., Kalamazoo College
M.S.T., University of Chicago

FOSTER, Marty (1997)
Science Lab Specialist
Department of Biological Sciences
B.S., University of West Florida

FRANCIS, Mark (2001)
Instructor of Art
Department of Visual Arts
A.A., Pensacola Junior College
B.S., Florida A&M University
M.E.A., Savannah College of Art and Design

FRAZER, Gael (1989)
Associate Vice President, Institutional Diversity
B.A., M.S., State University of New York at Albany
J.D., Howard University

FRIEDMAN, Deborah P. (1988)
Associate Professor of Secondary Education
Department of Secondary Education
Selected for Academy of Teaching Excellence in 2000
A.A., Pensacola Junior College
B.A., University of West Florida
M.S., Troy State University

GAGE, Gary (1972)
Professor of Business
Department of Business
B.S., M.B.A., East Tennessee State

GANLEY, Catherine (2002)
Manager, Membership
WSRE-TV
B.S., University of Florida

GARBER, Daniel Thor (2001)
Instructor of Physics and Astronomy
Department of Physical Sciences
A.A., B.S., M.S., University of Florida

GARDNER, Larry (1978)
Department Head
Professor of Cosmetology/Barbering
Department of Professional Service Careers
Selected for Academy of Teaching Excellence in 1997
A.S., Pensacola Junior College
B.S., Auburn University
M.S., University of West Florida

GARLOCK, Vicki Lynn (1976)
Professor of Nursing
Department of Nursing, Warrington Campus
Selected for Academy of Teaching Excellence in 1995
B.S.N., Drury College
M.S.N., University of South Alabama

GARRETT, Joanne (1997)
Program Specialist
Vocational Student Support Services
Department of Vocational Education
B.A., Shorter College
Ed.S., George Peabody College
Ed.D., Vanderbilt University

GARRETT, Rodney (1999)
Assistant Professor of Speech
Department of English/Communications
B.A., Auburn University
M.A., University of Alabama
Ed.S., Auburn University

GATES, William (2001)
Coordinator, Academic Computing
Precollegiate Studies
A.S., Pensacola Junior College

GEE, Thomas (1991)
Assistant Professor of Environmental Science and Chemistry
Department of Environmental Sciences, Milton Campus
B.S., M.S., State University of New York

GIACIN, Robin (1997)
Student Services Specialist
Educational Opportunity Center
B.S., Troy State University

GILBERT, Herb (1997)
Assistant Director of Engineering and Operations
WSRE-TV

GILBERT, Michael W. (1989)
Assistant Professor of Political Science
Department of History, Languages and Philosophy
A.B.D., Vanderbilt University
B.A., M.A., University of Southern Mississippi
GILL-BROWN, Latricia (1995)  
Associate Professor of History  
Department of History, Languages, and Philosophy  
Selected for Academy of Teaching Excellence in 2002  
Selected as Outstanding New Faculty Member in 1997  
B.A., Trinity College  
M.A., University of Wisconsin-Madison  
GOMEZ, Liz (1999)  
Director, Networking and Microcomputer Resources  
Certified Novell Engineer, Instructor  
Microsoft Certified System Engineer, Trainer  
GONZALEZ, Gloria (1997)  
Assistant Professor of Nutrition  
Department of Biological Sciences  
B.S., Ouachita Baptist University  
M.S., Mississippi University for Women  
GONZALEZ, Martin (1988)  
Provost, Milton Campus  
A.A., Northwest Mississippi Junior College  
B.S., B.M.A., Delta State University  
Ph.D., University of Mississippi  
GOUDY, Tammy (2003)  
Computer Systems Analyst  
Department of Information Technology Services  
B.S., University of West Florida  
GRAM, Peter C. (1973)  
Professor of Psychology  
Department of Behavioral Sciences  
B.A., University of Virginia  
M.Ed., Memphis State University  
Ph.D., University of Georgia  
GRANT, James E. (1978)  
Department Head  
Associate Professor of Secondary Education  
Department of Secondary Education  
B.S., M.Ed., South Carolina State College  
Ed.D., University of Illinois  
GRAVES, G. Mary (1993)  
Computer Systems Analyst  
Department of Information Technology Services  
A.A., Pensacola Junior College  
B.S., University of West Florida  
Professor of German & Humanities  
Department of History, Languages, and Philosophy  
A.A. Pensacola Junior College  
B.F.A., M.A., University of West Florida  
GRIFFIN, Gayle (1997)  
Assistant Professor of Nursing  
Department of Nursing  
B.S.N., University of West Florida  
GROW, Thomas E. (1988)  
Professor of Chemistry  
Department of Physical Sciences  
Selected for Academy of Teaching Excellence in 1995  
A.A., Pensacola Junior College  
B.S., University of West Florida  
Ph.D., University of Florida  
Computer Systems Analyst  
Department of Information Technology Services  
A.A., Pensacola Junior College  
B.A., University of West Florida  
HAGGARD, Michelle E. (1999)  
Assistant Professor of Business  
Department of Arts and Sciences, Warrington Campus  
B.A., M.A., University of West Florida  
Certified Public Accountant  
HALHN, Ed (2000)  
Training Specialist, Welfare Programs  
Department of Vocational Education  
B.S., Regents College  
HALFILL, Carol S. (2002)  
Director, Center for Information and Engineering Technology  
A.A., Pensacola Junior College  
B.A., Florida State University  
M.S., University of West Florida  
Ed.D., University of Central Florida  
HALL, Lance A. (2000)  
Assistant Professor of Information Technology  
Electronics and Information Engineering Technology Programs  
A.S. in Business, Pensacola Junior College  
CCAI, CCNP, CCDA  
HALL, Sommer (2000)  
Job Developer, Welfare Programs  
Department of Vocational Education  
B.A., University of West Florida  
HAMILTON, Bill (1990)  
Athletic Director  
Coach, Men's Baseball  
B.A., Huntingdon College  
M.Ed., Columbus College  
HAMILTON, Melinda (1991)  
Assistant Professor of Nursing  
Department of Nursing, Warrington Campus  
B.S.N., University of West Florida  
M.S.N., University of South Alabama  
HARDWAY, Phyllis M. (1976)  
Professor of Adult Basic Education  
Department of Adult Basic Education  
Selected for Academy of Teaching Excellence in 1986  
A.A., Washington Junior College  
B.A., Huston Tillotson  
M.S., Troy State University  
HARMON, Cena (1997)  
Assistant Professor of Physical Therapist Assistant  
Department of Applied Health Technologies, Warrington Campus  
A.A., Pensacola Junior College  
B.S., University of South Alabama  
HARMON, Sharon (1990)  
Professor of History  
Department of History, Languages, and Philosophy  
B.A., Wittenberg University  
M.A., University of West Florida  
HARRINGTON, Todd (1988)  
Director, Facilities Planning  
B.A., University of Florida  
HARRIS, Anthony L. (1986)  
Assistant Professor/Counselor  
Student Services  
B.S., M.S., Alabama State University  
HARRIS, Barbara (1998)  
Assistant Professor of Dental Assisting  
Department of Dental and Radiographic Sciences  
Selected for Academy of Teaching Excellence in 2003  
A.S., Pensacola Junior College  
R.D.H., CDA  
HARRIS, Paul O. (1995)  
Director, Purchasing and Aux. Services  
B.S., University of West Florida  
M.P.A., Troy State University  
HARTLEY, Sandra (1999)  
Assistant Professor, EMT/Paramedic  
Department of Applied Health Technologies, Warrington Campus  
A.A., Florida Community College  
B.A., University of West Florida  
M.S., Florida State University  
HEMMIE, Carol (1989)  
Associate Professor of English  
Department of Arts and Sciences, Warrington Campus  
Selected for Academy of Teaching Excellence in 1997  
B.A., University of Puerto Rico  
M.A., State University of New York  
HENDERSON, Richard M. (2001)  
Coordinator, Fire Science and Fire Academy  
Department of Applied Health Technologies, Warrington Campus  
A.A., A.S., Pensacola Junior College  
B.S., University of Cincinnati  
M.S. Kennedy/Western University  
HENDERSON, Tammy R. (1994)  
Director, Human Resources  
B.A., Marshall University  
M.S., Troy State University  
HERNANDEZ, Erin (1988)  
Systems Support Analyst  
Department of Information Technology Services  
B.S., University of West Florida  
HERINGTON, Deedra (1994)  
Assistant Professor of English  
Department of Developmental Studies  
A.A., St. Petersburg Junior College  
B.A., M.A., Florida State University  
HERR, Travis (2001)  
Instructor of Culinary Management  
Coordinator, Culinary Management Program  
Department of Professional Service Careers  
B.S., B.A., University of Florida  
M.S.M., Florida State University  
HIGHTOWER, James (2000)  
Assistant Professor of Business  
Coordinator, Legal Assisting Program  
Department of Business  
B.A., J.D., University of Alabama  
HILL-REYNOLDS, Angelesque M. (1997)  
Coordinator, Rape Risk Reduction Education and Training  
A.A., Pensacola Junior College  
B.S., M.Ed., University of West Florida
HILL, Wayne (1998)
Computer Systems Analyst
Department of Information Technology
Services
A.S., Daytona Beach Community College
B.A., University of West Florida

HILLEKE, Kenda (2003)
Annual Fund and Alumni Affairs
Development Coordinator
PJC Foundation
B.S., University of Florida

HINES, Jim (1998)
Coordinator, Microcomputer Support
Department of Instructional Technology
Microcomputer Resources
A.S., Pensacola Junior College
Certified Novell Administrator (CNA)

HOBBS, Lynn (2000)
Business Manager, PJC Foundation
B.S., Auburn
M.B.A., Troy State University
Certified Public Accountant

HOLT-HILL, Shirley A. (1980)
Professor of Nursing
Department of Nursing, Warrington Campus
ANCC Clinical Specialist Gerontology
B.S.N., Dillard University
M.Ed., M.S.N., University of South Alabama
D.N.S., Louisiana State University

HOPSON-LONGMIRE, Joyce M. (1977)
Professor of Mathematics
Department of Developmental Studies
Selected for Academy of Teaching Excellence in 1999
B.S., M.S., University of Arkansas
Community College Specialist in Business Education, Arkansas State University
Ph.D., University of Missouri at Columbia

HORACEK, Patricia A. (1987)
Professor of Mathematics
Department of Developmental Studies
Selected for Academy of Teaching Excellence in 1994
B.S., M.S., Pensacola Christian College
M.A., University of West Florida

HORIGAN, Carol Jean (1974)
Professor of Art
Department of Visual Arts
Selected for Academy of Teaching Excellence in 2003
B.A., Purdue University
M.A., George Washington University

HORN, Lister Wayne (1969)
Professor of Computer Science
Program Director, Computer Science Programs
Center for Information and Engineering Technology
B.S., M.Ed., University of Arizona
M.A.S., Southern Methodist University
Ed.D., Florida State University

HUAL, Mike (1981)
Coordinator, Academic Computing
Academic Computer Center
A.A., Pensacola Junior College
B.S., University of West Florida

HUBBS, Karen Jill (1996)
Coordinator, Educational Services
WSRE-TV
A.A., Pensacola Junior College
B.A., University of West Florida

HUFFMAN, Albert (1992)
Professor of English
Department of Student Services, Warrington Campus
B.A., University of West Florida
M.S., Troy State University

INGRAM, Paula (1998)
Assistant Professor of Reading and English
Department of Developmental Studies
Selected for Academy of Teaching Excellence in 2003
B.S., University of Illinois
M.A., University of West Florida
Ed.S., University of West Florida

JACKSON, J. Nan (1994)
Bursar
Bursar's Office
A.A., Pensacola Junior College
B.A., University of West Florida

JERNIGAN, Richard (1993)
Assistant Professor of Music
Department of Music and Theatre
A.A., Pensacola Junior College
B.A., University of West Florida
M.M., Louisiana State University

JETER, Catharine (1997)
Case Manager, WIA
Department of Vocational Education

JOHNSON, Patricia L. (1982)
Coordinator, Financial Aid/Veterans Affairs
Warrington Campus
A.S., Pensacola Junior College

JONES, Charles (Bill) (1978)
Telecommunications Network Analyst, Computer Services/Telecommunications
Department of Information Technology Services
CCNA

JONES, Delois Salter (1981)
Associate Professor of Mathematics
Department of Mathematics
B.S., University of West Florida
M.S., Michigan State University

JONES, Holly (2001)
Instructional Technologist
Department of Instructional Technology
B.A., Lynchburg College
B.A., University of West Florida
M.Ed., University of West Florida

JONES, Patricia (1995)
Instructor of Nursing
Department of Nursing, Warrington Campus
B.S.N., University of West Florida
M.S.N., University of Miami

Associate Professor of Computer Science
Department of Developmental Studies
B.A., B.S., Athens College
M.A., University of Birmingham
Ph.D., Nova Southeastern

JORDAN, Julius (1993)
Network Systems Analyst, Computer Services/Telecommunications
Department of Information Technology Services
Certified Novell Administrator (CNA)

JUSTICE, Pamela (1984)
Coordinator of Services
Student Support Services
A.A., Pensacola Junior College
B.A., M.A., University of West Florida

KAPLAN, Joyce B. (1997)
Associate Professor of Biology
Department of Biological Sciences
Selected for Academy of Teaching Excellence in 2000
Selected for Academy of Teaching Excellence in 2004
B.S., Cornell University
M.S., University of Idaho

KELLY, Brenda K. (1996)
Associate Professor of English
Department of Developmental Studies
Selected for Academy of Teaching Excellence in 2003
B.A., Spring Hill College
M.A., University of West Florida
Ed.S., University of West Florida

KESSLER, Karen (2001)
Interim Director, Financial Aid/Veterans Affairs
B.A., Belhaven College

KEY Jr., F. Scott (1976)
Professor of Business
Department of Business
B.S., Florida A&M University
M.B.A., University of West Florida

KING, Dorothy (1993)
Professor of Math
Academic Programs, Milton Campus
B.S., University of Southern Mississippi
M.A., Louisiana State University

KING, Jason (2001)
Web Administrator
Department of Microcomputer Resources
A.A., Pensacola Junior College
A.S., Okalola-Walton Community College

KING, Russell (2000)
Assistant Professor of Nursing
Department of Nursing
BSN, University of Memphis
MSN, Arkansas State
A.S., LaSalle University

KIRK, Richard R. (2001)
Instructor, Computer Science
Computer Science Programs
B.S., Clemson University
M.S., University of West Florida
KNUDSEN, Jacquelyn B. (1988)
Assistant Professor of Cosmetology
Coordinator, Barbering, Cosmetology, Facials Specialty, & Nails Specialty Programs
Department of Professional Service Careers
A.A., A.S., Pensacola Junior College
A.S., LaSalle University

KORINCHAK, Shirley A. (1977)
Coordinator, LRC Technical Services
B.S., Austin Peay State University
M.L.S., University of Alabama

KUMAR, Vai (2003)
Instructor of Computer Science
Department of Arts and Sciences, Warrington Campus
B.S., University of Madras
M.S., University of West Florida

KRUCZYNSKI, Mary C. (1993)
Professor of Adult Basic Education
Department of Adult Basic Education
Selected for Academy of Teaching Excellence in 1997
B.A., Daemen College
M.A., University of West Florida

KRUT, Cliff (2001)
Director, Workforce and Economic Development
Corporate Services
B.S., M.P.A., Troy State University
Certified Economic Developer

KYLE, Joseph V. (1993)
Coordinator, Student Services
Department of Secondary Education
A.A., Pensacola Junior College
B.S., Florida A&M University
M.S., Troy State University

LAGERGREN, Amelia S. (1995)
Case Manager, Welfare Programs
Department of Vocational Education
B.S., Livingston University

LAMBERT, Linda L. (1990)
Professor of Dental Hygiene
Department of Dental and Radiographic Sciences, Warrington Campus
B.S., Thomas Jefferson University
M.S., University of West Florida
R.D.H.

LAND, Vance Q. (1982)
Professor of Business Administration
Department of Business
A.A., Pensacola Junior College
B.A., M.Acc., University of West Florida
M.S., Troy State University
D.P.A., University of Alabama
Certified Public Accountant (Florida)
Certified Government Financial Manager

LAUGHLIN, Hope B. (1980)
Professor of Nursing
Department of Nursing, Warrington Campus
B.S.N., University of Connecticut
M.S., University of Southern Maine
M.S.N., University of South Alabama
Ed.D., Nova University

LAYFIELD, Marsha (1998)
Coordinator, Career Center
Career Planning and Counseling
B.S., Columbus College
M.S., Troy State University

LEMLEY, Yin-Chieh (1986)
Professor of Computer Science
Computer Science Programs
B.A., National Chung Hsing University
B.S., M.S., M.Ed., University of West Florida

LETO, Terri (2000)
Training and Services Specialist, Welfare Programs
Department of Vocational Education
B.A., University of West Florida

LEVINS, Janet E. (1980)
Professor of Nutrition
Department of Biological Sciences
B.S., Florida State University
M.P.H., Tulane University
Ph.D., University of Southern Mississippi

LIBBEY, Margaret A. (1993)
Coordinator, Payroll
Comptroller's Office
B.S., Florida State University

LIKELY, Rhonda (1982)
Human Resources Support Specialist
Human Resources
A.S., Pensacola Junior College
B.S., University of West Florida
Certified Records Manager

Department Head
Department of Behavioral Sciences
B.S., Mississippi State College for Women
M.U.R.P., University of Mississippi
Ph.D., Mississippi State University

LONG, Lorenda (1999)
Case Manager, Welfare Programs
Department of Vocational Education
A.A., Okaloosa-Walton Community College
B.A., University of West Florida

LONG, Rosemarie (1999)
Director, Student Success
Enrollment Management Services
Selected for Academy of Teaching Excellence in 2002
B.A., University of Washington
M.B.A., Seattle University

LOONEY, Victor (2001)
Student Services Specialist
Educational Opportunity Center
B.S., The Citadel
M.Ed., University of Central Oklahoma

LOUIE, Deborah (1995)
Case Manager, Welfare Programs
Department of Vocational Education
A.A., Pensacola Junior College
B.A., University of West Florida

LUCAS, Teresa (2002)
Instructor of Dental Assisting
Department of Dental and Radiographic Sciences
A.A., Pensacola Junior College
CDA

Assistant Professor of Mathematics
Department of Mathematics
B.S., Florida Atlantic University
M.S., University of Florida

LYNN, Dorinda (1980)
Professor of Business Administration
Academic Programs, Milton Campus
Selected for Academy of Teaching Excellence in 1988
A.A., Pensacola Junior College
B.A., M.B.A., University of West Florida
Certified Public Accountant

MACK, Susan (1997)
Assistant Professor of Nursing
Department of Nursing
B.S.N., University of West Florida
M.S.N., University of Alabama

MANNES, Clarence (2000)
Learning Lab Supervisor
Department of Developmental Studies
A.A., Pensacola Junior College
B.S., University of West Florida

MARQUER, Twila (1997)
Quality Control Specialist
Department of Vocational Education
B.A., University of West Florida

MARTIN, Harold S. (1981)
Assistant Professor of Electronics/Engineering Technology
Electronics and Information Engineering Technology Programs
A.S., Pensacola Junior College
B.S., University of West Florida

Vice President, Student Affairs
B.A., Western Carolina University
M.Ed., University of Virginia
Ph.D., Bowling Green State University

MARTIN, Tracey (2003)
Graphic Artist/Graphic Design Specialist

A.A., Pensacola Junior College

MARTINEZ, Madonna (1999)
Computer Systems Analyst
Department of Information Technology Services
A.A., Pensacola Junior College
B.S., University of West Florida

MAYMAR, Shelley (1994)
Science Lab Specialist
Department of Arts and Sciences, Warrington Campus
A.A., Pensacola Junior College
B.S., University of West Florida

MAYES, Margaret
Case Manager, Welfare Programs
Department of Vocational Education
B.A., University of Southern Mississippi

MAYO, Paul (1971)
Associate Professor of Nursing
Department of Nursing, Warrington Campus
A.S., Pensacola Junior College
B.S., University of West Florida

Professor of English
Department of English/Communications
Selected for Academy of Teaching Excellence in 1993
B.A., M.A., University of Northern Colorado
McARTHUR, Robin (2002)  
Public Television Information Specialist  
WSRE-TV  
  A.A., Pensacola Junior College  
  B.S., University of West Florida

Senior Computer Systems Analyst  
Department of Information Technology Services  
  A.A., Jefferson Davis Junior College  
  B.S., Troy State University

McLEOD, Katie (1967)  
Professor  
Department of Behavioral Sciences  
  B.S., M.S., University of Alabama  
  Ed.D., Florida State University

Director  
Institutional Research and Effectiveness  
  A.B., Pfeiffer College  
  M.S., Appalachian State University  
  Ed.S., Ed.D., University of Florida

Director  
Computer Services and Telecommunications  
Information Technology Services  
  A.A., University of West Florida  
  B.S., University of West Florida

MELTON, Gordon (1973)  
Coordinator  
Campus Police, Warrington Campus  
  A.S., Pensacola Junior College

MERRITT, Bert (1986)  
Director  
MIS Support  
  B.S., University of West Florida

MERRITT, Kathryn (1991)  
Assistant Professor of Mathematics  
Department of Developmental Studies  
  Selected as Outstanding New Faculty Member in 1993  
  Selected for the Academy of Teaching Excellence in 1998  
  A.A., Pensacola Junior College  
  B.S., Florida State University

MERTINS, Robin (1998)  
Coordinator  
Art and Graphics  
Department of Institutional Advancement  
  B.A., Florida State University

MILLER, Donald (1987)  
Assistant Professor of English  
Department of Arts and Sciences, Warrington Campus  
  B.A., St. Mary’s University  
  M.A., University of Arizona at Tucson

Professor of Drafting and Design  
Engineering Technology Programs  
  Bachelor of Architecture, University of Florida  
  Registered Architect

MILLER, Kat (2000)  
Donor Relations Manager  
PJC Foundation  
  B.A., University of West Florida

MILLER, Marilyn Elaine (1993)  
Professor of Secondary Education  
Department of Secondary Education  
  Selected for Academy of Teaching Excellence in 1999  
  A.A., Pensacola Junior College  
  B.S., University of West Florida  
  M.S., University of Mississippi

MILLER, Timothy (1999)  
Program Specialist, Job Services and Placement  
Student Job Services  
  A.A., Florida Community College  
  B.A., University of West Florida

Surgical Technology Instructor  
Department of Nursing  
  A.A.S., Elizabethtown Community College  
  B.S., Palmer Chiropractic College

MINOR, Cindy (1996)  
Director  
Student Support Services  
  B.A., M.A., University of West Florida  
  M.S.M., Troy State University

MOORE, Bill (1997)  
Department Head  
Department of Applied Health Technologies, Warrington Campus  
  B.S., University of West Florida  
  B.S., M.S., University of South Alabama

MORGAN, P. Lena (2000)  
Dean, Curriculum Implementation  
  B.S., Cameron University  
  M.S., Florida State University  
  Ed.D., Auburn University

MORGAN, Susan (1989)  
Professor of Social Studies  
Department of Secondary Education  
  Selected for Academy of Teaching Excellence in 1996  
  B.A., Berry College  
  M.A., University of West Florida

MORRISON, Audrey (1980)  
Professor of Business  
Department of Business  
  B.A., M.A., University of West Florida  
  Certified Public Accountant

MASH, Peter (1981)  
Associate Professor  
Department of Developmental Studies  
  Selected for Academy of Teaching Excellence in 1980  
  A.A.S., Dental Lab, Greenville Tech.  
  B.S., Ferris State College  
  M.Ed., University of West Florida  
  C.D.Ts, University of North Carolina, Chapel Hill and Atlanta College of Medicine and Dentistry

NELSON, Tanya (2000)  
Assistant Professor of Reading  
Department of Developmental Studies  
  B.A., University of California  
  M.Ed., Loyola University

NEUMAN, Todd (2000)  
Assistant Professor of English  
Department of Arts and Sciences, Warrington Campus  
  Selected as Outstanding New Faculty Member in 2002  
  A.A., Pensacola Junior College  
  B.A., M.A., University of West Florida

NEWLAND, NANCY A. (1994)  
Director  
Campus Police/Chief Campus Police  
  A.A., Pensacola Junior College  
  B.A., University of South Florida  
  M.S., Troy State University

NGUYEN, Anh (1996)  
Coordinator, Student Accounting and Collections  
  B.A., Wharton County Junior College

NICKLES, James L. (1993)  
Director  
Disability Support Services/ADA  
  B.S., M.S., Eastern Montana College  
  Ed.D., University of Northern Colorado

NORMAN, Jean F. (1988)  
Director  
Development  
  WSRE-TV  
  B.S., M.S., Purdue University

NORRIS, Holly (2002)  
Membership Coordinator  
WSRE-TV  
  B.S., University of North Carolina at Charlotte

NORTHUP, Patricia (1991)  
Professor of English  
Department of Developmental Studies  
  B.A., M.A., B.M.A., University of West Florida

OLIVE, Margaret (1993)  
Professor of Biology  
Department of Biological Sciences  
  B.S., M.S., Frostburg State College

PADILLA, Jackie (1996)  
Comptroller  
  A.A., Pensacola Junior College  
  B.S., M.A., University of West Florida  
  Certified Public Accountant

PAGE, Todd (1999)  
Assistant Comptroller  
  Comptroller’s Office  
  A.A., Pensacola Junior College  
  B.S., M.A., University of West Florida  
  Certified Public Accountant

PARKER, Tyce (1998)  
Computer Systems Analyst  
Department of Information Technology Services  
  A.A., Hillsborough Community College  
  A.A., Community College of the Air Force  
  B.S., University of West Florida

Assistant Professor of Physical Therapist Assistant Program  
Department of Applied Health Technologies, Warrington Campus  
  B.S., M.S., University of Southern Mississippi  
  Ed.D., University of Tennessee (Knoxville)  
  P.T., Hermann Hospital

PENA, Brenda (1997)  
Coach, Women’s Softball  
  A.A., Pensacola Junior College  
  B.S., University of Florida  
  M.S., University of West Florida

PENA, Pedro “Pete” (1999)  
Coach, Women’s Volleyball  
  Assistant Coach, Women’s Softball  
  A.A., Pensacola Junior College  
  B.A., University of Florida
PERRY, Dorothy E. (1983)
Professor/Librarian
LRC, Warrington Campus
A.A., Miami-Dade Junior College
B.A., M.L.S., Florida State University

PETE, Evelyn (1978)
Professor of Business
Department of Business
B.S., University of West Florida
M.S., Troy State University
Ed.D., Nova University

PETERSON, Allan (1974)
Department Head, Gallery Director
Associate Professor of Art
Department of Visual Arts
B.F.A., Rhode Island School of Design
M.F.A., Southern Illinois University

PETERSON, Sheila (1982)
Associate Professor
Department of Applied Health Technologies, Warrington Campus
A.S., R.R.T., Pensacola Junior College
B.S., University of Central Florida
M.Ed., University of West Florida

PETRUSKA, Mary Anne C. (1996)
Assistant Professor of Mathematics
Department of Mathematics
A.A., Pensacola Junior College
B.S., M.S., University of West Florida

PEYTON, Tracy A. (1997)
Assistant Professor of English
Department of Developmental Studies
Selected as Outstanding New Faculty
Member in 1999
A.S., Jefferson State Junior College
B.A., University of Alabama
M.A., University of Alabama/Birmingham
Ed.D., University of West Florida

Professor of Chemistry/Hazardous Materials Management
Department of Physical Sciences
Selected for Academy of Teaching Excellence in 1996
B.A., Loyola University
M.S., McNeese State University
Ph.D., University of Southern Mississippi

PHILLIPS, Carolyn (1973)
Chief Information Officer
Department of Information Technology Services
B.S., University of West Florida
M.S., Troy State University

PHILLIPS, Roland (1998)
Director, Engineering and Operations
WSRE-TV

PIERCE, Robert (1998)
Program Director, Electronics and Information Engineering Technology Programs
Center for Information and Engineering Technology
A.S., Pensacola Junior College
B.S., The Citadel, MCSC
M.L.S., Fort Hays State University
Certified Novell Administrator (CNA)
Microsoft Certified Professional (MCP)
CCNA, CCAI, CWDA

Business and Administration Manager
WSRE-TV
B.S., University of Alabama
M.A., University of West Florida

PRENDEGAST, Christine (2003)
Learning Lab Supervisor
Department of Developmental Studies
A.A., Hinds Community College
B.A., University of Central Florida
M.A., University of South Alabama

Associate Professor of English
Department of English/Communications
A.A., Okaloosa-Walton Junior College
B.A., M.A., University of West Florida

QUILLEN, Kathryn (2001)
Coordinator, Testing, Assessment, and Orientation
B.A., University of the South
M.S., Indiana University

RAMSEY, June (1974)
Professor of Biology
Department of Biological Sciences
Selected for Academy of Teaching Excellence in 1992
A.B., Huntingdon College
M.A.T., University of North Carolina
Ph.D., Florida State University

REDDOCH, Eris (1985)
Professor
Department of Arts and Sciences, Warrington Campus
Selected for Academy of Teaching Excellence in 1990
B.A., B.S., M.Ed., M.B.A., University of West Florida

REPPENHAGEN, Patricia A. (1993)
Associate Professor of Art
Department of Visual Arts
B.S., M.F.A., Portland State University
B.S., Wayne State University

RESCH, Judith (1967)
Professor of Business
Department of Business
Selected for Academy of Teaching Excellence in 1994
B.A., M.S., Western Kentucky University

REYNOLDS, Dennis (1997)
Coordinator, Student Leadership and Activities
A.A., St. Petersburg Junior College
B.S., University of South Florida
M.Ed., University of West Florida

RICH, Carla L. (1983)
Professor of Business
Department of Business
B.A., University of West Florida
M.B.A., Golden Gate University
D.P.A., University of Alabama

RICH, Linda (1996)
Assistant Professor of Nursing
Department of Nursing
Warrington Campus
B.S.N., Prairievlew A&M University
M.S.N., University of South Alabama

RICK, Mary M. (1997)
Director, Marketing and College Information
Department of Institutional Advancement
B.S., Troy State University

RILEY, David (2000)
Job Developer, Welfare Programs
Department of Vocational Education
A.A., Pensacola Junior College
B.S., University of West Florida

RILEY, Georgia (1990)
Systems Coordinator
Department of Information Technology Services
A.A., Pensacola Junior College
B.S., University of West Florida

RIMMERMAN, Stacey L. (2001)
Instructor of Art
Department of Visual Arts
B.A., M.Ed., University of West Florida

ROBERTS, Jean (1988)
Professor of English
Department of Developmental Studies
Selected for Academy of Teaching Excellence in 1992
B.A., Metropolitan State College
M.A., University of Colorado at Denver
Ed.S., University of West Florida

ROBERTS, Lisa (1994)
Student Services Specialist
Educationali Talent Search
A.A., Cuyahoga Community College
B.S., Florida A&M University
M.S., Troy State University

ROBINSON, FRANCES (2002)
Instructor of Reading
Department of Developmental Studies
B.A., M.Ed., University of West Florida

ROE, Melissa P. (1993)
Associate Professor, Dental Hygiene
Department of Dental and Radiographic Sciences, Warrington Campus
Selected as Outstanding New Faculty
Member in 1995
Selected for Academy of Teaching Excellence in 2000
B.S., M.S., University of North Carolina at Chapel Hill
R.D.H., CDA

ROGERS, Douglas K. (1987)
Coordinator of Intramurals
A.A., Pensacola Junior College
B.S., M.S., University of West Florida

ROOS, Jelle (1980)
Associate Professor of English
Department of English/Communications
A.A., Miami-Dade Junior College
B.A., Florida-Atlantic University
M.S., Florida State University

ROSE, Randolph (2000)
Instructor, Computer Science
Computer Science Programs
A.A., Pensacola Junior College
B.S., M.S., University of West Florida

ROSS, Melinda (1975)
Coordinator Training and Development, Downtown Center
A.A., Pensacola Junior College
B.S.W., University of West Florida
M.S.W., Florida State University
ROWE, Patrick M. (1983)
Associate Professor of Art
Department of Visual Arts
B.A., Florida-Atlantic University
M.A., Ph.D., Florida State University

RUCKER, Brian (1996)
Associate Professor of History
Department of Arts and Sciences, Warrington Campus
Selected for Academy of Teaching Excellence in 2000
A.A., Pensacola Junior College
B.A., M.A., University of West Florida
Ph.D., Florida State University

Vice President, Academic Affairs
B.A., M.A., Eastern Michigan University
Ph.D., Michigan State University

SAMUELS, Keith T. (1994)
Database Manager
Department of Information Technology Services
B.S., Clemson University
M.S., Ph.D., Florida State University

SANDERS, Pat (2000)
Case Manager, Welfare Programs
Department of Vocational Education
A.S., Pensacola Junior College
B.A., University of West Florida
M.S., Troy State University

Instructor of Mathematics
Department of Developmental Studies
B.S., Savannah State University

SANDERSON, Lynn (2000)
Job Developer, Welfare Programs
Department of Vocational Education
A.A., Norwalk Community College
B.S.W., University of West Florida

SANTONI, Virginia M. (1971)
Coordinator, Scholarships,
Training/Development and Data Systems
Department of Financial Aid/Veterans Affairs
A.S., Pensacola Junior College
B.A., University of West Florida

SATOSKAR, Vijay (2003)
Assistant Professor of Geology
Department of Physical Sciences
B.S., St. Xavier's College
M.A., Ph.D., Indiana University

SCHELL, Vicki (2003)
Department Head
Department of Mathematics
B.S., Davis and Elkins College
M.A., Northeast Missouri State University
Ph.D., Northern Illinois University

SCHULER, Charlie (1990)
Department Head
Department of History, Languages and Philosophy
B.A., Florida State University
M.A., University of California, Los Angeles
Ph.D., Florida State University

SCOTT, Susan K. (1997)
Assistant Professor of Reading
Department of Developmental Studies
B.A., M.Ed., University of West Florida

SEATLE, Mickey G. (1975)
Professor of Mathematics
Academic Programs, Milton Campus
B.A., University of West Florida
M.A., Ph.D., Florida State University

SEXTON, Cheryl L. (1986)
Professor of Adult Basic Education
Department of Adult Basic Education
Selected for Academy of Teaching Excellence in 1992
B.A., University of Florida
M.A., University of West Florida
M.A.TL. (TESOL), University of Southern Mississippi

SHAW, Iva Shirl (2001)
Instructor
Department of Secondary Education
Selected for Academy of Teaching Excellence in 2001
A.A., Pensacola Junior College
B.A., University of West Florida

SHELTON, Kathleen (1989)
Professor of Sciences
Department of Secondary Education
B.A., University of Texas
M.S., East Texas State

SHEPPARD, Linda C. (1991)
Coordinator, Disability Support Services
B.S., University of Texas at Austin

SHUGART, Kenneth B. (2001)
Program Specialist
Student Job Services
B.S., University of Virginia
M.A., University of West Florida

SHUMWAY, Donna (2000)
Assistant Professor of Health Information Management
Department of Arts and Sciences, Warrington Campus
A.A., Brevard Community College
B.S., University of Central Florida

SILL, Susan (1998)
Instructor of Physical Therapy
Department of Applied Health Technologies, Warrington Campus

Assistant Professor of Business
Department of Business
B.A., Florida A&M University
J.D., Florida State University

Instructor of Sociology
Department of Behavioral Sciences

SOUTHERLAND, Ann (1975)
District Dean of Vocational Education
Professor of Early Childhood/Child Care
B.S., Florida State University
M.A., University of West Florida
Ed.D., Florida State University

SPRUILL, Jane C. (1990)
Professor
Department of Behavioral Sciences
Selected for Academy of Teaching Excellence in 2000
B.S., M.S., Texas Tech University
Professor of Classical Guitar
Department of Music and Theatre
Selected for Academy of Teaching Excellence in 1995
B.S., M.M., Western Kentucky University
D.M.A., A.B.D., Arizona State University

STANLEY, Ellen (1994)
Instructor of Nursing
Department of Nursing, Warrington Campus
B.S.N., Northeastern University
M.S.N., Boston University

STARK, Jeffrey (1994)
Instructor of Nursing
Department of Nursing, Warrington Campus
B.S.N., Northeastern University
M.S.N., Boston University

SANDERS, Sammie L. (1979)
Instructor of Librarianship
Department of Information Technology Services
B.A., A.A.S., Pensacola Junior College
B.S., University of Florida

STEVENSON, Dennis L. (1971)
Professor of Computer Science
Computer Science Programs
Selected for Academy of Teaching Excellence in 2000
A.A., Riverside City College
B.S., M.B.A., California State University of San Jose

Assistant Professor of Nursing
Department of Nursing, Warrington Campus
B.S.N., University of West Florida
M.S., University of South Alabama

STEWART, Bob (2000)
Training and Services Specialist, Welfare Programs
Department of Vocational Education
B.S., B.A., Bryant College

STEWART, Wayne (1970)
Director of Systems Support
Department of Information Technology Services
B.S., University of West Florida
Certified Data Processor (CDP)

STINSON, Carol (1992)
Associate Professor of Nursing
Department of Nursing, Warrington Campus
B.S.N., Loma Linda University
M.S.N., University of South Alabama

Department Head
Professor of Chemistry
Department of Physical Sciences
B.S., University of New Orleans
Ph.D., Florida State University

STRAUS, Jacinta F. (1987)
Campus Coordinator, Student Leadership and Activities, Warrington Campus
A.A., Pensacola Junior College
B.A., University of West Florida
M.Ed., University of Missouri

STREBECK, Nancy R. (1971)
Professor of English
Department of English/Communications
B.A., William Cary College
M.A., University of Southern Mississippi

STREET, Victoria (2003)
Information Specialist
Department of Institutional Advancement
A.A., Pensacola Junior College
B.A., University of West Florida

SUAREZ, Stanley V. (1981)
Director, Reading Services
WSRE-TV
A.A., Pensacola Junior College
B.S., University of West Florida

SUAREZ-O’CONNOR, Marta (2003)
Instructor of Nursing
Department of Nursing
B.S.N., M.S.N., University of Miami

SULLIVAN, Vincent J. (1974)
Professor
Department of Behavioral Sciences
Selected for Academy of Teaching Excellence in 1994
B.S., Spring Hill College
M.A., University of South Alabama
Ed.D., Florida State University

SUMMERLIN, Carl T. (1971)
Professor of Biology
Department of Arts and Sciences, Warrington Campus
A.A., Snead Junior College
B.S., M.S., University of Alabama
Ph.D., Mississippi State University

SUTTON, David T. (1985)
Director of Military Programs
B.A., University of West Florida

SWANSON, Paul D. (1997)
Coach, Men’s Basketball
B.S., Iowa State University
M.A., Northwestern University

SWEENEY, Charlotte M. (1990)
Professor/Librarian
LRC, Reader Services, Pensacola Campus
B.S., University of South Alabama
M.L.S., University of Southern Mississippi

THOMPSON, Warren W. (1968)
Professor of Art
Department of Visual Arts
M.S., M.E.A., Florida State University

THREET, Mike (2003)
Coordinator, Purchasing Assistance
Department of Purchasing and Auxiliary Services
B.B.A., University of Mississippi

TODD, Belinda (1996)
Coordinator, WIA
Department of Vocational Education
B.S., Troy State University

TOYE, Suzanne C. (1992)
Associate Professor/Counselor
Student Affairs, Milton Campus
A.A., Pensacola Junior College
B.A., University of West Florida
M.S.W., Florida State University

TULLOS, William Rhae (1993)
Learning Lab Supervisor, SAIL Lab, Pensacola Campus
Department of Developmental Studies
B.S., M.S., University of Florida

TURBERVILLE, Camilla A. (1979)
Professor of Adult Basic Education
Department of Adult Basic Education
Selected for Academy of Teaching Excellence in 1994
B.A., Camden College
M.Ed., Florida State University

TURNER, Chris (2003)
Instructor of Mathematics
Department of Mathematics
B.S., M.S., Arkansas State University

TURNER, Mary (1997)
Instructor of Nursing
Department of Nursing, Warrington Campus
B.S.N., M.S.N., St. Louis University

Professor/Librarian
LRC, Reader Services, Pensacola Campus
B.A., University of West Florida
M.L.S., University of Alabama

VAN BRUSSEL, Anne Lirette (2000)
Job Developer, Welfare Programs
Department of Vocational Education
B.S., Nicholls State University

VOLTZ, Charles E. (1996)
Assistant Professor of Sciences
Department of Secondary Education
B.S., M.S., University of Wisconsin at Madison

WALKER, Valerie (2001)
Instructor of Microbiology
Department of Arts and Sciences, Warrington Campus
B.S., M.S., University of West Florida

Science Lab Specialist
Department of Biological Sciences
A.A., Pensacola Junior College
B.S., University of West Florida

WALL, Barbara S. (1994)
Coordinator Tech Prep
Student Job Services
B.S., Barry College
M.S., Florida International University

Instructor of English
Department of Secondary Education
B.A., M.Ed., William Carey College

WALDEN, Margaret (1998)
Computer Systems Analyst
Department of Information Technology Services
B.A., University of West Florida

WANG, Xuejun (Eugene) (2003)
Assistant Professor of Business
Department of Business
M.A., Indiana State University
Ph.D., Purdue University

WARD, Diane M. (1974)
Professor of Computer Science
Department of Liberal Arts and Environmental Sciences
Selected for Academy of Teaching Excellence in 1996
B.S., M.Ed., University of West Florida

WARD, James E. (1973)
Professor of Mathematics
Department of Mathematics
Selected for Academy of Teaching Excellence in 1996
B.B.C., Auburn University
M.A., Louisiana State University
Ed.D., Florida State University

WARD, Jeffrey H. (1999)
Internet Systems Analyst
Microcomputer Resources
A.A., Pensacola Junior College
B.A., B.S., M.S., University of West Florida
Cisco Certified Network Associate
WARD, Keith (1998)
Network Administrator
Microcomputer Resources
A.A., Pensacola Junior College
Certified Novell Administrator (CNA)
WARD, Margaret (1986)
Professor of Radiography
Department of Dental and Radiographic Sciences, Warrington Campus
B.S., Old Dominion University
R.T., Norfolk General School of Radiologic Technology
M.S., University of West Florida
WARD, Mike (2000)
Job Developer, Welfare Programs
Department of Vocational Educational
A.S., Community College of the USAF
B.S., Bellevue University
WARD, Zeida (1991)
Professor of Spanish
Department of History, Languages and Philosophy
Selected for Academy of Teaching Excellence in 2000
B.A., M.A., University of West Florida
M.A., University of California, Berkeley
WASHINGTON, Charles C. (1990)
Professor of Mathematics
Department of Mathematics
B.S., Florida A&M University
B.A., University of Maryland
M.S., Arizona State University
P.E., Professional Engineer
WATERS, Deborah B. (1994)
Associate Professor of Nursing
Department of Nursing,
Warrington Campus
B.S.N., University of West Florida
M.S.N., University of South Alabama
WATERS, William J. (1987)
Director, Staff and Program Development
B.A., University of West Florida
M.A., M.F., Florida State University
Ph.D., Florida State University
WATTS, Janie T. (1978)
Professor of Adult Basic Education
Department of Adult Basic Education
A.A., Booker-T.Washington Junior College
B.S., Florida A&M University
M.A., North Carolina Central University
Ed.D., Nova University
WEBB, E. Ann (1987)
Department Head
Associate Professor of Mathematics
Department of Arts and Sciences,
Warrington Campus
Selected for Academy of Teaching Excellence in 1993
B.S., Troy State University
M.A., University of Alabama
WERENICKE, Marian (1988)
Professor of English
Department of English/Communications
Selected for Academy of Teaching Excellence in 1993
B.A., Fontbonne College
M.A., University of West Florida
WERRE, Elizabeth (1988)
Professor of Special Education
Department of Behavioral Sciences
Selected for Academy of Teaching Excellence in 2001
B.S., M.S., University of North Dakota
WALEY, James M. (1975)
Professor/Librarian, Automated Systems
LRC Technical Services
B.A., University of West Florida
M.S., Florida State University
WHITTON, Patrice S. (1992)
Executive Director, College Development
A.A., Pensacola Junior College
B.A., University of West Florida
WIGGLE, Frances A. (1992)
Assistant Director, Facilities Planning and Construction
A.S., Columbus College
B.S., M.Ed., University of West Florida
WILLIAMS, Carla (1998)
Assistant Athletic Coach,
Women’s Basketball
A.A., Pensacola Junior College
B.S., Florida State University
WILLIAMS, Joel (1999)
Case Manager, Welfare Programs
Department of Vocational Education
B.A., University of West Florida
WILLIAMS, Marcia (1975)
Prawn, Warrington Campus
Professor of Respiratory Therapy
A.S., R.R.T., Pensacola Junior College
B.S., University of West Florida
M.S.A., Central Michigan University
Ed.D., University of Southern Mississippi
WILLIAMS, Ronnie (1998)
Coordinator, Job Development
Department of Vocational Educational
B.S., Fort Valley University
WINSTEAD, Courtney R. (1977)
Student Services Director,
Warrington Campus
B.A., University of Colorado
M.A., University of South Florida
Ed.D., Auburn University
WINTER, Mary Louise (2001)
Instructional Technologist
Department of Instructional Technology
B.A., University of Connecticut
M.Ed., University of West Florida
WINTERBERG Laurie (1993)
Program Coordinator, Vocational Student Support Services
Department of Vocational Education
A.A.S., Tidewater Community College
B.S., University of the State of New York
M.S., Troy State University
WOLF, Raymond H. (1989)
Associate Professor of English/Humanities
Academic Programs, Milton Campus
B.A., M.T., Central State University
Ph.D., Florida State University
WOODCOCK, Donna (1998)
Consortium Specialist
Department of Information Technology Services
WOOTEN, John Wayne (1974)
Professor of Astronomy
Department of Physical Sciences
Selected for Academy of Teaching Excellence in 1986
B.S., M.Ed., Ed.D., University of Florida
WOOTERS, Jeffery S. (1990)
Professor of Biology
Department of Biological Sciences
Selected for Academy of Teaching Excellence in 1998
A.S., Lincoln Land Community College
B.S., M.S., University of West Florida
ZACHOS, Spiros (1998)
Computer Graphics/Multimedia Specialist
Department of Visual Arts
A.A.S., Senior College of Albany
ZAYAS, Joseph M. (1977)
Professor of Physics
Department of Physical Sciences
Selected for Academy of Teaching Excellence in 1991
B.S., Iona College
M.S., Ph.D., Adelphi University
ZEIGLER, Carolyn J. (1973)
Assistant Professor/Counselor
Counseling, Pensacola Campus
B.S., University of Rochester
M.Ed., The Pennsylvania State University
ZENG, Guangping (1993)
Professor of English
Department of English/Communications
Selected for Academy of Teaching Excellence in 2002
B.A., M.A., Shanghai International Studies University
Ph.D., Indiana University of Pennsylvania
ZIEL, Joan (1971)
Dean, Student Success and Enrollment Management
R.D.H., A.S., Pensacola Junior College
B.S., M.Ed., University of West Florida
Ed.D., Florida State University
ZIMMERMAN, Mary Lou (1998)
Instructor of Office Systems Technology
Academic Programs, Milton Campus
B.A., University of Connecticut
B.S., University of West Florida
M.B.A., Rutgers University
ZINERMON, Narla (1995)
Associate Professor
Department of English/Communications
Selected for Academy of Teaching Excellence in 2001
B.A., University of Florida
M.Ed., University of West Florida
ZUKOWSKI, Steven (1999)
Computer Systems Analyst
Department of Information Technology Services
A.A., Pensacola Junior College
FACULTY EMERITI

BENNETT, William Y.
(1995) Faculty Emeritus in Biological Sciences
Selected for Academy of Teaching Excellence in 1990
B.S.Ed., M.Ed., Ed.D., University of Florida

CAULEY, Elizabeth
(1998) Faculty Emerita in Mathematics
B.S., University of Montevallo
M.Ed., University of North Carolina
Ed.D., Nova University

DESMOND, James E.
(1994) Faculty Emeritus in Mathematics
B.S., M.S., Florida State University
(deceased)

KLEINMAN, Robert M.
(1996) Faculty Emeritus in Philosophy
Selected for Academy of Teaching Excellence in 1988
B.A., New York University
B.A., Pennsylvania State University
M.A., Ph.D., Columbia University

McMANUS, Winifred
(1994) Faculty Emerita in English
Selected for Academy of Teaching Excellence in 1987
B.A., Huntingdon College
M.A., Arizona State University

NEZ, Martha M.
(1995) Faculty Emerita in Biological Sciences
B.S., Birmingham Southern College
M.S., Vanderbilt University
Ph.D., Florida State University

ROSS, Louis A.
(1996) Faculty Emeritus in Social Sciences
B.A., M.A., Florida State University

TEAGLE, Louise L.
(1994) Faculty Emerita in Secondary Education
B.A., Huntingdon College

2003-2004 ACADEMY OF TEACHING EXCELLENCE INDUCTEES

LIESA BROMET
Dental and Radiographic Sciences

ERIC COADY
Adjunct, Secondary Education

MIKE ARDIS
Criminal Justice
Outstanding New Faculty Member

RICHARD CACACE
Information Technology

JOYCE KAPLAN
Biological Sciences

DESMOND, James E.
(1994) Faculty Emeritus in Mathematics
B.S., M.S., Florida State University
(deceased)
